FRANKLIN TEMPLETON INVESTMENT FUNDS

SIMPLIFIED PROSPECTUS

**société d'investissement
à capital variable
incorporated in Luxembourg**

April 2011

This simplified prospectus dated April
2011 is only valid if accompanied by
the addendum dated July 2011

FRANKLIN TEMPLETON INVESTMENT FUNDS
Société d'investissement à capital variable
Registered office: 26, boulevard Royal, L-2449 Luxembourg
Grand Duchy of Luxembourg
R.C.S. Luxembourg B 35 177

This Simplified Prospectus contains selected important information about Franklin Templeton Investment Funds (the "Company") to help you make informed decisions about investing in the Company. Additional information about the Company is available in:

- the full Prospectus;
- the most recent audited Annual and unaudited Semi-Annual Reports of the Company.

These documents may be obtained free of cost from the Company, its Administrative Agent and from all distributors of the Shares of the Company.

These documents are incorporated by reference into this Simplified Prospectus, which means that they legally form part of this document, just as if they were printed as part of this document.

This Simplified Prospectus does not constitute an offer to anyone or solicitation by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the person making such offer or solicitation is not qualified to do so. The Shares of the Company may not be directly or indirectly offered or sold in the United States of America or any of its territories or possessions or areas subject to its jurisdiction or to or for the benefit of nationals or residents thereof, unless pursuant to an exemption from registration requirements available under the US law, any applicable statute, rule or interpretation.

The Company is an open-ended investment company organised as a *société anonyme* under the laws of the Grand Duchy of Luxembourg and is qualified as a *société d'investissement à capital variable* ("SICAV"). The Company was incorporated in Luxembourg on 6 November 1990, for an undetermined period of time. The Company is registered with the Registre de Commerce et des Sociétés de et à Luxembourg, under number B 35 177. Copies of the Articles of Incorporation, as amended, are available for inspection at the Registre de Commerce et des Sociétés de et à Luxembourg and the registered office of the Company.

The Company is registered on the official list of undertakings for collective investment pursuant to Part I of the Luxembourg Law of 20 December 2002 relating to collective investment undertakings, as amended. The Company qualifies as an undertaking for collective investment in transferable securities (a "UCITS") and has obtained recognition for marketing its shares in certain member states of the European Union under EC Council Directive 85/611, as amended.

The Company is subject to the supervision of the Luxembourg regulator, the "Commission de Surveillance du Secteur Financier".

The Company has an "umbrella" structure comprising various sub-funds (the "Funds") with different objectives and investment policies and represented by one or more Share Classes as described in this Simplified Prospectus. The Board of Directors may authorise the creation of additional Funds in the future with different objectives and investment policies, subject to the amendment of this Simplified Prospectus.

Attention of investors is also drawn on the fixed amount which may be levied on transactions by distributors, local paying agents and correspondent banks established in certain jurisdictions such as Italy.

Shares are offered or in issue in the various Funds, Classes and currencies as described in the section "Share Classes".

The Board of Directors of the Company may decide to offer or issue in any Fund any of the existing Share Class which terms and conditions are more fully described in the section "Share Classes" and "Charges Structure" of this Simplified Prospectus, including Alternative Currency Share Class in any other currency than the Fund base currency, Hedged Share Classes as well as Share Classes with different dividends policies. Investors will be informed of the issue of such Shares upon publication of the net asset value per Share of such Share Class as described in the section "Calculation and Publication of Share Prices".

The English version of this Simplified Prospectus shall prevail over any other translation.

Anti-Money Laundering and Counter-Terrorism Financing Legislation

Pursuant to the Luxembourg Laws of 5 April 1993 relating to the financial sector (as amended) and 12 November 2004 relating to anti-money laundering and counter-terrorist financing (as amended), as well as to the circulars of the Luxembourg supervisory authority (notably the CSSF circular 08/387 as amended by the CSSF circular 10/476), obligations have been imposed on all professionals of the financial sector to prevent the use of UCITS for money laundering and terrorism financing purposes. Within this context a procedure for the identification of investors has been imposed.

Franklin Biotechnology Discovery Fund

Fund details

<i>Type of Fund:</i>	Equity Fund
<i>Base currency:</i>	USD
<i>Alternative currency:</i>	SGD
<i>Launch date:</i>	3 April 2000
<i>Management charges:</i>	Monthly fee equivalent to 1.00% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I shares. For Class I Shares: 0.70%.
<i>Total Expense Ratio:</i>	A(acc) USD: 2.02%; A(acc) SGD: 2.02%; B(acc) USD: 3.32%; C(acc) USD: 2.59%; I(acc) USD: 1.00%; N(acc) USD: 2.76%
<i>Investment Manager:</i>	Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

> Capital appreciation.

Investment strategy

The Fund invests principally in equity securities of biotechnology companies and discovery research firms located in the US and other countries and to a lesser extent in debt securities of any type of issuers worldwide.

For the Fund's investment purposes, a biotechnology company is one that has at least 50% of its earnings derived from biotechnology activities, or at least 50% of its assets devoted to such activities based on the company's most recent fiscal year. Biotechnology activities are research, development, manufacture, and distribution of various biotechnological or biomedical products, services and processes. This may include companies involved with genomics, genetic engineering, and gene therapy. It also includes companies involved in the application and development of biotechnology in areas such as health care, pharmaceuticals, and agriculture.

To the extent that the Fund invests in debt securities, it generally buys securities that are rated investment grade or unrated securities that it determines to be of comparable quality. Investment grade debt securities are rated in the top four ratings categories by independent rating organisations such as Standard & Poor's Corporation or Moody's Investors Service, Inc.

The Fund anticipates that under normal conditions, it will invest more of its assets in US securities than in those of any other single country although the Fund may have more than 50% of its total assets in non-US securities.

The Investment Manager may take temporary defensive cash position when it believes the securities trading markets or the economies of countries where the Fund invests are experiencing excessive volatility or prolonged general decline or other adverse conditions.

Who should invest in the Fund?

Investors...

- seeking capital appreciation by investing in equity securities.
- seeking a growth investment in the biotechnology sector in the US and around the world.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Biotechnology, Communication and Technology Sectors risk
- Counterparty risk
- Equity risk
- Foreign Currency risk
- Growth Stocks risk
- Liquidity risk
- Market risk
- Small and Mid-Sized Companies risk

See the Section "Risk Considerations" for a full discussion of these risks.

Past Performance:

Franklin Euroland Core Fund

Fund details

<i>Type of Fund:</i>	Equity Fund
<i>Base currency:</i>	EUR
<i>Alternative currency:</i>	USD
<i>Launch date:</i>	28 November 2008
<i>Management charges:</i>	Monthly fee equivalent to 1.00% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.70%.
<i>Total Expense Ratio:</i>	A(acc) EUR: 1.86%; A(acc) USD: 1.86%; I(acc) EUR: 0.95%; I(acc) USD: 0.95%; N(acc) EUR: 2.61%
<i>Investment Manager:</i>	Franklin Templeton Investment Management Limited (Edinburgh, UK)

What does the Fund invest in?

Investment objective

> Capital appreciation.

Investment strategy

The Fund seeks to achieve its investment objective by investing principally in the equity securities of companies of any market capitalisation in Euroland countries. In selecting equity investments, the Investment Manager employs an active, bottom-up fundamental research process to search for individual securities believed to possess superior risk-return characteristics, taking into account both future growth potential and valuation considerations.

The Fund principally invests its net assets in the securities of issuers incorporated or having their principal business activities in Euroland countries (i.e. countries having adopted the Euro as their national currency, the member states of the European Monetary Union).

To ensure eligibility for the French *Plan d'Epargne en Actions* (PEA), the Fund invests at least 75% of its total assets in equity securities issued by companies which have their head office in the European Union.

Past Performance:

The following chart shows the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in this chart.

Since the investment objective is more likely to be achieved through an investment policy that is flexible and adaptable, the Fund may also seek investment opportunities in other types of transferable securities, which do not fulfil the requirements set out above.

Who should invest in the Fund?

Investors...

- seeking capital appreciation by investing primarily in equity securities of companies located in member countries of the European Monetary Union.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Counterparty risk
- Equity risk
- Growth Stocks risk
- Liquidity risk
- Market risk

See the Section "Risk Considerations" for a full discussion of these risks.

Franklin European Growth Fund

Type of Fund:	Equity Fund
Base currency:	EUR
Alternative currency:	GBP
Launch date:	29 December 2000
Management charges:	Monthly fee equivalent to 1.00% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.70%.
Total Expense Ratio:	A(acc) EUR: 1.82%; A(Ydis) GBP: 1.84%; I(acc) EUR: 0.96%; N(acc) EUR: 2.58%
Investment Manager:	Franklin Templeton Investment Management Limited (Edinburg, UK) and Franklin Templeton Institutional, LLC (New York, NY, USA)

What does the Fund invest in?

Investment objective

> Capital appreciation.

Investment strategy

The Fund seeks to achieve its investment objective by investing principally in equity and/or equity-related securities (including warrants and convertible securities) of companies of any market capitalisation. In selecting equity investments, the Investment Manager employs an active, bottom-up fundamental research process to search for individual securities believed to possess superior risk-return characteristics.

The Fund principally invests its net assets in securities of issuers incorporated or having their principal business activities in European countries.

Since the investment objective is more likely to be achieved through an investment policy that is flexible and adaptable, the Fund may also seek investment opportunities in other types of transferable securities, which do not fulfil the requirements set out above.

Past Performance:

The following chart shows the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in this chart.

Who should invest in the Fund?

Investors...

- seeking capital appreciation by investing in equity securities.
- seeking a growth investment concentrated in companies of any European country.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Counterparty risk
- Equity risk
- Foreign Currency risk
- Growth Stocks risk
- Liquidity risk
- Market risk
- Warrants risk

<i>Investment Manager:</i>	Franklin Templeton Institutional, LLC. (New York, NY, USA)

What does the Fund invest in?

Investment objective

> To maximise total investment return consisting of income and capital appreciation.

Investment strategy

The Investment Manager seeks to achieve its investment objective by investing in real estate investment trusts ("Real Estate Investment Trusts" or "REITs") and other companies whose principal business is financing, dealing, holding, developing and managing real estate and which are located around the world. "REITs" are companies the shares of which are listed on a stock exchange, which invest a significant portion of their assets directly in real estate and which profit from a special and favourable tax regime. These investments of the Fund shall qualify as transferable securities. The Fund seeks to invest in companies across a wide range of real estate sectors and countries.

Who should invest in the Fund?

Investors...

- seeking interest income and capital appreciation.
- seeking to invest in companies across a wide range of real estate sectors and countries.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Counterparty risk
- Derivative risk
- Equity risk
- Liquidity risk
- Market risk
- Real Estate Securities risk

<i>Investment Manager:</i>	Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

- > Primary objective: capital appreciation.
- > Secondary objective: income.

Investment strategy

Under normal market conditions, the Fund invests principally its net assets in securities issued by gold and precious metals operation companies. Gold and precious metals operation companies include companies that mine, process, or deal in gold or other precious metals, such as silver, platinum and palladium, including mining finance and exploration companies as well as operating companies with long-, medium-, or short-life mines.

The Fund principally invests in equity and/or equity-related securities such as common stocks, preferred stocks, warrants and convertible securities issued by gold and precious metals operation companies located anywhere in the world and across the entire market capitalization spectrum, including small-cap and medium-cap companies, as well as in American, Global and European Depositary Receipts.

Past Performance:

N/A

Who should invest in the Fund?

Franklin High Yield Fund

Fund details

Type of Fund:	Fixed Income Fund
Base currency:	USD
Alternative currency:	SGD
Launch date:	1 March 1996
Management charges:	Monthly fee equivalent to 0.80% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.60%.
Total Expense Ratio:	A(acc) USD: 1.55%; A(Mdis) USD: 1.55%; A(Mdis) SGD-H1: 1.55%; B(Mdis) USD: 2.96%; C(acc) USD: 2.23%; I(acc) USD: 0.80%; I(Mdis) USD: 0.80%; N(acc) USD: 2.16%; Z(Mdis) USD: 1.13%
Investment Manager:	Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

- > Primary objective: a high level of current income.
- > Secondary objective: capital appreciation, but only when consistent with its principal objective.

Investment strategy

The Fund seeks to achieve these objectives by investing principally, either directly or through the use of financial derivative instruments, in fixed income debt securities of US or non-US issuers. The financial derivative instruments may include, inter alia, swaps such as credit default swaps or total return swaps, forwards, futures contracts, as well as options on such contracts dealt in either on regulated markets or over-the-counter. The Fund normally invests in fixed income debt securities with investment grade or lower grade ratings, if issued by US issuers, or, if issued by non-US issuers or unrated, their equivalent. The Investment Manager attempts to avoid excessive risk by performing independent credit analyses of issuers and by diversifying the Fund's investments among different issuers.

Since the investment objective is more likely to be achieved through an investment policy that is flexible and adaptable, the Fund may also, temporarily and/or on an ancillary basis, seek investment opportunities in any other types of securities such as government securities, preferred stock, common stock and other equity linked securities, warrants and securities and bonds convertible into common stock. The Fund may invest up to 10% of its assets in credit-linked securities, which the Investment Manager may use

as a means to invest more rapidly and efficiently in certain segments of the high yield, bank loan and investment grade debt markets. The Fund may also invest up to 10% of its total assets in securities in default.

Who should invest in the Fund?

Investors...

- seeking to earn a high level of income, and to a lesser extent, some capital appreciation.
- seeking investment primarily high-yielding fixed income securities of US and non-US issuers.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Class Hedging risk
- Counterparty risk
- Credit risk
- Credit-Linked Securities risk
- Defaulted Debt Securities risk
- Derivative risk
- Foreign Currency risk
- Interest Rate Securities risk
- Liquidity risk
- Market risk
- Low-Rated or Non-Investment Grade Securities risk
- Restructuring Companies risk
- Warrants risk

See the Section "Risk Considerations" for a full discussion of these risks.

Past Performance:

The following chart shows the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in this chart.

Franklin Income Fund

Fund details

<i>Type of Fund:</i>	Balanced Fund
<i>Base currency:</i>	USD
<i>Alternative currency:</i>	SGD
<i>Launch date:</i>	1 July 1999
<i>Management charges:</i>	Monthly fee equivalent to 0.85% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.60%.
<i>Total Expense Ratio:</i>	A(Mdis) USD: 1.68%; A(Mdis) SGD-H1: 1.67%; B(Mdis) USD: 2.99%; C(acc) USD: 2.26%; C(Mdis) USD: 2.26%; I(acc) USD: 0.90%; N(acc) USD: 2.18%; Z(acc) USD: 1.22%; Z(Mdis) USD: 1.18%
<i>Investment Manager:</i>	Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

> To maximise income while maintaining prospects for capital appreciation.

Investment strategy

The Fund invests in a diversified portfolio of transferable securities consisting of equity securities and long and short-term debt securities. Equity securities generally entitle the holder to participate in a company's general operating results. These include common stocks, preferred stocks and convertible securities. Debt securities represent an obligation of the issuer to repay a loan of money to it, and generally provide for the payment of interest. These include bonds, notes and debentures.

In its search for growth opportunities, the Fund invests in common stocks of companies from a variety of industries such as utilities, oil, gas, real estate and consumer goods. The Fund seeks income by selecting investments such as corporate, foreign and US Treasury bonds, as well as stocks with attractive dividend yields. The Fund may invest in debt securities that are rated below investment grade. Investment grade debt securities are rated in the top four ratings categories by independent rating organisations such as Standard & Poor's Corporation ("S&P") and Moody's Investors Service, Inc. ("Moody's"). The Fund generally invests in securities rated at least CAA by Moody's or CCC by S&P or unrated securities that the Investment Manager determines are of comparable quality. Generally, lower rated securities offer higher yields than more highly rated securities to compensate investors for the higher risk. Further information is contained in the section "Risk Considerations".

The Fund may invest up to 25% of its net invested assets in non-US securities. It ordinarily buys non-US securities that are traded in the US or American Depository Receipts, which are certificates typically issued by a bank or trust company that give their holders the right to receive securities issued by a US or a non-US company.

The Investment Manager searches for undervalued or out-of-favour securities it believes offer opportunities for income today and significant growth tomorrow. It performs independent analysis of the securities being considered for the Fund's portfolio, rather than relying principally on the ratings assigned by rating agencies. In its analysis, the Investment Manager considers a variety of factors, including:

- the experience and managerial strength of the company;
- responsiveness to changes in interests and business conditions;
- debt maturity schedules and borrowing requirements;
- the company's changing financial condition and market recognition of the change; and
- a security's relative value based on such factors as anticipated cash flow, interest or dividend coverage, asset coverage, and earnings prospects.

The Investment Manager may take a temporary defensive position when it believes the markets or the economy are experiencing excessive volatility, a prolonged general decline or when other adverse conditions may exist. Under these circumstances, the Fund may be unable to pursue its investment objective.

Who should invest in the Fund?

Investors...

- seeking a high level of income and prospects of some capital appreciation.
- seeking to access a portfolio of both equity and fixed income securities via a single fund.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Class Hedging risk
- Counterparty risk
- Credit risk
- Equity risk

- Foreign Currency risk
- Interest Rate Securities risk
- Liquidity risk
- Low-Rated or Non-Investment Grade Securities risk

- Market risk

See the Section "Risk considerations" for a full discussion of these risks.

Franklin MENA Fund

Fund details

<i>Type of Fund:</i>	Equity Fund
<i>Base currency:</i>	USD
<i>Alternative currencies:</i>	EUR, GBP
<i>Launch date:</i>	16 June 2008
<i>Management charges:</i>	Monthly fee equivalent to 1.50% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I and Class X Shares. For Class I Shares: 1.05%.
<i>Total Expense Ratio:</i>	A(acc) USD: 2.64%; A(acc) EUR: 2.64%; A(acc) EUR-H1: 2.63%; A(Ydis) GBP: 2.64%; A(Ydis) EUR: 2.54%; A(Ydis) USD: 2.63%; B(acc) USD: 3.93%; C(acc) USD: 3.20%; I(acc) EUR: 1.51%; I(acc) USD: 1.54%; I(acc) EUR-H1: 1.54%; I(Ydis) USD: 1.51%; N(acc) USD: 3.15%; N(acc) EUR-H1: 3.13%; X(acc) USD: N/A
<i>Investment Manager:</i>	Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

> Long-term capital appreciation.

Investment strategy

The Fund invests primarily in transferable securities such as equity securities and fixed income securities of companies (i) incorporated in the Middle East and North Africa countries ("MENA countries") including, but not limited to Kingdom of Saudi Arabia, United Arab Emirates, Kuwait, Qatar, Bahrain, Oman, Egypt, Jordan and Morocco, and/or (ii) which have their principal business activities in MENA countries across the market capitalisation spectrum as well as in financial derivative instruments. These financial derivative instruments may include, inter alia, forwards and financial futures contracts, or options on such contracts, equity linked notes dealt in either on regulated markets or over-the-counter.

In addition, since the investment objective is more likely to be achieved through an investment policy which is flexible and adaptable, the Fund may invest in other types of transferable securities, including equity and fixed income securities of issuers worldwide. The Fund may also invest up to 10% of its net assets in units of UCITS and other UCIs.

Past Performance:

The following chart shows the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in this chart.

Who should invest in the Fund?

Franklin Natural Resources Fund

Fund details

Type of Fund:	Equity Fund
Base currency:	USD
Alternative currencies:	EUR, CHF
Launch date:	July 12, 2007
Management charges:	Monthly fee equivalent to 1.00% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.70%.
Total Expense Ratio:	A(acc) USD: 1.86%; A(Ydis) USD: 1.85%; A(acc) EUR: 1.86%; A(acc) CHF-H1: N/A; B(acc) USD: 3.25%; C(acc) USD: 2.44%; I(acc) USD: 0.97%; I(acc) EUR: 0.96%; N(acc) EUR: 2.61%
Investment Manager:	Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

- > Primary objective: capital appreciation.
- > Secondary objective: current income.

Investment strategy

The Fund invests primarily in equity and debt securities as well as depositary receipts of (i) companies which perform a substantial part of their business in the natural resources sector, and (ii) companies which hold a substantial part of their participations in companies referred to in (i), including small and mid-size companies. For the Fund's investment purpose, the natural resources sector includes companies that own, produce, refine, process, transport and market natural resources and companies that provide related services. This sector may include, for example, the following industries: integrated oil, oil and gas exploration and production, energy services and technology, alternative energy sources and environmental services, forest products, farming products, paper products and chemical. On an ancillary basis, the Fund may also invest in equity or debt securities of any type of US or non-US issuer. The Fund expects to invest its assets more in US securities than in

securities of any other single country (including Emerging Market countries).

Who should invest in the Fund?

Investors...

- seeking high total return in USD by investing in equity and debt securities in the natural resources sector.
- planning to hold their investments for medium to long term.

What are the main risks of investing in the Fund?

- Counterparty risk
- Emerging Markets risk
- Equity risk
- Foreign Currency risk
- Growth Stocks risk
- Liquidity risk
- Market risk
- Natural Resources Sector risk
- Small and Mid-Sized Companies risk

Franklin Real Return Fund

Fund details

Type of Fund:	Fixed Income Fund
Base currency:	USD
Alternative currency:	EUR
Launch date:	30 April 2010
Management charges:	Monthly fee equivalent to 0.75% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares.
Total Expense Ratio:	A(acc) USD: 1.35%; A(Ydis) EUR-H1: 1.35%; N(acc) USD: N/A
Investment Manager:	Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

> To achieve, consistent with prudent investment management, total return that exceeds the rate of inflation over an economic cycle.

Investment strategy

In order to achieve the highest level of real return (total return less the estimated cost of inflation), the Fund seeks to allocate its assets, under normal market conditions, in inflation indexed securities of all type such as US and non US inflation-indexed securities, investment grade and high-yield fixed-income securities issued by governments, corporations and municipal issuers.

Inflation-indexed securities are fixed-income securities that are structured to provide protection against inflation. The value of the security's principal or the interest income paid on the security is adjusted to track changes in an official inflation measure. The US Treasury uses the Consumer Price Index for Urban Consumers as the inflation measure. Inflation-indexed securities issued by a non-US government are generally adjusted to reflect a comparable inflation index, calculated by that government.

The Fund seeks to achieve its objective by also investing in mortgage and other asset-backed securities, short-term fixed-income securities as well as equity securities with high correlation to broad measures of inflation, including shares of real estate investment trusts (REITs) and/or companies in the natural resources sector.

Past Performance:

N/A

The Fund may also utilise financial derivative instruments for investment purposes. These financial derivative instruments may be dealt either in regulated markets or over-the-counter, and may include, inter alia, swaps (such as credit default swaps or total return swaps), forwards and cross forwards, futures contracts (including those on government securities), as well as options.

Who should invest in the Fund?

Investors...

- seeking total return that exceeds the rate of inflation over an economic cycle.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Counterparty risk

Franklin Strategic Income Fund

Fund details

Type of Fund:	Fixed Income Fund
Base currency:	USD
Alternative currency:	EUR
Launch date:	July 12, 2007
Management charges:	Monthly fee equivalent to 0.75% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.55%.
Total Expense Ratio:	A(acc) USD: 1.35%; A(Mdis) USD: 1.35%; A(acc) EUR: 1.35%; A(acc) EUR-H1: N/A; A(Mdis) EUR: 1.35%; B(Mdis) USD: 2.60%; C(Mdis) USD: 1.95%; I(acc) USD: 0.82%; N(acc) USD: 2.10%; N(acc) EUR-H1: N/A; Z(acc) USD: 0.85%
Investment Manager:	Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

- > Primary objective: high level of current income.
- > Secondary objective: capital appreciation over the long term.

Investment strategy

The Fund invests principally in debt securities globally, including those in Emerging Markets. For the purpose of this Fund, debt securities shall include all varieties of fixed and floating rate income securities, including bank loans (through regulated investment funds), bonds, mortgage and other asset-backed securities and convertible securities. The Fund may invest up to 100% of its assets in low-rated and non-investment grade debt securities of issuers worldwide. In order to seek to achieve its objective, the Fund may use various financial derivative instruments for hedging and efficient portfolio management as well as to enhance its investment return, subject to the investment restrictions more fully described in Appendix B of the full Prospectus. These financial derivative instruments may be dealt either in regulated markets or over-the-counter, and may include, inter alia, swaps (such as credit default swaps or total return swaps), forwards and cross forwards (either of which may result in negative currency exposures), futures contracts (including those on government securities), as well as options. The Fund may invest up to 10% of its net assets in units of UCITS and other UCIs, up to 10% of its net assets in credit-linked securities and up to 10% of its total assets in securities in default and participate in mortgage dollar roll transactions. The Fund may also temporarily and/or on an ancillary basis, seek investment opportunities in other types of transferable securities such as preferred stock, common stock and other equity linked securities,

warrants, securities and bonds convertible into common stock.

Who should invest in the Fund?

Investors...

- seeking high level of current income and prospects for capital appreciation in USD by investing in debt securities and financial derivative instruments worldwide.
- planning to hold their investments for medium to long term.

What are the main risks of investing in the Fund?

- Counterparty risk
- Credit risk
- Credit-Linked Securities risk
- Defaulted Debt Securities risk
- Derivative risk
- Emerging Markets risk
- Foreign Currency risk

Franklin Technology Fund

Fund details

Type of Fund:	Equity Fund
Base currency:	USD
Alternative currency:	EUR
Launch date:	3 April 2000
Management charges:	Monthly fee equivalent to 1.00% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.70%.
Total Expense Ratio:	A(acc) USD: 1.82%; A(acc) EUR: 1.83%; B(acc) USD: 3.13%; C(acc) USD: 2.41%; I(acc) EUR: 0.95%; N(acc) USD: 2.57%; N(acc) EUR: 2.58%; Z(acc) USD: N/A
Investment Manager:	Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

> Capital appreciation.

Investment strategy

The Fund invests at least two thirds of its total invested assets in equity securities of US and non US companies expected to benefit from the development, advancement, and use of technology and communication services and equipment. These may include, for example, companies in the following industries:

- communication and computing related outsourcing services;
- technology services, including computer software, data services, and internet services;
- electronic technology, including computers, computer products, and electronic components;
- telecommunications, including networking, wireless, and wire-line services and equipment;
- media and information services, including the distribution of information and content providers;
- semiconductors and semiconductor equipment; and
- precision instruments.

The Fund invests in securities of US and non US large, well-established companies, as well as small to medium-sized companies, including those in Emerging Markets, that the Investment Manager believes provide good emerging growth opportunities.

The Fund may also invest in equity or debt securities of any type of foreign or US issuer as well as in American, European or Global Depositary Receipts.

The Fund uses a growth approach that employs intensive, bottom-up, fundamental research of companies. The Investment Manager also takes into consideration broad-based trends when considering the selection of investments. In general, the Investment Manager looks for companies it believes display, or will display, some of the following characteristics, among others: quality management; robust growth prospects; strong market positioning; high, or rising profit margins; and good return on capital investment.

Who should invest in the Fund?

Investors...

- seeking capital appreciation by investing in equity securities.
- seeking a growth investment in the technology sector in the US and around the world.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Biotechnology, Communication and Technology Sectors risk
- Counterparty risk
- Equity risk
- Foreign Currency risk
- Growth Stocks risk
- Liquidity risk
- Market risk

See the Section "Risk Considerations" for a full discussion of these risks.

Past Performance:

Franklin U.S. Dollar Liquid Reserve Fund^{**}

Fund details

Type of Fund:	Liquid Reserve Fund
Base currency:	USD
Launch date:	1 June 1994
Management charges:	Monthly fee equivalent to 0.30% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.20%.
Total Expense Ratio:	A(acc): 0.59%; A(Mdis): 0.59%; B(Mdis): 1.65%; C(acc): 1.57%; I(acc): 0.36%; N(acc): 1.48%
Investment Manager:	Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

> High quality securities primarily US dollar denominated, or hedged back into US dollar to avoid any currency exposure.

Investment strategy

The Fund consists principally of transferable securities and money market instruments issued or guaranteed by the governments of any nation worldwide and eligible securities of corporate issuers of any nation. The portfolio is invested in a manner that the average remaining maturity of all securities and instruments comprised in the portfolio of the Fund does not exceed twelve months. For the purpose of calculating the residual maturity of each single security or instrument, the financial instruments attached thereto shall be taken into account. For the securities or instruments whose terms of issue provide for an adjustment of their interest rate by reference to market conditions, the residual maturity until the date on which the rate is adjusted shall be considered.

Who should invest in the Fund?

Investors...

- seeking safety of principal and current income.
- seeking investments in high-quality securities, primarily US dollar denominated or hedged back to the US dollar.
- planning to hold their investment for the short term.

What are the main risks of investing in the Fund?

- Counterparty risk
- Credit risk
- Interest Rate Securities risk
- Market risk

See the Section "Risk Considerations" for a full discussion of these risks.

Past Performance:

What does the Fund invest in?

Fund may employ hedging techniques and hold cash reserves from time to time.

Investment objective

> Capital appreciation.

Who should invest in the Fund?

Investors...

