Directors' Report

For the year ended 30 June 2022

The Directors submit this report together with the Annual Report and the Audited Financial Statements of Global X ETFs ICAV (the "ICAV"), in each case for the financial year ended 30 June 2022.

#### The ICAV

The ICAV was registered in Ireland, registration number C435449, pursuant to the Irish Collective Asset-management Vehicles Act 2015 (the "ICAV Act") on 20 July 2020 and authorised by the Central Bank of Ireland (the "Central Bank") as an Undertaking for Collective Investment in Transferable Securities pursuant to the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investments in Transferable Securities) Regulations 2019 (S.I. 230 of 2019) (collectively the "UCITS Regulations").

The ICAV is organised in the form of an umbrella fund with segregated liability between sub-funds. Each sub-fund has a distinct portfolio of investments and the investment objective and policy of each sub-fund is formulated by the investment manager. As at 30 June 2022, the following funds ("Sub-Funds") were in operation:

June 2022, the following funds ( Suo-1 unds ) were in operation.	Central Bank	
Sub-Funds	Authorisation Date	Launch date
Global X Video Games & Esports UCITS ETF	24 November 2020	17 December 2020
Global X Telemedicine & Digital Health UCITS ETF	24 November 2020	17 December 2020

#### The Sub-Funds

Investment Objective and Policies, and review of business developments

#### Global X Video Games & Esports UCITS ETF

Global X Video Games & Esports UCITS ETF ("the Sub-Fund") listed on the London stock exchange on 17 December 2020, Deutsche Börse stock exchange on 4 February 2021, SIX Swiss stock exchange on 16 July 2021 and Borsa Italiana stock exchange on 9 August 2021.

The objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Solactive Video Games & Esports v2 Index (the "Index"). In order to achieve this investment objective, the Sub-Fund will seek to replicate the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. It will do so by investing primarily in a portfolio of equity securities and derivatives that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts and Global Depositary Receipts based on the securities in the Index. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

#### The Sub-Funds (continued)

Investment Objective and Policies, and review of business developments (continued)

#### Global X Telemedicine & Digital Health UCITS ETF

Global X Telemedicine & Digital Health UCITS ETF ("the Sub-Fund") listed on the London stock exchange on 17 December 2020, Deutsche Börse stock exchange on 4 February 2021, SIX Swiss stock exchange on 16 July 2021 and Borsa Italiana stock exchange on 9 August 2021.

The objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Solactive Telemedicine & Digital Health Index (the "Index"). In order to achieve this investment objective, the Sub-Fund will seek to replicate the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. It will do so by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts and Global Depositary Receipts based on the securities in the Index. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

#### Global X Genomics & Biotechnology UCITS ETF

Global X Genomics & Biotechnology UCITS ETF ("the Sub-Fund") listed on the London stock exchange on 11 April 2021, Deutsche Börse stock exchange on 11 November 2021, Borsa Italiana stock exchange on 18 November 2021 and SIX Swiss stock exchange on 6 December 2021.

The objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Solactive Genomics v2 Index (the "Index"). In order to achieve this investment objective, the Sub-Fund will seek to track the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. It will do so by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts and Global Depositary Receipts based on the securities in the Index. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

#### Global X U.S. Infrastructure Development UCITS ETF

Global X U.S. Infrastructure Development UCITS ETF ("the Sub-Fund") listed on the London stock exchange on 11 April 2021, Deutsche Börse stock exchange on 11 November 2021, Borsa Italiana stock exchange on 18 November 2021 and SIX Swiss stock exchange on 6 December 2021.

The objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Indxx U.S. Infrastructure Development v2 Index (the "Index"). In order to achieve this investment objective, the Sub-Fund will seek to replicate the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. It will do so by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts and Global Depositary Receipts based on the securities in the Index. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

#### **Global X Cloud Computing UCITS ETF**

Global X Cloud Computing UCITS ETF ("the Sub-Fund") listed on the London stock exchange on 11 April 2021, Deutsche Börse stock exchange on 11 November 2021, Borsa Italiana stock exchange on 18 November 2021 and SIX Swiss stock exchange on 6 December 2021.

The objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Indxx Global Cloud Computing v2 Index (the "Index"). In order to achieve this investment objective, the Sub-Fund will seek to replicate the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. It will do so by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts and Global Depositary Receipts based on the securities in the Index. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

It will do so by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts and Global Depositary Receipts based on the securities in the Index. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

Directors' Report (continued)

For the year ended 30 June 2022

#### The Sub-Funds (continued)

Investment Objective and Policies, and review of business developments (continued)

#### Global X SuperDividend® UCITS ETF

Global X SuperDividend® UCITS ETF ("the Sub-Fund") listed on the London and Deutsche Börse Xetra stock exchanges on 17 February 2022 and listed on SIX Swiss and Borsa Italiana stock exchanges on 27 April 2022 and 17 February 2022 respectively.

The investment objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Solactive Global SuperDividend® v2 Index (the "Index"). In order to achieve this investment objective, the Sub-Fund will seek to replicate the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. It will do so by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts and Global Depositary Receipts based on the securities in the Index. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

#### Global X AgTech & Food Innovation UCITS ETF

Global X AgTech & Food Innovation UCITS ETF ("the Sub-Fund") listed on the London and Deutsche Börse Xetra stock exchanges on 17 February 2022 and listed on SIX Swiss and Borsa Italiana stock exchanges on 27 April 2022 and 17 February 2022 respectively.

The investment objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Solactive AgTech & Food Innovation v2 Index (the "Index"). In order to achieve this investment objective, the Sub-Fund will seek to replicate the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. It will do so by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts and Global Depositary Receipts based on the securities in the Index. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

#### Global X Uranium UCITS ETF

Global X Uranium UCITS ETF ("the Sub-Fund") listed on the London and Deutsche Börse Xetra stock exchanges on 22 April 2022 and listed on SIX Swiss and Borsa Italiana stock exchanges on 31 May 2022 and 25 May 2022 respectively.

The investment objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Solactive Global Uranium & Nuclear Components v2 Index (the "Index"). In order to achieve this investment objective, the Sub-Fund will seek to replicate the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. It will do so by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts and Global Depositary Receipts based on the securities in the Index. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

## **Global X Silver Miners UCITS ETF**

Global X Silver Miners UCITS ETF ("the Sub-Fund") listed on the London and Deutsche Börse Xetra stock exchanges on 6 May 2022 and listed on SIX Swiss and Borsa Italiana stock exchanges on 31 May 2022 and 25 May 2022 respectively.

The investment objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Solactive Global Silver Miners Total Return v2 Index (the "Index"). In order to achieve this investment objective, the Sub-Fund will seek to replicate the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. It will do so by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts and Global Depositary Receipts based on the securities in the Index. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

Directors' Report (continued)

For the year ended 30 June 2022

#### Risk management objectives and policies

The Directors have identified certain risks arising from the ICAV's holdings. The principal risks and uncertainties which the ICAV faces relate to the use of financial instruments and are listed in Note 7 "Financial risk management". The macro-economic risk related to COVID-19 and events arising in Russia and Ukraine are also mentioned on Note 11 "Significant events during the reporting year". The Directors are also aware of these economic and operational risks posed to the ICAV due to ongoing global changes. The Directors continuously monitor these situations and their impact on the ICAV.

#### Results

The results of operations of the ICAV for the financial year are set out in the Statement of Comprehensive Income. A review of the performance of the Sub-Funds for the financial year is included in the Investment Manager's report.

## Significant events during the reporting year

Significant events during the year under review are disclosed in Note 11 "Significant events during the reporting year".

#### Events after the reporting year

Subsequent events are disclosed in Note 12 "Events after the reporting year".

#### Directors

The Directors as at 30 June 2022 and throughout the financial year are listed in Directors and Other Information on page 3.

#### Directors' and Secretary's Interests

None of the Directors, their families or the Secretary held any interest in the shares of the Sub-Funds during the financial year.

#### Transactions involving Directors and ICAV Secretary

Contracts or arrangements of any significance in relation to the business of the ICAV in which the Directors or the ICAV Secretary had any interest as defined in the ICAV Act, at any time during the year ended 30 June 2022, are disclosed in Note 9 "Related Parties and Connected Persons" in the notes to the financial statements.

#### Secretary

Bradwell Limited held the office of Secretary throughout the financial year.

## Directors' Remuneration

The ICAV shall be responsible for discharging any fees and expenses of the Directors' of the ICAV out of the TER fee. The fixed fee of the independent Directors of the Board will be commercially negotiated and is currently set at €40,000 per annum.

### Segregated Liability

The ICAV is an umbrella fund with segregated liability between the Sub-Funds and as such, as a matter of Irish law, the assets of a Sub-Fund will not be exposed to the liabilities of the ICAV's other Sub-Funds.

Segregated liability ensures that the liabilities incurred on behalf of a Sub-Fund will be discharged solely out of the assets of that Sub-Fund and there can generally be no recourse to the other Sub-Funds to satisfy those liabilities.

Each Sub-Fund will be responsible for paying its fees and expenses regardless of the level of profitability. Notwithstanding the foregoing there can be no guarantee or assurance that, should an action be brought against the ICAV in a court of another jurisdiction, that the segregated nature of the Sub-Funds would necessarily be upheld.

Directors' Report (continued)

For the year ended 30 June 2022

#### Connected Persons

In accordance with the requirements of the Central Bank UCITS Regulations, all transactions carried out with the ICAV by the Manager, Investment Manager, Depositary, delegates or sub-delegates of these parties (the "connected persons") must be conducted at arm's length and be in the best interests of shareholders of the ICAV. The Directors of the Manager are satisfied that there are arrangements in place to ensure that the obligations set out in the Central Bank UCITS Regulations are applied to all transactions with connected persons and transactions with connected persons entered into during the financial year complied with the obligations set out in the Central Bank UCITS Regulations.

Shareholders should note that not all connected persons as defined by the Central Bank UCITS Regulations are deemed related parties as defined by IAS 24 'Related Party Disclosures'. Related parties include the board of Directors, the Manager, and the Investment Manager.

Transactions with related parties during the year ended 30 June 2022 are disclosed in Note 9 "Related Parties and Connected Persons" in the notes to the financial statements.

#### Dividends

It is intended to declare dividends in respect of the Share Classes identified as "distributing" Classes of the Sub-Funds. Distributions in respect of these Classes will be declared on each distribution date, semi-annually, in each year provided that such dates are not business days. The distribution may comprise net income (if any) of the relevant Sub-Fund.

It is not the current intention of the Directors to declare dividends in respect of the Share Classes identified as "accumulating" Classes. The income and earnings and gains of the accumulating classes will be accumulated and reinvested in the Sub-Funds.

#### Soft Commissions

There were no soft commission arrangements during the year.

#### Security Lending

The ICAV implemented securities lending on 8 April 2021. As at 30 June 2022, the ICAV had the following exposure:

	Lending return	Average loan	Max loan	Collateral level	Current
	BPS	% AUM	% AUM	% of loan	% AUM
Global X Video Games & Esports UCITS ETF	0.010	2.595	3.123	105.031	3.123

As at 30 June 2021 the ICAV had the following exposure:

	Lending return	Average loan	Max loan	Collateral level	Current
	BPS	% AUM	% AUM	% of loan	% AUM
Global X Video Games & Esports UCITS FTF	0.004	0.002	0.002	105.034	0.002

#### **Employees**

The ICAV had no employees throughout the year ended 30 June 2022.

