### Objectives

The investment objective of the East Capital New Europe sub-fund is to provide long-term capital growth through exposure to companies in the Central & Eastern European region excluding Russia. The sub-fund will mainly invest in companies located in countries that have joined the European Union since 2004 and that may join in the future, but also in companies of other emerging and frontier markets of Central & Eastern Europe.

The sub-fund will invest at least 50% of its net assets in securities of issuers domiciled in Albania, Armenia, Austria, Belarus, Bosnia-Herzegovina, Bulgaria, Croatia, Cyprus, the Czech Republic, Estonia, Georgia, Greece, Hungary, Kazakhstan, Latvia, Lithuania, Macedonia, Moldova, Montenegro, Poland, Romania, Serbia, Slovakia, Slovenia, Turkey and Ukraine.

The sub-fund may also invest in securities of issuers not domiciled in the aforementioned countries but which exercise a significant part of their economic activity there.

At least 75% of the sub-fund's assets will be invested in equity or equity-related securities (such as, but not limited to, ADRs and GDRs of the aforementioned issuers).

this benchmark and freely selects the securities that it invests in. The deviation with this benchmark can be significant.

## What are the risks and what could I get in return?

### Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

**Be aware of currency risk.** You may receive payments in a currency that differs from your reference currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator: Currency risk, emerging market risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

## What happens if East Capital is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation or guarantee scheme. To protect you, the assets are held with a separate company, the depository Skandinaviska Enskilda Banken. AB (publ) – Luxembourg Branch. Should we default, the investments are liquidated and the proceeds are distributed to the investors. In the worst case, however, you could lose your entire investment.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested

	If you exit after 1 year	If you exit after 5 years	If you exit after 10 years
<b>Total costs</b>	850 EUR	2,122 EUR	4,250 EUR
Annual cost impact (*)	8.5 %	3.8 % each year	3.1 % each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.1% before costs and 1.8% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