Investment strategy

The Fund's investment strategy is to invest principally in US equity securities, including common and preferred stocks, or securities convertible into common stocks, as well as American Depositary Receipts and American Depositary Shares that are listed on the major US stock exchanges. The Investment Manager employs an active, bottom-up fundamental research process to search for individual securities believed to possess superior risk-return characteristics, taking into account both future growth potential and valuation considerations, as well as macroeconomic and sector level considerations. This strategy is applied in a diversified manner, enabling the Investment Manager to search in all areas of the US stock market, including any market capitalisation size, sector and industry. On an ancillary basis, the

- seeking capital appreciation through a blend style investment in a well-diversified US equity Fund.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Class Hedging risk
- Counterparty risk
- Equity risk
- Liquidity risk
- Market risk

<i>Investment Manager:</i>	Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

> Capital appreciation.

Investment strategy

The Fund's investment strategy is to primarily invest in a diversified portfolio composed of equity securities of large capitalisation companies, which are companies similar in size to those in the S&P 500 Index, including common and preferred stocks, which (i) have their registered office in the United States and/or (ii) have their principal business activities in the United States and/or (iii) are holding companies holding principally participations in companies incorporated in the United States. The Fund retains the flexibility to also invest in securities convertible into common stocks, equity securities of non-US large capitalisation companies as well as American Depositary Receipts and American Depositary Shares that are listed on the major US stock exchanges. The Fund generally seeks to maintain a portfolio consisting of securities of approximately 30-40 companies. The Investment Manager employs an active, bottom-up fundamental research process to search for individual securities believed to possess superior risk-return characteristics, taking into account both future growth potential and valuation considerations. This strategy is applied in a diversified manner, enabling the Investment Manager to search in all areas of the US stock market, including any sector and industry. The Investment Manager applies a long-term

perspective through market and business cycles. In order to hedge against market or currency risk and for efficient portfolio management, the Fund may enter into derivative transactions, such as forwards and future contracts, options on such contracts or credit default swaps.

In addition, the Fund may seek investment opportunities in other types of transferable securities, including debt and fixed income securities, and money market instruments.

Who should invest in the Fund?

Investors...

- seeking capital appreciation by investing in a diversified portfolio of US equity securities of large capitalisation companies.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Class Hedging risk
- Counterparty risk
- Equity risk
- Liquidity risk
- Market risk

See the Section "Risk Considerations" for a full discussion of these risks.

Past Performance:

The following chart shows the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in this chart.

Franklin U.S. Government Fund

<i>Investment Manager:</i>	Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

> Income and safety of principal.

Investment strategy

The Fund's investment objective is income and safety of principal, which it seeks to achieve primarily through a policy of investing in debt obligations issued or guaranteed by the United States of America government and its agencies.

Who should invest in the Fund?

Investors...

- seeking a degree of safety of initial investment as well as income.

- seeking investment primarily in debt securities of the US government and its agencies.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Class Hedging risk
- Counterparty risk
- Credit risk
- Interest Rate Securities risk
- Liquidity risk
- Market risk
- Mortgage- and Asset-Backed Securities risk
- "Pre-payment" risk

See the Section "Risk Considerations" for a full discussion of these risks.

Past Performance:

The following chart shows the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in this chart.

Franklin U.S. Opportunities Fund

Fund details

<i>Type of Fund:</i>	Equity Fund
<i>Base currency:</i>	USD
<i>Alternative currencies:</i>	EUR, GBP, SGD, CHF, SEK, PLN
<i>Launch date:</i>	3 April 2000
<i>Management charges:</i>	Monthly fee equivalent to 1.00 % per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.70%.

<i>Investment Manager:</i>	Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

> Capital appreciation.

Investment strategy

The Fund invests principally in equity securities of US companies demonstrating accelerating growth, increasing profitability, or above-average growth or growth potential as compared with the overall economy. Equity securities generally entitle the holder to participate in a company's general operating results. They include common stocks, convertible securities and warrants on securities.

The Fund principally invests in small, medium, and large capitalisation companies with strong growth potential across a wide range of sectors. In selecting equity investments, the Investment Manager utilises fundamental, bottom-up research focusing on companies believed to possess sustainable growth characteristics and which meet growth, quality and valuation criteria. The Investment Manager focuses on sectors that have exceptional growth potential and fast growing, innovative companies within these sectors. In addition, solid management and sound financial records are factors the Investment Manager also considers. Although the Investment Manager searches for investments across a large number of sectors, the Fund, from time to time, may have significant positions in particular sectors such as

technology (including electronic technology, technology services, biotechnology and health care technology).

Who should invest in the Fund?

Investors...

- seeking capital appreciation by investing in equity securities.
- seeking a growth investment in sectors showing above average growth or growth potential as compared with the overall economy.
- seeking an investment concentrated in equities of US issuers.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

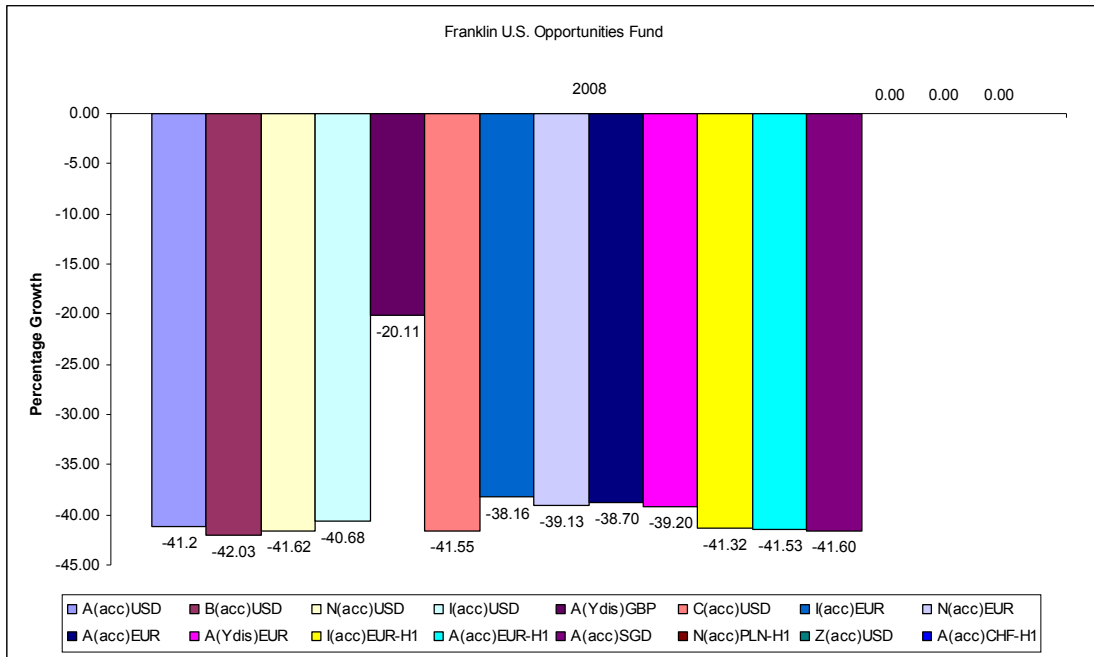

- Class Hedging risk
- Counterparty risk
- Equity risk
- Growth Stocks risk
- Liquidity risk
- Market risk
- Small and Mid-Sized Companies risk
- Warrants risk

See the Section "Risk Considerations" for a full discussion of these risks.

Past Performance:

The following charts show the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in these charts.

Franklin U.S. Small-Mid Cap Growth Fund

Fund details

Type of Fund:	Equity Fund
Base currency:	USD
Launch date:	29 December 2000
Management charges:	Monthly fee equivalent to 1.00% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.70%.
Total Expense Ratio:	A(acc): 1.94%; B(acc): 3.27%; C(acc): 2.53%; I(acc): 0.97%; N(acc): 2.69 %
Investment Manager:	Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

> Capital appreciation.

Investment strategy

The Fund principally invests its total assets in the equity securities of US small and medium capitalisation companies. In selecting equity investments, the Investment Manager utilises fundamental, bottom-up research focusing on companies believed to possess sustainable growth characteristics and which meet growth, quality and valuation criteria. For this Fund, small cap companies are companies within the market capitalisation range of companies in the Russell 2500™ Index, at the time of purchase, and mid cap companies are companies within the market capitalisation range of companies in the Russell Midcap® Index, at the time of purchase. In addition, the Fund may invest in equity securities of larger companies.

Who should invest in the Fund?

Investors...

- seeking capital appreciation by investing in US small-mid cap growth companies.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Counterparty risk
- Equity risk
- Growth Stocks risk
- Liquidity risk
- Market risk
- Small and Mid-Sized Companies risk

See the Section "Risk Considerations" for a full discussion of these risks.

Past Performance:

The following chart shows the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in this chart.

Franklin U.S. Total Return Fund

Fund details

Type of Fund:	Fixed Income Fund
Base currency:	USD
Launch date:	29 August 2003
Management charges:	Monthly fee equivalent to 0.75% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.55%.
Total Expense Ratio:	A(acc): 1.20%; A(Mdis): 1.20%; B(acc): 2.65%; B(Mdis): 2.65%; C(Mdis): 2.21%; I(acc): 0.85%; I(Mdis): 0.83%; N(Mdis): 1.90%
Investment Manager:	Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

- > Primary objective: high level of current income, consistent with preservation of capital.
- > Secondary objective: capital appreciation over the long term.

Investment strategy

The Fund uses a wide range of investments to efficiently manage the portfolio of investments to help reduce investment costs and manage portfolio risks. These investments primarily include various transferable securities such as government, corporate and mortgage-backed as well as asset-backed debt securities, convertible securities and derivative instruments, including inter alia, forwards and future contracts, options on such contracts, including those on government securities, index based financial derivatives and swaps such as interest rate swaps, total return swaps, credit default swaps as well as single name credit default swaps, dealt in either on regulated markets or over-the-counter.

The Fund primarily invests in US issuers but may invest up to 25% of its net assets (without taking into account ancillary liquid assets) in non-US issuers and up to 20% of its net assets in non-US Dollar exposure. Up to 20% of its net assets may also be invested in low-rated or non-investment grade debt securities and up to 10% of its net assets in units of UCITS and other UCIs.

Past Performance:

The following chart shows the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in this chart.

Who should invest in the Fund?

Investors...

- seeking a high level of income and capital preservation, and to a lesser extent, capital growth.
- seeking to invest in fixed income securities of the US government or corporate issuers.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Counterparty risk
- Credit risk
- Credit-Linked Securities risk
- Defaulted Debt Securities risk
- Derivative risk
- Interest Rate Securities risk
- Liquidity risk
- Low-Rated or Non-Investment Grade Securities risk
- Market risk
- Mortgage- and Asset-Backed Securities risk
- Mortgage Dollar Roll risk
- "Pre-Payment" risk
- Swap Agreements risk

See the Section "Risk Considerations" for a full discussion of these risks.

Franklin U.S. Ultra Short Bond Fund

Fund details

Type of Fund:	Fixed Income Fund
Base currency:	USD
Launch date:	29 August 2003
Management charges:	Monthly fee equivalent to 0.65% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.40%.
Total Expense Ratio:	A(acc): 1.15%; A(Mdis): 1.15%; AX(acc): 1.35%; B(acc): 2.34%; B(Mdis): 2.35%; C(Mdis): 2.06%; I(acc): 0.67%; N(Mdis): 1.85%
Investment Manager:	Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

> High level of current income, consistent with preservation of capital.

Investment strategy

The Fund invests primarily in US investment grade fixed income securities with a targeted average duration of less than three (3) years. For the purposes of this Fund, investment grade securities are those securities rated BBB- by S&P or Moody's Baa3 or higher.

In addition, the Fund may seek to obtain market exposure to the securities in which it primarily invests by entering into a series of purchase and sale contracts or by using other investment techniques including mortgage dollar rolls.

- seeking a high level of income consistent with capital preservation.
- seeking to invest in fixed income securities from US issuers with a duration of less than 3 years.
- planning to hold their investment for the medium term.

What are the main risks of investing in the Fund?

- Counterparty risk
- Credit risk
- Interest Rate Securities risk
- Liquidity risk
- Market risk
- Mortgage- and Asset-Backed Securities risk
- Mortgage Dollar Roll risk
- "Pre-Payment" risk
- Swap Agreements risk

Who should invest in the Fund?

Investors...

See the Section "Risk Considerations" for a full discussion of these risks.

Past Performance:

The following chart shows the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in this chart.

Franklin World Perspectives Fund

Fund details

Type of Fund:	Equity Fund
Base currency:	USD
Alternative currencies:	EUR, GBP
Launch date:	14 October 2008
Management charges:	Monthly fee equivalent to 1.00% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.70%.
Total Expense Ratio:	A(acc) USD: 1.85%; A(acc) EUR: 1.85%; A(Ydis) GBP: 1.84%; B(acc) USD: 3.16%; C(acc) USD: 2.44%; I(acc) USD: 1.00%; I(acc) EUR: 1.00%; I(Ydis) GBP: 1.00%; N(acc) USD: 2.60%;
Investment Manager:	Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

> Capital appreciation.

Investment strategy

The Fund seeks to achieve this objective by investing in equity and equity related transferable securities across the world. The Investment Manager and the Investment Co-Managers, located in various countries around the globe, develop local portfolios of securities with the intention to outperform the relevant market of each region. The Fund's exposure to various regions and markets may vary from time to time according to the Investment Manager's opinion as to the prevailing conditions and prospects for these markets. The Fund may also invest in financial derivative instruments which may include, inter alia, swaps such as credit default swaps or total return swaps, forwards, futures contracts, as well as options on such contracts dealt in either on regulated markets or over-the-counter.

In choosing equity investments, the Investment Manager focuses on the market price of a company's securities relative to its evaluation of the company's long-term earnings, asset value and cash flow potential.

The Fund invests in equity securities in developed, Emerging and Frontier Markets across the entire market capitalisation spectrum, and in companies listed on the stock markets in regions / countries that may include but are not limited to Africa, Australia, North America: United States, Canada; Latin America: Brazil; Europe; Asia: Japan, Korea, China, India; and the Middle East, with the benefit of local knowledge and growth oriented investment style.

Past Performance:

The following chart shows the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in this chart.

The Frontier Markets countries are smaller, less developed and less accessible Emerging Markets countries, but with "investable" equity markets and include those defined as Frontier Markets by International Finance Corporation as well as included in Frontier Markets related indices, for example Bahrain, Bulgaria, Kazakhstan, Nigeria, Pakistan, Vietnam etc.. The Fund may also invest up to 10% of its net assets in units of UCITS and other UCIs.

Who should invest in the Fund?

Investors...

- seeking capital appreciation by investing in securities across sectors or market capitalisation ranges capable of outperforming the markets through economic cycles in all "investible" markets globally.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Counterparty risk
- Derivative risk
- Emerging Markets risk
- Equity risk
- Foreign Currency risk
- Frontier Markets risk
- Growth Stocks risk
- Liquidity risk
- Market risk
- Non-Regulated Markets risk
- Small and Mid-Sized Companies risk

See the Section "Risk Considerations" for a full discussion of these risks.

Franklin Mutual Beacon Fund

Fund details

Type of Fund:	Equity Fund
Base currency:	USD
Alternative currencies:	EUR, SGD, KRW
Launch date:	7 July 1997
Management charges:	Monthly fee equivalent to 1.00% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.70%.
Total Expense Ratio:	A(acc) USD: 1.85%; A(acc) EUR: 1.86%; A(acc) EUR-H1: 1.85%; A(acc) KRW-H1: N/A; A(acc) SGD: 1.85%; A(Ydis) USD: 1.85%; B(acc) USD: 3.16%; B(Ydis) EUR: 3.17%; C(acc) USD: 2.43%; I(acc) USD: 0.98%; I(acc) EUR: 0.97%; I(acc) EUR-H1: 0.98%; N(acc) USD: 2.60%; N(acc) EUR: 2.61%; N(acc) EUR-H1: 2.59%; Z(acc) USD: 1.36%
Investment Manager:	Franklin Mutual Advisers, LLC (Short Hills, NJ, USA)

What does the Fund invest in?

Investment objective

- > Primary objective: capital appreciation.
- > Secondary objective: income.

Investment strategy

The Fund pursues its objectives principally through investments in common stock, preferred stock, and debt securities convertible or expected to be convertible into common or preferred stock. No more than 30% of the Fund's net assets are invested in securities of non-US issuers. The opinions of the Investment Manager are based upon analysis and research, taking into account, among other factors, the relationship of book value (after taking into account accounting differences among countries) to market value, cash flow, multiple of earnings of comparable securities, creditworthiness of issuers, as well as the value of collateral securing a debt obligation, with the objective of purchasing equity and debt securities at below their intrinsic value.

The Fund may also seek to invest in the securities of companies involved in mergers, consolidations, liquidations and reorganisations or as to which there exist tender or exchange offers, and may participate in such transactions. To a lesser extent, the Fund may also purchase debt securities, both secured and unsecured, of companies involved in reorganisation or financial restructuring.

The Investment Manager may take temporary defensive cash position when it believes the securities trading markets or the economies of countries where the Fund invests are experiencing excessive volatility or prolonged general decline or other adverse conditions.

The Fund may invest in financial derivative instruments, which may include, but are not limited to, futures, options, contracts for difference, forward contracts on financial instruments and options on such contracts, swaps such as credit default swaps, synthetic equity swaps or total return swaps. The Fund may, through the use of financial derivative instruments, hold covered short positions provided that the long positions held by the Fund are sufficiently liquid to cover, at any time, its obligations resulting from its short positions.

Who should invest in the Fund?

Investors...

- seeking capital appreciation and to a lesser extent income by investing in undervalued companies based primarily in the US.
- planning to hold their investment for the medium to long term.

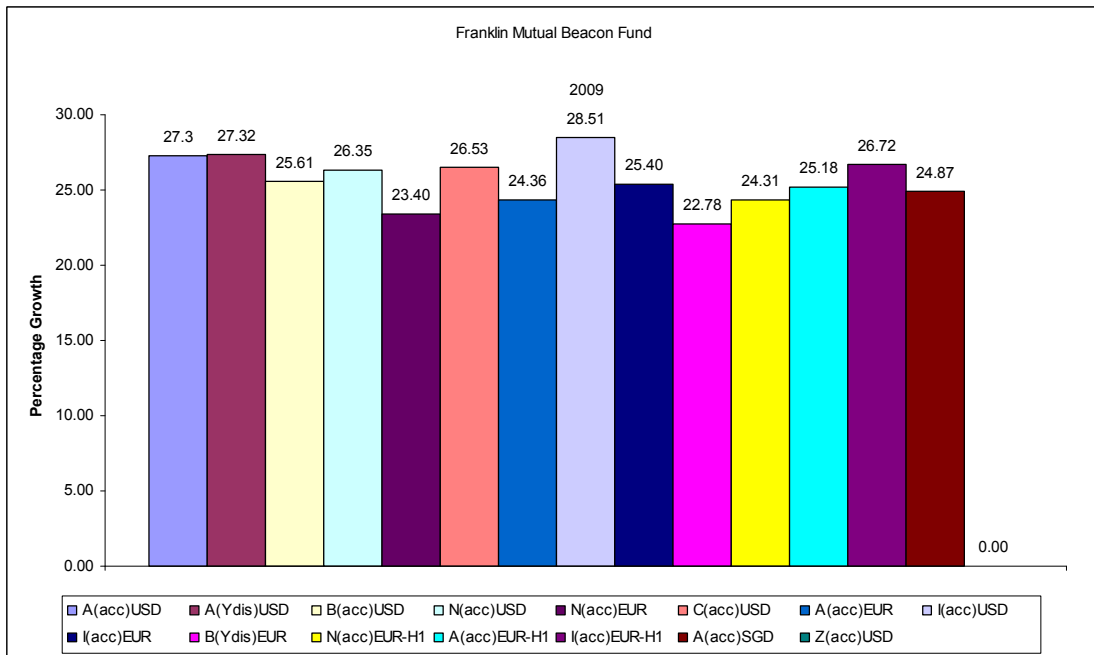

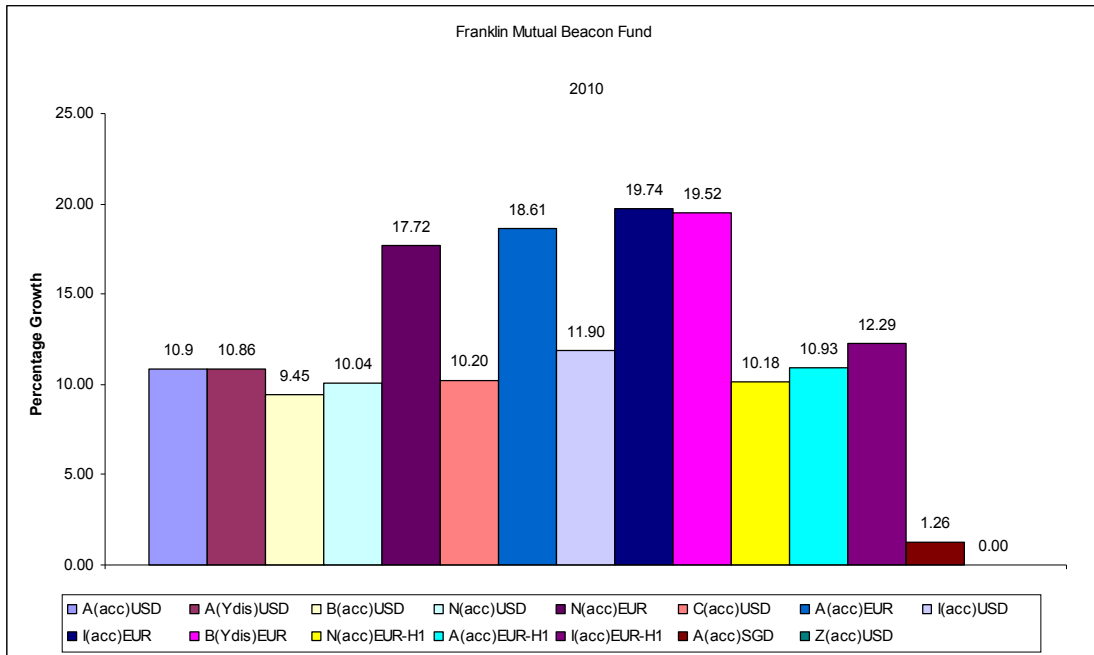

What are the main risks of investing in the Fund?

- Class Hedging risk
- Counterparty risk
- Credit risk
- Defaulted Debt Securities risk
- Derivative risk
- Equity risk
- Foreign Currency risk
- Interest Rate Securities risk
- Liquidity risk
- Low-Rated or Non-Investment Grade Securities risk
- Market risk
- Restructuring Companies risk

See the Section "Risk Considerations" for a full discussion of these risks.

Franklin Mutual Euroland Fund

Fund details

Type of Fund:	Equity Fund
Base currency:	EUR
Alternative currency:	USD
Launch date:	14 October 2008
Management charges:	Monthly fee equivalent to 1.00% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.70%.
Total Expense Ratio:	A(acc) EUR: 1.90%; A(acc) USD: 1.77%; I(acc) EUR: 1.00%; I(acc) USD: 1.00%; N(acc) EUR: 2.65%;
Investment Manager:	Franklin Mutual Advisers, LLC (Short Hills, NJ, USA)

What does the Fund invest in?

Investment objective

- > Primary objective: capital appreciation, which may occasionally be short term.
- > Secondary objective: income.

Investment strategy

The Fund principally invests in transferable securities such as equity securities and debt securities convertible or expected to be convertible into common or preferred stock of companies incorporated or having their principal activities in Euroland countries (i.e. countries having adopted the Euro as their national currency, the member states of the European Monetary Union). The Fund may additionally invest into equity (common stocks, preferred stocks and convertible securities) or debt securities of other issuers that the Investment Manager believes are available at prices less than their actual value based on certain recognised or objective criteria (intrinsic value). To ensure eligibility for the French *Plan d'Epargne en Actions* (PEA), the Fund invests at least 75% of its total assets in equity securities issued by companies which have their head office in the European Union. The Fund currently intends to invest principally in securities of issuers in Western Europe. The Fund normally invests in securities from at least five different countries, although, from time to time, it may invest all of its assets in a single country.

The Fund may also seek to invest in the securities of companies involved in mergers, consolidations, liquidations and reorganisations or as to which there exist tender or exchange offers, and may participate in such transactions. To a lesser extent, the Fund may also purchase debt securities, both secured and unsecured, of companies involved in reorganisation or financial restructuring.

Past Performance:

The following chart shows the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in this chart.

The Investment Manager may take temporary defensive cash position when it believes the securities trading markets or the economies of countries where the Fund invests are experiencing excessive volatility or prolonged general decline or other adverse conditions.

The Fund may invest in financial derivative instruments, which may include, but are not limited to, futures, options, contracts for difference, forward contracts on financial instruments and options on such contracts, swaps such as credit default swaps, synthetic equity swaps or total return swaps. The Fund may, through the use of financial derivative instruments, hold covered short positions provided that the long positions held by the Fund be sufficiently liquid to cover, at any time, its obligations resulting from its short positions.

Who should invest in the Fund?

Investors...

- seeking capital appreciation, which may occasionally be short term and to a lesser extent income by investing in undervalued companies located in member countries of the European Monetary Union;
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

<i>Investment Manager:</i>	Franklin Mutual Advisers, LLC (Short Hills, NJ, USA)

What does the Fund invest in?

Investment objective

- > Primary objective: capital appreciation, which may occasionally be short term.
- > Secondary objective: income.

Investment strategy

The Fund principally invests in equity securities and debt securities convertible or expected to be convertible into common or preferred stock of companies incorporated or having their principal activities in European countries that the investment manager believes are available at prices less than their actual value based on certain recognised or objective criteria (intrinsic value). These include common stocks, preferred stocks and convertible securities. The Fund invests predominantly its total net invested assets (being the Fund's assets less any cash or cash equivalents) in the securities of issuers organised under the laws of or whose principal business operations are located in European countries. For purposes of the Fund's investments, European countries means all of the countries that are members of the European Union, Eastern and Western Europe and those regions of Russia and the former Soviet Union that are considered part of Europe. The Fund currently intends to invest principally in securities of issuers in Western Europe. The Fund normally invests in securities from at least five different countries, although, from time to time, it may invest all of its assets in a single country. The Fund may invest up to 10% of its total net invested assets in securities of non-European issuers.

The Fund may also seek to invest in the securities of companies involved in mergers, consolidations, liquidations and reorganisations or as to which there exist tender or exchange offers, and may participate in such transactions. To a lesser extent, the Fund may also purchase debt securities, both secured and unsecured, of companies involved in reorganisation or financial restructuring.

The Investment Manager may take temporary defensive cash position when it believes the securities trading markets or the economies of countries where the Fund invests are experiencing excessive volatility or prolonged general decline or other adverse conditions.

The Fund may invest in financial derivative instruments, which may include, but are not limited to, futures, options, contracts for difference, forward contracts on financial instruments and options on such contracts, swaps such as credit default swaps, synthetic equity swaps or total return swaps. The Fund may, through the use of financial derivative instruments, hold covered short positions provided that the long positions held by the Fund be sufficiently liquid to cover, at any time, its obligations resulting from its short positions.

Who should invest in the Fund?

Investors...

- seeking capital appreciation, which may occasionally be short term and to a lesser extent, income.
- seeking investment in undervalued companies of any European country.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

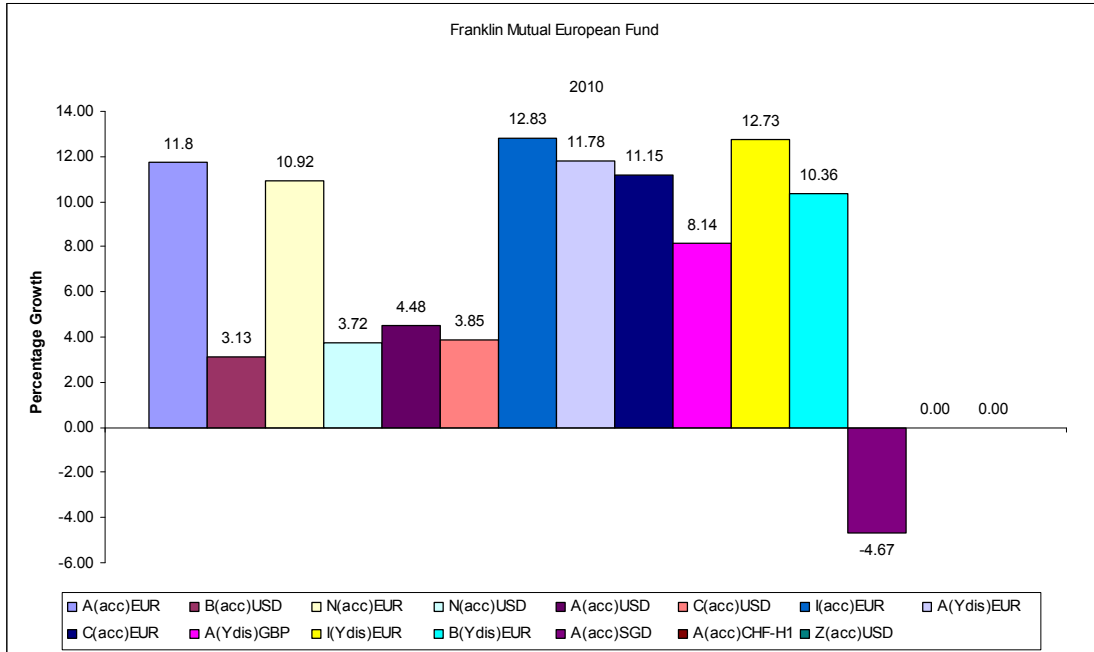

- Class Hedging risk
- Counterparty risk
- Credit risk
- Defaulted Debt Securities risk
- Derivative risk
- Equity risk
- Foreign Currency risk
- Interest Rate Securities risk
- Liquidity risk

<i>Investment Manager:</i>	Franklin Mutual Advisers, LLC (Short Hills, NJ, USA)

What does the Fund invest in?