Directors' Report (continued)

For the year ended 30 June 2022

#### **Future Developments**

The ICAV will seek to add (pending Central Bank approval) additional product offerings during the next financial year. In addition, it will look to continue to market and grow the assets under management within its existing product offering. The ICAV will continue to market in all jurisdictions passported for distribution.

#### Accounting Records

The Directors have ensured that adequate accounting record requirements under Sections 109 to 113 of the ICAV Act have been complied with by outsourcing this function to a specialist provider of such services. The accounting records are held by SEI Investments – Global Fund Services Limited in their office which is located at Styne House, Upper Hatch Street, Dublin 2, Ireland.

#### Directors' Responsibilities Statement

The Directors are responsible for preparing the Directors' Report and financial statements, in accordance with applicable law and regulations.

The ICAV Act requires the Directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union.

The financial statements are required to give a true and fair view of the assets, liabilities and financial position of the Sub-Funds at the end of the financial year and of the increase in net assets attributable to holders of redeemable participating shares in the Sub-Funds for the financial year. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Sub-Funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Sub-Funds or to cease operations, or have no realistic alternative but to do so.

The Directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the assets, liabilities, financial position and decrease in net assets attributable to holders of redeemable participating shares in the Sub-Funds and enable them to ensure that the financial statements comply with the ICAV Act and the UCITS Regulations. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Sub-Funds. In this regard they have entrusted the assets of the Sub-Funds to a depositary for safe-keeping. They are responsible for such internal controls as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and to prevent and detect fraud and other irregularities. The directors are also responsible for preparing a Directors' Report that complies with the requirements of the ICAV Act.

The financial statements are published on the Investment Manager's website: <a href="https://globalxetfs.eu">https://globalxetfs.eu</a>. The Directors, together with the Investment Manager and Manager, are responsible for the maintenance and integrity of the corporate and financial information included on the Investment Manager's website in so far as it relates to the ICAV. Legislation in the Republic of Ireland governing the presentation and dissemination of the financial statements may differ from legislation in other jurisdictions.

Directors' Report (continued)

For the year ended 30 June 2022

## Directors' Responsibilities Statement (continued)

#### Corporate Governance

The ICAV is subject to compliance with the requirements of the ICAV Act and the Central Bank UCITS Regulations. During the year under review, the ICAV was subject to corporate governance imposed by:

- i. The ICAV Act which can be obtained at http://www.irishstatutebook.ie/home.html;
- ii. The Instrument of Incorporation of the ICAV which is available for inspection at the registered office of the ICAV at 10 Earlsfort Terrace, Dublin 2, Ireland; and
- iii. The Central Bank UCITS Regulations which can be obtained from the Central Bank's website at: <a href="http://www.centralbank.ie/regulation/industry-sectors/funds/ucits/Pages/default.aspx">http://www.centralbank.ie/regulation/industry-sectors/funds/ucits/Pages/default.aspx</a> and is available for inspection at the registered office of the ICAV.
- v. The London Stock Exchange through the London Stock Exchange Rule book which can be obtained from the London Stock Exchange's website at <a href="http://www.londonstockexchange.com/">http://www.londonstockexchange.com/</a>. The Deutsche Börse Exchange through the Deutsche Börse Exchange Rule book which can be obtained from the Deutsche Börse website at <a href="https://www.xetra.com/xetra-en/">https://www.xetra.com/xetra-en/</a>.
- vi. The Irish Funds, formally Irish Funds Industry Association, Corporate Governance Code for Collective Investment Schemes and Management Companies (December 2011) which can be found at <a href="http://www.irishfunds.ie/regulatory-technical/corporate-governance">http://www.irishfunds.ie/regulatory-technical/corporate-governance</a>.

#### **Compliance with the Irish Corporate Governance Code**

The Directors have adopted the voluntary Irish Funds (formerly Irish Funds Industry Association) ("IFIA") Corporate Governance Code for Irish domiciled Collective Investment Schemes and Management Companies, issued 14 December 2011 (the "Code"). The Directors have reviewed and assessed the measure included in the Code and consider its corporate governance practices and procedures since the adoption of the Code as consistent therewith.

The Code provides a framework for the organisation and operation of funds to ensure that funds operate efficiently and in the interests of shareholders.

The Board considers that the ICAV has complied with the main provisions contained in the Code throughout this accounting period and that it complies with the various other corporate governance requirements prescribed by the legislation noted above.

#### Relevant Audit Information

The Directors believe that they have taken all steps necessary to make themselves aware of any relevant audit information and have established that the Company's statutory auditors are aware of that information. In so far as they are aware, there is no relevant audit information of which the Company's statutory auditors are unaware.

#### **Independent Auditors**

The auditor, PwC, Chartered Accountants and Statutory Audit Firm were appointed as statutory auditor on 14 May 2021 in accordance with Section 125 of the ICAV Act, have expressed their willingness to continue act as auditors of the ICAV.

On behalf of the Board of Directors:

Director

Date: 26 October 2022

Director

Investment Manager's Report

For the year ended 30 June 2022

#### **Investment objective**

Where a Sub-Fund's objective is to deliver a return based on the performance of an Index, it may either "track" or "replicate" the Index in question.

#### Fund performance, tracking difference and tracking error

In "tracking" the performance of an Index, the Investment Manager does not necessarily seek to replicate the composition of the Index (i.e. the full list of constituents in the same or substantially the same proportions as they are weighted within the Index). Instead, the Investment Manager is simply aiming to track the performance of the Index. The Investment Manager may use one or more techniques (including a combination thereof) to track the performance of an Index including (i) optimisation/sampling techniques whereby direct investments are made in physical assets and (ii) the use of FDIs such as OTC Swaps whereby a financial counterparty is engaged contractually to provide the return of the relevant Index. Optimising techniques enable a Fund to invest in (or gain exposure to) either a representative sample of Index constituents and/or assets unrelated to the Index constituents in each case where the relevant Investments (when taken together) resemble the risk and return characteristics of constituents of the Index or of the Index as a whole.

These techniques will also enable the Investment Manager to reflect anticipated changes in an Index in the Fund's portfolio (resulting in for example, Index constituents and corporate actions being reflected in the Fund's portfolio, Index constituents being sold or purchased in anticipation of those constituents being included or removed from the relevant Index, or weightings of Index constituents (vis-à-vis the actual Index composition) being varied).

In "replicating" the performance of an Index, the Investment Manager will seek to invest in (or gain exposure to) all Index constituents in the same or substantially the same proportions as they are weighted within the Index.

"Tracking error" can be defined as the volatility of the difference between the return of an Index Fund which tracks/replicates an Index versus the return of the relevant Index which it tracks or replicates, whereas "tracking difference" can be defined as the total return difference between such an Index Fund and the relevant Index which it tracks or replicates over a certain period of time.

Unless otherwise stated, an Index Fund is not expected to track the performance of its Index at all time with perfect accuracy and there can be no assurance that any Index Fund will achieve any particular level of accuracy in tracking or replicating an Index. Each Index Fund that seeks to track or replicate an Index is, however, expected to provide investment results that, before fees and expenses are applied, generally correspond to the price and yield performance of its Index.

Cash management, efficient portfolio management techniques including securities lending, transaction costs from rebalancing and currency hedging can have an impact on tracking difference. Importantly, these impacts can be either positive or negative depending on the underlying circumstances.

Investment Manager's Report (continued)

For the year ended 30 June 2022

## Fund performance, tracking difference and tracking error (continued)

Certain Sub-Funds experienced tracking error for the reporting period in excess of anticipated tracking error. Where relevant, the reasons for such tracking error are as set forth below.

#### Global X SuperDividend® UCITS ETF

Tracking error for the Sub-Fund was extremely elevated as a result of securities market disruptions during the first half of 2022. During this period, disruptions associated with the Russian war with Ukraine severely curtailed the ability of non-Russian investors to trade Russian securities, and COVID-19 lockdowns created a tumultuous period for Chinese securities markets, many of which were subject to prolonged trading halts. As a result of these market disruptions, numerous securities that were included in the underlying index experienced extended trading halts. During these trading halts, the securities continued to be valued by the index at their last traded price, before being eventually removed from the index for no value as a result of such trading halts, which meant that such securities contributed no change to the index for many days, and then contributed a sudden extreme change to the index on the day of removal. The Sub-Fund, however, continued to ascribe to such securities valuations intended to reflect the price at which it was reasonably anticipated that such securities could be disposed, which resulted in price fluctuations for such securities during the entire halted period, up to the point of successful divestment of the securities by the fund. The Sub-Fund also experienced elevated tracking differences during the index rebalance that occurred during the second quarter of 2022, including as a result of the removal of halted securities, and experienced further tracking error as a result of weight discrepancies in the initial seed basket relative to the weights of the securities in the underlying index.

#### Global X Renewable Energy Producers UCITS ETF

Tracking error for the Sub-Fund was elevated as a result of securities market disruptions during the first half of 2022. During this period, disruptions associated with the Russian war with Ukraine severely curtailed the ability of non-Russian investors to trade Russian securities. As a result of these market disruptions, a security with substantial weight in the index and the Sub-Fund experienced an extended trading halt. During this trading halt, the security continued to be valued by the index at its last traded price, before being eventually removed from the index for no value as a result of such trading halt, which meant that the security contributed no change to the index for many days, and then contributed a sudden extreme change to the index on the day of removal. The Sub-Fund, however, continued to ascribe to such security valuations intended to reflect the price at which it was reasonably anticipated that such securities could be disposed, which resulted in price fluctuations for such securities during the entire halted period, up to the point that such security was eventually ascribe a value of approximately zero.

#### Global X Robotics & Artificial Intelligence UCITS ETF

The Sub-Fund experienced elevated turnover as a result of substantial asset inflows and outflows that occurred during the reporting period. Trades associated with such inflows and outflows created slight divergences between the value of securities purchased and sold relative to the value of the securities held by the Sub-Fund. While such divergences are passed through to the party that creates or redeems such securities once the amount of divergence is finalised, these divergences can and did contribute to elevated daily tracking error for the Sub-Fund, even though the ultimate tracking difference remained relatively muted.

#### Global X Blockchain UCITS ETF

The Sub-Fund experienced elevated turnover as a result of substantial asset inflows and outflows that occurred during the reporting period. Trades associated with such inflows and outflows created slight divergences between the value of securities purchased and sold relative to the value of the securities held by the Sub-Fund. While such divergences are passed through to the party that creates or redeems such securities once the amount of divergence is finalised, these divergences can and did contribute to elevated daily tracking error for the fund, even though the ultimate tracking difference remained relatively muted.

## Fund performance, tracking difference and tracking error (continued)

## **Performance:**

Investment Manager's Report (continued)

For the year ended 30 June 2022

#### **Sub-Fund Review:**

#### Global X Video Games & Esports UCITS ETF

The Global X Video Games & Esports UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Video Games & Esports v2 Index.

