DWS Invest Euro Corporate Bonds

Share class: LC, ISIN: LU0300357554, Security code: DWS0M3, Currency: EUR

a sub-fund of DWS Invest. The management company is DWS Investment S.A., a member of the DWS Group.

Objectives and investment policy

The fund is actively managed. The fund is managed in reference to a benchmark. The objective of the investment policy is to achieve sustained capital appreciation that exceeds the benchmark (iBoxx Euro Corporate). In order to achieve this, the fund invests in corporate bonds denominated in euro. In addition, the fund invests in fixed- and floating-rate securities. The fund uses derivatives for both guaranteed value and investment purposes. When selecting investments, environmental and social aspects and the principles of good corporate governance (ESG aspects) are taken into consideration alongside the financial performance. The selection of individual investments is at the discretion of the fund management. The majority of the fund's securities or their issuers are expected to be components of the benchmark. The fund management will use its discretion to invest in e.g. securities, sectors, ratings that are not included in the benchmark in order to take advantage of specific investment opportunities. The portfolio is not necessarily expected to have a similar weighting to the benchmark. In regard to its

benchmark, the sub-fund positioning can deviate significantly (e.g., by a positioning outside of the benchmark as well as a significant underweighting or overweighting) and the actual degree of freedom is typically relatively high. A deviation generally reflects the fund manager's evaluation of the specific market situation, which may lead to a defensive and closer or a more active and wider positioning compared to the benchmark. Despite the fact that the fund aims to outperform the benchmark, the potential outperformance might be limited depending on the prevailing market environment (e.g. less volatile market environment) and actual positioning versus the benchmark. The currency of the fund is EUR. Returns and gains are not distributed but are reinvested in the fund. You may request the redemption of shares generally on a daily basis. The Company may, however, suspend or restrict the redemption if extraordinary circumstances appear to make this necessary, taking into account the interests of the investors.

Risk and reward profile

The calculation of the risk and reward profile is based on historical data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 3 because its share price fluctuates comparatively little and the likelihood of both losses and gains is therefore relatively low. The following risks could be of particular significance for the

fund: The fund concludes transactions with various contractual partners. If the contracting partner becomes insolvent, for example, this can lead to payment defaults. The fund acquires securities of various issuers. In addition to general trends on capital markets, the particular developments at the respective issuer affect the price of a security. The risk of a decline in the assets of issuers cannot be entirely eliminated even through careful selection of securities. The fund uses derivatives on underlyings so as to participate in their increases in value or to bet on their losses in value. The increased opportunities associated with this are accompanied by increased risk of loss. Furthermore, derivative transactions may be used to hedge the fund's assets. The use of derivative transactions for hedging purposes may reduce the fund's upside opportunities. A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	3.00 %
Exit charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the fund over a year	
Ongoing charges	0.95 %
Charges taken from the fund under certain specific conditions	
Performance fee	None
Securities lending fees	0.01 %

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser or distributor. The ongoing charges figure is based on expenses for the fiscal year ending 31.12.2021. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any. Additional information on costs can be found in the cost section(s) of the prospectus.

Past performance

Past performance is not a reliable indicator of future performance. All costs and fees that were withdrawn from the LC share class of DWS Invest Euro Corporate Bonds were deducted during the calculation. Entry and exit charges were not taken into account. The LC share class of DWS Invest Euro Corporate Bonds was launched in 2007.