Investment objective

> Capital appreciation.

Investment strategy

The Fund pursues its objective principally through investments in common stock, preferred stock and debt securities convertible or expected to be convertible into common or preferred stock of companies of any nation as well as in sovereign debts and participations in foreign government debts that the Investment Manager believes are available at market prices less than their value based on certain recognised or objective criteria (intrinsic value). The Fund primarily invests in mid- and large-cap companies with a market capitalisation around or greater than 1.5 billion US dollars.

The Fund may also seek to invest in the securities of companies involved in mergers, consolidations, liquidations and reorganisations or as to which there exist tender or exchange offers, and may participate in such transactions. To a lesser extent, the Fund may also purchase debt securities, both secured and unsecured, of companies involved in reorganisation or financial restructuring.

The Investment Manager may take temporary defensive cash position when it believes the securities trading markets or the economies of countries where the Fund invests are experiencing excessive volatility, a prolonged general decline or other adverse conditions.

The Fund may invest in financial derivative instruments, which may include, but are not limited to, futures, options, contracts for difference, forward contracts on financial instruments and options on such contracts, swaps such as credit default swaps, synthetic equity swaps or total return swaps. The Fund may, through the use of financial derivative instruments, hold covered short positions provided that the long positions held by the Fund be

sufficiently liquid to cover, at any time, its obligations resulting from its short positions.

Who should invest in the Fund?

Investors...

- seeking capital appreciation by investing in undervaluated companies worldwide.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

What does the Fund invest in?

Investment objective

> Capital appreciation through a diversified, value-oriented approach.

Investment strategy

The Fund generally invests in equity securities of companies of any market capitalisation located anywhere in the world, including Emerging Markets. The Fund will also seek to invest in the securities of companies involved in mergers, consolidations, liquidations and reorganisations or as to which there exist tender or exchange offers, and may participate in such transactions. It may also invest in debt securities from corporate issuers worldwide, in low-rated and non-investment grade debt securities of various issuers, in fixed or floating rate securities as well as in financial derivative instruments. These financial derivative instruments may include, inter alia, forwards and future contracts, options on such contracts, including those on government securities dealt in either on regulated markets or over-the-counter, swaps such as total return swaps or credit default swaps. The Fund may not invest more than 10% of its net assets in asset-backed securities.

The Fund makes an allocation of its assets between three different investment strategies followed independently by the Templeton Global, Templeton Emerging Markets and Mutual Series management groups, with the aim to maintain an equal exposure to two global equity strategies and one Emerging Market equity strategy, subject to appropriate monitoring and rebalancing. Such investment strategies are already followed broadly by Franklin Templeton Investments in respect of certain of its US registered funds and focus respectively on worldwide

Franklin Templeton Global Fundamental Strategies Fund

Fund details

<i>Type of Fund:</i>	Balanced Fund
<i>Base currency:</i>	USD
<i>Alternative Currencies:</i>	EUR, PLN
<i>Launch date:</i>	25 October 2007
<i>Management charges:</i>	Monthly fee equivalent to 1.00% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I (acc) Shares: 0.70%.
<i>Total Expense Ratio:</i>	A(acc) USD: 1.90%; A(acc) EUR: 1.90%; A(Ydis) USD: 1.89%; A(Ydis) EUR: 1.90%; A(acc) EUR-H1: 1.89%; B(acc) USD: 3.21%; C(acc) USD: 2.47%; I(acc) EUR: 0.98%; N(acc) EUR-H1: 2.64%; N(acc) PLN-H1: 2.64%
<i>Investment Managers:</i>	Franklin Mutual Advisers, LLC (Short Hills, NJ, USA), Franklin Advisers, Inc. (San Mateo, CA, USA) and Templeton Global Advisors Limited (Nassau, Bahamas)

What does the Fund invest in?

Investment objective

- > Primary objective: capital appreciation through a diversified, value-oriented approach.
- > Secondary objective: income.

Investment strategy

The Fund generally invests in equity securities of companies of any market capitalisation located anywhere in the world, including Emerging Markets, as well as fixed and floating rate debt securities and debt obligations issued by government, government-related and/or corporate entities worldwide, as well as debt obligations issued by supranational entities organised or supported by several national governments, such as the International Bank for Reconstruction and Development or the European Investment Bank. The Fund may in addition invest in securities of companies involved in mergers, consolidations, liquidations and reorganisations or as to which there exist tender or exchange offers, and may participate in such transactions. It may also invest in low-rated, non-investment grade and defaulted debt securities of various issuers, in fixed or floating rate securities, either directly or through regulated investment funds (subject to the limits indicated below). The Fund may also utilise financial derivative instruments for investment purposes. These financial derivative instruments may be dealt either in regulated markets or over-the-counter, and may include, inter alia, swaps (such as credit default swaps or total return swaps), forwards and cross forwards, futures contracts (including those on government securities), as well as options. Use of financial derivative instruments may result in negative exposures in a specific yield curve/duration, currency or credit. The Fund may also invest in securities or structured products where the security is linked to or derives its value from another security or is linked to assets or currencies of any country. The Fund may invest up to 10% of its net assets in units of UCITS and other UCIs but

not invest more than 10% of its net assets in asset-backed securities.

The Fund makes an allocation of its assets between three different investment strategies followed independently by the Franklin, Templeton and Mutual Series management groups, with the aim to maintain an equal exposure to two global equity strategies and one global fixed income strategy, subject to appropriate monitoring and rebalancing. Such investment strategies are already followed broadly by Franklin Templeton Investments in respect of certain of its US registered funds and focus respectively on fixed and floating rate debt securities of government, government-related or corporate issuers across the world, on worldwide equity securities selling at prices unusually low relative to the Investment Managers' appraisal of value as well as on equity viewed as undervalued by the Investment Manager or convertible debt securities including securities of companies involved in mergers, consolidations, liquidations or other reorganisation.

Who should invest in the Fund?

Investors...

- seeking capital appreciation and current income by investing in a diversified portfolio of equity and debt securities worldwide and benefiting from 3 investment strategies.
- planning to hold their investment for the medium to the long term.

What are the main risks of investing in the Fund?

- Class Hedging risk
- Counterparty risk
- Credit risk
- Derivative risk
- Emerging Markets risk
- Equity risk
- Foreign Currency risk
- Interest Rate Securities risk

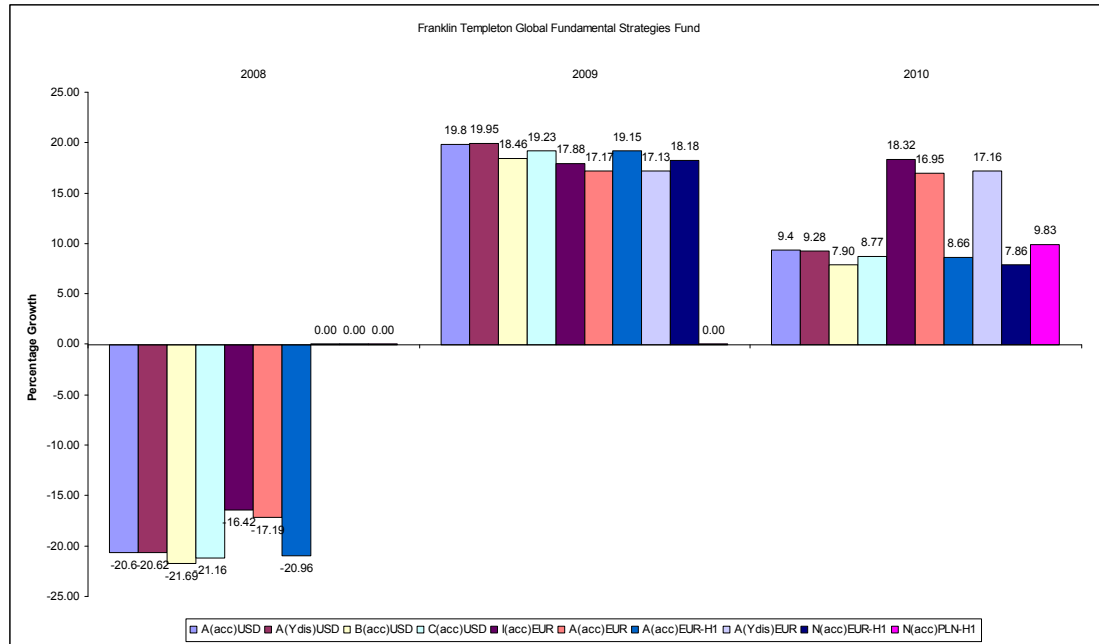

- Liquidity risk
- Low-Rated or Non-Investment Grade Securities risk
- Market risk
- Restructuring Companies risk

- Swap Agreements risk

See the Section "Risk Considerations" for a full discussion of these risks.

Past Performance:

The following chart shows the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in this chart.

Franklin Templeton Global Growth and Value Fund

Fund details

<i>Type of Fund:</i>	Equity Fund
<i>Base currency:</i>	USD
<i>Alternative currencies:</i>	EUR, SGD
<i>Launch date:</i>	9 September 2002
<i>Management charges:</i>	Monthly fee equivalent to 1.00% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I and Class X Shares. For Class I (acc) Shares: 0.70%.
<i>Total Expense Ratio:</i>	A(acc) USD: 1.87%; B(acc) USD: 3.18%; C(acc) USD: 2.45%; I(acc) USD: 0.97%; I(acc) EUR: 0.88%; N(acc) USD: 2.62%; X(acc) SGD: 0.27%
<i>Investment Managers:</i>	Franklin Templeton Institutional, LLC (New York, NY, USA)

What does the Fund invest in?

Investment objective

> Capital appreciation.

Investment strategy

The Fund invests in equity securities and debt securities convertible or expected to be convertible into common or preferred stocks of companies of any market capitalisation located anywhere in the world, including Emerging Markets. At least half of the Fund's assets without taking into account ancillary liquid assets shall be made in equity securities or similar instruments. The Fund may also invest in American, European and Global Depository Receipts. The Fund invests in both "value" and "growth" stocks and the allocation of assets to each is monitored and rebalanced regularly.

Who should invest in the Fund?

Investors...

- seeking capital appreciation by investing in a portfolio combining both growth and value equities from around the world.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Counterparty risk
- Equity risk
- Foreign Currency risk
- Growth Stocks risk
- Liquidity risk
- Market risk

Franklin Templeton Japan Fund

Fund details

<i>Type of Fund:</i>	Equity Fund
<i>Base currency:</i>	JPY
<i>Alternative currencies:</i>	EUR, GBP, USD, SGD
<i>Launch date:</i>	1 September 2000
<i>Management charges:</i>	Monthly fee equivalent to 1.00% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.70%.
<i>Total Expense Ratio:</i>	A(acc) JPY: 1.96%; A(acc) EUR: 1.95%; A(acc) USD: 1.96%; A(acc) SGD: 1.96%; A(Ydis) EUR: 1.91%; A(Ydis) GBP: 1.93%; B(acc) USD: 3.25%; C(acc) USD: 2.53%; I(acc) EUR: 1.00%; I(acc) USD: 0.99%; N(acc) EUR: 2.70%; N(acc) USD: 2.70%;
<i>Investment Manager:</i>	Franklin Templeton Investments Japan Limited (Japan)

What does the Fund invest in?

Investment objective

> Capital appreciation.

Investment strategy

The Fund invests primarily in equity securities of issuers incorporated or having their principal business activities in Japan.

In addition, the Fund may also seek investment opportunities in other types of securities such as preferred stocks, securities convertible into common stocks, and corporate and government debt obligations which are Japanese Yen and non-Japanese Yen denominated.

Who should invest in the Fund?

Investors...

- seeking capital appreciation by investing in a growth-style investment concentrated in Japanese equity securities.
- planning to hold their investment for the medium to long term.

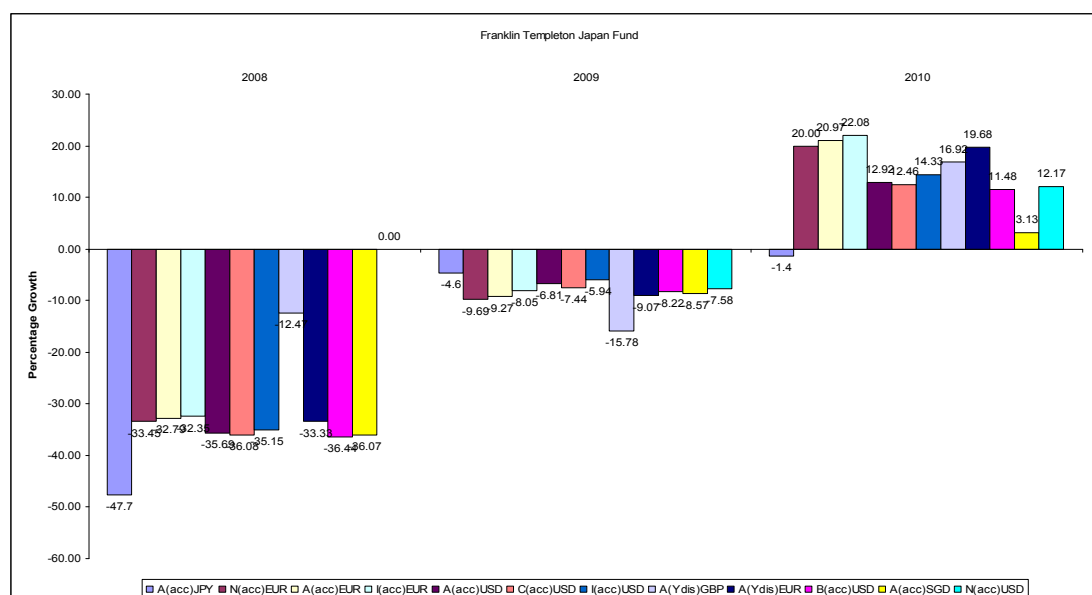

What are the main risks of investing in the Fund?

- Counterparty risk
- Equity risk
- Liquidity risk
- Market risk

See the Section "Risk Considerations" for a full discussion of these risks.

Past Performance:

Templeton Asian Bond Fund

Fund details

<i>Type of Fund:</i>	Fixed Income Fund
<i>Base currency:</i>	USD
<i>Alternative currencies:</i>	EUR, SGD, CHF
<i>Launch date:</i>	25 October 2005
<i>Management charges:</i>	Monthly fee equivalent to 0.75% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.55%.
<i>Total Expense Ratio:</i>	A(acc) USD: 1.42%; A(acc) EUR: 1.41%; A(acc) EUR-H1: 1.42%; A(acc) CHF-H1: 1.43%; A(Mdis) SGD: 1.41%; A(Mdis) SGD-H1: 1.39%; A(Mdis) USD: 1.41%; A(Mdis) EUR: 1.42%; B(Mdis) USD: 2.88%; C(Mdis) USD: 2.20%; I(acc) USD: 0.86%; I(acc) EUR: 0.86%; I(acc) EUR-H1: 0.86%; I(acc) CHF-H1: 0.86%; I(Mdis) EUR: 0.86%; N(acc) USD: 2.12%; N(acc) EUR: 2.12%; N(Mdis) USD: 2.11%; Z(acc) USD: 1.13%
<i>Investment Manager:</i>	Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

> To maximise, consistent with prudent investment management, total investment return consisting of a combination of interest income, capital appreciation and currency gains.

Investment strategy

The Fund seeks to achieve its objective by investing principally in a portfolio of fixed and floating rate debt securities and debt obligations issued by government and government-related issuers, and/or corporate entities located throughout Asia. The Fund may also purchase debt obligations issued by supranational entities organised or supported by several national governments, such as the International Bank for Reconstruction and Development or the European Investment Bank. The Fund may also utilise financial derivative instruments for investment purposes. These financial derivative instruments may be dealt either in regulated markets or over-the-counter, and may include, inter alia, swaps (such as credit default swaps or total return swaps), forwards and cross forwards, futures contracts (including those on government securities), as well as options. Use of financial derivative instruments may result in negative exposures in a specific yield curve/duration, currency or credit. The Fund may also, in accordance with the investment restrictions, invest in securities or structured products where the security is linked to or derives its value from another security or is linked to assets or currencies of any Asian country. The Fund may also purchase mortgage and asset-backed securities and convertible bonds. The Fund may invest in investment grade and non-investment grade debt securities issued by Asian issuers including securities in default. The Fund may purchase fixed income securities and debt obligations denominated in any currency and it may hold equity securities to the extent that such securities result from the conversion or exchange of a preferred stock or debt

obligation. The Fund may also participate in mortgage dollar roll transactions.

The Fund may invest up to 33% of its total assets, either directly or through the use of financial derivative instruments, in fixed and floating rate debt securities and debt obligations issued by government and government-related issuers or corporate entities located outside of Asia which are impacted by economic or financial dynamics in Asia.

Who should invest in the Fund?

Investors...

- seeking total investment return consisting of interest income, capital appreciation and currency gains by investing primarily in debt securities of issuers located throughout Asia.
- planning to hold their investment for the medium to long term.

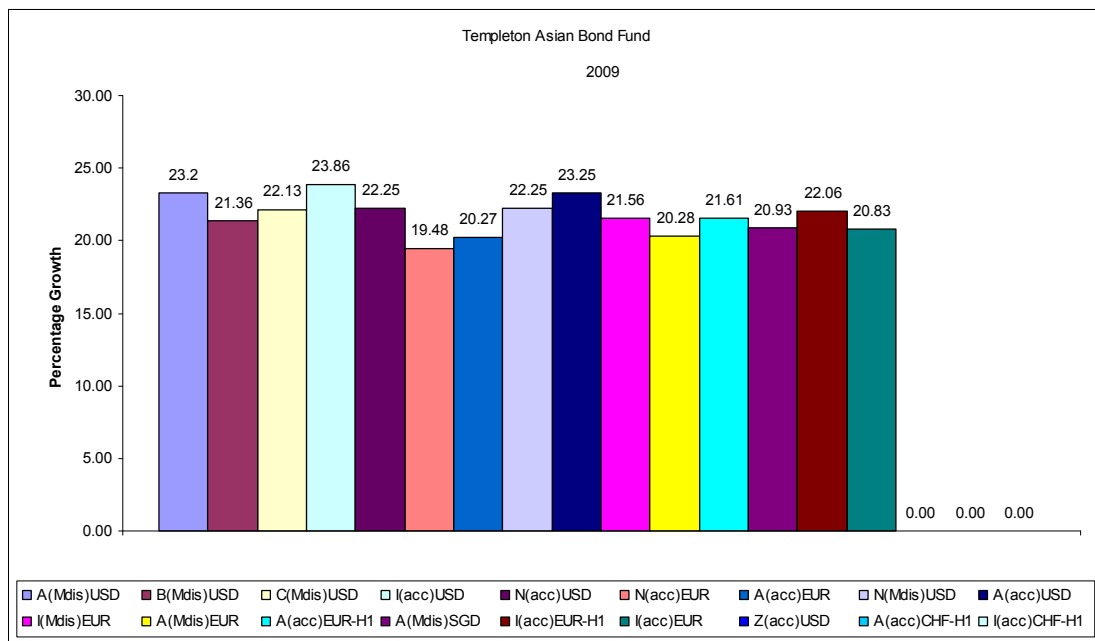

What are the main risks of investing in the Fund?

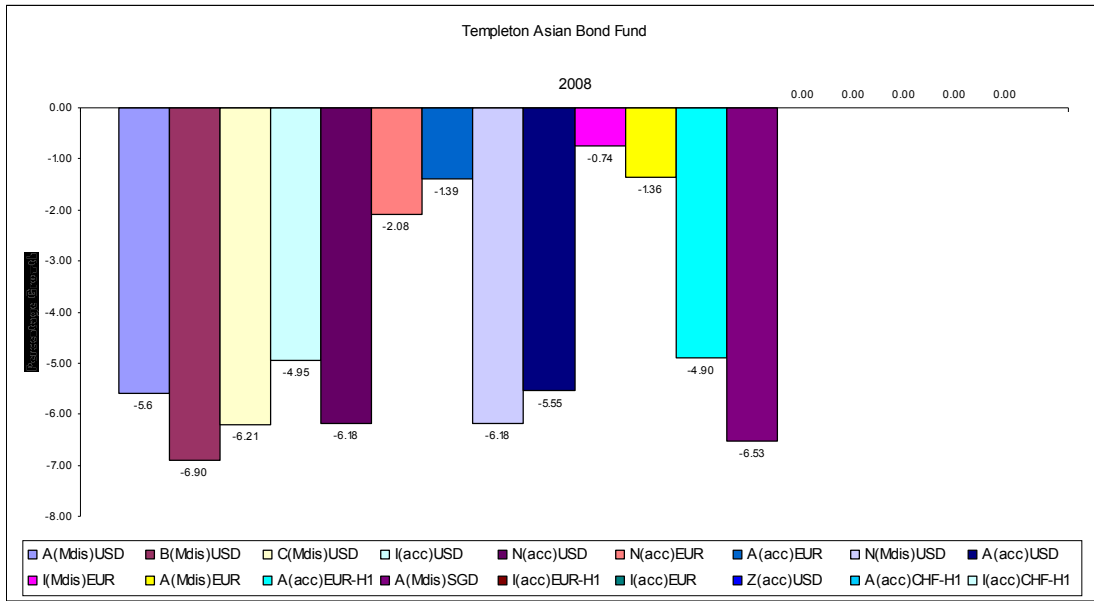

- Class Hedging risk
- Counterparty risk
- Credit risk
- Credit-Linked Securities risk
- Defaulted debt securities risk
- Derivative risk
- Emerging Markets risk
- Foreign Currency risk
- Interest Rate Securities risk
- Liquidity risk
- Low-Rated or Non-Investment Grade Securities risk
- Market risk
- Mortgage- and Asset-Backed Securities risk
- Sovereign Debt risk
- Swap Agreements risk

See the Section "Risk Considerations" for a full discussion of these risks.

Past Performance:

The following charts show the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in these charts.

Templeton Asian Growth Fund

Fund details

Type of Fund:	Equity Fund
Base currency:	USD
Alternative currencies:	EUR, GBP, SGD, HUF, HKD, CHF, PLN
Launch date:	30 June 1991
Management charges:	Monthly fee equivalent to 1.35% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I and Class X Shares. For Class I Shares: 0.90%.
Total Expense Ratio:	A(acc) USD: 2.22%; A(acc) CHF-H1: 2.23%; A(acc) EUR: 2.23%; A(acc) HKD: 2.26%; A(acc) EUR-H1: 2.23%; A(acc) SGD: 2.22%; A(Ydis) EUR: 2.23%; A(Ydis) GBP: 2.23%; A(Ydis) USD: 2.22%; B(acc) USD: 3.50%; C(acc) USD: 2.80%; I(acc) USD: 1.20%; I(acc) EUR: 1.20%; I(acc) CHF-H1: 1.25%; I(acc) EUR-H1: 1.22%; I(Ydis) EUR-H2: 1.20%; N(acc) USD: 2.72%; N(acc) EUR: 2.73%; N(acc) EUR-H1: 2.74%; N(acc) PLN-H1: 2.76%; N(acc) HUF: 2.86%; X(acc) SDG: 0.30%; Z(acc) USD: 1.75%; Z(Ydis) EUR-H1: 1.71%; Z(Ydis) USD: N/A
Investment Manager:	Templeton Asset Management Ltd. (Singapore)

What does the Fund invest in?

Investment objective

> Long-term capital appreciation.

Investment strategy

The Fund applies the traditional Templeton investment method. The stock selection approach is bottom-up, long-term value-oriented with strong emphasis on diligence and discipline. The Fund invests primarily in equity securities listed in Asia.

The Fund may also invest in equity securities, which are listed on recognised exchanges in capital markets of the Asia Region (excluding Australia, New Zealand and Japan). The Asia Region includes but is not limited to the following countries: Hong Kong, India, Indonesia, Korea, Malaysia, People's Republic of China, Pakistan, Philippines, Singapore, Sri Lanka, Taiwan and Thailand. Under normal market conditions, the Fund invests primarily in common stocks.

Since the investment objective is more likely to be achieved through an investment policy that is flexible and adaptable, the Fund may seek investment

opportunities in other types of transferable securities, including fixed income securities.

Who should invest in the Fund?

Investors...

- seeking capital appreciation by investing in securities of companies in Asia, including Emerging Markets.
- planning to hold their investment for the medium to long term.

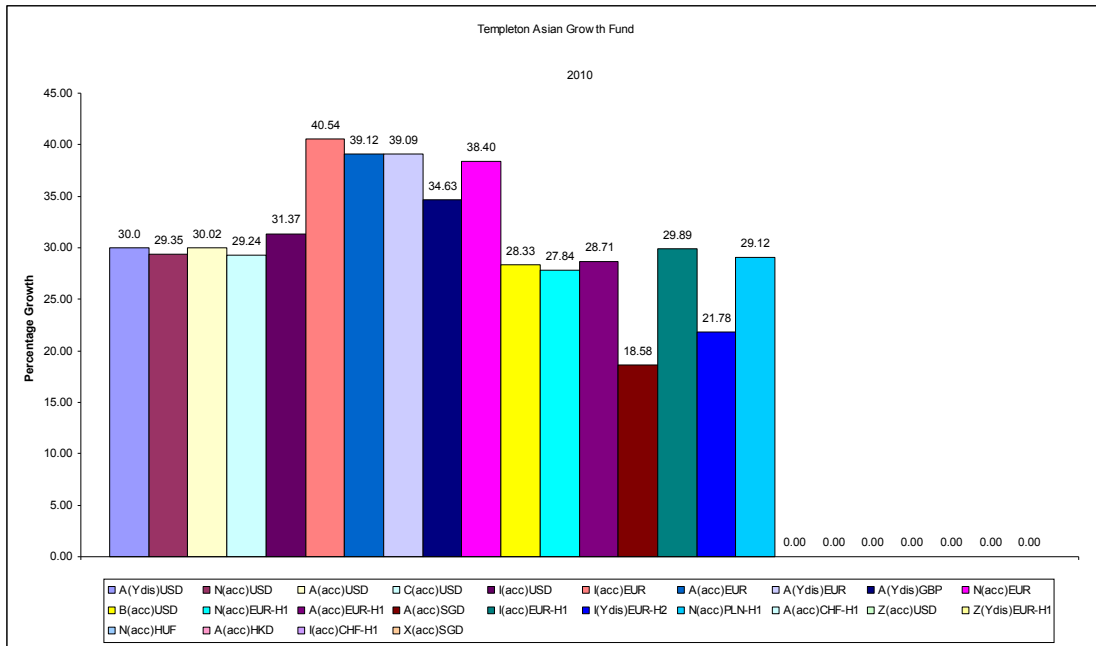

What are the main risks of investing in the Fund?

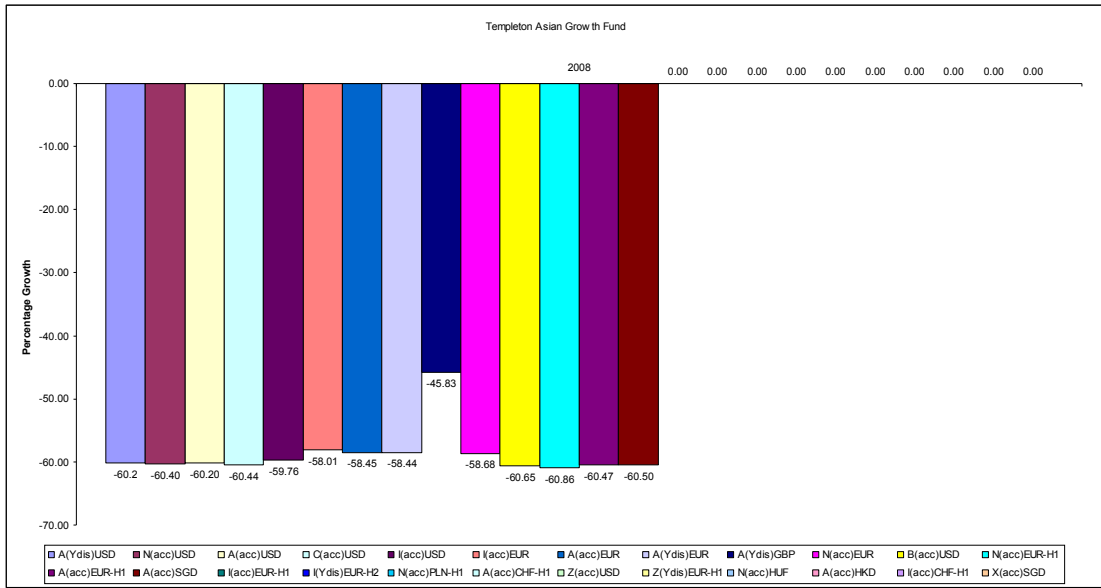

- Class Hedging risk
- Counterparty risk
- Emerging Markets risk
- Equity risk
- Foreign Currency risk
- Liquidity risk
- Market risk

See the Section "Risk Considerations" for a full discussion of these risks.