Video Games & Esports Companies faced a slight decline in terms of video game product consumer spending. This was expected considering the easing of at-home restrictions from the pandemic. Additionally, the theme assumed the negative impacts of China's strict limits on minors playing video games. On the hardware side, scarcity of semiconductor chips had an adverse effect on the gaming consoles market. However, the emergence of the metaverse contributed to advancements in VR-focused gaming hardware technology as multiple gaming platforms forayed into the virtual dimension. Within the industry, M&A activity was also up including Take-Two Interactive's plans to buy Zynga and Microsoft's intent to acquire Activision Blizzard.

## Global X Telemedicine & Digital Health UCITS ETF

The Global X Telemedicine & Digital Health UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Telemedicine & Digital Health Index.

The Sub-Fund generated negative returns over the reporting period, as many of the telehealth flexibilities are temporary and phased out as the COVID-19 pandemic waned, which resulted in moderated growth expectations for Telemedicine & Digital Health Companies. Uncertainty as to how governments will permanently ease use of telemedicine have slowed down adoption, though industry firms continue to invest in integrated capabilities that will allow long-term adoption and integration with digital health technology.

### Global X Genomics & Biotechnology UCITS ETF

The Global X Genomics & Biotechnology UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Genomics v2 Index.

The Sub-Fund generated negative returns during the reporting period, as concerns about inflation-fighting interest rate hikes made investors worry. For much of the reporting period, investors flocked to Genomics companies given their relevance to the diagnosis of and treatment for COVID-19. As vaccination rates increased globally and macroeconomic factors like inflation worsened, performance was hampered as investors favored other industries. Notwithstanding, the FDA has approved 39 novel drugs from July 2021 to June 2022, across a variety of diseases such as diabetes, cardiomyopathy, cancer.

## Global X U.S. Infrastructure Development UCITS ETF

The Global X U.S. Infrastructure Development UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Indxx U.S. Infrastructure Development v2 Index.

The Sub-Fund generated negative returns over the reporting period as concerns over rising interest rates and material costs outweighed investor enthusiasm toward the passage of the Infrastructure Investment and Jobs Act (IIJA) in November 2021. In 2022 the federal government began distributing IIJA funds to the state level, particularly for port, waterway, and bridge repair projects. Although IIJA rollout remained on schedule, these investments require more time before they could translate into cash flows for relevant infrastructure companies. Market conditions supported elevated constructions costs, a dynamic that weighed on investor sentiment in the second half of the reporting period.

Investment Manager's Report (continued)

For the year ended 30 June 2022

#### **Sub-Fund Review (continued):**

## **Global X Cloud Computing UCITS ETF**

The Global X Cloud Computing UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Indxx Global Cloud Computing v2 Index.

Cloud computing companies had negative returns during the reporting period due the global equity sell off, amidst a rising interest rate and a high inflationary environment, that generally affected growth technology companies across the board. The stocks part of the Indxx Cloud Computing Index V2 Index saw its price-to-sales ratio compress from 10.7x sales in June 2021 to 4.5x sales in June 2022, as result of the broad sell off and multiple compression. Moreover, as we exited the pandemic, businesses were also expected to reduce the consumption of certain cloud technologies and products, rotating that spending into products and services that may be important to the post-COVID hybrid working environment – including security tools, infrastructure services, project management software, analytic products, and such. Meanwhile, a broad underlying transition of IT to the cloud continues to play out. Growth for infrastructure service players is looking strong and multiple surveys continue to underline the popularity of multi-cloud models within large organizations – as corporations balance needs such as diversification of IT risk and align specific needs with the appropriate cloud solutions providers.

## Global X E-commerce UCITS ETF

The Global X E-commerce UCITS ETF seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive E-commerce v2 Index.

The Sub-Fund generated negative returns as the ongoing global supply chain bottlenecks, rising inflation, and increasing Fed interest rates have pushed up the prices for almost everything during the reporting period. Despite online sales growth stabilizing after a period of pandemic-driven acceleration, key verticals within the e-commerce space continue to present attractive opportunities. Momentum from emerging markets continues to remain significantly stronger than in developed markets. Resurgence of post-pandemic travel is also helping key players exceed expectations.

E-commerce vendors have proven more resilient than their brick-and-mortar counterparts to supply chain disruption caused by the COVID-19 pandemic. For example, it is increasingly evident that e-commerce activity is driving higher absorption and lower availability among the largest bulk warehouse facilities. Additionally, a recent sell-off in EBIZ's high-growth equities generated an appealing risk/reward profile for long-term investors.

#### Global X FinTech UCITS ETF

The Global X FinTech UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Indxx Global FinTech Thematic v2 Index.

The Sub-Fund had negative returns over the reporting period as the markets turned in the early days of this year, as central banks moved to raise interest rates around the world which would sap the economy and consumers of excess liquidity – negatively affecting consumer financial standing. Moreover, the looming risk of demand waning due to a return to normal spending rotating away from online commerce, mobile payments to other legacy channels, as well as the impact of inflation, acted as negative headwinds.

High growth segments within fintech such as buy now pay later, digital lending, P2P borrowing took a heavy hit as a result of these shifting conditions. Also, fintech firms with exposure to blockchain and cryptocurrency also faced some unfavorable investment conditions due to the broad decline in the crypto markets and the increased regulatory scrutiny of digital transactions.

Investment Manager's Report (continued)

For the year ended 30 June 2022

#### **Sub-Fund Review (continued):**

#### Global X CleanTech UCITS ETF

The Global X CleanTech UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Indxx Global CleanTech v2 Index.

The Sub-Fund generated negative returns since its inception within the reporting period. Rising inflation, supply chain issues, elevated shipping costs, and higher raw materials costs, particularly within the wind and solar power sectors, suppressed margins. That said, demand for clean technologies remained strong due to favourable policy environments around the world. In particular, renewables remained cost-competitive and governments are utilizing wind and solar power to help mitigate climate change and boost energy security. Hydrogen and energy storage technologies also saw increased momentum amid increased efforts globally to address climate change and efforts in Europe to boost energy security and reduce reliance on Russia.

#### Global X Robotics & Artificial Intelligence UCITS ETF

The Global X Robotics & Artificial Intelligence UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Indxx Global Robotics & Artificial Intelligence Thematic v2 Index.

The Sub-Fund had a negative performance during the reporting period as global economies entered a new phase of monetary policy characterised by lower liquidity as compared to the previous decade. The high inflation is also adding pressure on the current market environment and impacting investments in the sector. However, companies in the Robotics and AI space reported positive recent earnings overall, driven by strong demand for automation, AI workloads and edge computing. Industrial robot sales have seen a strong recovery over the reporting period in both the Americas and Europe, while Asia and Australia saw the largest growth in demand. Companies within the sector experienced a negative impact caused by the Russia-Ukraine conflict, China lockdowns and the resulting supply shortages. Robotics companies were particularly hit by the weakness in China, the world's largest market for industrial robots.

However, China's industrial output turned back to positive in May, as the country emerges from the latest COVID-19 lockdowns, though fears of fresh lockdowns remain. The main growth driver for industrial robot sales has been the electronics industry, followed by the automotive industry. Metal and machinery, plastics and chemical products, and food and beverages were the sectors that followed. Another area where both robotics and AI saw expansion during the reporting period was within the autonomous vehicle (AV) industry, with a primary focus on self-driving trucking technology and potential AV fleets.

Recent global events have caused valuations of the Global X Robotics & Artificial Intelligence UCITS ETF to become more attractive, with P/S (Price-to-Sales) ratios reverting back to early 2021 levels, and becoming more in line with major Indices, such as S&P 500 and MSCI.<sup>3</sup> Similarly, the sector's PSG (Price-to-Sales Growth) ratios have actually fallen below those of S&P 500 since the start of the year, driven by higher sales growth expectations.<sup>4</sup>

Venture firm investments into robotics also increased significantly over the period, with robotics startups in the logistics and transportation markets attracting some of the largest investments.<sup>5</sup> Most of the funding has been focused on single-tasked robots i.e. those programmed to perform a specific task, however recent trends are showing a shift of funding towards generalist-type robots, rather than specialists. These are expected to bring greater efficiencies and help alleviate labor shortages.

Over the reporting period, the Fund saw an average approximate sector allocation of 42% to Industrials, 28% to Information Technology, and 15% to Healthcare. It was predominately exposed to the United States (41%), followed by Japan (34%), and Western Europe (12%).

For the year ended 30 June 2022

#### **Sub-Fund Review (continued):**

#### **Global X Cybersecurity UCITS ETF**

The Global X Cybersecurity UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Indxx Cybersecurity v2 Index.

Investors are paying great attention to cybersecurity stocks as cyberattacks continued to rise across different organizations in Blockchain, News, third-party contractor, and fundraising site to name a few. An increased prevalence of cyberattacks caused governments, businesses, and individuals to invest in cyber capabilities to shield themselves from potential future attacks. The West has been continuing to isolate Moscow by imposing several sanctions on Russian banks, its sovereign debt along with Russian President Vladimir Putin and Foreign Minister Sergey Lavrov. Notably, cyberattacks can be part of Russia's war strategy. Several Ukrainian entities have already been hacked.

Also, the increasing adoption of revolutionary technologies is exposing businesses, governments, and organizations to cyber risks.

#### Global X Autonomous & Electric Vehicles UCITS ETF

The Global X Autonomous & Electric Vehicles UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Autonomous & Electric Vehicles v2 Index.

The Sub-Fund generated negative returns over the reporting period as compressed electric vehicle (EV) margins and big tech headwinds overshadowed continued momentum for EV adoption. Elevated battery prices and material shortages translated into higher EV manufacturing costs. Lithium mining capacity has been slow to increase amidst surging demand for EVs, while pressures on nickel supply chains attributable to the Russia-Ukraine conflict also boosted battery prices. Although automakers found success passing heightened costs onto consumers, profitability did decline. Despite headwinds, EV sales, both in absolute terms and as a share of total automobile sales, grew dramatically year over year. Accommodative policy in the United States and Europe as well as EV commitments from traditional automakers could continue to generate opportunities for the theme.

#### **Global X Internet of Things UCITS ETF**

The Global X Internet of Things UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Indxx Global Internet of Things Thematic v2 Index.

Global X Internet of Things UCITS ETF constituents experienced revenue growth during the reporting period, driven by strong demand for microcontrollers, partially offset by temporarily reduced operations at some companies' Chinese manufacturing facilities due to Covid-19-related lockdowns. The Fund generated negative returns during the reporting period due to the semiconductor chip shortage, a headwind for the Internet of Things (IoT) sector. Surging demand, particularly due to 5G expansion plans, has caused manufacturers to start producing chips that are more sophisticated. As a result, the production of lower-tier chips, such as those frequently used in consumer-focused IoT devices, has taken a back seat. This has led to higher prices and decreased availability of some connected devices, which is having a negative impact on consumer goods sales in the short term. Growing demand for IoT devices related to cloud computing, video games, autonomous and electric vehicles, infrastructure, and fitness wearables kept investors interested despite short-term headwinds. Additionally, passage of the Infrastructure Investment and Jobs Act in the United States, which authorised billions of dollars in funding for 5G expansion, likely contributed to positive sentiments toward the IoT industry.

