What is this product?

Type

Shares of a sub-fund of Fidelity Funds SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS).

SFDR product category: Article 8 (promotes ESG characteristics).

Term

This fund is open-ended.

Objectives

Objective: The fund aims to achieve capital growth over the long term.

Investment Policy: The fund invests at least 70% (and normally 75%) of its assets, in equities of Indian companies listed in India, or non-Indian companies which do most of their business in India. The fund may also invest in money market instruments on an ancillary basis. The fund invests at least 50% of its assets in securities of companies with favourable environmental, social and governance (ESG) characteristics.

Investment Process: In actively managing the fund, the Investment Manager considers growth and valuation metrics, company financials, return on capital, cash flows and other measures, as well as company management, industry economic conditions, and other factors. The Investment Manager also considers ESG characteristics when assessing investment risks and opportunities. In determining favourable ESG characteristics, the Investment Manager takes into account ESG ratings provided by Fidelity or external agencies. Through the investment management process the Investment Manager aims to ensure that investee companies follow good governance practices.

The fund adheres to the Fidelity Sustainable Investing Framework standards. For more information, see "Sustainable Investing and ESG Integration".

Derivatives and Techniques: The fund may use derivatives for

hedging, efficient portfolio management and investment purposes.

Benchmark: MSCI India Capped 8% index, an index that does not take into account ESG characteristics. Used for: risk monitoring, and performance comparison.

Base Currency: GBP.

Risk Management Method: Commitment.

Additional Information: You may sell (redeem) some or all of your Shares on any Valuation Day. Income earned by the fund is reinvested in additional shares or paid to shareholders on request.

This key information document describes a sub-fund of Fidelity Funds. A separate pool of assets is invested and maintained for each sub-fund of Fidelity Funds.

The assets and liabilities of the fund are segregated from those of other sub-funds and there is no cross-liability among the sub-funds. Intended retail investor

This product may appeal to investors with a basic knowledge of and no or limited experience of investing in funds; who plan to hold their investment for a recommended holding period of at least 4 years; who seek capital growth over the recommended holding period; and who understand the risk of losing some or all of the capital invested.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10,000 is invested.

	If you exit after 1 year	If you exit after 4 years
Total costs	160 GBP	840 GBP
Annual cost impact (*)	1.6%	1.8% each year

(*)This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 13.0% before costs and 11.2% after costs.
