What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity to pay you.

The following is applicable if you subscribe for or settle shares in a different currency than the fund or share-class currency: Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The following risks could be of particular significance for the fund: Credit risk, Risks specific to funds of funds. A more detailed description of risks and other general information can be found in the risk section(s) of the sales prospectus. You may lose some or all of your investment. Your risk is limited to the amount invested. This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

What happens if DWS Investment GmbH is unable to pay out?

The assets of the fund are kept separately from the own assets of the management company DWS Investment GmbH. Investors of the fund cannot suffer any financial loss as a result of this separation due to a failure of the management company. In the event of a default by the depositary State Street Bank International GmbH, Germany, investors of the fund may suffer a financial loss if their deposits are not covered by the Deposit Guarantee Fund of the Bundesverband deutscher Banken e.V.. If deposits on the fund are made with other credit institutions, investors may also suffer a financial loss, provided that such deposits are not covered by any existing deposit guarantee schemes. The protection of deposits of the fund may also be limited in the case of existing deposit guarantee schemes, as they regularly have restrictions on the coverage of deposits in accordance with their statutes.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed: In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario. 10.000 EUR is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	672 EUR	1,470 EUR
Annual cost impact (*)	6.7 %	2.8 % each year

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9.0% before costs and 6.2% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount. These figures include the maximum distribution fee that the person selling you the product may charge (5.00 % of amount invested/500 EUR). This person will inform you of the actual distribution fee.
