

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Active Recycling, C - EUR, (ISIN: LU1843405694)

a sub fund of Global Managers Platform

managed by Link Fund Solutions (Luxembourg) S.A.

Objectives and Investment Policy

Objective

Active Niche Funds SA manages the investments of this fund.

We aim to provide you with an increase value over the long term.

Investment Policy

We invest principally in companies actively contributing to the reduction of carbon emissions whose business model complies with sustainable objectives.

We invest at least 2/3 of the net assets in shares of companies active in waste management, treatment and valorization.

We take our investment decisions on the basis of a fundamental analysis of the companies in which we invest. Our investment notably process takes environmental, social and governance risks into consideration together with other key risks.

We may also invest in complex financial instruments with the aim of protecting the value of your portfolio or to gain influence from the movements in shares. Notably, the value of your investment is protected against charges in the foreign exchange rate of the Euro against the U.S. dollar using such contracts. Given their characteristics, such instruments may have a significant influence on the return of the fund.

This Fund is actively managed meaning that the investment manager has, subject to the stated investment objectives and policy, discretion over its portfolio, with no reference or constraint to any benchmark.

Essential features of the fund:

You can buy and sell shares of this class every bank business day in Luxembourg.

This share class does not distribute any income to you.

Your minimum investment must amount to 1 share.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 3 years.

This sub-fund was launched by absorption of Unicorn Capital SICAV - Active Recycling.

In accordance with article 9 of EU regulation 2019/2088, the Sub-Fund has as objective sustainable investment, as further disclosed in the Prospectus.

Risk and reward profile

The above indicator reflects the historical level of risk and reward of this share class over the last 5 years. As it is based on its historical behaviour, it does not necessarily reflect your future risk, nor reward. In particular, the financial contracts we use have specific characteristics that cannot be adequately reflected in the indicator above.

This share class is classified as above, since it has experienced large movements in its price. This classification is solely valid as of the date of this document; it can change in the future.

If you invest in a fund in the category "1" above, you may sustain a loss. A fund in this category is not risk-free at all times.

This fund does not provide you with any guarantee on performance nor on the value of your investment in it. The latter may consequently go up, as well as down.

The indicator captures the impacts on the Fund of adverse movements in financial markets and currencies, under normal market conditions.

The following other risks can be significant to the Fund:

- Counterparties to complex financial instruments may fail to meet their payment obligations. We mitigate this risk by a thorough analysis of the financial condition of the counterparties with which we enter into such arrangements;

- The shares in which we invest can be easily sold under normal market conditions. Exceptional circumstances may lead to situations where those can only be sold at a loss for you.

- Our investment may be particularly concentrated in a few geographical areas.

- The protection of your investment against the evolution of the U.S. Dollar may not be perfect. You may sustain a loss in spite of such protection.

More details on the risks you may face when investing in this Fund are described in the "Risk Factors" and "Risk Management Process" sections of the Prospectus, as well as in the "Sub-Funds Details" section thereof.

Charges for this fund

The charges you pay are used to cover the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	2.00%
Exit Charge	0.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing Charges	2.58%
Charges taken from the Fund under certain specific conditions	
Performance Fee	15.00%
15.00% of the return of the share class over a calendar quarter. Losses from previous quarters first need to be recovered. In the Fund's last financial year the performance fee charged was 0.00% of the Fund.	

The entry and exit charges shown are maximum figures. In some cases you may pay less - you can find this out from your personal investment adviser or distributor.

The ongoing charges figure shown here is an estimate of the charges incurred by the Fund over one year. This figure may vary from year to year. It excludes:

- Performance fees;
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in other funds.

For more information about charges, please refer to the section "Management and Fund Charges" of the Fund's Prospectus, which is available at www.linkfundsolutions.lu.

Past Performance

Past performance provides no indication on future returns.

All fees and expenses, including any performance fee, as included in the price of the Fund, are reflected in the performance shown left, which is calculated in Euro. This performance does not take into account the above mentioned maximum entry and exit charges, if any.

The Fund was launched in 2014.
