What is this product?

TYPE OF PRODUCT

The product is a Sub-Fund of GAMA FUNDS, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However, the board of directors may also propose to dissolve a Compartment at a General Meeting of that Compartment.

OBJECTIVES

This Sub-Fund is a medium-risk vehicle aiming to provide income and capital growth in the reference currency of each share class, by investing in worldwide debt securities and via the use of credit default swaps ("CDS") indices. It may be suitable for investors with an investment horizon of 3 years and more.

The investment objective of the Sub-Fund is to generate risk-adjusted returns of 2% per annum over cash rates in the medium term with a realized volatility of less than 3%. There can be no assurance that the investment objective will be achieved.

The Sub-Fund is actively managed. The Sub-Fund has no benchmark index and is not managed in reference to a benchmark index.

The Sub-Fund will be invested in a diversified portfolio reflecting global opportunities across the entire fixed income universe, in particular CDS indices, while keeping a low interest-rate exposure. The Sub-Fund will mainly invest directly in worldwide debt securities with remaining legal maturity of less than three years of any type (including money market instruments) issued by corporate, government-related or sovereign issuers as well as through CDS indices.

The portfolio is expected to hold a majority of issuers from OECD-countries. Except for this geographical focus, the choice of investments will neither be limited by country (including emerging markets), economic sector nor in terms of currencies in which investments will be denominated.

The Sub-Fund will be exposed to investment grade and non-investment grade debt securities (including non-rated debt securities) in proportions that will vary according to financial market conditions and investment opportunities. The Sub-Fund may also invest in any other type of eligible assets, such as structured products, UCIs and cash.

Investments in each of the following categories of securities will not exceed 10% of the Sub-Fund's net assets: debt securities with a credit rating below B- (or equivalent, as measured by any recognized credit rating agency), contingent convertible bonds, structured products, investments in Russia and units or shares in UCIs.

The Sub-Fund will be normally fully invested. However, if the Investment Manager considers this to be in the best interest of the Shareholders, the Sub-Fund may also hold up to 100% of its net assets in liquidities.

For hedging and for investment purposes, the Sub-Fund may use financial derivative instruments traded on a regulated market and/or over the counter (OTC).

This Class distributes income. Dividend distributions are planned.

INTENDED RETAIL INVESTORS

The product is reserved for professional investors. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and for receiving regular income and who wish to hold their investment over 3 years.

OTHER INFORMATION

The Depositary is Pictet & Cie (Europe) S.A..

The net asset value per share is available on www.fundsquare.net, at the registered office of the Fund and from the Management Company.

What are the risks and what could I get in return?

Risk indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

← Lower risk Higher risk →

The risk indicator assumes you keep the product for 3 years.

The actual risk can vary significantly if your cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period (RHP): Example investment		3 years CHF 10,000		
		If you exit after 1 year	If you exit after 3 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.

What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

FundPartner Solutions (Europe) S.A. is not making any payment to you in relation to this Sub-Fund and you would still be paid in case of a default from FundPartner Solutions (Europe) S.A..

The Sub-Fund's assets are held with Pictet & Cie (Europe) S.A. and are segregated from the assets of other Sub-Funds of the Fund. The assets of the Sub-Fund cannot be used to pay the debts of other Sub-Funds.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- CHF 10,000 is invested

Investment of CHF 10,000	If you exit after 1 year	If you exit after 3 years
Total costs	CHF 853	CHF 935
Annual cost impact (*)	8.5%	3.2%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.1% before costs and -2.1% after costs.