Past Performance:

The following charts show the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in these charts.

Templeton Asian Smaller Companies Fund

Fund details

<i>Type of Fund:</i>	Equity Fund
<i>Base currency:</i>	USD
<i>Alternative currencies:</i>	EUR, GBP, SGD
<i>Launch date:</i>	14 October 2008
<i>Management charges:</i>	Monthly fee equivalent to 1.35% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.90%.
<i>Total Expense Ratio:</i>	A(acc) USD: 2.29%; A(acc) EUR: 2.26%; A(acc) SGD: 2.23%; A(Ydis) USD: 2.26%; A(Ydis) GBP: 2.23%; B(acc) USD: 3.59%; B(acc) EUR: 3.66%; I(acc) USD: 1.21%; I(acc) EUR: 1.20%; I(Ydis) GBP: 1.20%; N(acc) USD: N/A; N(acc) EUR: N/A
<i>Investment Manager:</i>	Templeton Asset Management Ltd. (Singapore)

What does the Fund invest in?

Investment objective

> Long-term capital appreciation.

Investment strategy

The Fund invests primarily in transferable equity securities as well as depository receipts of small cap companies (i) which are incorporated in the Asia region, and/or (ii) which have their principal business activities in the Asia region. The Asia Region includes but is not limited to the following countries: Bangladesh, Cambodia, Hong Kong, India, Indonesia, Korea, Malaysia, People's Republic of China, Pakistan, Philippines, Singapore, Sri Lanka, Taiwan, Thailand and Vietnam. Furthermore, for the purpose of the Fund's investment objective, Asian small cap companies are those having a market capitalisation at the time of the purchase of less than USD 2 billion.

In addition, since the investment objective is more likely to be achieved through an investment policy which is flexible and adaptable, the Fund may also invest in other types of transferable securities, including equity and fixed income securities of issuers worldwide.

Past Performance:

The following chart shows the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in this chart.

Who should invest in the Fund?

Investors...

- seeking capital appreciation by investing primarily in equity securities of small cap companies located in the Asia region;
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Counterparty risk
- Emerging Markets risk
- Equity risk
- Foreign Currency risk
- Liquidity risk
- Market risk
- Small and Mid-Sized Companies risk

See the Section "Risk Considerations" for a full discussion of these risks.

Templeton BRIC Fund

Fund details

<i>Type of Fund:</i>	Equity Fund
<i>Base currency:</i>	USD
<i>Alternative currencies:</i>	EUR, GBP, SGD, HKD, PLN
<i>Launch date:</i>	25 October 2005
<i>Management charges:</i>	Monthly fee equivalent to 1.60% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I and Class X Shares. For Class I Shares: 1.10%.

Templeton Eastern Europe Fund

Fund details

Type of Fund:	Equity Fund
Base currency:	EUR
Alternative currencies:	GBP, USD, SGD
Launch date:	10 November 1997
Management charges:	Monthly fee equivalent to 1.60% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I and Class X Shares. For Class I (acc) Shares: 1.10%.
Total Expense Ratio:	A(acc) EUR: 2.56%; A(acc) SGD: 2.56%; A(acc) USD: 2.57%; A(Ydis) EUR: 2.56%; A(Ydis) GBP: 2.56%; B(acc) USD: 3.88%; B(Ydis) EUR: 3.75%; C(acc) EUR: 3.14%; C(acc) USD: 3.13%; I(acc) EUR: 1.40%; N(acc) EUR: 3.06%; X(acc) EUR: 0.30% ; Z(acc) USD: 2.09%
Investment Manager:	Templeton Asset Management Ltd. (Singapore)

What does the Fund invest in?

Investment objective

> Capital appreciation.

Investment strategy

The Fund invests primarily in listed equity securities of issuers organised under the laws of, or with their principal activities within, the countries of Eastern Europe, as well as the New Independent States, e.g. the countries in Europe and Asia that were formerly part of or under the influence of the Soviet Union in the past (the "Region").

The Fund may also invest in securities issued by the governments of the above-mentioned countries and privatisation certificates of companies located, or with their principal activities, within the Region. Eastern Europe includes the following countries: Albania, Bosnia and Herzegovina, Bulgaria, Croatia, Cyprus, the Czech Republic, Greece, Hungary, the Former Yugoslav Republic of Macedonia, Malta, Montenegro, Poland, Romania, Russia, Serbia, the Slovak Republic, Slovenia, and Turkey. The New Independent States that were formerly part of the Soviet Union, apart from Russia itself, include: Armenia, Azerbaijan, Belarus, Estonia, Georgia, Kazakhstan, Kyrgyzstan, Latvia, Lithuania, Moldova, Tajikistan, Turkmenistan, Ukraine, and Uzbekistan. The Investment Manager anticipates that the Fund invests primarily in companies (i) of which, if listed, the principal equity securities market is in the Region; or (ii) that derive at least 50% of their revenues or profits from goods produced or sold, investments made, or services

performed, in the Region; or (iii) that have at least 50% of their assets situated in the Region. The Fund primarily invests in equity securities of publicly traded companies. Preference is given to the countries with functioning stock markets where foreign investment is permitted and appropriate custodial arrangements exist.

Who should invest in the Fund?

Investors...

- seeking capital appreciation by investing in the Eastern European region, including Emerging Markets.
- planning to hold their investment for the medium-long term.

What are the main risks of investing in the Fund?

- Counterparty risk
- Emerging Markets risk
- Equity risk
- Foreign Currency risk
- Liquidity risk
- Market risk
- Non-Regulated Markets risk
- Russian and Eastern European Markets risk

What does the Fund invest in?

Investment objective

> Capital appreciation.

Investment strategy

The Fund invests primarily in equity securities, and as an ancillary matter in debt obligations, issued by corporations incorporated or having their principal business activities in, and governments of, developing or emerging nations.

The Fund may also invest in those companies, which derive a significant proportion of their revenues or profits from emerging economies or have a significant portion of their assets in emerging economies. The Fund may also invest in equity and debt securities of issuers that are linked to assets or currencies of emerging nations. The Fund invests primarily in common stocks.

Since the investment objective is more likely to be achieved through an investment policy that is flexible and adaptable, the Fund may seek investment opportunities in other types of securities, such as preferred stock, securities convertible into common stock, and corporate and government debt

Past Performance:

The following chart shows the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in this chart.

obligations, which are US dollar and non-US dollar denominated.

Who should invest in the Fund?

Investors...

- seeking capital appreciation by investing in Emerging Markets.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Counterparty risk
- Emerging Markets risk
- Equity risk
- Foreign Currency risk
- Liquidity risk
- Market risk
- Non-Regulated Markets risk
- Russian and Eastern European Markets risk

See the Section "Risk Considerations" for a full discussion of these risks.

Templeton Emerging Markets Balanced Fund

<i>Base currency:</i>	USD
<i>Alternative currencies:</i>	EUR, CHF, GBP, SGD
<i>Launch date:</i>	29 April 2011
<i>Management charges:</i>	Monthly fee equivalent to 1.30% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I and Class X Shares. For Class I Shares: 0.90%.
<i>Total Expense Ratio:</i>	A(acc) USD: N/A; A(acc) EUR: N/A; A(acc) EUR-H1: N/A; A(acc) CHF-H1: N/A; A(Qdis) USD: N/A; A(Ydis) EUR: N/A; A(Ydis) EUR-H1: N/A; A(Qdis) GBP: N/A; A(Qdis) GBP-H1: N/A; A(Qdis) SGD-H1: N/A; B(Mdis) USD: N/A; C(acc) USD: N/A; I(acc) USD: N/A; I(acc) EUR: N/A; I(acc) EUR-H1: N/A; I(Ydis) EUR-H1: N/A; N(acc) USD: N/A; N(acc) EUR-H1: N/A; X(acc) USD: N/A; Z(acc) USD: N/A
<i>Investment Manager:</i>	Franklin Advisers, Inc. (San Mateo, CA, USA) and Templeton Asset Management Ltd. (Singapore)

What does the Fund invest in?

Investment objective

> To maximise, consistent with prudent investment management, a combination of capital appreciation, income and currency gains.

Investment strategy

The Fund seeks to achieve its objective by investing principally in a diversified portfolio of equity securities, fixed and floating rate debt securities and debt obligations issued by government, government-related issuers and corporate entities which are located, incorporated or have their principal business activities in developing or Emerging Market countries.

The Fund may also utilise financial derivative instruments for investment purposes. These financial derivative instruments may be dealt either in regulated markets or over-the-counter, and may include, inter alia, swaps (such as credit default swaps or total return swaps), forwards and cross forwards, futures contracts (including those on government securities), as well as options. Use of financial derivative instruments may result in negative exposures in a specific yield curve/duration, currency or credit. The Fund may also, in accordance with the investment restrictions, invest in securities or structured products where the security is linked to or derives its value from another security or is linked to assets or currencies of any developing or Emerging Market country. In addition, the Fund may purchase preferred stock, common stock and other equity linked securities, warrants, and debt securities exchangeable or convertible into common stock and denominated in any currency. The Fund may purchase fixed income securities, debt obligations and equity securities denominated in any currency. The Fund may also invest up to 10% of its net assets in units of UCITS and other UCIs and up to 10% of its total net assets in securities in default.

The Fund may also invest in securities issued by government, government related issuers or corporate entities located outside of developing or Emerging Market countries but which derive a significant proportion of their revenues or profits from, have a significant portion of their assets in or are impacted by economic / financial dynamics in developing or Emerging Market countries.

The Fund will typically hold both Emerging Market equity and debt securities but the proportion of its assets allocated to each may vary over time depending on the Investment Managers' view of the relative attractiveness of each asset class.

Who should invest in the Fund?

Investors...

- seeking a combination of capital appreciation, income and currency gains by investing in Emerging Markets;
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Counterparty risk
- Credit risk
- Defaulted Debt Securities risk
- Derivative risk
- Emerging Markets risk
- Equity risk
- Foreign Currency risk
- Interest Rate Securities risk
- Liquidity risk
- Low-Rated or Non-Investment Grade Securities risk

<i>Investment Manager:</i>	Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

> To maximise, consistent with prudent investment management, total investment return, consisting of a combination of interest income, capital appreciation and currency gains.

Investment strategy

The Fund seeks to achieve its objective by investing principally in a portfolio of fixed and floating rate debt securities (including non-investment grade securities) and debt obligations issued by government and government-related issuers or corporate entities located in developing or Emerging Market countries. The Fund may also purchase debt obligations issued by supranational entities organised or supported by several national governments, such as the International Bank for Reconstruction and Development or the European Investment Bank. The Fund may also utilise financial derivative instruments for investment purposes. These financial derivative instruments may be dealt either in regulated markets or over-the-counter, and may include, inter alia, swaps (such as credit default swaps or total return swaps), forwards and cross forwards, futures contracts (including those on government securities), as well as options. Use of financial derivative instruments may result in negative exposures in a specific yield curve/duration, currency or credit. The Fund may also, in accordance with the investment restrictions, invest in securities or structured products where the security is linked to or derives its value from another security or is linked to assets or currencies of any developing or Emerging Market country. In addition, the Fund may purchase preferred stock, common stock and other equity linked securities, warrants, and debt securities exchangeable or convertible into common stock and denominated in any currency. The Fund may hold up to 10% of its total net assets in securities in default. The Fund may purchase fixed income securities, debt

obligations and equity securities denominated in any currency.

The Fund may invest up to 33% of its total assets, either directly or through the use of financial derivative instruments, in fixed and floating rate debt securities and debt obligations issued by government and government-related issuers or corporate entities located outside of developing or Emerging Market countries which are impacted by economic or financial dynamics in developing or Emerging Market countries.

Who should invest in the Fund?

Investors...

- seeking potentially above-average levels of income and capital appreciation by investing in Emerging Markets fixed income securities.
- planning to hold their investment for the medium to long term.

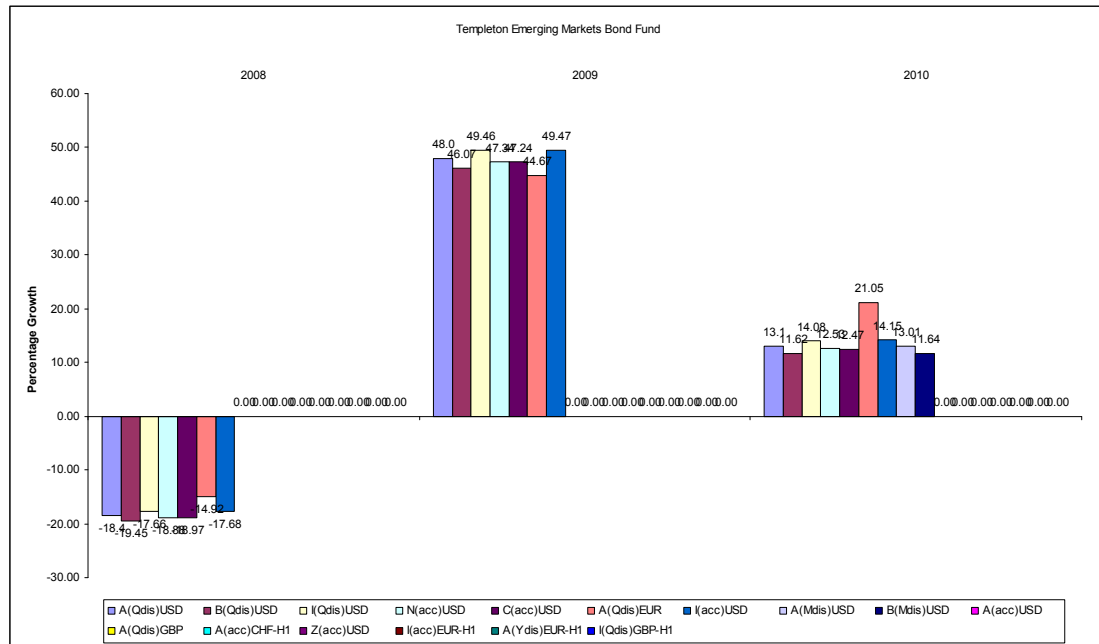

What are the main risks of investing in the Fund?

Templeton Emerging Markets Smaller Companies Fund

Fund details

Type of Fund:	Equity Fund
Base currency:	USD
Alternative currencies:	EUR, GBP
Launch date:	18 October 2007
Management charges:	Monthly fee equivalent to 1.60% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 1.10%.
Total Expense Ratio:	A(acc) USD: 2.50%; A(acc) EUR: 2.50%; A(Ydis) USD: 2.50%; A(Ydis)GBP: 2.50%; C(acc) USD: 3.10%; I(acc) USD: 1.40%; I(acc) EUR: 1.40%; N(acc) USD: 3.00%
Investment Manager:	Templeton Asset Management Ltd. (Singapore)

What does the Fund invest in?

Investment objective

> Long-term capital appreciation.

Investment strategy

The Fund invests primarily in equity securities as well as depository receipts of (i) small cap companies registered in the Emerging Markets, (ii) small cap companies which perform a substantial part of their business in Emerging Markets, and (iii) small cap holding companies which hold a substantial part of their participations in companies referred to in (i). For the purpose of the Fund's investment objective, Emerging Market small cap companies are normally those having a market capitalisation at the time of the purchase of less than USD 2 billion.

On an ancillary basis, the Fund may also invest in debt securities of Emerging Market countries, which may be low-rated or unrated, and in transferable securities of issuers located in the developed countries.

Who should invest in the Fund?

Investors...

- seeking capital appreciation by investing in Emerging Markets small cap securities.
- planning to hold their investment for the medium to long term.

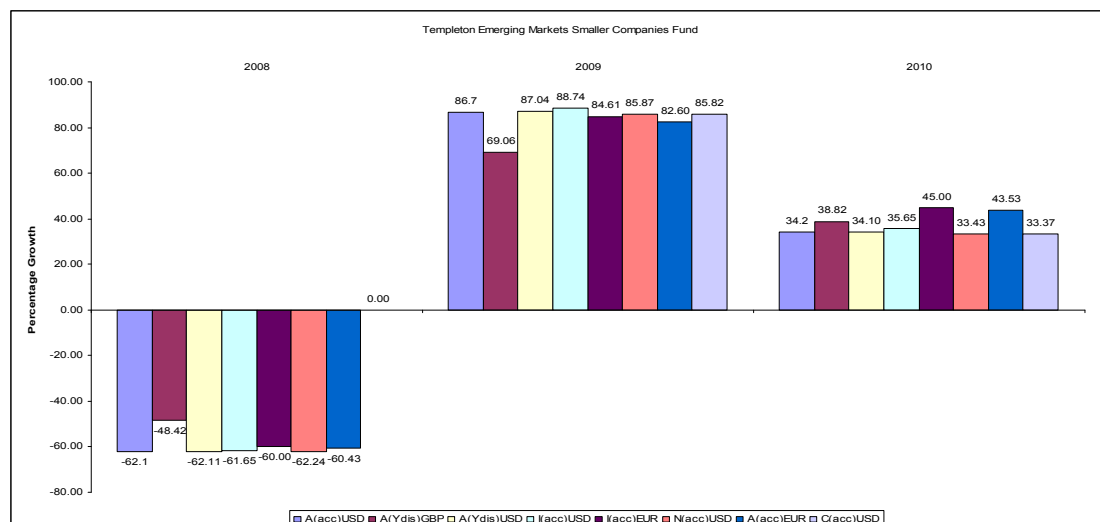

What are the main risks of investing in the Fund?

- Counterparty risk
- Emerging Markets risk
- Equity risk
- Foreign Currency risk
- Liquidity risk
- Market risk
- Small and Mid-sized Companies risk

See the Section "Risk considerations" for a full discussion of these risks.

Past Performance:

Templeton Euro Government Bond Fund

Fund details

Type of Fund:	Fixed Income Fund
Base currency:	EUR
Launch date:	8 January 1999
Management charges:	Monthly fee equivalent to 0.50% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.35%.
Total Expense Ratio:	A(Ydis): 1.12%; I(acc): 0.62%; N(acc): 1.67%
Investment Manager:	Franklin Templeton Investment Management Limited (Edinburgh, UK)

What does the Fund invest in?

Investment objective

> To maximise, consistent with prudent investment management, total investment return, consisting of a combination of interest income and capital appreciation.

Investment strategy

The Fund principally invests in investment grade obligations of government and government-related issuers as well as supranational entities located throughout the European Monetary Union ("EMU").

In addition, in accordance with the investment restrictions, the Fund may invest in debt obligations of government, supranational and government-related issuers worldwide (including non-investment grade securities) with a maximum 15% combined limit for investments in securities issued by (i) non-EMU issuers and (ii) issuers with ratings of BB+ or below and Ba1 or below.

Such debt obligations shall be denominated in or hedged to Euro.

Who should invest in the Fund?

Investors...

- seeking to maximise total investment return consisting of interest income.
- seeking current income from debt securities of any issuer from member countries of the European Monetary Union.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Counterparty risk
- Credit risk
- Derivative risk
- Interest Rate Securities risk
- Liquidity risk
- Low-Rated or Non-Investment Grade Securities risk
- Market risk

See the Section "Risk Considerations" for a full discussion of these risks.

Past Performance:

The following chart shows the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in this chart.

Templeton Euro High Yield Fund^{***}

Fund details

Type of Fund:	Fixed Income Fund
Base currency:	EUR
Alternative currency:	USD
Launch date:	17 April 2000
Management charges:	Monthly fee equivalent to 0.80% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.60%.
Total Expense Ratio:	A(acc) EUR: 1.51%; A(Mdis) EUR: 1.51%; A(Mdis) USD: 1.54%; A(Ydis) EUR: 1.51%; B(Mdis) EUR: 2.94%; B(Mdis) USD: 2.93%; I(acc) EUR: 0.85%; I(Mdis) EUR: 0.59%; I(Ydis) EUR: 0.85%; N(acc) EUR: 2.11%
Investment Managers:	Franklin Templeton Investment Management Limited (Edinburgh, UK) and Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

- > Primary objective: a high level of current income.
- > Secondary objective: capital appreciation, but only when consistent with its principal objective.

Investment strategy

The Fund seeks to achieve these objectives by investing principally, either directly or through the use of financial derivative instruments, in fixed income debt securities of European or non-European issuers. The financial derivative instruments may include, inter alia, swaps such as credit default swaps or total return swaps, forwards, futures contracts, as well as options on such contracts dealt in either on regulated markets or over-the-counter. The Fund principally invests in Euro-denominated or non-Euro denominated Euro-hedged, fixed income debt securities with non-investment grade ratings, or if unrated, their equivalent. The Investment Managers attempt to avoid excessive risk by performing independent credit analyses of issuers and by diversifying the Fund's investments among different issuers.

Since the investment objective is more likely to be achieved through an investment policy that is flexible and adaptable, the Fund may also, temporarily and/or on an ancillary basis, seek investment opportunities in any other types of Euro-denominated securities such as government securities, preferred stock, common stock and other equity linked securities, warrants and securities and bonds convertible into common stock. The Fund may invest up to 10% of its assets in credit-linked securities, which the Investment Managers may use as a means to invest more rapidly and efficiently in certain segments of the high yield, bank loan and

investment grade debt markets. The Fund may also invest up to 10% of its total assets in securities in default. The name of the Fund reflects the base currency of the Fund being in Euro, and does not necessarily imply that any particular proportion of the Fund's net invested assets are made in Euro.

Who should invest in the Fund?

Investors...

- seeking to earn a high level of income, and to a lesser extent, some capital appreciation in a Fund with the Euro as its base currency.
- seeking investment primarily in Euro-denominated high-yielding fixed income securities.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Counterparty risk
- Credit risk
- Credit-Linked Securities risk
- Defaulted Debt Securities risk
- Derivative risk
- Foreign Currency risk
- Interest Rate Securities risk
- Liquidity risk
- Low-Rated or Non-Investment Grade Securities risk
- Market risk
- Restructuring Companies risk
- Warrants risk

See the Section "Risk Considerations" for a full discussion of these risks.

Past Performance:

^{***}Previously named Franklin High Yield (Euro) Fund

Templeton Euro Liquid Reserve Fund

Fund details

Type of Fund:	Liquid Reserve Fund
Base currency:	EUR
Launch date:	1 June 1994
Management charges:	Monthly fee equivalent to 0.30% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.20%.
Total Expense Ratio:	A(acc): 0.63%; A(Ydis): 0.63%; I(acc): 0.37%; N(acc): 1.53%
Investment Manager:	Franklin Templeton Investment Management Limited (Edinburgh, UK)

What does the Fund invest in?

Investment objective

> High quality securities and money market instruments primarily Euro denominated, or hedged back into Euro to avoid any currency exposure.

Investment strategy

The Fund consists principally of transferable securities issued or guaranteed by the governments of any nation worldwide and eligible securities of corporate issuers of any nation. The portfolio is invested in a manner that the average remaining maturity of all securities and instruments comprised in the portfolio of the Fund does not exceed twelve months. For the purpose of calculating the residual maturity of each single security or instrument, the financial instruments attached thereto shall be taken into account. For the securities or instruments whose terms of issue provide for an adjustment of their interest rate by reference to market conditions, the residual maturity until the date on which the rate is adjusted shall be considered.

Who should invest in the Fund?

Investors...

- seeking current income and safety of principal by investing in high-quality fixed income securities, primarily Euro-denominated or hedged back to the Euro.
- planning to hold their investment for the short term.

What are the main risks of investing in the Fund?

- Counterparty risk
- Credit Risk
- Interest Rate Securities risk
- Liquidity risk
- Market risk

See the Section "Risk Considerations" for a full discussion of these risks.

Past Performance:

The following chart shows the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in this chart.

Templeton Euro Money Market Fund

Fund details

<i>Type of Fund:</i>	Money Market Fund
<i>Base currency:</i>	EUR
<i>Launch date:</i>	23 October 2009
<i>Management charges:</i>	Monthly fee equivalent to 0.25% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.20%.
<i>Total Expense Ratio:</i>	A(acc): 0.22%; I(acc): 0.32%; N(acc): N/A
<i>Investment Manager:</i>	Franklin Templeton Investment Management Limited (Edinburgh, UK)

What does the Fund invest in?

Investment objective

> To maintain a high degree of capital preservation and liquidity whilst maximising returns in the Euro currency by investing in a portfolio of high quality Euro denominated debt and debt related securities, money market securities and cash denominated in Euro.

Investment strategy

The Fund invests in high quality transferable short term fixed and floating rate debt, debt related and money market securities including (but not limited to) commercial paper, floating rate notes, certificates of deposit, repurchase agreements, debentures, bonds, cash and deposits.

These investments shall be denominated in Euro and up to 100% may be issued or guaranteed by sovereign governments and/or related entities, supranational entities, corporations and financial institutions. All investments at time of purchase shall have a minimum rating of A1/P1 or equivalent or, if unrated, be declared to be of comparable quality by the Investment Manager.

The Fund only holds securities which at the time of acquisition have an average initial or residual maturity not exceeding 397 days, taking into account any connected financial instruments and/or the terms and conditions governing those securities provide that the applicable interest rate is adjusted at least annually on the basis of market conditions. The Fund may not hold any floating rate instrument with a residual maturity of greater than two years. For this purpose, residual maturity is the earlier of an instrument's final legal maturity or its expected average life calculation.

Past Performance:

The following chart shows the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in this chart.

The Fund's portfolio has a weighted average maturity that does not exceed 60 days.

Who should invest in the Fund?

Investors...

- seeking current income and high degree of capital protection by investing in a portfolio of high quality Euro denominated debt and debt related securities, money market securities and cash denominated in EUR.
- planning to hold their investment for the short term

What are the main risks of investing in the Fund?

- Counterparty risk
- Credit risk
- Interest Rate Securities risk
- Market risk

Templeton Euroland Fund

Fund details

<i>Type of Fund:</i>	Equity Fund
<i>Base currency:</i>	EUR
<i>Alternative currency:</i>	USD
<i>Launch date:</i>	8 January 1999
<i>Management charges:</i>	Monthly fee equivalent to 1.00% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.70%.
<i>Total Expense Ratio:</i>	A(acc) EUR: 1.89%; A(Ydis) EUR: 1.89%; B(acc) USD : 3.22%; B(Ydis) EUR: 3.19%; C(acc) EUR: 2.49%; C(acc) USD: 2.48%; I(acc) EUR: 0.97%; I(Ydis) EUR : 0.99%; N(acc) EUR: 2.64%
<i>Investment Manager:</i>	Franklin Templeton Investment Management Limited (Edinburgh, UK)

What does the Fund invest in?

Investment objective

> Capital appreciation.

Investment strategy

The Fund invests primarily in equity and debt obligations of any issuer in a member country of the European Monetary Union including corporations and governments, whether denominated in Euro or relevant national currency, and in stock or debt obligations denominated in Euro of any other issuer.

To ensure eligibility for the French Plan d'Épargne en Actions (PEA), the Fund invests at least 75% of its total assets in equity securities issued by companies which have their head office in the European Union.

Since the investment objective is more likely to be achieved through an investment policy that is flexible and adaptable, the Fund may seek investment opportunities in other types of transferable securities, such as preferred stock and

securities convertible into common stock of any such issuers as described above.

Who should invest in the Fund?

Investors...

- seeking capital appreciation by investing in undervalued equity securities issued by the member countries of the European Monetary Union.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Counterparty risk
- Equity risk
- Liquidity risk
- Market risk

See the Section "Risk considerations" for a full discussion of these risks.

Past Performance:

Templeton European Corporate Bond Fund

Fund details

Type of Fund:	Fixed Income Fund
Base currency:	EUR
Launch date:	30 April 2010
Management charges:	Monthly fee equivalent to 0.65% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.40%.
Total Expense Ratio:	A(acc) EUR: 1.15%; A(Ydis) EUR: 1.15%; I(acc) EUR: 0.65%; I(Ydis) EUR: 0.65%; N(acc) EUR: 2.05%; N(Ydis) EUR: 2.05%
Investment Manager:	Franklin Templeton Investment Management Limited (Edinburgh, UK), Franklin Advisers, Inc. (San Mateo, CA, USA) and Franklin Templeton Institutional, LLC (New York, NY, USA)

What does the Fund invest in?

Investment objective

> To maximise, consistent with prudent investment management, total investment return through a combination of interest income and capital appreciation.

Investment strategy

The Fund seeks to achieve this objective by investing principally in investment-grade fixed or floating rate debt securities of European corporate issuers and/or non-European corporate issuers with a business presence in the European region. The Fund may also utilize certain financial derivative instruments for investment purposes. These financial derivative instruments may be dealt either in regulated markets or over-the-counter, and may include, inter alia, swaps (such as credit default swaps or total return swaps), forward and cross forwards, futures contracts, as well as options. Use of these financial derivative instruments may result in negative exposures in a specific yield curve/duration or currency. The Fund may in addition, in accordance with the investment restrictions, invest in credit-linked securities or other structured products that derive their value from another European-related index, security or currency. The Fund principally invests in fixed income debt securities either denominated in Euro or, if denominated in another currency, hedged into Euro.

