## What is this product?

### Type

Threadneedle (Lux) is a UCITS under European Directive 2009/65/EC. It is established as an investment company with variable capital ("société d'investissement à capital variable" or "SICAV") under the laws of Luxembourg.

Depository: Citibank Europe plc, Luxembourg branch. You can obtain further information about the Fund and the SICAV, its prospectus, latest annual reports and any subsequent half-yearly reports free of charge from the Manufacturer. These documents are available in English, French, German, Portuguese, Italian and Spanish. You can obtain other practical information, including current share prices, at [www.columbiathreadneedle.com](http://www.columbiathreadneedle.com)

### Term

There is no fixed maturity date. An investor can hold their investment for any time period but 5 year(s) is recommended. The Manufacturer can close the fund with notice.

### Objective and Investment Policy

The Fund aims to provide income with the potential to grow the amount you invested over the medium to long term. The Fund invests at least two-thirds of its assets in below investment grade bonds (which are similar to a loan and pay a fixed or variable interest rate) priced in Euros or Sterling and issued by companies in Europe, including the UK, or companies that have significant operations there. Bonds rated as below investment grade have received lower ratings from international agencies that provide such ratings and are considered riskier than higher rated bonds but typically pay a higher income. The Fund may use derivatives (complex instruments) for hedging purposes and may also invest in asset classes and instruments different from those stated above. The Fund is actively managed in reference to the ICE BofA European Currency High Yield Excluding Subordinated Financials Constrained Index. The index is broadly representative of the securities in which the Fund invests, and provides a suitable target benchmark against which Fund performance will be measured and evaluated over time. The Fund promotes environmental and social characteristics by aiming to compare favourably against the index over rolling 12-month periods when assessed according to the Columbia Threadneedle ESG (environmental, social and governance) Materiality Rating. The index is not designed to specifically consider environmental or social characteristics. The fund manager has discretion to select investments with weightings different to the index, and that are not in the index, and the Fund may display significant divergence from the index. The Fund also aims to exclude companies that breach accepted international standards and principles (e.g. the United Nations Global Compact) unless the fund manager believes that there are tangible mitigating factors for the company to be held. Further information on the investment guidelines, including the Columbia Threadneedle ESG Materiality Rating methodology and engagement policy is available at [columbiathreadneedle.com](http://columbiathreadneedle.com). The Fund is categorised as one that promotes environmental or social characteristics under Article 8 of the EU Regulation 2019/2088 on sustainability-related disclosures in the financial services sector (SFDR).

Income from investments in the Fund will be added to the value of your shares.

You can buy or sell shares in the Fund on any day which is a business day in Luxembourg unless the directors have decided that insufficient markets are open. You can find more detail on the investment objective and policy of the Fund in the prospectus. For more information on investment terms used in this document, please see the Glossary available at [www.columbiathreadneedle.com](http://www.columbiathreadneedle.com).

### Intended retail investor

This fund is aimed at Retail and Professional customers and Eligible Counterparties who should have at least a basic level of knowledge and experience of investing in funds. It is designed for investors looking for income and the possibility of some capital growth who can invest their money for at least 5 years. Your capital is not guaranteed which means that investors could lose up to 100% of the amount invested. The fund invests in fixed income securities which tend to have a higher risk profile than money market securities due to higher company specific credit and interest rate risk but a lower risk profile than equity markets.

## What are the risks and what could I get in return?

**RISKS**

Lower risk Higher risk

←-----→

1	2	3	4	5	6	7
---	---	---	---	---	---	---

 The risk indicator assumes you keep the product for 5 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class.

You may receive payments in a different currency so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks to be considered are: Currency, High Yield Credit, Interest Rate, Valuation, Derivatives, Volatility

This Product does not include any capital protection and you could lose some or all of your investment. In case of default of the manufacturer of the Product, the investor may face a financial loss.

The risks currently identified as applying to the Fund are set out in the "Risk Factors" section of the prospectus.

### Performance scenarios

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

This table shows the money you could get back over the next 5 year(s), under different scenarios, assuming that you invest EUR 10,000.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor.

The figures do not take into account your personal tax situation, which may also affect how much you get back.

## What happens if Threadneedle Management Luxembourg S.A. is unable to pay out?

In case of default of the Manufacturer, the investor may face a financial loss. That loss would not be covered by an investor compensation scheme.

## What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for two different holding periods. They include potential early exit penalties. The figures assume you invest EUR 10,000. The figures are estimates and may change in the future.

### Costs over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment EUR 10,000	if you cash in after 1 year	if you cash in after 5 years (Recommended Holding Period)
<b>Total costs</b>	<b>165.00 EUR</b>	<b>1,011.00 EUR</b>
<b>Impact on return (RIY) per year</b>	<b>1.66%</b>	<b>1.71%</b>

### Composition of costs

The table shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

One-off costs upon entry or exit		If you exit after 5 year(s)
<b>Entry costs</b>	This is the charge that may be taken from your investment before the deal is placed in your chosen product. We do not charge an entry fee for this product, but the person selling you the product may choose to do so.	0.00 EUR
<b>Exit costs</b>	This is the charge that may be taken from your investment when you choose to sell. We do not charge an exit fee for this product, but the person selling you the product may choose to do so.	0.00 EUR