According to recent comments by Qualcomm CEO Cristiano Amon, the semiconductor supply and demand will start to balance out in the second half of 2022, and he expects that the global shortage will start to wane by late 2022 into early 2023, although some companies might not see improvement until 2024. Global semiconductor fab equipment spending is expected to increase 20% YoY in 2022, while the global IoT microcontroller market is forecasted to reach \$12.9 billion by 2030.<sup>2,3</sup> Market growth is expected to come from increased adoption of smart home devices integrated with mobile applications and advancements in low power microcontrollers, as well as a surge in the number of enterprise IoT connections. IoT connections growth is expected to come mainly from the manufacturing, healthcare, energy and power industries.

Investment Manager's Report (continued)

For the year ended 30 June 2022

#### **Sub-Fund Review (continued):**

#### Global X Internet of Things UCITS ETF (continued)

Over the reporting period, average approximate sector weightings of the Fund were reported to be the highest in Information Technology, at 62%, followed by Industrials, at 19%. The Fund maintained an average allocation of 54% to the United States stocks, followed by Switzerland (8%) and Taiwan (6%).

- <sup>1</sup> Global X ETFs, "Thematic Investing Whitepaper: Connectivity (Internet of Things & Digital Infrastructure)", Mar 23, 2022.

- <sup>3</sup> Globe Newswire, "IoT Microcontroller Market Size, Share & Trends Analysis Report 2022-2030", Mar 14, 2022.

#### **Global X Copper Miners UCITS ETF**

The Global X Copper Miners UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Global Copper Miners v2 Index.

The Sub-Fund had a negative performance in the reporting period as copper demand faced headwinds in China, the world's largest copper market, as Chinese manufacturers shut down at times over concerns surrounding COVID-19. Regarding the building and construction sector, which accounts for a material amount of total copper end-use, Chinese apartment and housing sales posted year-on-year declines for 11 months straight. Also, global recession fears increased on the back of a more aggressive than expected central banking policies. Copper's demand is closely linked to economic growth and industrial activity. Finally, copper price volatility remained high during the reporting period as the effects of Russia's invasion of Ukraine spread across the economy, and exchange inventories levels remained low.

#### Global X Renewable Energy Producers UCITS ETF

The Global X Renewable Energy Producers UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Indxx Renewable Energy Producers v2 Index.

The Sub-Fund generated negative returns over the reporting period as companies within the power sector were impacted by rising inflation, higher costs throughout renewable energy value chains. In addition, the continuation of supply chain disruptions amid the Covid-19 pandemic and policy uncertainty surrounding the solar power sector in the U.S. resulted in project delays. These impacts outweighed continued strong demand for renewable energy amid global concerns over climate change, energy security, and high fossil fuel prices.

The European Union in particular has increased renewable energy targets in recent months, boosting investor sentiment for the theme. The EU revealed a new plan titled REPowerEU which aims to accelerate the green transition to reduce reliance on imported fossil fuel feedstock from Russia.

#### **Global X Clean Water UCITS ETF**

The Global X Clean Water UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Global Clean Water Industry v2 Index.

Over the reporting period, the Sub-Fund generated a negative return as supply chain disruption and inflation weighed on performance. Supply chains for advanced water monitoring and control equipment continue to suffer from residual COVID-related disruption, resulting in long lead times, shortages, and high shipping costs. Semiconductor shortages proved especially problematic for the space, while higher commodity prices compressed margins. The Infrastructure Investment and Jobs Act ("IIJA"), enacted in November 2021, directed billions of dollars toward modernizing outdated U.S. water infrastructure and reinforcing essential utilities against climate change and cyberattacks. This funding could create opportunities for water distributors and helped boost sentiment toward utilities over the course of the reporting period.

Investment Manager's Report (continued)

For the year ended 30 June 2022

#### **Sub-Fund Review (continued):**

#### Global X Lithium & Battery Tech UCITS ETF

The Global X Lithium & Battery Tech UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Global Lithium v2 Index.

The Sub-Fund generated negative returns over the reporting period, following its inception in December 2021. While elevated lithium prices drove revenue growth for lithium miners over the reporting period, this environment also compressed margins for battery technology manufacturers. In May 2022, lithium prices were more than 7x higher than historic prices recorded in early 2021. While the price declined slightly over May 2022, prices began to promptly recover in June 2022. The high prices continued to be the result of a widening supply-demand gap. Lithium demand was primarily driven by continued strong demand for lithium batteries as electric vehicles (EVs) have gained strong support by many governments and Original Equipment Manufacturers (OEMs).

<sup>1</sup> https://www.iea.org/reports/global-ev-outlook-2022/executive-summary

#### Global X Data Center REITs & Digital Infrastructure UCITS ETF

The Global X Data Center REITs & Digital Infrastructure UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Data Center REITs & Digital Infrastructure v2 Index.

The demand for data centers and cellular towers continued to grow over the reporting period, despite the Global X Data Center REITs and Digital Infrastructure UCITS ETF experiencing some negative performance, caused by an unfavorable macroeconomic environment. Rising inflation led to a renewed interest towards inflation hedging assets such as REITs, as recent data center REITs earnings reports showed record levels of leasing demand and renewed pricing power. In particular, the squeeze in supply caused by inventory bottlenecks has led some high-demand, low-vacancy markets to experience rental rate increases. These recent tailwinds have been magnified by the Covid-19 pandemic, as remote working led to a significant increase in the demand for network and data services globally, turning telecommunication services into one of the most essential industries. Cloud providers and social media companies accounted for most of the colocation data center demand in the United States. Globally, companies looking to secure future revenue streams coming from 5G infrastructure, AI (Artificial Intelligence), autonomous vehicle (AV) technology, virtual reality (VR), and blockchain are also driving demand for data centers.

Recent government commitments in the U.S. and Europe surrounding both connectivity and digital infrastructure hardware, such as semiconductors, include provisions that aim to improve data center and cellular tower capacity. For example, the Infrastructure Investment and Jobs Act (IIJA) passed in November 2021 includes a \$65 billion provision to expand broadband internet, stipulating high-speed download/upload speeds and low latency. More recently, plans have been announced to fund the CHIPS Act's semiconductor manufacturing and research provisions, as well as include an investment tax credit for semiconductor manufacturing and design. In Europe, at least 20% of the Recovery and Resilience Facility, or about €145 billion, are allocated to support the digital transition. During the reporting period, the Fund maintained the highest average approximate exposure of 62% to the Real Estate sector and 25% to the Information Technology sector.

Investment Manager's Report (continued)

For the year ended 30 June 2022

#### **Sub-Fund Review (continued):**

#### Global X Blockchain UCITS ETF

The Global X Blockchain UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Blockchain v2 Index.

The Sub-Fund generated negative returns due to pressure from macroeconomic forces including rising inflation, rate hikes, and tighter liquidity, which put extreme pressure on the cryptocurrency space during the reporting period. In order to combat rising inflation, the Federal Reserve increased interest rates more aggressively. As a result, risk assets such as cryptocurrencies suffered the brunt of downturn in this period as capital allocation shifted to safer assets. Moreover, the nature of the cryptocurrency space led to systemic risk caused by high leverage at the institutional level, which included hedge funds, lenders, projects, and centralised exchanges. This led to forced selling activity and blockchain related equities sold off as a result. These events have affected all market participants, including the public companies involved in the space. Additionally, rising energy costs and an increase in mining difficulty affected miner profits, and a reduction in trading volume subsequently affected cryptocurrency exchanges.

## Global X Hydrogen UCITS ETF

The Global X Hydrogen UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Global Hydrogen v2 Index.

The Sub-Fund generated negative returns over the reporting period. Hydrogen companies saw a boost in early 2022 due to positive investor sentiment amid efforts in Europe to accelerate the green energy transition. In addition, momentum continued to build for hydrogen as a key pathway for decarbonizing hard-to-electrify sectors. For example, in March China released its first national green hydrogen strategy, with the country aiming to produce 100,000 to 200,000 tonnes of green hydrogen by 2025. That said, hydrogen companies were impacted by rising inflation, increasing prices on raw materials and natural gas, and supply chain challenges. Additionally, hydrogen is in the early adoption stage as a next-generation fuel source and energy storage solution.

#### **Global X Wind Energy UCITS ETF**

The Global X Wind Energy UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Wind Energy v2 Index.

The Sub-Fund generated negative returns over the reporting period since its inception in February 2022. Rising inflation, higher shipping costs, elevated materials costs, the Russian invasion of Ukraine, and supply chain disruptions continued to put pressure on wind power equipment manufacturers, as well as some developers. These factors outweighed positive investor sentiment and strong demand for wind power projects. Wind power companies continued to see strong demand, as the technology remains cost-competitive and is a vital potential tool for both climate change mitigation and energy security. For example, in Q1 2022 earnings statements, several companies highlighted the European Union's efforts to accelerate the green transition in order to reduce dependence on thermal feedstock from Russia as a key opportunity moving forward.

## Global X Solar UCITS ETF

The Global X Solar UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Solar v2 Index.

The Sub-Fund generated mild positive returns since its inception within the reporting period. Heightened costs throughout the solar power value chain due to rising inflation and elevated shipping and commodity prices, including polysilicon, weighed on some companies' margins. That said, companies were able to mitigate these higher costs by raising prices and improving product efficiencies and processes. Notably, demand remained strong for solar power equipment and projects despite higher prices. In particular, Europe saw increased demand for solar power systems as the region is working to accelerate renewables adoption to reduce dependence on Russian fossil fuel imports.

Investment Manager's Report (continued)

For the year ended 30 June 2022

#### **Sub-Fund Review (continued):**

#### Global X SuperDividend UCITS ETF

The Global X SuperDividend UCITS ETF seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Global SuperDividend v2 Index.

The stocks held by the Fund have some of the highest dividend yields in the world. The Fund generated negative returns in the reporting period as increasing volatility gripped the global equity markets. High-dividend-yielding sectors such as real estate experienced a downturn as rising interest rates increased investors' financing costs and weaker consumer sentiment lowered demand for retail space, resulting in the Fund's negative performance. Furthermore, slowing economic growth, inflation concerns, and Fed rate hikes had negatively impacted sectors such as financials, industrials, and the materials sector. In contrast, the energy sector was one of the few factors that delivered positive returns during the reporting period due to rising oil and gas prices.

## Global X AgTech & Food Innovation UCITS ETF

The Global X AgTech & Food Innovation UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive AgTech & Food Innovation v2 Index.

The Sub-Fund generated negative returns over the reporting period as unfavourable commodity pricing, inflationary factors, and rising interest rates weighed on performance. Many companies within the AgTech and Food Innovation space are in their nascent stages and are impacted disproportionately by increasing costs. For example, Food Innovation companies enjoyed growing demand, however higher costs made their continued efforts to scale operations more difficult. Increased commodity prices also weighed on both equipment and food supplier margins. The Russia-Ukraine conflict compromised a significant portion of global food supplies, contributing to rising food prices and food insecurity. This conflict currently weighs on performance, but in the longer term, could draw attention to technologies meant to optimise agricultural production such as precision agriculture or controlled environments.

#### **Global X Uranium UCITS ETF**

The Global X Uranium UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Global Uranium & Nuclear Components Total Return v2 Index.

