

## Key investor information for investors in Switzerland

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## DWS Eurovesta

Security code: 849084 ISIN: DE0008490848

Management Company: DWS Investment GmbH, a member of the Deutsche Bank Group.

## Objectives and investment policy

The objective of the investment policy is to achieve sustained capital appreciation that exceeds the benchmark (MSCI Europe (RI)). In order to achieve this, the fund mainly invests in equities of recognized and highly capitalized European companies. Furthermore, the equities of promising small and medium-sized enterprises with long-term growth potential are selectively included. The fund management focuses on selecting equities of companies with a business model underrated by the market or with underestimated growth prospects. Company-specific criteria therefore take precedence in equity selection, such as a strong market position, forward-looking products, expert management, a corporate strategy focused on core competencies, yield-oriented use of resources, sustainable, above-average growth in profitability and shareholder-centered information policies. At the same time, valuation criteria in equity analysis impact investment decisions. In this context, the selection of individual equity investments is the responsibility of the fund management. The fund is oriented to the benchmark. It does not track it exactly but attempts to exceed its performance and can therefore deviate substantially - both positively and negatively - from the benchmark. The fund is subject to various risks. A more detailed description of risks can be found under 'Risks' in the sales prospectus. The currency of DWS Eurovesta is EUR. The fund distributes annually. You may request the redemption of shares on each valuation day. The redemption may only be suspended in exceptional cases taking into account your interests as an investor.

## Risk and reward profile

The calculation of the risk and reward profile is based on historical data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 7 because its share price may fluctuate very strongly and the likelihood of both losses and gains may therefore be very high.

## Charges

The costs and fees borne by you are used for the management, administration and custody of the fund, as well as for its distribution and marketing. These costs restrict the potential growth of your investment.

One-off charges taken before or after you invest	
<b>Entry charge</b>	5,00 %. This is the maximum amount that will be deducted from your investment prior to investment.
<b>Exit charge</b>	No redemption fee
Charges taken from the fund over a year	
<b>Ongoing charge</b>	1,40 %
Charges taken from the fund under certain specific conditions	
<b>Performance fee</b>	None
<b>Fees from securities lending</b>	0,08 %

The front-end load specified here is a maximum amount. It may be lower in individual cases. To find out the amount that is currently applicable for you, please request it from the office responsible for you or from your financial advisor. The current costs specified here were incurred in the fiscal year of the fund, which ended on 30.09.2011. They may change from year to year. The current costs do not include the performance-based fee and the transaction costs. Additional information on costs can be found under "Costs" in the sales prospectus.

## Past performance

Past performance is not a reliable indicator of future performance. All costs and fees that were withdrawn from DWS Eurovesta were deducted during the calculation. Initial sales charges and redemption fees were not taken into account. DWS Eurovesta was launched in 1988. The performance was calculated in EUR.
