GKB (LU) Aktien Europa ESG B (ISIN: LU2368098468)

GKB (LU) Aktien Europa ESG B is a unit class of the subfund GKB (LU) Aktien Europa ESG (hereinafter "fund"), a subfund in the umbrella fund GKB (LU). The fund is managed by Swisscanto Asset Management International S.A., Luxembourg. The Asset Manager: Graubündner Kantonalbank.

Objectives and investment policy

The investment objective is to generate high and steady income by investing in European equities.

Important features:

The fund invests exclusively in equities in the European region. A minimum of two-thirds of investments satisfy ESG criteria to ensure a sustainable investment approach. The fund is classified under Art. 8 SFDR.

The securities are selected on a discretionary basis using a consistent investment process (active management). With regard to portfolio composition, the selection of stocks and the associated weightings are focused on companies from the MSCI Europe ex CH TR net. The portfolio composition may deviate significantly from this benchmark index.

The investment policy is to outperform the benchmark index. The Asset Manager may at any time deviate – significantly or insignificantly, positively or negatively – from the benchmark index by actively overweighting or underweighting individual

securities and sectors based on market conditions and risk assessments.

Derivatives may be used for achieving the investment objective.

Fund units will be issued or redeemed basically on any bank business day in Luxembourg.

Earnings and profits of the unit class are distributed.

Additional important information:

The use of derivatives equates to neither leveraging nor short selling with regard to the fund assets. The total commitments of the fund may not amount to more than 110% as a result of the use of temporary borrowing (max. 10%).

Recommendation on holding period: this fund is appropriate for investors with a long-term investment horizon (more than five years).

Risk and reward profile

The historical data used for calculating the risk and profit category cannot serve as a reliable indicator of the future risk profile.