The Sub-Fund had a negative performance in the reporting period. As the primary fuel for a nuclear reactor, uranium is driven by the demand for nuclear power, thus implying a significant price sensitivity of the metal to the trends in the energy sector and the green transition. In this timeframe, some countries, including Germany, Austria and the Netherlands, decided to restart coal-fired power rather than nuclear plants as a short to medium-term solution to the European energy crisis resulting from Russia's move to cut gas deliveries. Furthermore, uranium prices dropped as one of the largest buyers of uranium on the spot market, Sprott Physical Uranium Trust, pulled back and global economic outlooks declined due to the rising inflation, the war in Eastern Europe and energy shortages.

#### **Global X Silver Miners UCITS ETF**

The Global X Silver Miners UCITS ETF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Global Silver Miners Total Return v2 Index.

Silver mining firms' revenue depends on the silver price and the amount of silver they produce. The Fund had a negative performance in the reporting period as the slowdown in China due to COVID measures weighed on industrial metals and silver miners. The demand for silver used for solar energy and photovoltaic industry also weakened, as China took advantage of the energy war between Europe and Russia to purchase as much energy from Russia, leading to underinvestment in the solar and renewable energy industry. Silver also saw selling pressures as central banks worldwide turned to policy tightening by either removing stimulus or raising interest rates to combat decades high inflation. Furthermore, escalating US dollar also negatively impacted silver prices as a stronger US dollar kept the price of precious metals like silver more expensive for other nondollar currencies.

Depositary's Report

For the year ended 30 June 2022

We, SEI Investments – Depositary and Custodial Services (Ireland) Limited, appointed Depositary to Global X ETFs ICAV (the "ICAV") provide this report solely in favour of the investors of the ICAV as a body for the year ended 30 June 2022 ("the Accounting Period"). This report is provided in accordance with the UCITS Regulations – European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (SI No 352 of 2011) as amended, ("the UCITS Regulations"). We do not, in the provision of this report, accept nor assume responsibility for any other purpose or person to whom this report is shown.

In accordance with our Depositary obligation as provided for under the UCITS Regulations, we have enquired into the conduct of the ICAV for the Accounting Period and we hereby report thereon to the investors of the ICAV as follows;

We are of the opinion that the ICAV has been managed during the Accounting Period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the ICAV by the constitutional documents and by the UCITS Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional document and the UCITS Regulations.

Maria Bradshap

For and on behalf of SEI Investments - Depositary and Custodial Services (Ireland) Limited

Date: 26 October 2022

# Independent auditors' report to the shareholders of the sub-funds of Global X ETFs ICAV

## Report on the audit of the financial statements

## **Opinion**

In our opinion, Global X ETFs ICAV's financial statements:

- · give a true and fair view of the sub-funds' assets, liabilities and financial position as at 30 June 2022 and of their results and cash flows for the year then ended;
- · have been properly prepared in accordance with International Financial Reporting Standards ("IFRSs") as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Irish Collective Asset-management Vehicles Act 2015 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and Audited Financial Statements, which comprise:

- the Statement of Financial Position as at 30 June 2022;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Cash Flows for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares for the year then ended;
- The Statement of Changes in Equity for the year then ended;
- the Schedule of Investments for each of the sub-funds as at 30 June 2022; and
- the Notes to the Financial Statements for each of the sub-funds, which include a description of the significant accounting policies.

Our opinion is consistent with our reporting to the Board of Directors.

## **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Independence

We remained independent of the ICAV in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard as applicable to listed public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by IAASA's Ethical Standard were not provided to the ICAV.

Other than those disclosed in note 5, we have provided no non-audit services to the ICAV in the period from 1 July 2021 to 30 June 2022.

## Our audit approach

### Overview

#### Materiality

· Overall materiality: 50 basis points of Net Assets Value ("NAV") at 30 June 2022 for each of the ICAV's sub-funds.

#### Audit scope

The ICAV is an open-ended investment ICAV with variable capital and engages Carne Global Fund Managers (Ireland) Limited (the "Manager") and Global X Management Company, LLC (the 'Investment Manager') to manage certain duties and responsibilities with regards to the day-to-day management of the ICAV. We tailored the scope of our audit taking into account the types of investments within the subfunds of the ICAV, the involvement of the third parties referred to below, the accounting processes and controls, and the industry in which the ICAV operates. We look at each of the sub-funds at an individual level.

## Key audit matters

- · Valuation of financial assets at fair value through profit or loss.
- · Existence of financial assets at fair value through profit or loss.

#### The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example the selection of pricing sources to value the investment portfolios. As in all of our audits, we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

#### Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

#### Key audit matter

## Valuation of financial assets at fair value through profit or loss

Refer to the individual Schedule of Investments, Note 2d (ii) (Significant accounting policies - Investments) and Note 8 (Fair value measurement).

The investment portfolios are comprised primarily of level 1 equities with a small number of level 3 investments as at 30 June 2022.

We focused on the valuation of the investments held by the ICAV's sub-funds as these financial assets at fair value through profit or loss represent the principal element of the net asset value (NAV) of the sub-funds as disclosed in the Statement of Financial Position within the audited financial statements.

#### How our audit addressed the key audit matter

The fair value of the investment positions held by the subfunds is determined by the administrator in conjunction with the investment manager.

We have developed specific audit procedures to understand, evaluate and test the processes and controls that are in place around the valuation of investments.

We tested the valuation of the financial assets at fair value through profit or loss by independently obtaining price quotations from third party vendor sources for the investments of each sub-fund included within the financial statements.

We tested the fair value of investments disclosed as level 3 investments by considering the methods, significant assumptions and data used by management to develop the estimated fair values. Where management's estimated fair

	value included the use of a last traded price, we independently obtained that last available traded price.  No material misstatements were identified as a result of the procedures we performed.
Existence of financial assets at fair value through profit or loss	The sub-funds' financial assets at fair value through profit or loss are held by the depositary.
Refer to the individual Schedule of Investments, Note 2d (ii) (Significant accounting policies - Investments) and Note 8 (Fair value measurement).  The investment portfolios are comprised primarily of level 1 equities with a small number of level 3 investments as at 30 June 2022.	We obtained independent confirmation of these positions held with the Depositary. We then reconciled these confirmations to the accounting records maintained by the sub-funds' Administrator and evaluated any material differences identified.  No material misstatements were identified as a result of the
We focused on the existence of the investments held by the ICAV's sub-funds as these financial assets at fair value through profit or loss represent the principal element of the net asset value (NAV) of the sub-funds as disclosed in the Statement of Financial Position within the audited financial statements.	procedures we performed.

## How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the ICAV, the accounting processes and controls, and the industry in which it operates.

The directors control the affairs of the ICAV and are responsible for the overall investment policy which is determined by them. The ICAV engages the Manager to manage certain duties and responsibilities with regards to the day to day management of the ICAV. The Manager has delegated certain responsibilities to the Investment Manager and to SEI Investments – Global Fund Services Limited (the 'Administrator'). The financial statements, which remain the responsibility of the directors, are prepared on their behalf by the Administrator. The ICAV has appointed SEI Investments – Depositary and Custodial Services (Ireland) Limited (the "Depositary") to act as Depositary of the ICAV's assets. In establishing the overall approach to our audit we assessed the risk of material misstatement at a sub-fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the ICAV's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

#### Materialitu

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements of each of the ICAV's subfunds as follows:

Overall materiality and how we determined it	50 basis points (2021: 50 basis points) of Net Assets Value ("NAV") at 30 June 2022 for each of the ICAV's sub-funds.
Rationale for benchmark applied	We have applied this benchmark because the main objective of the ICAV is to provide investors with a total return at a sub-fund level, taking account of the capital and income returns.

We agreed with the Board of Directors that we would report to them misstatements identified during our audit above 5 basis points of each sub-fund's NAV, for NAV per share impacting differences (2021: 5 basis points of each sub-fund's NAV, for NAV per share impacting differences) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

## Conclusions relating to going concern

Our evaluation of the directors' assessment of the sub-funds' ability to continue to adopt the going concern basis of accounting included:

- Obtaining an understanding of the liquidity and market risks of the ICAV and the measures to mitigate and manage these risks (as disclosed in note 7 Financial risk management) over the going concern period (12 months from the date of approval of the financial statements);
- Obtaining management's assessment of going concern which included a consideration of the capital activity of the sub-funds, regulatory consideration of the sub-funds, the impact of Brexit, the sub-funds' listing status and COVID-19;
- Agreeing the liquidity terms surrounding the ICAV's ability to manage liquidity risk (as per note 7b Financial risk management Liquidity risk), to the legal documents;
- Considering post year end capital activity; and
- Discussing management's plans to assess if there is a plan to terminate any of the sub-funds.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the sub-funds' ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the subfunds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

## Reporting on other information

The other information comprises all of the information in the Annual Report and Audited Financial Statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

Based on the responsibilities described above and our work undertaken in the course of the audit, the Irish Collective Asset-management Vehicles Act 2015 requires us to also report the opinion as described below:

### Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 30 June 2022 is consistent with the financial statements.

## Responsibilities for the financial statements and the audit

## Responsibilities of the directors for the financial statements

As explained more fully in the Directors' Responsibilities Statement set out on pages 13 and 14, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the sub-funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the ICAV or to cease operations, or have no realistic alternative but to do so.

#### Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description of auditors responsibilities for audit.pdf.

This description forms part of our auditors' report.

## Use of this report

This report, including the opinions, has been prepared for and only for the shareholders of each of the sub-funds as a body in accordance with section 120 of the Irish Collective Asset-management Vehicles Act 2015 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

## Other required reporting

#### Irish Collective Asset-management Vehicles Act 2015 exception reporting

## Directors' remuneration

Under the Irish Collective Asset-management Vehicles Act 2015 we are required to report to you if, in our opinion, the disclosures of directors' remuneration specified by section 117 of that Act have not been made. We have no exceptions to report arising from this responsibility.

## **Appointment**

We were appointed by the Board of Directors on 14 May 2021 to audit the financial statements for the year ended 30 June 2021 and subsequent financial periods. The period of total uninterrupted engagement is 2 years, covering the years ended 30 June 2021 to 30 June 2022.

Mary Ruane

for and on behalf of PricewaterhouseCoopers Chartered Accountants and Statutory Audit Firm

Dublin

26 October 2022

Notes to the Financial Statements

For the year ended 30 June 2022 (Expressed in United States Dollars)

## 1. Nature of operations

The ICAV was registered in Ireland, registration number C435449, pursuant to the Irish Collective Asset-management Vehicles Act 2015 (the "ICAV Act") on 20 July 2020 and authorised by the Central Bank of Ireland (the "Central Bank") as an Undertaking for Collective Investment in Transferable Securities pursuant to the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investments in Transferable Securities) Regulations 2019 (S.I. 230 of 2019) (collectively the "UCITS Regulations").