Since the investment objective is more likely to be achieved through an investment policy that is

flexible and adaptable, the Fund may also, for defensive purposes and/or on an ancillary basis, seek investment opportunities in other types of securities including but not limited to government debt securities, supranational entities organized or supported by several national governments, non-investment grade debt securities, bonds convertible into common stock, preferred stock and warrants.

Who should invest in the Fund?

Investors...

- seeking to maximize total investment return through a combination of interest income and capital appreciation.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Counterparty risk

Templeton European Total Return Fund

Fund details

Type of Fund:	Fixed Income Fund
Base currency:	EUR
Alternative currency:	USD
Launch date:	29 August 2003
Management charges:	Monthly fee equivalent to 0.75% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.55%.
Total Expense Ratio:	A(acc) EUR: 1.10%; A(Mdis) EUR: 1.10%; A(Ydis) EUR: 1.10%; A(Mdis) USD: 1.09%; C(acc) EUR: 1.90%; C(Mdis) USD: 1.90%; I(acc) EUR: 0.85%; I(Mdis) EUR: 0.83%; I(Ydis) EUR: 0.81%; N(acc) EUR: 1.80%; N(Mdis) EUR: 1.80%
Investment Managers:	Franklin Templeton Investment Management Limited (Edinburgh, UK) and Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

> To maximise, consistent with prudent investment management, total investment return consisting of a combination of interest income, capital appreciation, and currency gains.

Investment strategy

The Fund invests in a portfolio of fixed and floating rate debt securities and debt obligations of governments, government-related or corporate issuers with registered office in Europe.

The Fund may also, in accordance with the investment restrictions, invest in securities or structured products where the security is linked to or derives its value from another security, linked to assets or currencies of any European country. More specifically, the Fund may purchase debt obligations issued by governments and supranational entities organised or supported by several national governments.

The Fund may also purchase mortgage- and asset-backed securities and convertible bonds as well as certain derivative instruments including index based financial derivatives, credit default swaps, forwards or futures contracts, or options on such contracts, including those on European government bonds. The assets of the Fund shall primarily (e.g. at least two thirds of the assets without taking into account ancillary liquid assets) be invested in securities or derivative instruments based on securities of European issuers.

In order to efficiently manage the portfolio, the Fund may buy and sell various derivative instruments including index based derivative instruments and credit default swaps.

The Fund may invest in investment grade and non-investment grade debt securities, including high yield corporate debt, private placements, global bonds and currencies of Emerging Market countries, of which up to 10% of the Fund's total assets may be in securities in default.

Who should invest in the Fund?

Investors...

- seeking a high level of income and capital preservation, and to a lesser extent, capital growth.
- seeking to invest in fixed income securities and derivative instruments from European governments or corporate issuers.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Counterparty risk
- Credit risk
- Credit-Linked Securities risk
- Defaulted Debt Securities risk
- Derivative risk
- Emerging Markets risk
- Foreign Currency risk
- Interest Rate Securities risk
- Liquidity risk
- Low-Rated or Non-Investment Grade Securities risk
- Market risk
- Mortgage- and Asset-Backed Securities risk
- Swap Agreements risk

See the Section "Risk Considerations" for a full discussion of these risks.

Past Performance:

Investment Managers:	Templeton Asset Management Ltd. (Singapore)

What does the Fund invest in?

Investment objective

> Long-term capital appreciation.

Investment strategy

The Fund invests principally in transferable equity securities of companies (i) incorporated in the Frontier Markets countries, and/or (ii) which have their principal business activities in Frontier Markets countries across the market capitalisation spectrum. The Frontier Markets countries are smaller, less developed and less accessible Emerging Market countries, but with "investable" equity markets and include those defined as Frontier Markets by the International Finance Corporation as well as included in Frontier Markets related indices (including but not limited to: MSCI Frontier Markets Index, Merrill Lynch Frontier Index, S&P Frontier Broad Market Index), for example Bahrain, Bulgaria, Egypt, Kazakhstan, Nigeria, Pakistan, Qatar, Vietnam etc.

Since the investment objective is more likely to be achieved through an investment policy which is flexible and adaptable, the Fund may also invest in other types of transferable securities, including equity and fixed income securities of issuers worldwide as well as in financial derivative instruments for investment purpose.

These financial derivative instruments may include, inter alia, forwards and financial futures contracts, or options on such contracts, equity linked notes dealt in either on regulated markets or over-the-counter.

Who should invest in the Fund?

Investors...

- seeking capital appreciation by investing primarily in equity securities of companies located in countries defined as Frontier Markets.

- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Class Hedging risk
- Counterparty risk
- Emerging Markets risk
- Equity risk
- Foreign Currency risk
- Frontier Markets risk
- Liquidity risk
- Market risk

See the Section "Risk Considerations" for a full discussion of these risks.

Templeton Global Aggregate Bond Fund

Fund details

<i>Type of Fund:</i>	Fixed Income Fund
<i>Base currency:</i>	USD
<i>Alternative currencies:</i>	EUR, GBP, CHF
<i>Launch date:</i>	29 October 2010
<i>Management charges:</i>	Monthly fee equivalent to 0.65% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.40%.
<i>Total Expense Ratio:</i>	A(acc) USD: 1.25%; A(acc) EUR: 1.25%; A(acc) EUR-H1: 1.22%; A(Mdis) EUR: 1.25%; A(Mdis) USD: 1.25%; A(Qdis) GBP-H1: 1.22%; A(Ydis) EUR-H1: 1.22%; I(acc) USD: 0.59%; I(acc) EUR: 0.60%; I(acc) EUR-H1: 0.59%; I(acc) CHF-H1: 0.58%; I(Qdis) EUR-H1: 0.59%; I(Qdis) GBP-H1: 0.59%; N(acc) USD: 1.93%; N(acc) EUR: 1.93%; N(acc) EUR-H1: 1.91%
<i>Investment Manager:</i>	Franklin Templeton Investment Management Limited (Edinburgh, UK)

What does the Fund invest in?

Investment objective

> To maximise, consistent with prudent investment management, total investment return, consisting of a combination of interest income and capital appreciation.

Investment strategy

The Fund seeks to achieve this objective by investing principally in fixed or floating rate debt securities issued by governments, government-related entities (including supranational organisations supported by several national governments) and corporations worldwide. The Fund invests mainly in investment grade securities, but may invest up to 10% in non-investment grade securities and may also invest in Emerging Market debt securities. The Fund may, in addition, in accordance with the investment restrictions, invest in credit-linked securities or other structured products that derive their value from an index, security or currency or purchase mortgage and asset backed securities.

The Fund may also utilize certain financial derivative instruments for investment purposes. These financial derivative instruments may be dealt either in regulated markets or over-the-counter, and may include, inter alia, swaps (such as credit default swaps or total return swaps), forward and cross forwards, futures contracts, as well as options. The use of financial derivatives instruments may result in negative exposures in a specific yield curve/duration, currency or credit. Use of financial derivative instruments will not exceed 40% of the Fund's Net Asset Value on a net basis.

Since the investment objective is more likely to be achieved through an investment policy that is flexible and adaptable, the Fund may also seek investment opportunities in other types of securities including, but not limited to, undertakings for collective investments, bonds convertible into common stock, preferred stock and warrants.

Who should invest in the Fund?

Investors...

- seeking interest income and capital appreciation by investing in a diversified global fixed income product.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Class Hedging risk
- Counterparty risk
- Credit risk
- Credit-Linked Securities risk
- Defaulted Debt Securities risk
- Derivative risk
- Emerging Markets risk
- Foreign Currency risk
- Interest Rate Securities risk
- Liquidity risk

Templeton Global Balanced Fund

Fund details

<i>Type of Fund:</i>	Balanced Fund
<i>Base currency:</i>	USD
<i>Alternative currencies:</i>	EUR, SGD
<i>Launch date:</i>	1 June 1994
<i>Management charges:</i>	Monthly fee equivalent to 0.80% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.60%.
<i>Total Expense Ratio:</i>	A(acc) USD: 1.71%; A(acc) EUR: 1.71%; A(acc) EUR-H1: 1.69%; A(acc) SGD: 1.71%; A(Qdis) USD: 1.71%; B(acc) USD: 3.01%; C(Qdis) USD: 2.28%; I(acc) EUR-H1: 0.86%; I(acc) USD: 0.90%; N(acc) EUR: 2.21%; N(acc) EUR-H1: 2.17%
<i>Investment Manager:</i>	Franklin Templeton Investment Management Limited (Edinburg, UK) and Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

> Capital appreciation and current income, consistent with prudent investment management.

Investment strategy

The Fund invests principally in equity securities and government debt securities issued by entities throughout the world, including Emerging Markets.

The Investment Manager anticipates that the majority of the Fund's portfolio is normally invested in equity or equity-linked securities, including debt or preferred stock convertible or exchangeable into equity securities, selected principally on the basis of their capital growth potential. The Fund seeks income by investing in fixed or floating rate debt securities and debt obligations issued by government and government-related issuers or corporate entities worldwide. The Fund may also purchase debt obligations issued by supranational entities organised or supported by several national governments, such as the International Bank for Reconstruction and Development or the European Investment Bank. The Fund may purchase equities, fixed income securities and debt obligations. Notwithstanding the foregoing, at no time will the Investment Manager invest more than 40% of the Fund's total net assets into fixed income securities.

Past Performance:

Investment Manager:	Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

- > Primary objective: to earn a high level of current income.
- > Secondary objective: capital appreciation, but only when consistent with its principal objective.

Investment strategy

The Fund invests principally in debt securities (including non-investment grade securities) of issuers globally, including those in Emerging Markets. For the purpose of this Fund, debt securities shall include all varieties of fixed and floating rate income securities (including bank loans through regulated investment funds subject to the limits indicated below), bonds, mortgage and other asset-backed securities and convertible securities. The Fund may also utilise financial derivative instruments for investment purposes. These financial derivative instruments may be dealt either in regulated markets or over-the-counter, and may include, inter alia, swaps (such as credit default swaps or total return swaps), forwards and cross forwards, futures contracts (including those on government securities), as well as options. Use of financial derivative instruments may result in negative exposures in a specific yield curve/duration, currency or credit. In addition, the Fund may invest in equity securities, credit-linked securities and money-market instruments and may seek exposure to floating rate loans through regulated investment funds. The Fund may invest up to 10% of its net assets in units of UCITS and other UCIs and up to 10% of its total assets in securities in default.

<i>Investment Manager:</i>	Franklin Templeton Investments Corp. (Toronto, Ontario)

What does the Fund invest in?

Investment objective

> Capital appreciation.

Investment strategy

The Fund invests primarily in equity and debt obligations of smaller companies throughout the world, including Emerging Markets. The Fund invests principally in common stocks of such companies.

Debt securities represent obligations of an issuer to repay loans where repayment terms of principal and interest are clearly specified, along with the lender's rights, in the loan agreement. These securities include bonds, notes and debentures.

Since the investment objective is more likely to be achieved through an investment policy that is flexible and adaptable, the Fund may seek investment opportunities in companies with larger market capitalisations, as well as in other types of securities, such as preferred stock, securities convertible into common stock and fixed income securities, which are US dollar and non-US dollar denominated.

Past Performance:

The following chart shows the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in this chart.

Who should invest in the Fund?

Investors...

- seeking long-term capital appreciation by investing in undervalued equity securities of small-cap companies from around the world.

- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Counterparty risk
- Emerging Markets risk
- Equity risk
- Foreign Currency risk
- Liquidity risk
- Market risk
- Small and Mid-Sized Companies risk

See the Section "Risk Considerations" for a full discussion of these risks.

Templeton Global Total Return Fund

Fund details

<i>Type of Fund:</i>	Fixed Income Fund
<i>Base currency:</i>	USD

<i>Investment Manager:</i>	Franklin Advisers, Inc. (San Mateo, CA, USA)

What does the Fund invest in?

Investment objective

> To maximise, consistent with prudent investment management, total investment return consisting of a combination of interest income, capital appreciation and currency gains.

Investment strategy

The Fund seeks to achieve its objective by investing principally in a portfolio of fixed and/or floating rate debt securities and debt obligations issued by government and government-related issuers or corporate entities worldwide. The Fund may also purchase debt obligations issued by supranational entities organised or supported by several national governments, such as the International Bank for Reconstruction and Development or the European Investment Bank. The Fund may also utilise financial derivative instruments for investment purposes. These financial derivative instruments may be dealt either in regulated markets or over-the-counter, and may include, inter alia, swaps (such as credit default swaps or total return swaps), forwards and cross forwards, futures contracts (including those on government securities), as well as options. Use of financial derivative instruments may result in negative exposures in a specific yield curve/duration, currency or credit. The Fund may also, in accordance with the investment restrictions, invest in securities or structured products where the security is linked to or derives its value from another security or is linked to assets or currencies of any country. The Fund may also purchase mortgage and asset-backed securities and convertible bonds. The Fund may invest in investment grade and non-investment

In order to effectively manage cash flows in or out of the Fund, the Fund may buy and sell financial futures contracts or options on such contracts. The Fund may use futures contracts on US Treasury securities to help manage risks relating to interest rates and other market factors, to increase liquidity, and to quickly and efficiently cause new cash to be invested in the securities markets or, if cash is needed to meet shareholder redemption requests, to remove Fund assets from exposure to the market. On an ancillary basis, the Fund may gain exposure to debt market indexes by investing in index-based financial derivatives and credit default swaps.

Who should invest in the Fund?

Investors...

- seeking to maximise total investment return consisting of a combination of interest income, capital appreciation and currency gains.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Class Hedging risk
- Counterparty risk
- Credit risk
- Credit-Linked Securities risk
- Defaulted Debt Securities risk
- Derivative risk
- Emerging Markets risk
- Foreign Currency risk
- Interest Rate Securities risk

Templeton Growth (Euro) Fund

Fund details

Type of Fund:	Equity Fund
Base currency:	EUR
Alternative currency:	USD
Launch date:	9 August 2000
Management charges:	Monthly fee equivalent to 1.00% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 0.70%.
Total Expense Ratio:	A(acc) EUR: 1.86%; A(acc) USD: 1.86%; A(acc) EUR-H2: 1.86%; A(Ydis) EUR: 1.86%; A(Ydis) USD: 1.86%; B(Ydis) EUR: 3.14%; C(acc) EUR: 2.44%; I(acc) EUR: 0.95%; I(Ydis) EUR: 0.95%; I(Ydis) USD: 0.95%; N(acc) EUR: 2.61%
Investment Manager:	Templeton Global Advisors Limited (Nassau, Bahamas)

What does the Fund invest in?

Investment objective

> Capital appreciation.

Investment strategy

The Fund invests principally in the equity securities including common stocks and preferred stocks of companies located anywhere in the world, including Emerging Markets.

Equity securities generally entitle the holder to participate in a company's general operating results. The Fund also invests in American, European, and Global Depository Receipts. These are certificates issued typically by a bank or a trust company that give their holders the right to receive securities issued by a foreign or domestic company. Depository Receipts do not eliminate currency and economic risks for underlying shares of a company operating in another country.

Depending upon current market conditions, the Fund may also invest up to 25% of its net assets in debt securities of companies and governments located anywhere in the world. Debt securities represent an obligation of the issuer to repay a loan of money to it and generally provide for the payment of interest. These include bonds, notes (including equity-linked notes) and debentures.

In choosing equity investments, the Investment Manager focuses on the market price of a company's securities relative to its evaluation of the company's long-term earnings, asset value and cash flow potential,

as well as on other measures that the Investment Manager deems appropriate to determine a company's value.

The name of the Fund reflects the base currency of the Fund being in Euro and does not necessarily imply that any particular proportion of the Fund's net invested assets is made in Euro.

Who should invest in the Fund?

Investors...

- seeking capital appreciation by investing in undervalued securities in a well-diversified global equity fund with the Euro as its base currency.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Class Hedging risk
- Counterparty risk
- Emerging Markets risk
- Equity risk
- Foreign Currency risk
- Liquidity risk
- Market risk

See the Section "Risk Considerations" for a full discussion of these risks.

Templeton Latin America Fund

Fund details

<i>Type of Fund:</i>	Equity Fund
<i>Base currency:</i>	USD
<i>Alternative currencies:</i>	EUR, GBP, SGD, PLN
<i>Launch date:</i>	30 September 1996
<i>Management charges:</i>	Monthly fee equivalent to 1.40% per annum of the Fund's adjusted daily net assets received by the Investment Manager for each Class of Shares, except Class I Shares. For Class I Shares: 1.00%.
<i>Total Expense Ratio:</i>	A(acc) USD: 2.28%; A(acc) SGD: 2.29%; A(Ydis) USD: 2.28%; A(acc) EUR: N/A; A(Ydis) EUR: 2.29%; A(Ydis) GBP: 2.29%; B(acc) USD: 3.59%; C(acc) USD: 2.86%; I(acc) USD: 1.30%; I(Ydis) EUR-H2: 1.29%; N(acc) USD: 2.78%; N(acc) EUR: N/A; N(acc) PLN-H1: 2.79%; Z(acc) USD: 1.79%
<i>Investment Manager:</i>	Templeton Asset Management Ltd. (Singapore)

What does the Fund invest in?

Investment objective

> Capital appreciation.

Investment strategy

The Fund invests primarily in equity securities and as an ancillary matter in debt securities of issuers incorporated or having their principal business activities in the Latin American region. The Latin American region includes, but is not limited to, the following countries: Argentina, Belize, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, El Salvador, French Guyana, Guatemala, Guyana, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Surinam, Trinidad/Tobago, Uruguay and Venezuela. The balance of the Fund's assets may be invested in equity securities and debt obligations of companies and government entities of countries other than those named above.

Since the investment objective is more likely to be achieved through an investment policy that is flexible and adaptable, the Fund may seek investment opportunities in other types of securities, such as preferred stock, securities convertible into common stock and fixed income securities which

Past Performance:

<i>Investment Manager:</i>	Franklin Templeton Investment Management Limited (Edinburgh, UK)

What does the Fund invest in?

Investment objective

> Capital appreciation.

Investment strategy

The Fund invests principally in equity securities and debt obligations of companies in the United States and may invest in securities of any size. The Fund invests principally in common stocks.

Since the investment objective is more likely to be achieved through an investment policy that is flexible and adaptable, the Fund may also seek investment opportunities in other types of transferable securities, such as preferred stock, securities convertible into common stock and fixed income securities, which are US dollar denominated.

The Fund may use various derivative instruments seeking to protect its assets, implement a cash or tax management strategy or enhance its returns as described in the section "Risk Considerations". The Fund may enter into interest rate, index, currency

exchange or equity swap agreements up to 5% of its total assets.

Who should invest in the Fund?

Investors...

- seeking capital appreciation by investing in undervalued equity securities of issuers concentrated in the US.
- planning to hold their investment for the medium to long term.

What are the main risks of investing in the Fund?

- Class Hedging risk
- Counterparty risk
- Equity risk
- Liquidity risk
- Market risk

See the Section "Risk Considerations" for a full discussion of these risks.

Past Performance:

The following chart shows the historical returns of the Fund expressed in percentage terms. Please see the Section "Past Performance" for the assumptions used in this chart.

RISK CONSIDERATIONS

What are the risks of investing in a Fund?

The value of the Shares will increase as the value of the securities owned by any Fund of the Company increases and will decrease as the value of the Fund's investments decrease. In this way, Investors participate in any change in the value of the securities owned by the relevant Fund(s). In addition to the factors that affect the value of any particular security that a Fund owns, the value of the Fund's Shares may also change with movements in the stock and bond markets as a whole.

A Fund may own securities of different types, or from different asset classes – equities, bonds, money market instruments, derivatives – depending on the Fund's investment objective.

Different investments have different types of investment risk. The Funds also have different kinds of risk, depending on the securities they own. Below is a summary of the various types of investment risk that may be applicable to the Funds.

Biotechnology, Communication and Technology Sectors risk

Investment in the biotechnology, communication and technology sectors may present a greater risk and a higher volatility than investment in a broader range of securities covering different economic sectors. In addition, these sectors may be subject to greater government regulation than other sectors and, as a result, changes to such government regulation may have a material adverse effect on these sectors. Such investments may therefore drop sharply in value in response to market, regulatory or research setbacks in addition to possible adverse effects from the competition of new market entrants, patent considerations and product obsolescence. Particularly within technology, short product cycles and diminishing profit margins are additional factors to consider when investing.

Class Hedging risk

The Company may engage in currency hedging transactions with regards to a certain Share Class (the "Hedged Share Class"). Hedged Share Classes are designed (i) to reduce exchange rate fluctuations between the currency of the Hedged Share Class and the base currency of the Fund or (ii) to reduce exchange rate fluctuations between the currency of the Hedged Share Class and other material currencies within the Fund's portfolio.

The hedging will be undertaken to reduce exchange rate fluctuation in case the base currency of the Fund or other material currencies within the Fund (the "reference currency(ies)") is(are) declining or increasing in value relative to the hedged currency. The hedging strategy employed will seek to reduce as far as possible the exposure of the Hedged Share Classes and no assurance can be given that the hedging objective will be achieved. In the case of a net flow to or from a Hedged Share Class the hedging may not be adjusted and reflected in the net asset value of the Hedged Share Class until the following or a subsequent business day following the Valuation Day on which the instruction was accepted.

This risk for holders of any hedged Share Class may be mitigated by using any of the efficient portfolio management techniques and instruments (including currency options and forward currency exchange contracts currency futures, written call options and purchased put options on currencies and currency swaps), within the conditions and limits imposed by the Luxembourg financial supervisory authority.

Investors should be aware that this strategy may substantially limit Investors of the relevant Hedged Share Class from benefiting from any potential increase in value of the Share Class expressed in the reference currency(ies), if the Hedged Share Class currency falls against the base currency of the Fund. Additionally, Investors of the Hedged Share Class may be exposed to fluctuations in the net asset value per Shares reflecting the gains/loss on and the costs of

the relevant financial instruments. The gains/losses on and the costs of the relevant financial instruments will accrue solely to the relevant Hedged Share Class.

Any financial instruments used to implement such hedging strategies with respect to one or more Classes of a Fund shall be assets and/or liabilities of such Fund as a whole, but will be attributable to the relevant Class(es) and the gains/losses on and the costs of the relevant financial instruments will accrue solely to the relevant Class. However, due to the lack of segregated liabilities between Classes of the same Fund, costs which are principally attributed to a specific Class may be ultimately charged to the Fund as a whole. Any currency exposure of a Class may not be combined with or offset against that of any other Class of a Fund. The currency exposure of the assets attributable to a Class may not be allocated to other Classes. No intentional leveraging should result from currency hedging transactions of a Class although hedging may exceed 100% for short periods between redemption instructions and execution of the hedge trade. More details as to the rules governing allocation of assets and liabilities at a class level are contained in Appendix D of the full Prospectus.

Counterparty risk

When over-the-counter (OTC) or other bilateral contracts are entered into (inter alia OTC derivatives, repurchase agreements, security lending,...) the Company may find itself exposed to risks arising from the solvency of its counterparties and from their ability to respect the conditions of these contracts. The Company is exposed to the risk that the counterparty will fail to respect its commitments under the term of each contract.

Credit risk

Credit risk, a fundamental risk relating to all fixed income securities as well as money market instruments, is the chance that an issuer will fail to make principal and interest payments when due. Issuers with higher credit risk typically offer higher yields for this added risk. Conversely, issuers with lower credit risk typically offer lower yields. Generally, government securities are considered to be the safest in terms of credit risk, while corporate debt, especially those with poorer credit ratings, have the highest credit risk. Changes in the financial condition of an issuer, changes in economic and political conditions in general, or changes in economic and political conditions specific to an issuer, are all factors that may have an adverse impact on an issuer's credit quality and security values.

Credit-linked Securities risk

Credit-linked securities are debt securities that represent an interest in a pool of, or are otherwise collateralised by one or more corporate debt obligations or credit default swaps incorporating debt or bank loan obligations. Such debt obligations may represent the obligations of one or more

corporate issuers. The Fund has the right to receive periodic interest payments from the issuer of the credit-linked security (usually the seller of the underlying credit default swap(s)) at an agreed-upon interest rate, and a return of principal at the maturity date.

The Fund bears the risk of loss of its principal investment, and the periodic interest payments expected to be received for the duration of its investment in the credit-linked security, in the event that one or more of the debt obligations underlying the credit default swaps go into default or otherwise become non-performing. Upon the occurrence of such a credit event (including bankruptcy, failure to timely pay interest or principal, or a restructuring), the Fund affected will generally reduce the principal balance of the related credit-linked security by the Fund's pro rata interest in the par amount of the defaulted underlying debt obligation in exchange for the actual value of the defaulted underlying obligation or the defaulted underlying obligation itself, resulting in a loss of a portion of the Fund's investment. Thereafter, interest on the credit-linked security will accrue on a smaller principal balance and a smaller principal balance will be returned at maturity. To the extent a credit-linked security represents an interest in underlying obligations of a single corporate or other issuer, a credit event with respect to such issuer presents greater risk of loss to a Fund than if the credit-linked security represented an interest in underlying obligations of multiple issuers.

In addition, the Fund bears the risk that the issuer of the credit-linked security will default or become bankrupt. In such an event, the Fund may have difficulty being repaid, or fail to be repaid, the principal amount of its investment and the remaining periodic interest payments thereon.

An investment in credit-linked securities also involves reliance on the counterparty to the credit default swap entered into with the issuer of the credit-linked security to make periodic payments to the issuer under the terms of the swap. Any delay or cessation in the making of such payments may be expected in certain instances to result in delays or reductions in payments to the Fund as an investor in such credit-linked securities. Additionally, credit-linked securities are typically structured as limited recourse obligations of the issuer of such securities such that the securities issued will usually be obligations solely of the issuer and will not be obligations or responsibilities of any other person.

Most credit-linked securities are structured as US Rule 144A securities so that they may be freely traded among institutional buyers. A Fund will generally only purchase credit-linked securities, which are determined to be liquid in accordance with the Fund's liquidity guidelines. However, the market for credit-linked securities may suddenly become illiquid. The other parties to the transaction may be the only investors with sufficient understanding of the derivative to be interested in bidding for it. Changes in liquidity may result in significant, rapid and unpredictable changes in the prices for credit-linked securities. In certain cases, a market price for a credit-linked security may not be available or may not be reliable, and the Fund could experience difficulty in selling such security at a price the Investment Manager believes is fair.

The value of a credit-linked security will typically increase or decrease with any change in value of the underlying debt obligations, if any, held by the issuer and the credit default swap. Further, in cases where the credit-linked security is structured such that the payments to the Fund are based on amounts received in respect of, or the value of performance of, any underlying debt obligations specified in the terms of the relevant credit default swap,

fluctuations in the value of such obligation may affect the value of the credit-linked security.

Defaulted Debt Securities risk

Some Funds may invest in debt securities on which the issuer is not currently making interest payments (defaulted debt securities). These Funds may buy defaulted debt securities if, in the opinion of the Investment Manager, it appears likely that the issuer may resume interest payments or other advantageous developments appear likely in the near future. These securities may become illiquid.

The risk of loss due to default may also be considerably greater with lower-quality securities because they are generally unsecured and are often subordinated to other creditors of the issuer. If the issuer of a security in a Fund's portfolio defaults, the Fund may have unrealised losses on the security, which may lower the Fund's net asset value per Share. Defaulted securities tend to lose much of their value before they default. Thus, the Fund's net asset value per Share may be adversely affected before an issuer defaults. In addition, the Fund may incur additional expenses if it must try to recover principal or interest payments on a defaulted security.

Included among the issuers of debt securities or obligations in which the Company may invest are entities organised and operated solely for the purpose of restructuring the investment characteristics of various securities or obligations. These entities may be organised by investment banking firms, which receive fees in connection with establishing each entity and arranging for the placement of its securities.

Derivative risk

For the purpose of efficient portfolio management, the Company may, within the context of each Fund's overall investment policy, and within the limits set forth in the investment restrictions applicable to the Funds, engage in certain transactions involving the use of derivative instruments, including: (i) put and call options on securities, debt obligations, indices and currencies (including over-the-counter options); (ii) stock index and interest rate futures contracts and options thereon; (iii) structured products, where the security is linked to or derives its value from another security; and (iv) delayed delivery or when-and-if issued securities such as may be created as a result of a debt restructuring. The Company may engage, within the limits established by the investment restrictions, in various portfolio strategies involving the use of hedging instruments in order to hedge against market and currency risks. If a Fund intends to engage in transactions involving the use of derivative instruments as part of its investment strategy, rather than on an occasional basis, this will be described in the investment objective of such Fund.

The use of derivative instruments and hedging transactions may or may not achieve its intended objective and involves special risks.

Some Funds may also invest in financial derivative instruments as part of their portfolio as more fully disclosed in their investment objectives.

The global exposure of a Fund to financial derivative instruments shall not exceed its total net assets value and as a result the total risk exposure of such Fund shall not exceed 200% of its net assets value on a permanent basis.

