Competent authority Commission de Surveillance du Secteur Financier

Date of production 06/02/2024

You are about to purchase a product that is not simple and may be difficult to understand.

# What is this product?

#### Type

This product is a subfund of Fisch Umbrella Fund an investment company with variable capital (société d'investissement à capital variable, SICAV) in the form of a public limited company under Luxembourg law.

#### Term

This product does not have a maturity date, it is open-ended. The product may be terminated at any time by a decision of the General Meeting.

#### Objectives

The subfund is managed actively and invests worldwide, mainly in bonds issued by companies in emerging market countries. The investment objective of the subfund is capital growth of the investments. The subfund pursues an opportunistic strategy. Compared with a defensive strategy, an opportunistic strategy accepts a higher risk and aims for a higher return accordingly. The subfund invests at least 51% of its assets in securities from issuers that have their registered office in emerging market countries, or that conduct

Up to 10% of its assets may be invested in distressed securities. Securities are deemed distressed securities when the interest payments have been discontinued and the market price of the debt security is below 40% of the repayment price.

most of their business in such countries. At least 51% of the assets are

The subfund may use derivatives for efficient portfolio management and for hedging purposes.

The portfolio manager may, at their discretion, make investments for the subfund within the predetermined investment guidelines. The subfund uses the benchmark JP Morgan CEMBI Broad Diversified CHF for performance comparison. A portion of the subfund's investments will correspond to the components of the benchmark. However, the portfolio manager may, at its discretion, invest in securities which are not included in the relevant benchmark. The risk and reward profile of the subfund is comparable to that of the benchmark.

Otherwise the standard investment guidelines according to UCITS V apply. Income is not distributed, but used for re-investment.

#### Intended Retail Investor

The subfund is designed for investors who already have some experience of the financial markets.

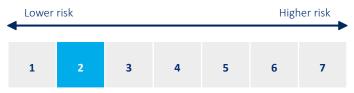

Investors must be willing and able to accept fluctuations in the value of the units and a possible considerable loss of capital.

In some cases, the subfund may not be suitable for investors who wish to withdraw their money from the subfund within a period of less than five years.

# What are the risks and what could I get in return?

# **Summary Risk Indicator**

invested in high yield securities.

The summary risk indicator (SRI) assumes you keep the product for a minimum of 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

This product is classified as 2 out of 7, which is a low risk class.

Be aware of currency risk if your reference currency differs from the currency of the Product. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies.

The product may be exposed to further risks such as operational, counterparty, political and legal. This type of risks are not included in the summary risk indicator shown above. Please refer to the prospectus for more details

This product does not include any protection from future market performance so you could lose some or all of your investment.

#### **Performance Scenarios**

The scenarios shown are illustrations using the worst, average and best performance of the product.

| Recommended holding period:  Example Investment: |  | 5 years                  | 5 years<br>10,000 CHF     |  |
|--|--|--------------------------|---------------------------|--|
|  |  | 10,000 CHF               |                           |  |
|  |  | If you exit after 1 year | If you exit after 5 years |  |
| Scenarios  |  |                          |                           |  |
| Minimum  | There is no minimum guaranteed return if you exit before 5 years. You could lose some or all of your investment. |                          |                           |  |
| Stress   | What you might get back after costs  | 6,210 CHF                | 6,970 CHF                 |  |
|  | Average return each year   | -37.93%                  | -11.35%                   |  |
| Unfavourable                                     | What you might get back after costs  | 7,200 CHF                | 7,320 CHF                 |  |
|  | Average return each year   | -28.01%                  | -9.87%                    |  |
| Moderate   | What you might get back after costs  | 9,770 CHF                | 9,850 CHF                 |  |
|  | Average return each year   | -2.32%                   | -0.49%                    |  |
| Favourable                                       | What you might get back after costs  | 11,060 CHF               | 10,700 CHF                |  |
|  | Average return each year   | 10.65%                   | 2.28%                     |  |

This table shows the money you could get back over the next 5 years, under different scenarios, assuming that you invest CHF 10 000,00.

The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Market developments in the future cannot be accurately predicted.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between 31/10/2017 and 31/10/2022.

The moderate scenario occurred for an investment between 29/10/2016 and 29/10/2021.

The favourable scenario occurred for an investment between 29/01/2016 and 29/01/2021.

# What happens if UNIVERSAL-INVESTMENT-LUXEMBOURG S.A. is unable to pay out?

The assets of the subfunds are held separately from the assets of the fund management company and the depositary. Therefore, in case of insolvency of Universal-Investments-Luxembourg S.A you will not lose your investment.

### What are the costs?

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on the assumption that you invest an amount of CHF 10 000,00 and different possible investment periods.

The person selling you or advising you about this Product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

The figures do not take into account your personal tax situation, which may also affect how much you get back.

|                        | If you exit after 1 year | If you exit after 5 years |
|------------------------|--------------------------|---------------------------|
| Total costs            | 608 CHF                  | 1,910 CHF                 |
| Annual cost impact (*) | 6.1%                     | 3.7% each year            |

This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2,5 % before costs and -1,3 % after costs.

### **Composition of costs**

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

| One-off costs upon entry or exit                            | If you exit after 1 year   |               |  |
|---|--|---------------|--|
| Entry costs   | *The impact of the costs you pay when entering your investment.                          | Up to 300 CHF |  |
| Exit costs  | The impact of the costs of exiting your investment when it matures.                      | 0 CHF         |  |
| Ongoing costs taken each year                               |  |               |  |
| Management fees and other administrative or operating costs | The impact of the costs that we take each year for managing your investments.            | 186 CHF       |  |
| Transaction costs   | The impact of the costs of us buying and selling underlying investments for the product. | 122 CHF       |  |
| Incidental costs taken under specif                         | fic conditions   |               |  |
| Performance fees  | The impact of the performance fee.   | 0 CHF         |  |

\*for distributors only

### How long should I hold it and can I take money out early?

The recommended holding period of this product is 5 years. Units of the subfund may be redeemed on any bank business day in Luxembourg. No redemption fees will be charged at the level of the product.

### How can I complain?

Your relationship manager or contact person is happy to receive your feedback and complaints. Fisch endeavours to continuously improve its products and services. If, despite those efforts, differing views arise in relation to a matter and if, despite you having made a complaint, a mutually agreeable solution could not be found, you have the option of taking the matter to Fisch's ombudsman.

Wherever possible, any legal disputes between Fisch and clients should be settled through a mediation procedure before an ombudsman. This procedure is confidential and free of charge to the client. Clients can file a mediation request with Fisch's ombudsman below if they are unsatisfied with the performance of the contract by Fisch and if no agreement could be reached directly with Fisch.

Fisch is affiliated with the Swiss Ombudsman service for financial service providers FINOS.