The ICAV is organised in the form of an umbrella fund with segregated liability between sub-funds. Each sub-fund has a distinct portfolio of investments and the investment objective and policy of each sub-fund is formulated by the investment manager. At 30 June 2022, the following funds ("Sub-Funds") were in operation:

Sub-Funds	Launch date
Global X Video Games & Esports UCITS ETF	17 December 2020
Global X Telemedicine & Digital Health UCITS ETF	17 December 2020
Global X Genomics & Biotechnology UCITS ETF	2 November 2021
Global X U.S. Infrastructure Development UCITS ETF	2 November 2021
Global X Cloud Computing UCITS ETF	2 November 2021
Global X E-commerce UCITS ETF	16 November 2021
Global X FinTech UCITS ETF	16 November 2021
Global X CleanTech UCITS ETF	16 November 2021
Global X Robotics & Artificial Intelligence UCITS ETF	16 November 2021
Global X Cybersecurity UCITS ETF	16 November 2021
Global X Autonomous & Electric Vehicles UCITS ETF	16 November 2021
Global X Internet of Things UCITS ETF	16 November 2021
Global X Copper Miners UCITS ETF	22 November 2021
Global X Renewable Energy Producers UCITS ETF	7 December 2021
Global X Clean Water UCITS ETF	7 December 2021
Global X Lithium & Battery Tech UCITS ETF	7 December 2021
Global X Data Center REITs & Digital Infrastructure UCITS ETF	7 December 2021
Global X Blockchain UCITS ET	21 January 2022
Global X Hydrogen UCITS ETF	7 February 2022
Global X Wind Energy UCITS ETF	7 February 2022
Global X Solar UCITS ETF	15 February 2022
Global X SuperDividend® UCITS ETF	15 February 2022
Global X AgTech & Food Innovation UCITS ETF	15 February 2022
Global X Uranium UCITS ETF	20 April 2022
Global X Silver Miners UCITS ETF	4 May 2022

Carne Global Fund Managers (Ireland) Limited (the "Manager") has appointed Global X Management Company LLC as Investment Manager and Distributor of the ICAV pursuant to the investment management and distribution agreement between the ICAV, the Manager and the Investment Manager.

The registered office of the ICAV is 10 Earlsfort Terrace, Dublin 2, Ireland. SEI Investments - Global Fund Services Limited (the "Administrator") is the administrator. SEI Investments - Depositary and Custodial Services (Ireland) Limited (the "Depositary") is the depositary. Brown Brothers Harriman & Co. has been appointed as the sub-custodian (the "Sub-Custodian").

Notes to the Financial Statements (continued)

For the year ended 30 June 2022 (Expressed in United States Dollars)

## 2. Basis of preparation and significant accounting policies

## (a) Statement of compliance

The financial statements of each of the Sub-Funds are prepared in accordance with International Financial Reporting Standards ("IFRS"), as adopted by the European Union, the UCITS Regulations, and the ICAV Act. This report presents financial statements for Global X Video Games & Esports UCITS ETF, Global X Telemedicine & Digital Health UCITS ETF, Global X Genomics & Biotechnology UCITS ETF, Global X U.S. Infrastructure Development UCITS ETF, Global X Cloud Computing UCITS ETF, Global X E-commerce UCITS ETF, Global X FinTech UCITS ETF, Global X CleanTech UCITS ETF, Global X Robotics & Artificial Intelligence UCITS ETF, Global X Cybersecurity UCITS ETF, Global X Autonomous & Electric Vehicles UCITS ETF, Global X Internet of Things UCITS ETF, Global X Copper Miners UCITS ETF. Global X Renewable Energy Producers UCITS ETF, Global X Clean Water UCITS ETF, Global X Lithium & Battery Tech UCITS ETF, and Global X Data Center REITs & Digital Infrastructure UCITS ETF, Global X Blockchain UCITS ETF, Global X Hydrogen UCITS ETF, Global X Wind Energy UCITS ETF, Global X Solar UCITS ETF, Global X SuperDividend® UCITS ETF, Global X AgTech & Food Innovation UCITS ETF, Global X Uranium UCITS ETF and Global X Silver Miners UCITS ETF as at 30 June 2022. This report presents comparative financial statements as at 30 June 2021 on the Statement of Financial Position and also presents comparative financial statements for the period ended 30 June 2021 on the Statement of Comprehensive Income, Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, Statement of Cash Flows and related notes for Global X Video Games & Esports UCITS ETF and Global X Telemedicine & Digital Health UCITS ETF.

## (b) Basis of preparation

The financial statements are presented in United States Dollars ("USD" or "US\$"). The financial statements have been prepared under the going concern and under the historical cost convention, as modified by the revaluation of financial assets at fair value through profit or loss.

The preparation of financial statements in conformity with IFRS requires management to make judgements, critical accounting estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expense. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period and future periods if the revision affects both current and future periods.

All references to net assets throughout this document refer to net assets attributable to holders of redeemable participating shares.

## (c) Changes in relevant accounting standards

### Standards and Amendments to existing standards effective during the year

There are no standards, amendments to standards or interpretations that are effective for the year under review that have a material effect on the financial statements of the Sub-Funds.

### Standards, amendments and interpretations that are not yet effective for the period and not early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2022, and have not been applied in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Sub-Funds.

Notes to the Financial Statements (continued)

For the year ended 30 June 2022 (Expressed in United States Dollars)

## 2. Basis of preparation and significant accounting policies (continued)

## (d) Significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied for the period presented, unless otherwise stated.

### i. Foreign currency translation

## Functional and presentation currency

Functional currency is the currency of the primary economic environment in which the Sub-Funds operate. When indicators of the primary economic environment are mixed, management uses its judgement to determine the functional currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. The Board has determined that the functional currency of the Sub-Funds is USD ("US\$"). Investor subscriptions and redemptions are received and paid in the currency of the relevant Share Class which is predominantly in USD. The expenses incurred by the Sub-Funds (including management fees, custodian fees and administration fees) are also denominated and paid mostly in USD.

#### *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the year end date.

Foreign exchange gains and losses arising from translation are included in the Statement of Comprehensive Income.

### Net gain on foreign exchange translation

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within 'Net gains/(losses) on financial assets and liabilities at fair value through profit or loss'.

Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within 'Net gains/(losses) on financial assets and liabilities at fair value through profit or loss'.

#### ii. Investments

#### Classification

In accordance with IFRS 9, the Sub-Funds classify investments as financial assets or financial liabilities at fair value through profit or loss.

All of the Sub-Funds' financial assets and liabilities designated at fair value through profit or loss are financial instruments that are classified as held for trading and are considered managed investments. Their performance is evaluated on a fair value basis in accordance with the Sub-Funds' investment strategy.

All other financial assets and liabilities including cash, cash equivalents, receivables and payables are classified as being measured at amortised cost. Measurement at amortised cost takes into account any premium or discount on acquisition as well as transaction costs and fees that are an integral part of the effective interest rate. All financial assets measured at amortised cost are short term in nature and the application of the expected credit loss model does not impact the carrying amounts of these financial assets as they approximate their fair values under IFRS 9.

Notes to the Financial Statements (continued)

For the year ended 30 June 2022 (Expressed in United States Dollars)

### 2. Basis of preparation and significant accounting policies (continued)

### (d) Significant accounting policies (continued)

### ii. Investments (continued)

Recognition, derecognition and measurement

Regular purchases and sales of investments are recognised on the trade date - the date on which each Sub-Fund commits to purchase or sell the investment. Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Transaction costs are expensed as incurred in the Statement of Comprehensive Income. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Sub-Fund has transferred substantially all risks and rewards of ownership.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Realised and unrealised gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the statement of comprehensive income within net gains/losses on financial assets and liabilities at fair value through profit or loss in the financial year in which they arise.

In accordance with IFRS 9, the Company applies the 'expected credit loss' ("ECL") model when determining if financial assets are subject to impairment. This impairment model applies to financial assets measured at amortised cost and an assessment is required to determine if an ECL is required. The Company has determined that the application of IFRS 9's impairment requirements results in no ECL impairment as the cash and cash equivalents, receivables and payables are short-term in nature.

#### Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives) are based on quoted market prices at the close of trading on the reporting date. In circumstances where the last traded price is not within the bid-ask spread, management will determine the point within the bid-ask spread that is most representative of fair value.

If a quoted market price is not available on a recognised market or from a broker/dealer for non-exchange traded financial instruments, the fair value of such investment shall be estimated with care and in good faith by a competent professional person, body, firm or corporation (appointed for such purpose by the Board of the ICAV) and such fair value shall be determined on the basis of the probable realisation value of the investment.

If the Investment Manager considers that the methods of valuation set out above do not provide a fair valuation of a particular asset, it may ask for the fair value to be estimated with care and in good faith by a competent person appointed by the Board of the ICAV and approved for the purpose by the Depositary.

As at 30 June 2022 and 30 June 2021 the fair values of all of the Sub-Funds' investments were determined by reference to quoted market prices except for investments in five securities domiciled in Russia, which include RusHydro PJSC4 from Global X Renewable Energy Producers UCITS ETF and Magnitogorsk Iron & Steel Works PJSC, Severstal PAO, X5 Retail Group NV and Unipro PJSC from Global X SuperDividend® UCITS ETF which were all written down. See Note 8 for more details.

### iii. Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks and other short-term investments in an active market with original maturities of three months or less.

## iv. Expenses

Expenses are recognised on an accrual basis.

Notes to the Financial Statements (continued)

For the year ended 30 June 2022 (Expressed in United States Dollars)

## 2. Basis of preparation and significant accounting policies (continued)

## (d) Significant accounting policies (continued)

#### v. Income

Interest income is recognised on a time-proportionate basis using the effective interest method.

### vi. Redeemable participating shares

The Sub-Funds are open-ended and issue redeemable participating shares, which are redeemable at a shareholder's option. These shares can be put back to the respective Sub-Fund for cash equal to a proportionate share of the Sub-Funds trading Net Asset Value ("NAV") calculated in accordance with the Prospectus. These shares are classified as equity or liability, as appropriate, in accordance with IAS 32 Financial Instruments - Presentation ("IAS 32"). Typically, where a Sub-Fund has only one such share class in issue, those shares qualify for equity classification as the qualifying criteria in IAS 32.16A and 16B are met. On the other hand, where a Sub-Fund has more than one such share class in issue, those share classes do not, for example, typically have identical rights to each other and therefore those qualifying criteria for equity classification are not met. Where the criteria are no longer met, the Sub-Fund reclassifies from the date when the shares cease to qualify for equity classification. The shares, when first classified as financial liabilities are measured at their fair value. Subsequently the redeemable shares are classified as financial liabilities at amortised cost and are measured at the present value of the redeemption amounts.

A puttable financial instrument that includes a contractual obligation for the respective Sub-Funds to repurchase or redeem that instrument for cash or another financial asset is classified as equity if it meets all of the conditions below:

- it entitles the holder to a pro rata share of the Sub-Fund's net assets in the event of the Sub-Fund's liquidation;
- it is in the class of instruments that is subordinate to all other classes of instruments;
- all financial instruments in the class of instruments that is subordinate to all other classes of instruments have identical features;
- apart from the contractual obligation for the respective Sub-Fund to repurchase or redeem the instrument for cash
  or another financial asset, the instrument does not include any other features that would require classification as a
  liability; and
- the total expected cash flows attributable to the instrument over its life are based substantially on the profit or loss, the change in the recognised net assets or the change in the fair value of the recognised and unrecognised net assets of the respective Sub-Fund over the life of the instrument.

As at 30 June 2022, the following Sub-Funds have two classes of units in issue and are classified as financial liability.