Performance and value of derivative instruments depend, at least in part, on the performance or value of the underlying asset (swaps, options, forwards, futures, warrants...). Derivative instruments involve cost, may be volatile, and may involve a small investment relative to the

risk assumed (leverage effect). Their successful use may depend on the Investment Manager's ability to predict market movements. Risks include delivery failure, default by other party or the inability to close out a position because the trading market becomes illiquid. Some derivative instruments are particularly sensitive to changes in interest rates. The risk of loss to a Fund for a swap transaction on a net basis depends on which party is obliged to pay the net amount to the other party. If the counterparty is obliged to pay the net amount to the Fund, the risk of loss to the Fund is the loss of the entire amount that the Fund is entitled to receive; if the Fund is obliged to pay the net amount, the Fund's risk of loss is limited to the net amount due. Over-the-counter derivative instruments involve a higher degree of risk as over-the-counter markets are less liquid and regulated.

Emerging Markets risk

All Fund investments in the securities issued by corporations, governments, and public-law entities in different nations and denominated in different currencies involve certain risks. These risks are typically increased in developing countries and Emerging Markets. Such risks, which can have adverse effects on portfolio holdings, may include: (i) investment and repatriation restrictions; (ii) currency fluctuations; (iii) the potential for unusual market volatility as compared to more industrialised nations; (iv) government involvement in the private sector; (v) limited investor information and less stringent investor disclosure requirements; (vi) shallow and substantially smaller liquid securities markets than in more industrialised countries, which means a Fund may at times be unable to sell certain securities at desirable prices; (vii) certain local tax law considerations; (viii) limited regulation of the securities markets; (ix) international and regional political and economic developments; (x) possible imposition of exchange controls or other local governmental laws or restrictions; (xi) the increased risk of adverse effects from deflation and inflation; (xii) the possibility of limited legal recourse for the Fund; and (xiii) the custodial and/or the settlement systems may not be fully developed. Investors in funds investing in Emerging Markets should in particular be informed that the liquidity of securities issued by corporations and public-law entities in Emerging Markets may be substantially smaller than with comparable securities in industrialized countries.

Equity risk

The value of all Funds that invest in equity and equity related securities will be affected by economic, political, market, and issuer specific changes. Such changes may adversely affect securities, regardless of company specific performance. Additionally, different industries, financial markets, and securities can react differently to these changes. Such fluctuations of the Fund's value are often exacerbated in the short-term as well. The risk that one or more companies in a Fund's portfolio will fall, or fail to rise, can adversely affect the overall portfolio performance in any given period.

Foreign Currency risk

Since the Company values the portfolio holdings of each of its Funds in either US dollar, Japanese Yen or Euro, changes in currency exchange rates adverse to those currencies may affect the value of such holdings and each respective Fund's yield thereon.

Since the securities held by a Fund may be denominated in currencies different from its base currency, the Fund may be affected favorably or unfavorably by exchange control regulations or changes in the exchange rates between such reference currency and other currencies. Changes in currency exchange rates may influence the value of a Fund's Shares, and also may affect the value of dividends and interests earned by the Fund and gains and losses realised by said Fund. If the currency in which a security is

denominated appreciates against the base currency, the price of the security could increase. Conversely, a decline in the exchange rate of the currency would adversely affect the price of the security.

To the extent that a Fund or any Share Class seeks to use any strategies or instruments to hedge or to protect against currency exchange risk, there is no guarantee that hedging or protection will be achieved. Unless otherwise stated in any Fund's investment policy, there is no requirement that any Fund seeks to hedge or to protect against currency exchange risk in connection with any transaction.

Funds which use currency management strategies, including the use of cross currency forwards and currency futures contracts, may substantially change the Fund's exposure to currency exchange rates and could result in losses to the Fund if the currencies do not perform as the Investment Manager expects.

Frontier Markets risk

Investments in Emerging Market countries involve risks as set out in the section "Emerging Markets risks" above. Investments in Frontier Markets involve risks similar to investments in Emerging Markets but to a greater extent because Frontier Markets are even smaller, less developed and less accessible than Emerging Markets.

Gold and Precious Metals Sector risk

Some Funds' investments may concentrate in gold and other precious metals (particularly platinum and palladium) operations companies. By concentrating in the industries in a single sector, such Funds carry a much greater risk of adverse developments than a fund that invests in companies from a wide variety of industries. Also, there currently are a limited number of platinum and palladium operations companies, which restricts such Funds ability to diversify their investments in those metals.

The price of gold and precious metals operations companies is strongly affected by the price of gold and other precious metals such as platinum, palladium and silver. These prices may fluctuate substantially over short periods of time, so the Share price may be more volatile than other types of investments.

The price of gold and other precious metals is affected by such factors as: (1) how much of the worldwide supply is held by large holders, such as governmental bodies and central banks; for example, if Russia or another large holder decided to sell some of its gold or other precious metals reserves, the supply would go up, and the price would generally go down; (2) unpredictable monetary policies and economic and political conditions in countries throughout the world; and (3) demand for gold bullion as an investment; including in bar form and underlying assets for exchanged-traded funds.

The price of gold and precious metals operations companies is also affected by (1) environmental, labour, and other costs in mining and production; (2) labour disruptions; (3) operational issues and failures, such as damage to mines as a result of accidents; (4) access to reliable energy supplies; and (5) changes in laws relating to mining, production, or sales. As the Franklin Gold and Precious Metals Fund may invest its assets in the securities of mining companies, Investors should note that mining operations have varying expected life spans. Securities of mining companies that have mines with a short expected life span may experience greater price volatility than those that have a long expected life span.

In times of significant inflation or great economic uncertainty, traditional investments such as bonds and stocks may not perform well. In such times, gold and other

precious metals have historically maintained their value as hard assets, often outperforming traditional investments. However, in times of stable economic growth, traditional equity and debt investments could offer greater appreciation potential and the value of gold and other precious metals may be adversely affected, which could in turn affect the Fund's returns.

Growth Stocks risk

Funds investing in growth stocks can be more volatile and may react differently to economic, political, market, and issuer specific developments than the overall market. Historically, the prices of growth stocks have been more volatile than other securities, especially, over short term periods of time. Growth stocks may also be more expensive, relative to their earnings, than the market in general. As such, growth stocks can experience greater volatility in reaction to changes in earnings growth.

Inflation-Indexed Securities risk

Inflation-indexed securities have a tendency to react to changes in real interest rates. Real interest rates represent nominal (stated) interest rates lowered by the anticipated effect of inflation. In general, the price of an inflation-indexed security can decrease when real interest rates increase, and can increase when real interest rates decrease. Interest payments on inflation-indexed securities will fluctuate as the principal and/or interest is adjusted for inflation and can be unpredictable, therefore, the Fund's income distributions may fluctuate more than the income distributions of a typical fixed income fund. There can be no assurance that the Consumer Price Index or any other measure used to adjust the principal amounts of the Fund's debt securities will accurately correspond to the rate of inflation experienced by a particular investor. Any increase in the principal amount of an inflation-protected debt security will be considered taxable ordinary income, even though investors, such as the Fund, do not receive their principal until maturity.

Initial Public Offerings risk

Some Funds may invest in initial public offerings ("IPOs"). IPO risk is the risk that the market values of IPO shares may experience high volatility from factors such as the absence of a prior public market, unseasoned trading, the limited number of shares available for trading and limited information about the issuer. Additionally, a Fund may hold IPO shares for a very short period of time, which may increase a Fund's expenses. Some investments in IPOs may have an immediate and significant impact on a Fund's performance.

Interest Rate Securities risk

All Funds that invest in debt securities or money market instruments are subject to interest rate risk. A fixed income security's value will generally increase in value when interest rates fall and decrease in value when interest rates rise. Interest rate risk is the chance that such movements in interest rates will negatively affect a security's value or, in a Fund's case, its net asset value. Fixed income securities with longer-term maturities tend to be more sensitive to interest rate changes than shorter-term securities. As a result, longer-term securities tend to offer higher yields for this added risk. While changes in interest rates may affect a Fund's interest income, such changes may positively or negatively affect the net asset value of the Fund's Shares on a daily basis.

Liquidity risk

Reduced liquidity may have an adverse impact on market price and the Company's ability to sell particular securities when necessary to meet the Company's liquidity needs or in response to a specific economic event such as the deterioration in the creditworthiness of an issuer.

Low-Rated or Non-Investment Grade Securities risk

Some Funds may invest in higher-yielding securities rated lower than investment grade. Accordingly, an investment in these Funds is accompanied by a higher degree of credit risk. Below investment grade securities such as, for example, high yield debt securities, may be considered a high risk strategy and can include securities that are unrated and/or in default. Lower-quality, higher-yielding securities may also experience greater price volatility when compared to higher-quality, lower-yielding securities. Additionally, default rates tend to rise for companies with poorer rated securities during economic recessions or in times of higher interest rates. Companies issuing high yield debt securities are not as strong financially and their low creditworthiness may increase the potential for their insolvency. The companies are more likely to encounter financial difficulties and are more vulnerable to changes in the economy, such as a recession or a sustained period of rising interest rates that could affect their ability to make interest and or principal payments.

Market risk

This is a general risk which affects all types of investment. Price trends are determined mainly by financial market trends and by the economic development of the issuers, who are themselves affected by the overall situation of the global economy and by the economic and political conditions prevailing in each country. Because the securities the Fund holds fluctuate in price, the value of your investment in the Fund will go up and down. You may not get back the amount you invested.

Mortgage- and Asset-Backed Securities risk

Mortgage-backed securities differ from conventional debt securities because principal is paid back over the life of the security rather than at maturity. The Fund may receive unscheduled prepayments of principal before the security's maturity date due to voluntary prepayments, refinancing or foreclosure on the underlying mortgage loans. To the Fund this means a loss of anticipated interest, and a portion of its principal investment represented by any premium the Fund may have paid. Mortgage prepayments generally increase when interest rates fall.

Mortgage-backed securities also are subject to extension risk. An unexpected rise in interest rates could reduce the rate of prepayments on mortgage-backed securities and extend their life. This could cause the price of the mortgage-backed securities to be more sensitive to interest rate changes. Issuers of asset-backed securities may have limited ability to enforce the security interest in the underlying assets, and credit enhancements provided to support the securities, if any, may be inadequate to protect investors in the event of default. Like mortgage-backed securities, asset-backed securities are subject to prepayment and extension risks.

Mortgage Dollar Roll risk

Some Funds, especially the Franklin Income Fund, the Franklin Strategic Income Fund, the Franklin U.S. Government Fund, the Franklin U.S. Ultra Short Bond Fund, the Franklin U.S. Total Return Fund and the Templeton Global Total Return Fund may engage in mortgage dollar roll transactions. In a mortgage dollar roll, a Fund sells mortgage-backed securities for delivery in the current month and simultaneously contracts to repurchase substantially similar (name, type, coupon, and maturity) securities on a specified future date. During the period between the sale and repurchase (the "roll period"), the Fund foregoes principal and interest paid on the mortgage-backed securities. The Fund is compensated by the difference between the current sales price and the lower

forward price for the future purchase (often referred to as the "drop"), as well as by the interest earned on the cash proceeds of the initial sale. The Fund could suffer a loss if the contracting party fails to perform the future transaction and the Fund is therefore unable to buy back the mortgage-backed securities it initially sold. Mortgage dollar rolls will be entered into only with high quality government securities dealers and member banks of the US Federal Reserve System.

Mortgage dollar rolls transactions may (due to the deemed borrowing position involved), increase the Fund's overall investment exposure and result in losses. Mortgage dollar rolls will be considered borrowings for purposes of the Fund's borrowing limitations unless the Fund segregates *on its books* an offsetting cash position or a position of liquid securities of equivalent value.

Natural Resources Sector risk

By focusing on the natural resources sector, some funds carry much greater risks of adverse developments than a Fund that invests in a wider variety of industries. The securities of companies in the natural resources sector may experience more price volatility than securities of companies in other industries. Some of the commodities used as raw materials or produced by these companies are subject to broad price fluctuations as a result of industry wide supply and demand factors. As a result, companies in the natural resources sector often have limited pricing power over supplies or for the products they sell which can affect their profitability.

Concentration in the securities of companies with substantial natural resource assets will expose these Funds to the price movements of natural resources to a greater extent than a more broadly diversified mutual fund. There is the risk that those Funds will perform poorly during an economic downturn or a slump in demand for natural resources.

Non-Regulated Markets risk

Some Funds may invest in securities of issuers in countries whose markets do not qualify as regulated markets due to their economic, legal or regulatory structure, and therefore these Funds may not invest more than 10% of their net assets in such securities.

"Pre-Payment" risk

Certain fixed income securities give an issuer the right to call its securities, before their maturity date, in periods of declining interest rates. The possibility of such "pre-payment risk" may force the Fund to reinvest the proceeds of such investments in securities offering lower yields, thereby reducing the Fund's interest income.

Real Estate Securities risk

Some Funds invest in real estate securities or real investment trusts (REITs). Real estate values rise and fall in response to a variety of factors, including local, regional and national economic conditions, interest rates and tax considerations. When economic growth is slow, demand for property decreases and prices may decline. Property values may decrease because of overbuilding, increases in property taxes and operating expenses, changes in zoning laws, environmental regulations or hazards, uninsured casualty or condemnation losses, or general decline in neighbourhood values.

Equity REITs may be affected by any changes in the value of the properties owned and other factors, and their prices tend to go up and down. A REIT's performance depends on the types and locations of the properties it owns and on how well it manages those properties. A decline in rental income may occur because of extended vacancies, increased competition from other properties, tenants' failure to pay a rent or poor management. A REIT's

performance also depends on the company's ability to finance property purchases and renovations and manage its cash flows. Since REITs typically are invested in a limited number of projects or in a particular market segment, they are more susceptible to adverse developments affecting a single project or market segment than more broadly diversified investments.

Restructuring Companies risk

Some Funds, especially the Franklin High Yield Fund, the Franklin Strategic Income Fund, the Franklin Mutual Beacon Fund, the Franklin Mutual Euroland Fund, the Franklin Mutual European Fund, the Franklin Mutual Global Discovery Fund, the Templeton Euro High Yield Fund and the Templeton Global High Yield Fund may also invest in the securities of companies involved in mergers, consolidations, liquidations and reorganisations or as to which there exist tender or exchange offers, and may participate in such transactions; they may also purchase indebtedness and participations therein, both secured and unsecured, of debtor companies engaged in reorganisation or financial restructuring. Such investments also involve greater credit risks.

Russian and Eastern European Markets risk

Securities of issuers in Russia, countries of Eastern Europe as well as the New Independent States such as Ukraine and the countries under the influence of the Soviet Union in the past involve significant risks and special considerations, which are not typically associated with investing in securities of issuers in the EU Member States and the United States of America. They are additional to the normal risks inherent in any such investments and include political, economic, legal, currency, inflation and taxation risks. For example there is a risk of loss due to lack of adequate systems for transferring, pricing, accounting for and safekeeping or record keeping of securities.

In particular, the Russian market presents a variety of risks in relation to the settlement and safekeeping of securities. These risks result from the fact that physical securities do not exist; as a consequence, the ownership of securities is evidenced only on the issuer's register of shareholders. Each issuer is responsible for the appointment of its own registrar. The result is a broad geographic distribution of several hundred registrars across Russia. Russia's Federal Commission for Securities and Capital Markets (the "Commission") has defined the responsibilities for registrar activities, including what constitutes evidence of ownership and transfer procedures. However, difficulties enforcing the Commission's regulations mean that the potential for loss or error still remains and there is no guarantee that the registrars will act according to the applicable laws and regulations. Widely accepted industry practices are actually still in the process of being established. When registration occurs, the registrar produces an extract of the register of shareholders as at that particular point in time. Ownership of Shares is vested in the records of the registrar but is not evidenced by the possession of an extract of the register of shareholders. The extract is only evidence that registration has taken place. However, the extract is not negotiable and has no intrinsic value. In addition, a registrar will typically not accept an extract as evidence of ownership of Shares and is not obliged to notify the Custodian or its local agents in Russia, if or when it amends the register of Shareholders. Russian securities are not on physical deposit with the Custodian or its local agents in Russia. Similar risks apply in respect of the Ukrainian market.

Therefore, neither the Custodian nor its local agents in Russia or in Ukraine can be considered as performing a physical safekeeping or custody function in the traditional sense. The registrars are neither agents of, nor responsible to, the Custodian or its local agents in Russia or in

Ukraine. The Custodian's liability only extends to its own negligence and willful default and to that caused by negligence or willful misconduct of its local agents in Russia or in Ukraine, and does not extend to losses due to the liquidation, bankruptcy, negligence or willful default of any registrar. In the event of such losses the Company will have to pursue its rights directly against the issuer and/or its appointed registrar.

However, securities traded on the Russian Trading Stock Exchange ("RTS") or on the Moscow Interbank Currency Exchange ("MICEX") can be treated as investment in securities dealt in on a regulated market.

Small and Mid-Sized Companies risk

The stock prices of small and mid-sized companies can perform differently than larger, more recognised, companies and have the potential to be more volatile. A lower degree of liquidity in their securities, a greater sensitivity to changes in economic conditions and interest rates, and uncertainty over future growth prospects may all contribute to such increased price volatility. Additionally, smaller companies may be unable to generate new funds for growth and development, may lack depth in management, and may be developing products in new and uncertain markets all of which are risks to consider when investing in such companies. These risks are typically increased for securities issued by smaller companies registered or performing a significant part of their activities in developing countries and Emerging Markets, especially as the liquidity of securities issued by companies in Emerging Markets may be substantially smaller than with comparable securities in industrialised countries.

Sovereign Debt risk

Sovereign debts ("Sovereign Debts") are debt obligations issued or guaranteed by governments or government-related entities.

Investment in Sovereign Debts issued or guaranteed by governments or their agencies and instrumentalities ("governmental entities") involves a high degree of risk. The governmental entity that controls the repayment of Sovereign Debt may not be able or willing to repay the principal and/or interest when due in accordance with the terms of such debt due to specific factors, including, but not limited to (i) their foreign reserves, (ii) the available amount of their foreign exchange as at the date of repayment, (iii) their failure to implement political reforms, and (iv) their policy relating to the International Monetary Fund.

Sovereign Debt holders may also be affected by additional constraints relating to sovereign issuers which may include: (i) the unilateral rescheduling of such debt by the issuer and (ii) the limited legal recourses available against the issuer (in case of failure of delay in repayment).

Funds investing in Sovereign Debts issued by governments or related entities from countries referred as Emerging or Frontier Markets bear additional risks linked to the specificities of such countries (e.g. currency fluctuations, political and economics uncertainties, repatriation restrictions, etc).

Swap Agreements risk

The Company may enter into interest rate, index and currency exchange rate swap agreements for the purposes of attempting to obtain a particular desired return at a lower cost to the Company than if the Company had invested directly in an instrument that yielded that desired return. Swap agreements are two party contracts entered into primarily by institutional investors for periods ranging from

a few days to more than one year. In a standard "swap" transaction, two parties agree to exchange the returns (or differential in rates of return) earned or realised on particular predetermined investments or instruments. The gross returns to be exchanged or "swapped" between the parties are calculated with respect to a "notional amount", ie, the return on or increase in value of a particular US dollar amount invested at a particular interest rate, in a particular foreign currency, or in a "basket" of securities representing a particular index. The "notional amount" of the swap agreement is only a fictive basis on which to calculate the obligations which the parties to a swap agreement have agreed to exchange. The Company's obligations (or rights) under a swap agreement will generally be equal only to the net amount to be paid or received under the agreement based on the relative values of the positions held by each party to the agreement (the "net amount").

Whether the Company's use of swap agreements will be successful in furthering its investment objective will depend on the ability of the Investment Managers to correctly predict whether certain types of investments are likely to produce greater returns than other investments. Because they are two party contracts and because they may have terms of greater than seven (7) calendar days, swap agreements may be considered to be illiquid. Moreover, the Company bears the risk of loss of the amount expected to be received under a swap agreement in the event of the default or bankruptcy of a swap agreement counterparty. The Investment Managers will cause the Company to enter into swap agreements in accordance with the guidelines in Appendix B of the full Prospectus.

Use of Techniques and Instruments risk

Use of the techniques and instruments contemplated in Appendix B.4 of the full Prospectus involves certain risks, some of which are listed in the following paragraphs, and there can be no assurance that the objective sought to be obtained from such use will be achieved.

In relation to repurchase transactions, investors must notably be aware that (A) in the event of the failure of the counterparty with which cash of a Fund has been placed there is the risk that collateral received may yield less than the cash placed out, whether because of inaccurate pricing of the collateral, adverse market movements, a deterioration in the credit rating of issuers of the collateral, or the illiquidity of the market in which the collateral is traded; that (B) (i) locking cash in transactions of excessive size or duration, (ii) delays in recovering cash placed out, or (iii) difficulty in realising collateral may restrict the ability of the Fund to meet redemption requests, security purchases or, more generally, reinvestment; and that (C) repurchase transactions will, as the case may be, further expose a Fund to risks similar to those associated with optional or forward derivative financial instruments, which risks are further described in other sections of the full Prospectus.

The counterparties to repurchase agreement transactions must have a minimum credit rating of A- or better, as rated by Standard & Poors, Moody's or Fitch, at the time of the transactions. A counterparty with a credit rating of BBB may also be acceptable where the credit rating of the relevant counterparty is limited by the sovereign debt rating of its domicile country. The collateral received by the Company in respect of repurchase agreements transactions may be US Treasury bills or US government agency bonds supported by the full faith and credit of the U.S. government. Any incremental income generated from repurchase agreement transactions will be accrued to the relevant Fund.

In relation to securities lending transactions, investors must notably be aware that in case of default, bankruptcy or insolvency of the borrower of securities lent by a Fund, there is a risk of delay in recovery (that may restrict the ability of a

Fund to meet delivery obligations under security sales or payment obligations arising from redemptions requests) or even loss of rights in collateral received, which risks are mitigated by a careful creditworthiness analysis of borrowers to determine their degree of risk for said borrowers to become involved in insolvency/bankruptcy proceedings within the timeframe contemplated by the loan.

Warrants risk

Investments in and holding of warrants may result in increased volatility of the net asset value of certain Funds, which may make use of warrants, and accordingly is accompanied by a higher degree of risk.

Investors should understand that all investments involve risk and there can be no guarantee against loss resulting from an investment in any Fund(s), nor can there be any assurance that the Fund(s) investment objective(s) will be attained. Neither the Investment Managers, nor any of their worldwide affiliated entities, guarantee the performance or any future return of the Company or any of its Funds.

SHARE CLASSES

The following Share Classes are in issue:

Class A	Class AX	Class B	Class C	Class I	Class N	Class X	Class Z
Class A acc Class A Mdis Class A Qdis Class A Ydis	Class AX acc Class AX Mdis Class AX Qdis Class AX Ydis	Class B acc Class B Mdis Class B Qdis Class B Ydis	Class C acc Class C Mdis Class C Qdis Class C Ydis	Class I acc Class I Mis Class I Qdis Class I Ydis	Class N acc Class N Mdis Class N Qdis Class N Ydis	Class X acc Class X Mdis Class X Qdis Class X Ydis	Class Z acc Class Z Mdis Class Z Ydis

Unless otherwise stated in this Simplified Prospectus, the same terms and conditions apply to the different types of Shares, i.e. accumulation (acc), monthly distribution (Mdis), quarterly distribution (Qdis) and yearly distribution (Ydis), of the same Share Class.

Class I Shares are only offered to institutional investors as defined from time to time by the guidelines or recommendations of the competent Luxembourg financial supervisory authority (please refer below for the list of qualifying institutional investors), in certain limited circumstances, for distribution in certain countries and/or through certain sub-distributors and/or professional investors at the discretion of the Principal Distributor, in which case any local supplement to this Simplified Prospectus or marketing material, including that used by the relevant intermediaries, will refer to the possibility and terms to subscribe for Class I Shares.

Class N Shares may be offered for distribution in certain countries and/or through certain sub-distributors, Broker/Dealers and/or professional investors at the discretion of the Principal Distributor, in which case any local supplement to this Simplified Prospectus or marketing material, including that used by the relevant intermediaries, will refer to the possibility and terms to subscribe for Class N Shares.

Class X Shares are only offered to institutional investors as defined from time to time by the guidelines or recommendations of the competent Luxembourg financial supervisory authority (please refer below for the list of qualifying institutional investors), in certain limited circumstances at the discretion of the Company or the Investment Manager and its affiliates.

Class Z Shares may be offered in certain limited circumstances (i) for distribution in certain countries and through certain sub-distributors and/or dealers having separate fee arrangements with their clients, and/or (ii) to professional investors at the discretion of the Principal Distributor and/or the Transfer Agent. In these cases, any local supplement to this Simplified Prospectus or marketing material, including that used by the relevant intermediaries, will refer to the possibility and terms to subscribe for Class Z Shares.

List of Qualifying Institutional Investors:

- Institutional investors stricto sensu, such as banks and other regulated professionals of the financial sector, insurance and reinsurance companies, social security institutions and pension funds, charitable institutions, industrial, commercial and financial group companies, all subscribing on their own behalf, and the structures which such Institutional Investors put into place for the management of their own assets.
- Credit institutions and other regulated professionals of the financial sector investing in their own name but on behalf of Institutional Investors as defined above.
- Credit institutions and other regulated professionals of the financial sector established in Luxembourg or abroad which invest in their own name but on behalf of their non institutional clients on the basis of a discretionary management mandate.
- Collective investment undertakings established in Luxembourg or abroad.
- Holding companies or similar entities, whether Luxembourg-based or not, whose shareholders are Institutional Investors as described in the foregoing paragraphs.
- Holding companies or similar entities, whether Luxembourg-based or not, whose shareholder(s)/ beneficial owner(s) is/are individual person(s) which is/are extremely wealthy and may reasonably be regarded as sophisticated investor(s) and where the purpose of the holding company is to hold important financial interests/investments for an individual or a family.
- A holding company or similar entity, whether Luxembourg based or not, which as a result of its structure and activity has a true substance and holds important financial interests / investments.

By applying for Class I and/or Class X Shares, Investors represent to the Company and the Transfer Agent that they qualify as one or more of the types of Institutional Investor(s) listed hereabove and undertake to indemnify the Company, the Transfer Agent and/or any other entity of Franklin Templeton Investments against any and all damages, losses, costs or other expenses they may incur as a result of acting in good faith of such a representation.

The Share Classes may be denominated in the Fund base currency or in another currency (an "alternative currency") or may be hedged in a currency other than the base currency of the Fund. **The Company does not currently intend to hedge the currency risks to which these Classes are exposed, except for Hedged Share Classes.**

Shares may either be distribution Shares or accumulation Shares. No distribution of dividends will be made for accumulation Shares, but the net income attributable will be reflected in the increased value of the Shares.

Hedged Share Classes and Alternative Currency Classes may be offered in respect of certain Funds and certain Classes. The charge structure applicable is the same as the one applicable for the same Share Classes within the relevant Fund offered in the base currency.

Before investing in a specific Share Class of any Fund, investors should ensure that such Class best suits their needs and should consider the local tax implications subject to their personal circumstances and local tax laws. Investors are recommended to contact a tax advisor or their financial advisor for further information.

A complete list of available Shares Classes may be obtained from the Franklin Templeton Investments Internet site <http://www.franklintempleton.lu> or upon request at the registered office of the Company.

CHARGES STRUCTURE

Class A Shares and Class AX Shares

- *Initial Charge*: up to 6.50% of the total amount invested. This maximum charge, assuming that no other charges or expenses are applicable, amounts to approximately 6.95 % of the aggregate Share price of the Shares being acquired. The Principal Distributor may waive the initial charge in whole or in part.

- *Qualified Investments of USD 1 million or more*: a Contingent Deferred Sales Charge ("CDSC") of up to 1.00% may apply to certain of those redemptions within the first 18 months after each qualified investment of USD 1 million or more, in order to recover commissions paid to sub-distributors, intermediaries, Broker/Dealers and/or professional investors. The way this charge is calculated is more fully described in the section "Calculation of CDSC" of the full Prospectus.

- *Maintenance Charge*: up to 0.50 % per annum of the applicable average net asset value.

Class B Shares

- *Initial Charge*: purchases of Class B Shares are not subject to an initial charge.

- *Contingent Deferred Sales Charge ("CDSC")*: applicable if an investor redeems Shares within four years of purchase. There is no CDSC on Shares acquired through reinvestment of dividends. To keep the CDSC as low as possible, each time an instruction to sell Shares is placed, any Shares in the investor's Holding not subject to a CDSC will be sold first. If there are not enough of these Shares to meet the request, additional Shares will be sold in the order they were purchased.

Holding means Shares held in a single Share Class within the Investor's account.

The following rates will apply:

<u>YEARS SINCE PURCHASE</u>	<u>CDSC</u>
Less than one year	4.00%
Equal or more than one year but less than two years	3.00%
Equal or more than two years but less than three years	2.00%
Equal or more than three years but less than four years	1.00%
Equal or more than four years	0.00%

The Principal Distributor and/or a duly authorised party may waive the CDSC in whole or in part.

- *Maintenance Charge*: up to 0.75% per annum of the applicable average net asset value.

- *Servicing Charge*: 1.06% per annum of the applicable average net asset value.