	Net Assets Classified
	as Liability
Sub-Fund	USD
Global X Video Games & Esports UCITS ETF	16,705,332
Global X Telemedicine & Digital Health UCITS ETF	4,415,017

# vii. Distribution policy

The Directors are empowered by the Instrument of Incorporation to declare and pay dividends in respect of the shares in any Sub-Fund in the ICAV out of the net income of the relevant Sub-Fund less accrued expenses of the ICAV. The Directors are also empowered by the Instrument of Incorporation to declare and pay dividends in respect of the shares in any Sub-Fund in the ICAV out of the capital of the relevant Sub-Fund. Where a Sub-Fund intends to pay dividends out of capital this will be set out in the relevant supplement for that Sub-Fund.

Notes to the Financial Statements (continued)

For the year ended 30 June 2022 (Expressed in United States Dollars)

### 2. Basis of preparation and significant accounting policies (continued)

## (d) Significant accounting policies (continued)

### vii. Distribution policy (continued)

It is intended to declare dividends in respect of the Share Classes identified as "distributing" Classes of the Sub-Funds. Distributions in respect of these Classes will be declared on each distribution date, semi-annually, in each year provided that such dates are not business days. Where dividends are paid, they shall be paid out of the net income of the Fund which is attributable to the relevant Class and shall be paid by way of electronic transfer.

It is not the current intention of the Directors to declare dividends in respect of the Share Classes identified as "accumulating" Classes. The income and earnings and gains of the accumulating classes will be accumulated and reinvested in the Sub-Funds.

### viii. Subscriptions receivable

Subscriptions receivable, if any, are reported on the Statement of Financial Position and relate to unsettled subscriptions.

### ix. Redemptions payable

This relates to the amount requested in the redemption notice becoming fixed. This generally may occur either at the time of the receipt of a valid and approved notice, or on the last day of a fiscal period, depending on the nature of the request. As a result, redemptions paid after the end of the period, but based upon period end capital balance are reflected as redemptions payable.

### x. Receivable for securities sold

Receivable for securities sold, if any, are reported on the Statement of Financial Position and relate to unsettled sales of the equity trades.

#### xi. Pavable for securities purchased

Payable for securities purchased, if any, are reported on the Statement of Financial Position and relate to unsettled purchases of equity trades.

### xii. Soft commissions

There were no soft commission arrangements during the year ended 30 June 2022 and 30 June 2021.

# xiii. Security lending

The ICAV implemented securities lending on 8 April 2021. As at 30 June 2022, the ICAV had the following exposure:

	Lending return BPS	Average loan % AUM	Max loan % AUM	Collateral level % of loan	Current % AUM
Global X Video Games & Esports UCITS ETF	0.010	2.595	3.123	105.031	3.123

As at 30 June 2021, the ICAV had the following exposure:

	Lending return	Average loan	Max loan	Collateral level	Current
	BPS	% AUM	% AUM	% of loan	% AUM
Global X Video Games & Esports UCITS ETF	0.004	0.002	0.002	105.034	0.002

Notes to the Financial Statements (continued)

For the year ended 30 June 2022 (Expressed in United States Dollars)

## 2. Basis of preparation and significant accounting policies (continued)

## (d) Significant accounting policies (continued)

#### xiv. Bank overdraft

Bank overdrafts are repayable on demand and form an integral part of the cash management of the Sub-Funds.

### 3. Taxation

Under current law and practice the ICAV qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

Notwithstanding the above, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes:

- a) Any distribution payments made to shareholders by the ICAV in respect of their shares;
- b) Any encashment, redemption, cancellation or transfer of shares;
- c) The holding of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax will arise on the ICAV in respect of chargeable events in respect of:

- a) A shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with Section 739D of the Taxes Consolidation Act, 1997, as amended, are held by the ICAV or the ICAV has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations under the ICAV with the necessary signed statutory declarations; and
- b) Certain exempted Irish tax resident shareholders who have provided the ICAV with the necessary signed statutory declarations.

Capital gains, dividends and interest received by the ICAV may be subject to taxes, including withholding taxes in the countries in which the issuers of investments are located, which may be reflected in the Net Asset Value ("NAV") of the ICAV. Dividend and interest income has been recognised gross in the Statement of Comprehensive Income, with withholding taxes recognised separately. Such taxes may not be recoverable by the ICAV or its shareholders.

The ICAV has evaluated the tax positions and has concluded that there are no significant tax positions requiring recognition, measurement or disclosure in the financial statements. Tax penalties and interest, if any, would be accrued as incurred and would be classified as tax expense in the Statement of Comprehensive Income. During the year ended 30 June 2022 and 30 June 2021, the ICAV did not incur any interest or penalties.

## 4. Share capital

The share capital of the ICAV shall at all times equal the Net Asset Value of the ICAV. The Directors are empowered to issue up to 500 billion Shares of no par value in the ICAV at the Net Asset Value per Share on such terms as they may think fit. There are no rights of pre-emption upon the issue of Shares in the ICAV. The Subscriber Shares do not participate in the assets of any Sub-Fund. The ICAV reserves the right to redeem some or all of the Subscriber Shares provided that the ICAV at all times has a minimum issued share capital to the value of €300,000.

Each of the Shares entitles the Shareholder to participate equally on a pro rata basis in the dividends and net assets of a Sub-Fund attributable to the relevant Class in respect of which they are issued, save in the case of dividends declared prior to becoming a Shareholder. The Subscriber Shares' entitlement is limited to the amount subscribed and accrued interest thereon.

The proceeds from the issue of Shares shall be applied in the books of the ICAV to the relevant Sub-Fund and shall be used in the acquisition on behalf of the relevant Sub-Fund of assets in which the Sub-Fund may invest. The records and accounts of each Sub-Fund shall be maintained separately.

Notes to the Financial Statements (continued)

For the year ended 30 June 2022 (Expressed in United States Dollars)

## 4. Share capital (continued)

The Directors reserve the right to redesignate any Class from time to time, provided that Shareholders in that Class shall first have been notified by the ICAV that the Shares will be redesignated and shall have been given the opportunity to have their Shares redeemed by the ICAV, except that this requirement shall not apply where the Directors redesignate Shares in issue in order to facilitate the creation of an additional Class.

Each of the Shares entitles the Shareholder to attend and vote at meetings of the ICAV and of the relevant Class of a Sub-Fund represented by those Shares. No Class confers on the holder thereof any preferential or pre-emptive rights or any rights to participate in the profits and dividends of any other Class or any voting rights in relation to matters relating solely to any other Class.

Any resolution to alter the Class rights of the Shares requires the approval of three quarters of the Shareholders of the Shares represented or present and voting at a general meeting duly convened in accordance with the Instrument of Incorporation.

The Instrument of Incorporation of the ICAV empowers the Directors to issue fractional shares in the ICAV. Fractional shares may be issued and shall not carry any voting rights at general meetings of the ICAV or of any Sub-Fund or Class and the Net Asset Value of any fractional Share shall be the Net Asset Value per Share adjusted in proportion to the fraction.

It is intended that all but two of the Subscriber Shares will be redeemed by the ICAV at their Net Asset Value on the Dealing Day on which the first issue of Shares is effected after the Initial Offer Period. The Subscriber Shares entitle the Shareholders holding them to attend and vote at all meetings of the ICAV but do not entitle the holders to participate in the dividends or net assets of any Sub-Fund or of the ICAV.

### **Subscriptions**

Shares will be issued on each dealing day at the appropriate Net Asset Value per Share with an appropriate provision for duties and charges. Investors may subscribe for shares for cash on each dealing day by making an application by the dealing deadline. Consideration, in the form of cleared subscription monies/securities, must be received by the applicable settlement deadline.

Notes to the Financial Statements (continued)

For the year ended 30 June 2022 (Expressed in United States Dollars)

# 4. Share capital (continued)

## Redemptions

Shareholders may effect a redemption of shares on any dealing day at the appropriate Net Asset Value per Share, subject to an appropriate provision for duties and charges, provided that a valid redemption request from the shareholder is received by the ICAV by the dealing deadline on the relevant dealing day.

Shares will be redeemed at the applicable NAV per Share on the Dealing Day as of which the redemption is effected, subject to any applicable fees associated with such redemption.

No redemption will be made until the applicant has completed and delivered to the Transfer Agent a redemption request and satisfied all the requirements of the Directors and the Manager as to such applicant's redemption request.

## 5. Fees and Expenses

#### TER Fees

All of the following fees and expenses payable in respect to the Share Classes of the Sub-Funds are paid as one single fee, which will not exceed an amounts described listed below. This is referred to as the total expense ratio or "TER". The TER is calculated and accrued daily from the Net Asset Value of each Sub-Fund and payable monthly in arrears to the ICAV at the rate set out below. The following fees and operational expenses of each Sub-Fund shall be paid out of the TER:

- All the ordinary operating and administrative expenses of the Sub-Fund, including, but not limited to, fees and expenses of the Manager, Depositary, Administrator, Transfer Agent, Distributor, the Directors, the costs of maintaining the Sub-Funds and any registration of the Sub-Funds with any governmental or regulatory authority; preparation, printing, and posting of prospectuses, sales literature and reports to Shareholders, regulatory fees of the Central Bank and other governmental agencies; marketing expenses; insurance premiums; fees and expenses for legal, audit and other services; paying for licensing fees related to each Sub-Fund's Index and any distribution fees or expenses.

The TER rates for each Sub-Fund are listed below. Should the above fees and operational expenses of each Sub-Fund exceed the TER, the additional expenses shall be borne by the Investment Manager.

For the year ended 30 June 2022 (Expressed in United States Dollars)

## 5. Fees and Expenses (continued)

#### Management fees

Management fees payable to the Manager in respect of each Sub-Fund of the ICAV shall be equal to the following; based on the total net asset value of the ICAV (the definition of NAV will be as defined in the Prospectus):

Total Net Asset Value*	Basis Points**
0 to <€500 million	Up to 3.5
>=€500 million to <€2 billion	Up to 2.0
>=€2 billion	Up to 1.5

<sup>\*</sup>based on the total net asset value of the ICAV at each month-end.

The management fee above includes Company Secretarial Services, MLRO, FATCA, ONR Administration, Beneficial Ownership Services, GDPR Services and Payroll Services.

The above annual ICAV fee in respect of each Sub-Fund is subject to a monthly minimum fee payable to the Manager of up to  $\{0.500\}$  per month up to the first five sub-funds,  $\{0.500\}$  per month for the next six to twelve sub-funds and  $\{0.500\}$  per month per additional sub-fund over twelve.

A 50% reduction will be applied to the minimum fees for the first 6 months after the Effective Date and a 33% reduction will be applied to the minimum fees for the following 6 months (ie, months 7-12 after the Effective Date).

The minimum management fee shall apply for a period of two years from the Effective Date. The amount payable in each succeeding two-year period shall be as agreed by the parties, or, failing such agreement by the end of the preceding period, shall be the amount determined by the Manager and notified to the ICAV after applying the higher of (i) the aggregate percentage change in the Irish consumer price index over the preceding period; or (ii) a 2% increase, to the amount payable in respect of that preceding period. This amount shall be notified in writing by the Manager to the ICAV.

### **Administration Fees**

The following fees are payable to SEI Investments – Global Fund Services Limited, (the "Administrator"). The ICAV will be charged the greater of the basis point fee or the monthly minimum fee. The annual minimum fee per Sub-Fund is USD 40,000. The basis point fee is calculated based on the aggregate net assets of the ICAV and allocated to each Sub-Fund prorata based on the net assets of each Sub-Fund. Fees are invoiced and payable monthly in arrears.