Starting from January 2011, Class B Shares will be automatically converted into Class A Shares of the same Fund free of charge on the monthly scheduled conversion date fixed by the Transfer Agent upon or following the expiry of 84 months after the date

of their purchase. As a result, the terms and other conditions applicable to such Shares shall become those applicable to Class A Shares.

The Transfer Agent reserves the right to require additional information and/or confirmation from the investor for large purchases into Class B Shares, which may result in delay in the processing of the investment until receipt of the requested information/confirmation.

Class C Shares

- *Initial Charge*: purchases of Class C Shares are not subject to an initial charge.

- *Contingent Deferred Sales Charge ("CDSC")*: 1.00% applicable if an investor redeems Shares within one year of purchase. To keep the CDSC as low as possible, each time an instruction to sell Shares is placed, any Shares in the investor's Holding not subject to a CDSC will be sold first. If there are not enough of these Shares to meet the request, additional Shares will be sold in the order they were purchased.

The Principal Distributor or a duly authorised party may waive the CDSC in whole or in part.

- *Maintenance Charge*: as from the second and subsequent years of investment 1.08% per annum of the applicable average net asset value.

- *Servicing Charge*: during the first year of investment 1.08% per annum of the applicable average net asset value.

The Transfer Agent reserves the right to require additional information and/or confirmation from the investor for large purchases into Class C Shares, which may result in delay in the processing of the investment until receipt of the requested information/confirmation.

Class I Shares

Purchases of Class I Shares are not subject to initial charge, CDSC nor maintenance or servicing charge.

Class I Shares have a minimum initial investment of USD 5,000,000 (except for the Class I Shares of the Franklin U.S. Government Fund which has a minimum initial investment of USD 1,000,000), which may be waived in whole or in part at the discretion of the Principal Distributor.

Class N Shares

- *Initial Charge*: up to 3.00% of the total amount invested. This maximum charge, assuming that no other charges or expenses are applicable, amounts to approximately 3.09% of the aggregate Share price of the Shares being acquired. The Principal Distributor may waive the initial charge in whole or in part.

- *Maintenance Charge*: up to 1.25% per annum of the applicable average net asset value.

Class X Shares

No initial charge and no management fees will be payable by an investor on the acquisition of Class X Shares (instead a fee will be paid to the Investment Manager or affiliates under an agreement).

Class Z Shares

Purchases of Class Z Shares are not subject to initial charge, CDSC nor maintenance or servicing charge.

CALCULATION AND PUBLICATION OF SHARE PRICES

The prices at which Shares of the relevant Classes can be purchased, sold or switched in each Share Class are calculated on each Valuation Day by reference to the net asset value per Share of the Class concerned and are available on the following Business Day.

A Valuation Day for all Funds is any day on which the New York Stock Exchange (NYSE) is open or any full day on which banks in Luxembourg are open for normal business (other than during a suspension of normal dealing).

The net asset value per share of each Share Class of each Fund is calculated as follows:

Assets attributable to the Share Class of the Fund – liabilities attributable to the Share Class of the Fund

Number of shares of the relevant Share Class of the Fund

The net asset value per Share of each Fund and Share Class is made public at the registered office of the Company and is available at the offices of the Principal Distributor and the Transfer Agent. The Company will arrange for the publication of the net asset value per Share of relevant Funds as required under applicable law and in such newspapers as the Board of Directors may decide from time to time. This information is also available on the Internet site: <http://www.franklintempleton.lu>. The Company cannot accept any responsibility for any error or delay in publication or for the non-publication of prices.

HOW TO PURCHASE SHARES

Initial purchase instruction for Shares should be made on the standard application form available at the office of the Transfer Agent or the relevant appointed Distributor. Any subsequent instruction to purchase Shares may also be made by telephone, facsimile or electronic request, if expressly allowed by the Transfer Agent.

Subsequent purchase instructions should be duly signed and should state:

- The name of the Fund(s) and the Share Class;
- The number or amount of Shares applied for in the Fund(s) (in numbers and in words);
- The Share Class ISIN code (available on the Franklin Templeton Investments Internet site <http://www.franklintempleton.lu>); and
- How payment has been or will be made.

Investors are informed that instructions for the Templeton Euro Money Market Fund can only indicate the amount to be invested (orders based on Share amounts are not acceptable).

If there is any discrepancy between the name of the Fund(s), the Share Class, the Share Class ISIN code or the currency of the Fund(s) Share Class quoted in the instruction, the order will be executed on the basis of the ISIN code quoted.

Applications will be accepted at the discretion of the Board of Directors.

Local offering documentation may provide the facility for the investors to avail of nominee type of intermediaries, dealers and/or local paying agents which may effect purchases, switches and sales of Shares in nominee name on behalf of the investors and request the registration of such operations on the register of Shareholders of the Company in nominee name.

Complete instructions for the purchase of Shares received and accepted by the Transfer Agent or by a duly authorised Distributor on a Dealing Day before the applicable dealing cut-off times as more fully described in Appendix 1 will be dealt with on that day on the basis of the net asset value per Share of the relevant Share Class determined on that day (plus any applicable initial charge).

Complete instructions for the purchase of Shares received and accepted by the Transfer Agent or by a duly authorised Distributor on a Dealing Day after the applicable dealing cut-off times as more fully described in Appendix 1 will be dealt with on the basis of the net asset value per Share of the relevant Share Class determined on the next Valuation Day (plus any applicable initial charge).

The Board of Directors may permit, if it deems it appropriate, different dealing cut-off times to be agreed with local distributors or for distribution in jurisdictions where the different time zone so justifies. In such circumstances, the applicable dealing cut-off time applied must always precede the time when the applicable net asset value is calculated and published. Such different dealing cut-off times shall be disclosed in the local supplement to the full Prospectus, the agreements in place with the local distributors, or other marketing material used in the jurisdictions concerned.

The table below sets out the minimum investments required to subscribe in each available Share Class:

Share Class Overview	Class A	Class AX	Class B	Class N	Class C	Class I	Class X	Class Z
Investor Category	Retail Institutional	Retail Institutional	Retail Institutional	Retail Institutional	Retail Institutional	Institutional	Institutional	Retail Institutional
Minimum Investment	USD 5,000	USD 5,000	USD 5,000	USD 5,000	USD 5,000	USD 5,000,000*	Details available from the Company or Transfer Agent	USD 5,000
Subsequent Investment	USD 1,000	USD 1,000	USD 1,000	USD 1,000	USD 1,000	USD 1,000	Details available from the Company or Transfer Agent	USD 1,000

* except for the Franklin U.S. Government Fund which has a minimum initial investment of USD 1,000,000 or the equivalent in any other freely exchangeable currency

These minimum investment amounts may be waived in whole or in part by the Board of Directors of the Company, by the Principal Distributor or by the Distribution Controller.

The allotment of Shares is conditional upon receipt of purchase monies, including any applicable initial charges, which must be paid within five (5) Luxembourg Business Days of the Valuation Day unless the Board of Directors requires cleared funds on or prior to an application being accepted. Shares which remain unsettled for a period of thirty (30) days may be cancelled. In such circumstances, the Company has the right to bring an action against the defaulting Investor to obtain compensation for any loss directly or indirectly resulting from the failure by the Investor to make good settlement by the settlement date.

The Company does not accept payments in cash, traveller's cheques or non-bank money orders. Payments should normally be made by electronic bank transfer to the bank account set forth by the Principal Distributor (as detailed in the application form).

Payments can be made in the currency of the Share Class. However, an Investor may, in certain instances as permitted by the Transfer Agent, provide for payment in any other freely exchangeable currency, in which case, the necessary foreign exchange transaction will be arranged on behalf of, and at the expense of, the Investor. Investors are advised that payments made in any other freely exchangeable currency may be delayed until the next Valuation Day to allow for currency conversion.

Subject to receipt of the full payment and the registration details, confirmation statements together with registered Share certificates, if requested, will, normally within fourteen (14) Luxembourg bank business days of completion of the subscription process, be dispatched in accordance with the investor's instructions to the investor or its nominated agent, at the risk of the investor. Investors should promptly check these confirmation statements to ensure that each transaction has been accurately recorded in the relevant Investor account. In the event of identifying a discrepancy Investors should immediately report such discrepancy in writing to the Transfer Agent or their local Franklin Templeton Investments servicing office. If not so reported within fifteen (15) Business Days from the confirmation statement date, the transaction will be deemed correct and the Investor will be bound by the terms of the confirmation statement. These confirmation statements are private and confidential. To safeguard Investors' Holdings in the case of loss or theft of any statements (or of identity documents/passport), Investors should immediately inform their local Franklin Templeton Investments servicing office.

If any purchase instruction is not accepted in whole or in part, the purchase monies will be returned to the investor at the risk and cost of the investor.

The Board of Directors of the Company reserves the right at any time, without notice, to discontinue the issue or sale of Shares pursuant to the full Prospectus.

HOW TO SWITCH SHARES

A switch is a transaction to convert an investor's Holding in a Share Class into another Share Class within the same Fund or the same Share Class or another Share Class in different Funds. The transaction is executed by selling Shares in the original Share Class followed by purchasing Shares in the new Share Class provided that the investor's Holding meets the minimum investment requirements for both the existing and the new Fund or Share Class.

Class A and AX Shares

Class A and Class AX Shares can be switched with Shares in any other Fund or Share Class subject to meeting Investor qualification criteria for that Share Class. Class A Shares and Class AX Shares subject to a CDSC can only be switched with Class A or Class AX Shares subject to the same CDSC. The aging of the Shares will be carried over to the new Share Class and no CDSC is payable at the time of such switch.

Class B Shares

Class B Shares can only be switched with Class B Shares of another Fund which continues to issue Class B Shares of the same currency and subject to the same CDSC. The aging of the Shares will be carried over to the new Share Class and no CDSC is payable at the time of such switch.

Attention of Investors is drawn to this restriction that may limit their possibility to acquire Shares of another Fund through switching because Class B Shares are not available in all Funds and the further issue of Class B Shares of the same currency of any Fund may be suspended at any time by the Board of Directors.

Class C Shares

Class C Shares can only be switched with Class C Shares of another Fund which continues to issue Class C Shares of the same currency and subject to the same CDSC. The aging of the Shares will be carried over to the new Share Class and no CDSC is payable at the time of such switch.

Attention of Investors is drawn to this restriction that may limit their possibility to acquire Shares of another Fund through switching because Class C Shares are not available in all Funds and the further issue of Class C Shares of the same currency of any Fund may be suspended at any time by the Board of Directors.

Class I Shares

Only Institutional Investors can switch their Shares into Class I Shares.

Class N Shares

Class N Shares can be switched with Shares in any other Fund or Share Classes subject to meeting Investor qualification criteria for that Share Class.

Class X Shares

Only Institutional Investors can switch their Shares into Class X Shares, subject to the conditions laid down in section "Share Classes".

Class Z Shares

Switching into Class Z Shares is only permitted (i) to Investors instructing through certain sub-distributors and/or dealers having separate fee arrangements with their clients, and/or (ii) to professional investors at the discretion of the Principal Distributor and/or the Transfer Agent.

Instructions to Switch

An instruction to switch Shares should be submitted to the Transfer Agent in writing or, if expressly permitted, by telephone, facsimile or electronic means, specifying:

- The Investor personal account number;
- The number/value of Shares to be switched;
- The Share Class;
- The Fund;
- The ISIN codes (available on the Franklin Templeton Investments Internet site <http://www.franklintempleton.lu>) for both Classes involved in the switch.

If an instruction is not submitted in writing, the Transfer Agent may request a written and duly signed confirmation of such instruction, in which case it may delay the processing of the instruction until receipt of the written and duly signed confirmation.

The minimum initial investment in the new Fund is USD 2,500 (or currency equivalent). Any instruction which would result in a Holding balance being less than USD 2,500 (or currency equivalent) may not be executed.

Any instruction to switch Shares may not be executed until any previous transaction involving the Shares to be sold has been completed and settled. Where the sale is settled prior to the purchase, the sale proceeds will remain in the Company's collection bank account pending settlement of the purchase. No interest will accrue to the benefit of the Investor.

Investors are advised that any instruction to switch Shares between Funds denominated in differing currencies will require one (1) additional Business Day to allow for currency conversion. However, in exceptional circumstances, the Company or the Transfer Agent may, at its own discretion, decide to process such Switch request and the necessary currency conversions in the same Valuation Day.

In certain limited circumstances as well as for distributions in certain countries and/or through certain sub-distributors and/or professional investors, the Company or the Transfer Agent may require one (1) additional Business Day in order to process switch transactions. The additional day may be required for operational reasons in cases where the Fund is in scope of the European Savings Directive and where withholding tax applies and requires to be calculated and factored into the calculation of the number of Shares that the Investor will become entitled to in the new Fund or where currency conversion is required.

Switch Price

A complete switch instruction received and accepted by the Transfer Agent or by a duly authorised Distributor on any Dealing Day before the applicable dealing cut-off time (as described in Appendix A), will be dealt with on the basis of the Net Asset Value per Share of the relevant Share Class determined on this Dealing Day.

A complete switch instruction received and accepted by the Transfer Agent or by a duly authorised Distributor on a Dealing Day after the applicable dealing cut-off time, will be dealt with on the basis of the Net Asset Value per Share of the relevant Share Class determined on the next Valuation Day.

The number of Shares issued will be based upon the respective Net Asset Value of the Shares of the two relevant Funds or Share Classes on the relevant Valuation Day(s).

Switch Fees and Charges

A switch charge of up to 1.00% of the value of the Shares to be switched, authorised in exceptional circumstances by the Board of Directors, may be applied. This charge may be applied for distribution in certain countries and/or through certain Distributors and/or professional investors. In the event this charge is applied details will be contained in any local supplement to the full Prospectus or marketing materials. Such charge shall be automatically deducted when the number of Shares is calculated and paid by the Company.

In certain circumstances a switch from any one Fund or Share Class will necessitate a fee equivalent to the difference between the two levels of Initial Charges unless the Investor, as a result of prior switches, has already paid the initial charge rate differential. It is currently anticipated that any initial charge rate differential will be paid to the Principal Distributor, who may, in turn, pay a portion of each differential to Distributors, intermediaries, Broker/Dealers and/or professional investor. However, the initial charge rate differential may be waived at the discretion of the Company.

HOW TO SELL SHARES

Shares of any Class in any Fund can be sold on any Dealing Day. Instructions to sell Shares should be submitted to the Transfer Agent in writing or, if expressly permitted, by facsimile, telephone or electronic means, specifying:

- The Investor personal account number;
- The number/value of Shares to be sold;
- The Share Class;
- The Fund;
- The ISIN codes (available on the Franklin Templeton Investments Internet site <http://www.franklintempleton.lu>);

- The settlement currency; and
- The bank details.

If an instruction has not been submitted in writing, the Transfer Agent may request a written and duly signed confirmation of such instruction, in which case it may delay the processing of the instruction until receipt of the written and duly signed confirmation.

Any instruction to sell Shares may not be executed until any previous transaction involving the Shares to be sold has been completed and settled. Such request to sell will be dealt with at the net asset value per Share determined on the Valuation Day during which the previous transaction is completed and fully settled.

If the instruction would result in a Holding being less than USD 2,500 (or the equivalent in the base currency of the relevant Fund, if different from USD), the Company may redeem such Holding balance and pay the proceeds to the Investor.

A Complete instruction to sell received and accepted by the Transfer Agent or by a duly authorised Distributor on any Dealing Day before the applicable dealing cut-off time as more fully described in Appendix 1 will be dealt with on the basis of the net asset value per Share of the relevant Share Class determined on this Dealing Day (less any applicable CDSC).

A Complete instruction to sell received and accepted by the Transfer Agent or by a duly authorised Distributor on a Dealing Day after the applicable dealing cut-off time as more fully described in Appendix 1 will be dealt with on the basis of the net asset value per Share of the relevant Share Class determined on the next Valuation Day (less any applicable CDSC).

The Board of Directors may permit, if it deems it appropriate, different dealing cut-off times to be agreed with local distributors or for distribution in jurisdictions where the different time zone so justifies. In such circumstances, the applicable dealing cut-off time applied must always precede the time when the applicable net asset value is calculated and published. Such different dealing cut-off times shall be disclosed in the local supplement to the full Prospectus, the agreements in place with the local distributors, or other marketing material used in the jurisdictions concerned.

Payment for Shares sold will be made within five (5) Luxembourg Business Days after the instruction to sell has been received in good order and accepted by the Transfer Agent and will normally be made in the Share Class currency by electronic bank transfer of funds unless otherwise instructed. Payment may also be made in any freely exchangeable currency if requested within the instruction, at the cost and risk of the Investor.

Payment of redemption proceeds for any redemption request made in respect of Shares recently purchased by cheque or banker's draft may be delayed for fifteen (15) Luxembourg bank business days or more to allow the cheque or banker's draft to clear. A certified or banker's cheque may clear in less time.

HOW TO TRANSFER SHARES

A transfer is a transaction for the purpose of transferring an Investor Holding to another Investor.

The transfer of Shares shall be effected by delivery to the Transfer Agent of an instruction of transfer or a duly signed Share transfer form together with, if issued, the relevant Share certificate to be cancelled. The instruction must be dated and signed by the transferor(s), and if requested by the Company or the Transfer Agent also signed by the transferee(s), or by persons holding suitable powers of attorney to act therefore. Transfer of Physical Bearer Shares also require delivery of the relevant certificate.

Acceptance of the transfer by the Transfer Agent will be subject to the transferee(s) having an accepted application by the Company, and meeting all Fund and Share Class eligibility requirements.

Any request to transfer Shares will only be executed once any previous transaction involving the Shares to be transferred has been completed and full settlement on those Shares received.

If the transfer instruction would result in a Holding balance being less than USD 2,500 (or currency equivalent) the Company may redeem such Holding balance and pay the proceeds to the Investor.

Transfer of Shares will be effected in accordance with the Luxembourg Stock Exchange regulations.

The Shares transferred may be subject to specific conditions, including CDSC. Investors should ensure that they are aware of all specific conditions applicable to such Shares.

DIVIDEND POLICY

In respect of all Funds which issue Distribution Shares, it is the intention of the Board of Directors to distribute substantially all of the income attributable to the Distribution Shares. Subject to any legal or regulatory requirements, dividends may also be paid out of the capital of such Funds. Subject to any legal or regulatory requirements, the Board of Directors reserves the right to introduce new Share Classes, which may retain and re-invest their net income.

Annual dividends may be declared separately in respect of each Fund at the Annual General Meeting of Shareholders.

Interim Share dividends may be paid upon a decision of the Board of Directors in relation to any of the Funds.

It is anticipated that distributions will be made under normal circumstances as set out in the table below:

Share type	Share name	Payments
Accumulation Shares	A (acc), AX (acc), B (acc), C (acc), I (acc), N (acc), X (acc) and Z (acc)	No distribution of dividends shall be made but the net income attributable will be reflected in the increased value of the Shares
Distribution Shares	A (Mdis), AX (Mdis), B (Mdis), C (Mdis), I (Mdis), N (Mdis), X (Mdis) and Z (Mdis)	Under normal circumstances it is anticipated that distribution will be made monthly (following the end of each calendar month)
	A (Qdis), AX (Qdis), B (Qdis), C (Qdis), I (Qdis), N (Qdis) and X (Qdis)	Under normal circumstances it is anticipated that distribution will be made quarterly (following the end of each calendar quarter)
	A (Ydis), AX (Ydis), B (Ydis), C (Ydis), I (Ydis), N (Ydis), X (Ydis) and Z (Ydis)	Under normal circumstances it is anticipated that distribution will be made yearly (normally in July/August each year)

Dividends of registered Distribution Shares will normally be reinvested in the purchase of further Distribution Shares of the Fund and Share Class to which such dividends relate, unless otherwise stated in the application form. In the event that cash dividends are payable they will be paid to holders of registered Distribution Shares who have elected to receive dividends in cash, payment normally being made by transfer of funds.

Please note that dividend distributions are not guaranteed, that the Company's Funds do not pay interest and that the price of Shares in the Company's Funds and any income earned on the Shares may go down as well as up. It should also be remembered that any dividend distribution lowers the value of the Shares in the Company's Funds by the amount of the distribution. Future earnings and investment performance can be affected by many factors, including changes in exchange rates, not necessarily within the control of the Company, its Board of Directors, officers or any other person. No guarantees as to future performance of, or future return from, the Company can be given by the Company itself, or by any Director or officer of the Company, by Franklin Templeton Investments, or any of its worldwide affiliates, or by any of their directors, officers or employees.

TRADING POLICY

Market timing/short term trading generally. The Company discourages short-term or excessive trading, often referred to as "market timing", and intends to seek to restrict or reject such trading or take other action, as described below, if in the judgment of the Company or Transfer Agent such trading may interfere with the efficient management of the portfolio of any Fund, may materially increase the Fund's transaction costs, administrative costs or taxes, or may otherwise be detrimental to the interests of the Company and its Shareholders.

Market timing consequences. If information regarding an Investor's activity in the Company or in any other Franklin Templeton investment fund or non-Franklin Templeton investment fund is brought to the attention of the Company or the Transfer Agent and based on that information the Company or its agents in their sole discretion conclude that such trading may be detrimental to the Company as described in this Market Timing Trading policy, the Company may temporarily or permanently bar an Investor's future purchases into the Company or, alternatively, may limit the amount, number or frequency of any future purchases and/or the method by which a Shareholder may request future purchases and sales (including purchases and/or sales by a switch or transfer between the Company and any other Franklin Templeton investment funds).

In considering an Investor's trading activity, the Company may consider, among other factors, the Investor's trading history both directly and, if known, through financial intermediaries, in the Company, in other Franklin Templeton investment funds, in non-Franklin Templeton investment funds, or in accounts under common control or ownership.

Market timing through financial intermediaries. Investors are subject to this policy whether they are a direct Shareholder of the Fund or are investing indirectly in the Company through a financial intermediary such as a bank, an insurance company, an investment advisor, or any other Distributor that acts as nominee for Investors subscribing the Shares in their own name but on behalf of its customers (the Shares being held in an "omnibus holding").

While the Company will encourage financial intermediaries to apply the Company's Market Timing Trading policy to their customers who invest indirectly in the Company, the Company is limited in its ability to monitor the trading activity or enforce its Market Timing Trading policy with respect to customers of financial intermediaries. For example, should it occur, the Company may not be able to detect market timing that may be facilitated by financial intermediaries or made difficult to identify in the omnibus accounts used by those intermediaries for aggregated purchases, switches and sales on behalf of all their customers. More specifically, unless the financial intermediaries have the ability to apply the Company's Market Timing Trading policy to their customers through such methods as implementing short-term trading limitations or restrictions, monitoring trading activity for what might be market timing, the Company may not be able to determine whether trading by customers of financial intermediaries is contrary to the Company's Market Timing Trading policy.

Risks from market timers. Depending on various factors, including the size of the Fund, the amount of assets the Investment Manager typically maintains in cash or cash equivalents and the Euro, Japanese Yen or US dollar amount and number and frequency of trades, short-term or excessive trading may interfere with the efficient management of the Fund's portfolio, increase the Fund's transaction costs, administrative costs and taxes and/or impact Fund performance.

In addition, if the nature of the Fund's portfolio holdings expose the Fund to Investors who engage in the type of market timing trading that seeks to take advantage of possible delays between the change in the value of a Fund's portfolio holdings and the reflection of the change in the net asset value of the Fund's Shares, sometimes referred to as "arbitrage market timing", there is

the possibility that such trading, under certain circumstances, may dilute the value of Fund Shares if selling Investors receive proceeds (and buying Investors receive Shares) based upon net asset value which do not reflect appropriate fair value prices. Arbitrage market timers may seek to exploit possible delays between the change in the value of a Fund's portfolio holdings and the net asset value of the Fund's Shares in Funds that hold significant investments in foreign securities because certain foreign markets close several hours ahead of the US markets, and in Funds that hold significant investments in small-cap securities, high-yield ("junk") bonds and other types of investments which may not be frequently traded.

The Company is currently using several methods to reduce the risk of market timing. These methods include:

- reviewing Investor activity for excessive trading and
- committing staff to selectively review on a continuing basis recent trading activity in order to identify trading activity that may be contrary to this Market Timing Trading policy.

Though these methods involve judgments that are inherently subjective and involve some selectivity in their application, the Company seeks to make judgments and applications that are consistent with the interests of the Company's Investors. There is no assurance that the Company or its agents will gain access to any or all information necessary to detect market timing in omnibus holdings. While the Company will seek to take actions (directly and with the assistance of financial intermediaries) that will detect market timing, the Company cannot represent that such trading activity can be completely eliminated.

Revocation of market timing trades. Transactions placed in violation of the Company's Market Timing Trading policy are not necessarily deemed accepted by the Company and may be cancelled or revoked by the Company or the Transfer Agent on the Valuation Days following receipt by the Transfer Agent.

Regular Savings Plans and Regular Withdrawal Plans

Regular Savings Plans and Systematic Withdrawal Plans are available for the benefit of Investors in various countries. In the case a Regular Savings Plan is terminated before the agreed final date, the amount of initial charges payable by the relevant Investors may be greater than it would have been in the case of standard purchase, as detailed in Section "Initial Charge and Contingent Deferred Sales Charge" of the full Prospectus. For further information please contact the Transfer Agent or your local Franklin Templeton Investments office.

The minimum Holding requirement (USD 2,500 or currency equivalent) is waived in respect of Regular Savings Plans and Systematic Withdrawal Plans.

Contact details

Contact details for the Transfer Agent can be found on the application form, a confirmation statement or the Franklin Templeton Investments Internet site <http://www.franklintempleton.lu>.

TAXATION OF THE COMPANY

The Company is not liable in the Grand Duchy of Luxembourg to any tax on its profits or income.

The Company, however, is liable in the Grand Duchy of Luxembourg to a tax of 0.05% per annum of its net asset value, such tax being payable quarterly on the basis of the value of the net assets of the Company at the end of the relevant calendar quarter. This tax is not applicable for the portion of the assets of a Fund invested in other undertakings for collective investment which have been already subject to such tax. In order to qualify under the current reduced tax rate of 0.01% (instead of the tax of 0.05% referred to above), the Franklin U.S. Dollar Liquid Reserve Fund, the Templeton Euro Liquid Reserve Fund and the Templeton Euro Money Market Fund will be invested in a manner that the weighted average remaining maturity of all securities and instruments comprised in the portfolios of the respective Funds does not exceed twelve months. For the purpose of calculating the residual maturity of each single security or instrument, the financial instruments attached thereto shall be taken into account. For the securities or instruments whose terms of issue provide for an adjustment of their interest rate by reference to market conditions, the residual maturity until the date on which the rate is adjusted shall be considered.

Class I Shares and Class X Shares may also qualify for the reduced tax rate of 0.01% if all the Investors of these Share Classes are respectively institutional investors.

No stamp duty or other tax is payable in the Grand Duchy of Luxembourg on the issue of the Shares in the Company.

Under current laws and practice, no capital gains tax is payable in the Grand Duchy of Luxembourg on the realised or unrealised capital appreciation of the assets of the Company.

The Company is registered for Value Added Tax in the Grand Duchy of Luxembourg and subject to account for Value Added Tax in accordance with applicable laws.

Investment income received or capital gains realised by the Company may be subject to tax in the countries of origin at varying rates. The Company may benefit in certain circumstances from double taxation treaties, which the Grand Duchy of Luxembourg has concluded with other countries.

TAXATION OF INVESTORS

LUXEMBOURG

Subject to the provisions of the European Savings Directive, as defined hereafter, Investors are currently not subject to any capital gains, income, withholding, gift, estate, inheritance or other taxes in the Grand Duchy of Luxembourg (except for Investors

domiciled, resident or having a permanent establishment in the Grand Duchy of Luxembourg and except for certain former residents of the Grand Duchy of Luxembourg if owning more than 10% of the Share capital of the Company).

The Council of the European Union adopted Directive 2003/48/EC on the taxation of savings income in the form of interest payments on June 3, 2003 (the "European Savings Directive"). The European Savings Directive requires Member States of the European Union ("EU Member States") to provide the tax authorities of other Member States with details of payments of interest or similar payments paid by a paying agent (as defined by the European Savings Directive) within its jurisdiction to an individual resident in that other Member State. Austria and Luxembourg have opted instead for a tax withholding system for a transitional period in relation to such payments. Switzerland, Monaco, Liechtenstein, Andorra and San Marino and the Channel Islands, the Isle of Man and the dependent or associated territories in the Caribbean, have also introduced measures equivalent to information reporting or, during the above transitional period, withholding tax.

The European Savings Directive has been implemented in Luxembourg by a law dated June 21, 2005 (the "2005 Law").

The applicable withholding tax will be at a rate of 20% until June 30, 2011 and 35% from July 1, 2011 onwards.

The list of Funds falling within the scope of the European Savings Directive and the 2005 Law is made public at the registered office of the Company and is available at the offices of the Principal Distributor and the Transfer Agent. This information may also be available on the Internet site: <http://www.franklintempleton.lu>.

The foregoing is only a summary of the implications of the European Savings Directive and the 2005 Law, is based on the current interpretation thereof and does not purport to be complete in all respects. It does not constitute investment or tax advice and investors should therefore seek advice from their financial or tax adviser on the full implications for themselves of the European Savings Directive and the 2005 Law.

Investors should consult their professional advisers as to the possible tax or other consequences of purchasing, holding, transferring or selling any of the Company's Shares under the laws of their countries of citizenship, residence and domicile.

PAST PERFORMANCE

Past performance is no guarantee of future performance. The prices of Shares and income therefrom can go down as well as up, and investors may not get back the full amount invested. Figures do not reflect sales charges. If they did, returns would be reduced accordingly.

Bar charts are based on data as at December 31 for the last three (3) years.

For Funds offering both class A(dis) and A(acc) shares, only class A(dis) shares performance figures are shown assuming reinvestment of dividends. Historical performance figures shown for Class A(acc) shares are those for Class A(dis) shares until 22 June 2001, and those for class A(acc) shares thereafter.

Performance figures reflect distributions at their capitalised value together with the growth of the asset value for class A(dis) shares and the only growth of the asset value for class A(acc) shares. Share Classes not showing a performance chart might have a different but similar performance from the Share Classes showing a performance chart.

BENCHMARK

The below list of indices and benchmarks is provided to Shareholders for information and indicative purposes only, as all the Company's Funds are actively managed and tend to deviate from their respective index. This list will be updated from time to time by the Board of Directors without prior notice to the Shareholders, notably in order to provide an index that better reflects the objectives and investment policies to the relevant Funds and the composition of their portfolio. Any such change will be mentioned on the Internet site: <http://www.franklintempleton.lu>.

TOTAL EXPENSE RATIO

The Total Expense Ratio ("TER"), expressed as a percentage, represents how the total expenses of the Fund relate to the average net assets of the Fund for the year (or half-year when available) under review. The total expenses comprise the investment management fees, the administration and transfer agency fees, the custodian fees and other expenses as summarised in the Statement of Changes in Net Assets of the latest Annual or Semi-Annual Report of the Company.

The TER figures in this Simplified Prospectus are as at December 31, 2010.

SOFT COMMISSIONS

Consistent with obtaining best execution, brokerage commissions on portfolio transactions for the Company may be directed by the Investment Managers to Broker/Dealers in recognition of research services furnished by them as well as for services rendered in the execution of orders by such Broker/Dealers. The receipt of investment research and information and related services permits the Investment Managers to supplement their own research and analysis and makes available to them the views and information of individuals and research staffs of other firms. Such services do not include travel, accommodation, entertainment,

general administrative goods or services, general office equipment or premises, membership fees, employee salaries or direct money payment, which are paid by the Investment Managers.

The Investment Managers may enter, with Broker/Dealers that are entities and not individuals, into soft commission arrangements only where there is a direct and identifiable benefit to the clients of the Investment Managers, including the Company, and where the Investment Managers are satisfied that the transactions generating the soft commissions are made in good faith, in strict compliance with applicable regulatory requirements and in the best interest of the Company. Any such arrangement must be made by the Investment Managers on terms commensurate with best market practice. The use of soft commissions shall be disclosed in the periodic reports.

RISK MANAGEMENT

The Company will employ a risk-management process which enables it, with the Investment Managers, to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of each portfolio. The Company or the Investment Managers will employ a process for accurate and independent assessment of the value of over-the-counter derivative instruments.

DATA PROTECTION

All personal data of Investors contained in the application form and all and any further personal data collected in the course of the business relationship with the Company and/or the Transfer Agent may be collected, recorded, stored, adapted, transferred or otherwise processed and used ("processed") by the Company, the Transfer Agent and other companies of Franklin Templeton Investments, including Franklin Resources, Inc., One Franklin Parkway, San Mateo, California and/or its subsidiaries and associates from time to time, the Custodian and the financial intermediary of Investors. Such data shall be processed for the purposes of account administration, anti-money laundering and counter-terrorist financing identification, tax identification, where appropriate, under the European Savings Directive as well as the development of business relationships including sales and marketing of Franklin Templeton Investments products and services.

To this end, data may be transferred to companies appointed by the Company or the Central Administration Agent (e.g. client communication agents or paying agents) to support the Company related activities.

Franklin Templeton Investment Funds

Addendum dated July 2011 to the full and simplified Prospectuses dated April 2011 (the “Addendum”)

The Board of Directors of Franklin Templeton Investment Funds (the “Company”) has approved the following changes to the current full and simplified prospectuses:

1. Launch of new Funds of the Company

A. Franklin Templeton Investment Funds – Franklin European Core Fund

Investment Objective and Policies

The Fund’s investment objective is capital appreciation in the long term.

The Fund seeks to achieve its investment objective by investing principally in the equity and/or equity-related securities (including warrants and convertible securities) of companies of any market capitalisation incorporated or having their principal business activities in European countries.

Since the investment objective is more likely to be achieved through an investment policy that is flexible and adaptable, the Fund may also on an ancillary basis seek investment opportunities in equity-linked securities of the abovementioned companies as well as equity, equity-linked and/or equity-related securities of companies which do not fulfil the requirements set out above.

The base currency of the Fund is Euro.

Investment Manager

Franklin Templeton Investment Management Limited will be appointed Investment Manager pursuant to an Investment Management Agreement to be entered into between the Company and Franklin Templeton Investment Management Limited.

Classes of Shares

At launch date, Shares of the Fund will be offered at EUR 10 plus an initial charge of up to 6.5% of the total amount invested for Class A Shares.

From launch date onwards, Shares of the Fund are and will be offered at the applicable net asset value per Share, plus an initial sales charge of up to 6.5% of the total amount invested for Class A Shares.

Management and Company Charges

The Investment Manager will receive from the Company a monthly fee of 1.00% per annum of the Fund’s adjusted daily net assets during the relevant year, except for Class I Shares.

For Class I Shares, the Investment Manager will receive from the Company a monthly fee of 0.70% per annum of the Fund’s adjusted daily net assets during the relevant year.

Main Risks of investing in the Fund

The main risks of investing in Franklin Templeton Investment Funds – Franklin European Core Fund are the following:

- Counterparty risk
- Equity risk
- Foreign Currency risk
- Growth Stocks risk
- Liquidity risk
- Market risk
- Warrants risk

Investor's profile

The Franklin Templeton Investment Funds – Franklin European Core Fund is suitable for investors

- seeking capital appreciation by investing in equity securities of companies located in any European country ;
- planning to hold their investment for the medium to long term.

Total Expense Ratio

Not available yet.

Past performance

Not applicable.

B. Franklin Templeton Investment Funds – Franklin European Dividend Fund

Investment Objective and Policies

The Fund's investment objective is to provide a combination of current income and long-term capital appreciation.

The Fund seeks to achieve its investment objective by investing principally in the equity and/or equity-related securities (including warrants and convertible securities) of companies of any market capitalisation incorporated or having their principal business activities in European countries. In particular, the Fund seeks income by investing in stocks the Investment Manager believes offer attractive dividend yields at the time of purchase and/or the prospect for attractive dividend yields in the future.

Since the investment objective is more likely to be achieved through an investment policy that is flexible and adaptable, the Fund may also on an ancillary basis seek investment opportunities in equity-linked securities of the abovementioned companies as well as equity, equity-linked and/or equity-related securities of companies which do not fulfil the requirements set out above.

The base currency of the Fund is Euro.

Investment Manager

Franklin Templeton Investment Management Limited will be appointed Investment Manager pursuant to an Investment Management Agreement to be entered into between the Company and Franklin Templeton Investment Management Limited.

Classes of Shares

At launch date, Shares of the Fund will be offered at EUR 10 plus an initial charge of up to 6.5% of the total amount invested for Class A Shares.

From launch date onwards, Shares of the Fund are and will be offered at the applicable net asset value per Share, plus an initial sales charge of up to 6.5% of the total amount invested for Class A Shares.

Management and Company Charges

The Investment Manager will receive from the Company a monthly fee of 1.00% per annum of the Fund's adjusted daily net assets during the relevant year, except for Class I Shares.

For Class I Shares, the Investment Manager will receive from the Company a monthly fee of 0.70% per annum of the Fund's adjusted daily net assets during the relevant year.

Main Risks of investing in the Fund

The main risks of investing in Franklin Templeton Investment Funds – Franklin European Dividend Fund are the following:

- Counterparty risk
- Equity risk
- Foreign Currency risk
- Growth Stocks risk
- Liquidity risk
- Market risk
- Warrants risk

Investor's profile

The Franklin Templeton Investment Funds – Franklin European Dividend Fund is suitable for investors

- seeking income and capital appreciation by investing in equity securities of companies located in any European country;
- planning to hold their investment for the medium to long term.

Total Expense Ratio

Not available yet.

Past performance

Not applicable.

C. Franklin Templeton Investment Funds – Franklin Templeton Global Allocation Fund

Investment Objective and Policies

The Fund's investment objective is to maximise total returns consisting of capital appreciation and income.

Under normal market conditions, the Fund seeks to achieve its investment objective by investing in a diversified portfolio of equity and fixed income securities supplemented by a tactical investment strategy which may include structured products, cash and financial derivative instruments designed to allow the Fund to adjust its exposure to asset classes, geographic regions, currencies and market sectors.

The Fund is structured as a multi-manager fund. The Investment Manager is responsible for monitoring the Fund's overall investment performance and for re-balancing the Fund's portfolio allocation. The Investment Manager makes an allocation of assets to investment strategies followed independently by Investment Co-Managers of Franklin Templeton Investments selected by the Investment Manager. The allocation to asset classes and investment strategies is at the discretion of the Investment Manager and may change over time.

The Fund primarily invests in equity securities of companies of any market capitalisation located anywhere in the world, including Emerging Markets as well as debt securities issued by government, government-related and/or corporate entities worldwide as well as debt obligations issued by supranational entities organised or supported by several national governments, such as the International Bank for Reconstruction and Development or the European Investment Bank.

The Fund may invest in securities of companies involved in mergers, consolidations, liquidations and reorganisations or as to which there exist tender or exchange offers, and may participate in such transactions. It may also invest in low-rated, non-investment grade and defaulted debt securities of various issuers, in fixed or floating rate securities, either directly or through regulated investment funds (subject to the limits indicated below).

The Fund may use various financial derivative instruments for hedging purposes as well as for investment purposes to obtain exposure to various market sectors, selected interest rates, currencies or securities. These financial derivative instruments may be dealt either in on regulated markets or over-the-counter, and may include, inter alia, swaps (such as credit default swaps or total return swaps), forwards and cross forwards, futures contracts (including index futures and those on government securities), as well as options.

The Fund may also invest in securities or structured products where the security is linked to or derives its value from another security or is linked to assets or currencies of any country. The Fund may seek exposure to commodities through the use of cash-settled structured products and exchange-traded notes. The Fund may also invest up to 10% of its net assets in units of UCITS and other UCIs and not more than 10% of its net assets in asset-backed securities.

The base currency of this Fund is US dollar.

Investment Manager

Franklin Advisers, Inc. will be appointed Investment Manager pursuant to an Investment Management Agreement to be entered into between the Company and Franklin Advisers, Inc.

Investment Co-Managers

The Franklin World Perspectives Fund and the Franklin Templeton Global Allocation Fund aim to achieve their investment objectives through the careful selection of two or more investment co-managers (the "Investment Co-Managers") by the Investment Manager. Such Investment Co-Managers may or may not be part of Franklin Templeton Investments. The Investment Manager may also from time to time take part in managing the assets of the Fund.

The Investment Manager will be responsible for the selection and appointment of two or more Investment Co-Managers in respect of the Fund to delegate all or part of the day-to-day conduct of its investment management responsibilities and investment advisory services in respect of some or all of the assets of the Fund. The Investment Manager shall allocate the assets of the Fund between the Investment Co-Managers in such proportions as it shall, at its discretion, determine suitable to achieve the Fund's objective.

The Investment Manager will monitor the performance of the Investment Co-Managers in respect of the Fund in order to assess the need, if any, to make changes/replacements. The Investment Manager may appoint or replace Investment Co-Managers in respect of the Fund at any time in accordance with any applicable regulations or notice periods.

The Investment Manager is responsible for the selection of the Investment Co-Managers, the monitoring of the performance of the Investment Co-Managers and the monitoring of the risk management process implemented at the level of each Investment Co-Managers. The Investment Co-Managers may be replaced without prior notice to the Shareholders. The list of the Investment Co-Managers having acted for the Fund during the period under review is disclosed in the semi-annual and annual reports of the Company. The list of Investment Co-Managers effectively managing the Fund shall be made available upon request and free of charge at the registered office of the Company.

The Investment Co-Managers may seek advice from other investment advisory companies affiliated to Franklin Templeton Investments.

Classes of Shares

At launch date, Shares of the Fund will be offered at USD 10 plus an initial charge of up to 6.5% of the total amount invested for Class A Shares.

From launch date onwards, Shares of the Fund are and will be offered at the applicable net asset value per Share, plus an initial sales charge of up to 6.5% of the total amount invested for Class A Shares.

Management and Company Charges

The Investment Manager will receive from the Company a monthly fee of 1.00% per annum of the Fund's adjusted daily net assets during the relevant year, except for Class I Shares.

For Class I Shares, the Investment Manager will receive from the Company a monthly fee of 0.70% per annum of the Fund's adjusted daily net assets during the relevant year.

Main Risks of investing in the Fund

The main risks of investing in Franklin Templeton Investment Funds – Franklin Templeton Global Allocation Fund are the following:

- Class Hedging risk
- Counterparty risk
- Credit risk
- Derivative risk
- Emerging Markets risk
- Equity risk
- Foreign Currency risk
- Interest Rate Securities risk
- Liquidity risk
- Low-Rated or Non-Investment Grade Securities risk
- Market risk
- Restructuring Companies risk
- Swap Agreements risk

Investor's profile

The Franklin Templeton Investment Funds – Franklin Templeton Global Allocation Fund is suitable for investors

- seeking capital appreciation and income by investing in a diversified portfolio of equity and debt securities worldwide and additionally in a tactical investment strategy;
- planning to hold their investment for the medium to long term.

Total Expense Ratio

Not available yet.

Past performance

Not applicable.

2. Amendment of the name and investment policy of existing Funds of the Company

A. Franklin Templeton Investment Funds – Franklin U.S. Ultra Short Bond Fund

With effect from September 16, 2011, Franklin Templeton Investment Funds – Franklin U.S. Ultra Short Bond Fund is renamed Franklin Templeton Investment Funds – Franklin U.S. Low Duration Fund and its investment policy shall read as follows:

“The Fund’s investment objective is to provide as high a level of current income as is consistent with prudent investing, while seeking preservation of shareholders’ capital.

The Fund will use a wide range of investments to efficiently manage its portfolio and to help reduce investment costs and manage portfolio risks. These investments with a targeted average duration of less than three (3) years primarily include various transferable securities such as government and corporate debt securities and convertible debt securities as well as fixed and adjustable rate mortgage-backed debt securities (including commercial mortgage backed securities and collateralized mortgage obligations) and asset-backed debt securities. The Fund can invest in financial derivative instruments, which include inter alia, forwards and future contracts, options on such contracts, including those on government securities, index based financial derivatives and swaps such as interest rate swaps, total return swaps, credit default swaps as well as single name credit default swaps, dealt in either on regulated markets or over-the-counter.

The Fund primarily invests in US issuers but may invest up to 25% of its net assets (without taking into account ancillary liquid assets) in non-US issuers and up to 20% of its net assets in non-US Dollar exposure. The Fund may also invest up to 20% of its net assets in low-rated or non-investment grade debt securities.

The base currency of the Fund is US dollar.”

B. Franklin Templeton Investment Funds – Templeton Euro Money Market Fund

The name of Franklin Templeton Investment Funds – Templeton Euro Money Market Fund is renamed Franklin Templeton Investment Funds – Templeton Euro Short-Term Money Market Fund.

With effect from August 12, 2011, the investment policy of Franklin Templeton Investment Funds – Templeton Euro Money Market Fund shall read as follows:

“The Fund’s investment objective is to maintain a high degree of capital preservation and liquidity whilst maximising returns in the Euro currency by investing in a portfolio of high quality Euro denominated debt and debt related securities, money market securities and cash denominated in Euro. The Fund qualifies as a short term money market fund in the meaning of the CESR Guidelines CESR/10-049 dated 19 May 2010 on a common definition of European money market funds (the “Guidelines”).

The Fund invests in high quality money market instruments which comply with the criteria for money market instruments as set out in the directive 2009/65/EC. These money market instruments consist primarily in transferable short term fixed and floating rate debt, debt related and money market securities including (but not limited to) commercial paper issued by first-rate companies, floating rate notes, certificates of deposit of prime banks, repurchase agreements, debentures, bonds, cash and deposits, which shall all comply with the Guidelines.

These investments shall be denominated in Euro and up to 100% may be issued or guaranteed by sovereign governments and/or related entities, supranational entities, corporations and financial institutions. All investments at time of purchase shall have a minimum rating of A1/P1 or equivalent or, if unrated, be declared to be of comparable quality by the Investment Manager.

The Fund only holds securities which at the time of acquisition have an average initial or residual maturity not exceeding 397 days, taking into account any connected financial instruments and/or the terms and conditions governing those securities For this purpose, residual maturity is in principle the instrument’s legal maturity.

The Fund's portfolio has a weighted average maturity that does not exceed 60 days and a weighted average life that does not exceed 120 days.

The base currency of the Fund is Euro”.

3. Amendment of the investment policy of existing Funds of the Company

A. Franklin Templeton Investment Funds – Franklin Real Return Fund

The fifth paragraph of the investment policy of Franklin Templeton Investment Funds – Franklin Real Return Fund shall read as follows:

“The Fund may also utilise financial derivative instruments for hedging and efficient portfolio management. These financial derivative instruments may be dealt either in regulated markets or over-the-counter, and may include, inter alia, swaps (such as credit default swaps or total return swaps), forwards and cross forwards, futures contracts (including those on government securities), as well as options.”

B. Franklin Templeton Investment Funds – Franklin U.S. Total Return Fund

With effect from September 16, 2011, the second paragraph of the investment policy of Franklin Templeton Investment Funds – Franklin U.S. Total Return Fund shall read as follows:

“The Fund uses a wide range of investments to efficiently manage the portfolio of investments to help reduce investment costs and manage portfolio risks. These investments primarily include various transferable securities such as government, corporate and mortgage-backed as well as asset-backed debt securities and convertible securities. The Fund may use various financial derivative instruments for investment purposes including inter alia, forwards and future contracts, options on such contracts, including those on government securities, index based financial derivatives and swaps such as interest rate swaps, total return swaps, credit default swaps as well as single name credit default swaps, dealt in either on regulated markets or over-the-counter.”

C. Franklin Templeton Investment Funds – Templeton Emerging Markets Balanced Fund

The investment policy of Franklin Templeton Investment Funds – Templeton Emerging Markets Balanced Fund shall read as follows:

“The Fund’s investment objective is to maximise, consistent with prudent investment management, a combination of capital appreciation and income.

The Fund seeks to achieve its objective by investing principally in a diversified portfolio of equity securities, fixed and floating rate debt securities, including low-rated debt securities, and debt obligations issued by government, government-related issuers and corporate entities which are located, incorporated or have their principal business activities in developing or Emerging Market countries.

The Fund may also utilise financial derivative instruments for investment purposes. These financial derivative instruments may be dealt either in regulated markets or over-the-counter, and may include, inter alia, swaps (such as credit default swaps or total return swaps), forwards and cross forwards, futures contracts (including those on government securities), as well as options. Use of financial derivative instruments may result in negative exposures in a specific yield curve/duration, currency or credit. The Fund may also, in accordance with the investment restrictions, invest in securities or structured products where the security is linked to or derives its value from another security or is linked to assets or currencies of any developing or Emerging Market country. In addition, the Fund may purchase preferred stock, common stock and other equity linked securities, warrants, and debt securities exchangeable or convertible into common stock and denominated in any currency. The Fund may purchase fixed income securities, debt obligations and equity securities denominated in any currency. The Fund may also invest up to 10% of its net assets in units of UCITS and other UCIs and up to 10% of its total net assets in securities in default.

The Fund may also invest in securities issued by government, government related issuers or corporate entities located outside of developing or Emerging Market countries but which derive a significant proportion of their revenues or profits from, have a significant portion of their assets in or are impacted by economic / financial dynamics in developing or Emerging Market countries.

The Fund will typically invest at least 25% of its assets in Emerging Market equity securities and at least 25% of its assets in debt securities but the proportion of its assets allocated to each may vary over time depending on the Investment Managers' view of the relative attractiveness of each asset class.

Investments in Emerging Market countries are subject to a higher degree of risk as more fully described in the section "Risk Considerations". The base currency of the Fund is US dollar."

Appendix E "Investor's Profile" is amended to reflect the above change and shall read as follows:

Templeton Emerging Markets Balanced Fund	- seeking a combination of capital appreciation and income by investing in Emerging Markets	the medium to long term
--	---	-------------------------

D. Franklin Templeton Investment Funds – Templeton Frontier Markets Fund

The third paragraph of the investment policy of Franklin Templeton Investment Funds – Templeton Frontier Markets Fund shall read as follows:

"Since the investment objective is more likely to be achieved through an investment policy which is flexible and adaptable, the Fund may also invest in other types of transferable securities, including equity and fixed income securities of issuers worldwide as well as in financial derivative instruments for hedging and efficient portfolio management. These financial derivative instruments may include, inter alia, forwards and financial futures contracts, or options on such contracts, equity linked notes dealt in either on regulated markets or over-the-counter."

E. Franklin Templeton Investment Funds – Templeton Global Aggregate Bond Fund

The third paragraph of the investment policy of Franklin Templeton Investment Funds – Templeton Global Aggregate Bond Fund shall read as follows:

"The Fund may also utilise certain financial derivative instruments for hedging and efficient portfolio management. These financial derivative instruments may be dealt either in regulated markets or over-the-counter, and may include, inter alia, swaps (such as credit default swaps or total return swaps), forwards and cross forwards, futures contracts, as well as options. Use of financial derivative instruments will not exceed 40% of the Fund's Net Asset Value on a net basis."

4. Benchmark reference for Funds of the Company

The table in the section "Benchmark" of the simplified prospectus is amended in order to amend and add benchmarks as follows:

Fund Name	Benchmark
Franklin European Core Fund	MSCI Europe
Franklin European Dividend Fund	MSCI Europe
Franklin Global Real Estate Fund	FTSE EPRA/NAREIT Developed Index
Franklin Templeton Global Allocation Fund	50% MSCI All Country World Index / 35% Citigroup World Gov Bond Index / 10% Payden & Rygel 90 Day U.S. Treasury Bill / 5% Dow Jones UBS Commodity Total Return Index
Templeton Emerging Markets Balanced Fund	50% MSCI Emerging Markets Index / 50% JP Morgan EMBI Global Index

5. Addition of a new type of shares

The following new type of shares is intended to be offered:

A Bdis, AX Bdis, B Bdis, C Bdis, I Bdis, N Bdis, X Bdis and Z Bdis.

Under normal circumstances, it is anticipated that distribution for this type of shares will be made bi-annually (normally in June and in December each year).

6. Amendment of the references to the Law of December 20, 2002

With effect from July 1st, 2011, all references to the "Luxembourg Law of December 20, 2002 relating to undertakings for collective investment" and to the "Law of December 20, 2002" are replaced by references to the "Luxembourg Law of December 17, 2010 relating to undertakings for collective investment" or "Law of December 17, 2010" respectively. References to the "Law relating to collective investment undertakings" are replaced by references to the "Law of December 17, 2010".

In addition, all references to the Council Directive 85/611/EEC of December 20, 1985 are replaced by references to the Directive 2009/65/EC of the European Parliament and of the Council of July 13, 2009.

7. Amendment of the Section on Taxation of Investors

Further to tax law changes, the Section on Taxation of Investors is updated and shall read as follows:

TAXATION OF INVESTORS

Luxembourg

Subject to the provisions of the European Savings Directive, Investors are currently not subject to any capital gains, income, withholding, gift, estate, inheritance or other taxes in the Grand Duchy of Luxembourg (except for Investors domiciled, resident or having a permanent establishment in the Grand Duchy of Luxembourg).

Investors should inform themselves of and, when appropriate, consult their professional advisors on the possible tax consequences of purchasing, buying, holding or disposing of Shares under the laws of their country of citizenship, residence, domicile or incorporation.

EU Savings Tax Directive Considerations

The European Savings Directive has been implemented in Luxembourg by a law dated June 21, 2005 (the "2005 Law"). The European Savings Directive requires Member States of the European Union ("EU Member States") to provide the tax authorities of other EU Member States with details of payments of interest or similar payments paid by a paying agent (as defined by the European Savings Directive) within its jurisdiction to an individual resident in that other EU Member State. Austria and Luxembourg have elected to apply withholding tax in relation to such payments in lieu of exchange of information. Switzerland, Monaco, Liechtenstein, Andorra and San Marino and the Channel Islands, the Isle of Man and the dependent or associated territories in the Caribbean, have also introduced measures equivalent to information reporting or withholding tax.

The rate of withholding tax is 20% until June 30, 2011 rising to 35% thereafter. Withholding tax is not levied in Luxembourg under the terms of the European Savings Directive when the Investor elects for exchange of information in relation to his/her account holdings or has provided the Principal Paying Agent with a certificate drawn up in the format required by the 2005 Law by the competent authorities of his State of residence for tax purposes.

Withholding tax applied in Luxembourg under the European Savings Directive is not a final taxation and does not relieve the Investor from any responsibilities to declare income or capital gains to the relevant tax authority in his/her country of residence. Any withholding tax levied under the European

Savings Directive may be creditable against the Investor's personal tax liability, subject to the laws in his/her country of residence.

Dividends distributed by a Fund will be subject to the European Savings Directive and the 2005 Law if more than 15% of such Fund's assets are invested in debt claims (as defined in the 2005 Law) and proceeds realised by Investors on the transfer or sale of Shares in a Fund will be subject to the European Savings Directive and the 2005 Law if more than 25% of such Fund's assets are invested in debt claims.

The list of Funds falling within the scope of the European Savings Directive and the 2005 Law is made public at the registered office of the Company and is available at the offices of the Principal Distributor and the Transfer Agent. This information may also be available on the Internet site: <http://www.franklintempleton.lu>.

The foregoing is only a summary of the implications of the European Savings Directive and the 2005 Law, is based on the current interpretation thereof and does not purport to be complete in all respects. It does not constitute investment or tax advice and Investors should therefore seek advice from their financial or tax adviser on the full implications for themselves of the European Savings Directive and the 2005 Law.

Investors should consult their professional advisers as to the possible tax or other consequences of purchasing, holding, transferring or selling any of the Company's Shares under the laws of their countries of citizenship, residence and domicile.

8. Amendment of Appendix B "Investment Restrictions"

A. Paragraph a)(i) to (iv) of Section 1 of Appendix B "Investment Restrictions" disclosing specific restrictions for investment in transferable securities and liquid assets is amended and shall read as follows:

- "a) The Company will invest in:
- (i) transferable securities and money market instruments admitted to or dealt in on a regulated market within the meaning of Directive 2004/39/EC of the European Parliament and of the Council of April 21, 2004 on markets in financial instruments and/or;
 - (ii) transferable securities and money market instruments dealt in on another market in an EU Member State which is regulated, operates regularly and is recognised and open to the public;
 - (iii) transferable securities and money market instruments admitted to official listing on a stock exchange in a non EU Member State or dealt in on another market in a non EU Member State, which is regulated, operates regularly and is recognised and open to the public;"

Following this amendment, the numbering and cross-references are updated accordingly throughout the full prospectus.

B. Paragraph a)(iii) of Section 5 of Appendix B "Investment Restrictions" disclosing additional local restrictions is amended and shall read as follows:

"(iii) for Funds investing in debt instruments or other eligible instruments, 90% of such instruments held by such Fund must have a credit rating of "investment grade" by Standard & Poors, Moody's or Fitch Ratings Limited; however, in respect of the following Funds, no investment into non-investment grade debt securities will be made:

- Franklin Biotechnology Discovery Fund;
- Franklin U.S. Government Fund;
- Franklin U.S. Opportunities Fund;

- Franklin Technology Fund;
- Templeton Emerging Markets Fund;
- Templeton Euroland Fund;
- Templeton European Fund;
- Templeton Global Fund; and
- Templeton Global Smaller Companies Fund.”

9. Amendment of the section “Definitions”

The following definition is added in the section “Definitions”:

“primarily” or “principally” when a Fund investment policy states that investments will be made “primarily” or “principally” in a particular type of security, or in a particular country, region or industry, it generally means that at least two-thirds of this Fund’s total assets (without taking into account ancillary liquid assets) shall be invested into such security, country, region or industry.

10. Amendment of the section “Administration Information”

The address of the Italian local paying agent State Street Bank S.p.A. as disclosed in the section “Administration Information” is modified as follows:

State Street Bank S.p.A.
Via Ferrante Aporti 10
I-20125 Milano

11. Amendment of the Maintenance Charges for Class N Shares of Franklin Templeton Investment Funds – Templeton Euro Government Bond Fund

The maintenance charges for Class N Shares of Franklin Templeton Investment Funds – Templeton Euro Government Bond Fund, as disclosed in Section 3 – Maintenance Charges of Appendix F - Franklin Templeton Investment Funds charges, fees and expenses, are reduced from 1.00% to 0.75%.

July 2011