# Monthly NAV Calculation

Asset Level	<b>Basis Points</b>
First USD 500 million in daily aggregate net assets	2.5
Daily aggregate net assets in excess of USD 500 million	2

<sup>\*\*</sup>payable on the net asset value of the relevant Sub-Fund at each month-end.

Notes to the Financial Statements (continued)

For the year ended 30 June 2022 (Expressed in United States Dollars)

# 5. Fees and Expenses (continued)

## **Depositary Fees**

Each Sub-Fund will be charged the greater of the basis point fee or the monthly minimum fee. The basis point fee is calculated based on the aggregate net assets of the ICAV and allocated to each Sub-Fund pro-rata based on the net assets of the Sub-Fund. Fees are invoiced and payable monthly in arrears.

### Monthly NAV Calculation

Asset Level	<b>Basis Points</b>
First USD 500 million in daily aggregate net assets	1.5
Next USD 500 million in daily aggregate net assets	1
Daily aggregate net assets in excess of USD 1 billion	0.5
Depositary Annual Minimum Fee per Sub-Fund*	USD 15,000

<sup>\*</sup>Sub-Custody Schedule may apply if financial instruments have to be held at a sub custodian.

#### **Directors' Fees**

No element of Directors' remuneration is performance-related. Only the Independent Directors have fees paid to them, such fees which are agreed by the Board.

During the year ended 30 June 2022, the ICAV incurred EUR 40,000 (30 June 2021: EUR 26,011) in Directors fees.

### **Audit Remuneration**

The statutory audit fee for the year ended 30 June 2022 was EUR 230,000 (30 June 2021: EUR 26,500) excluding VAT for the ICAV.

In addition, the following fees were incurred with respect to non-audit services:

Taxation advisory services from PwC Ireland – EUR 6,950 (30 June 2021: EUR 6,500).

Notes to the Financial Statements (continued)

## 7. Financial risk management

Each Sub-Fund has exposure to the following specific risks from financial instruments:

- market risk (including price risk, currency risk, interest rate risk, and concentration risk);
- liquidity risk; and
- credit risk.

### (a) Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The likelihood of these types of adverse changes and the extent to which they affect the business of the Sub-Funds cannot always be accurately predicted.

#### (i) Price Risk

Price risk is the risk that the value of an investment may fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment or all factors affecting all instruments traded in the market. The Investment Manager mitigates this risk by maintaining a diverse portfolio and by diversifying its investments across multiple industries.

The Manager monitors price risk on a daily basis in accordance with the Sub-Funds specific restrictions and the UCITS regulatory limits. The Manager has escalation procedures in place to report breaches of these risks limits to the Directors, the Depositary, the Investment Manager and the Regulator where appropriate.

Global X Video Games & Esports UCITS ETF

As at 30 June 2022, the Sub-Fund had 46 positions (30 June 2021: 39) with the top five being 34.01% of net assets (30 June 2021: 28.44%).

As at 30 June 2022, the Sub-Fund was invested in four industries (30 June 2021: four) with the highest industry exposure being 88.80% of net assets (30 June 2021: 83.60%).

As at 30 June 2022, should the price of the securities held by the Sub-Fund have increased or decreased by 10% with all other variables remaining constant the increase or decrease in the net assets attributable to holders of redeemable participating shares for the period would amount to approximately USD 1,668,713 (30 June 2021: USD 4,599,931).

Global X Telemedicine & Digital Health UCITS ETF

As at 30 June 2022, the Sub-Fund had 39 positions (30 June 2021: 40) with the top five being 26.87% of net assets (30 June 2021: 22.70%).

As at 30 June 2022, the Sub-Fund was invested in five industries (30 June 2021: six) with the highest industry exposure being 53.03% of net assets (30 June 2021: 48.65%).

### (ii) Currency Risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Sub-Funds invest in securities and other investments that are denominated in currencies other than the functional currency of the Sub-Funds. Accordingly, the value of the Sub-Funds assets may be affected favourably or unfavourably by fluctuations in currency rates and therefore the Sub-Funds will be subject to foreign exchange risks.

In accordance with the ICAV's policy, the Manager monitors the Sub-Funds' currency exposures on a daily basis and reports regularly to the Board of Directors, which reviews the information provided by the Manager on any significant exposures at its periodic meetings.

The Sub-Funds had the following exposure to foreign currency as at 30 June 2022:

Global X Video Games & Esports UCITS ETF

			Non-		Forward	Net Foreign

### Sensitivity analysis

As at 30 June 2022 and 30 June 2021, had the USD weakened by 5% in relation to all currencies, with all other variables held constant, the increase in the value of the Sub-Funds' investments and other net assets and liabilities including cash and cash equivalents denominated in currencies other than USD attributable to holders of redeemable participating shares is disclosed on the prior page and above.

A 5% strengthening of the USD would have resulted in an equal but opposite effect on the above financial statement amounts on the basis that all other variables remain constant.

Foreign currency rates used in the preparation of these financial statements are disclosed in Note 6.

#### (iii) Interest Rate Risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments. Interest rate risk is not material in respect of the Sub-Funds.

Notes to the Financial Statements (continued)

For the year ended 30 June 2022 (Expressed in United States Dollars)

#### 7. Financial risk management (continued)

#### (b) Liquidity Risk

This is the risk that a lack of a market in certain portfolio securities could prevent the Sub-Funds from liquidating unfavourable positions or prevent the Sub-Funds from funding redemptions from existing shareholders. As at 30 June 2022 and 30 June 2021, the Sub-Funds' investments are all readily realisable. The Manager compares the liquidity of portfolio assets versus the redemption profile of the Sub-Funds to determine if there are any potential liquidity shortfalls. The portfolio of investments can be easily liquidated in order to meet the redemption requests of the shareholders as they occur and meet contractual financial liabilities.

The ICAV may temporarily suspend the determination of the Net Asset Value and the sale, conversion or redemption of shares in any Sub-Fund during:

- (a) any period (other than ordinary holiday or customary weekend closings) when any of the principal markets on which any significant portion of the Investments of the relevant Sub-Fund from time to time are quoted, listed, traded or dealt in is closed (otherwise than for customary weekend or ordinary holidays) or during which dealings therein are restricted or suspended or trading on any relevant futures exchange or market is restricted or suspended;
- (b) any period when, as a result of political, economic, military or monetary events or any circumstances outside the control, responsibility and power of the Directors, disposal or valuation of a substantial portion of the investments of a Sub-Fund is not reasonably practicable without this being seriously detrimental to the interests of Investors of a Sub-Fund:
- (c) any period during which the disposal or valuation of investments which constitute a substantial portion of the assets of a Sub-Fund is not practically feasible or if feasible would be possible only on terms materially disadvantageous to Investors:
- (d) any period when for any reason the prices of any Investments of a Sub-Fund cannot be reasonably, promptly or accurately ascertained by the Administrator;
- (e) any period when remittance of monies which will, or may, be involved in the realisation of, or in the payment for, Investments of a Sub-Fund cannot, in the opinion of the Directors, be carried out at normal rates of exchange;
- (f) any period when the proceeds of the sale or repurchase of the Shares cannot be transmitted to or from a Sub-Fund's account:
- (g) any period when a notice to terminate a Sub-Fund has been served or when a meeting of Shareholders has been convened to consider a motion to wind up the ICAV or to terminate a Sub-Fund;
- (h) upon the occurrence of an event causing the ICAV to enter liquidation or a Sub-Fund to terminate; or
- (i) any period where the Directors consider it to be in the best interests of the Investors of the ICAV or a Sub-Fund to do so.

A suspension of repurchases may be made at any time prior to the payment of the repurchase monies and the removal of the Shareholder's name from the register of members. A suspension of subscriptions may be made at any time prior to the entry of a Shareholder's name on the Register.

Any such suspension shall be notified immediately (without delay) and in any event within the same Business Day to the Euronext Dublin, the Central Bank and all Relevant Stock Exchanges which the ICAV is required to notify. Where possible, all reasonable steps will be taken to bring a period of suspension to an end as soon as possible.

#### (c) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Sub-Funds, resulting in a financial loss to the Sub-Funds.

The Sub-Funds manage credit risk by monitoring the financial condition and credit rating of their Depositary/Sub-Custodian and other counter parties.

The Sub-Funds currently hold no securities, cash, receivables and any other assets with any party other than the Sub-Custodian. The Sub-Custodian, is currently rated by Fitch Ratings with a Long Term Debt rating of A+ as at 30 June 2022 and 30 June 2021. Insolvency or bankruptcy of the Sub-Custodian may cause the Sub-Funds rights with respect to its assets held by the Depositary to be delayed or limited.

The maximum exposure to credit risk is the carrying value of the assets held by the respective Sub-Fund.

#### (d) Concentration Risk

The Sub-Funds are subject to concentration risk if they have a large exposure to a particular holding or if investors to the Sub-Funds have a holding of shares greater than 5%. The Sub-Funds may invest substantively all of their assets in one country, as a result the Sub-Funds will have greater exposure to market, political, legal, economic and social risks of that country than a Sub-Fund which diversifies country risk across a number of countries.

Each Index Tracking Sub-Fund seeks to achieve a return which corresponds generally to the price and yield performance, before fees and expenses, of the relevant Index as published by the Index Provider. There is no assurance that the Index Provider will compile the Index accurately, or that the Index will be determined, composed or calculated accurately. While the Index Provider does provide descriptions of what the Index is designed to achieve, the Index Provider does not provide any warranty or accept any liability in relation to the quality, accuracy or completeness of data in respect of the Index, and does not guarantee that the Index will be in line with the described methodology.

#### Global X Video Games & Esports UCITS ETF

The Sub-Fund held 7 individual investment positions (30 June 2021: 4) that were each greater than 5% of the NAV.

Notes to the Financial Statements (continued)

For the year ended 30 June 2022

#### 7. Financial risk management (continued)

#### (d) Concentration Risk (continued)

Global X Hydrogen UCITS ETF

The Sub-Fund held 7 individual investment positions that were each greater than 5% of the NAV.

Global X Wind Energy UCITS ETF

The Sub-Fund held 4 individual investment positions that were each greater than 5% of the NAV.

Global X Solar UCITS ETF

The Sub-Fund held 8 individual investment positions that were each greater than 5% of the NAV.

Global X SuperDividend® UCITS ETF

The Sub-Fund held no individual investment positions that were each greater than 5% of the NAV.

Global X AgTech & Food Innovation UCITS ETF

The Sub-Fund held 8 individual investment positions that were each greater than 5% of the NAV.

Global X Uranium UCITS ETF

The Sub-Fund held 3 individual investment positions that were each greater than 5% of the NAV.

Global X Silver Miners UCITS ETF

The Sub-Fund held 6 individual investment positions that were each greater than 5% of the NAV.

#### (e) Efficient Portfolio Management

The ICAV on behalf of the Sub-Funds may employ techniques and instruments relating to financial derivative instruments ("FDIs") in which it invests for efficient portfolio management purposes, a list of which (if any) shall be, where relevant, set out in the relevant Supplements of the Sub-Funds. FDI's such as currency forwards and interest rate futures may be utilised for portfolio hedging. Currency forwards may be utilised for NAV hedging. For the year ended 30 June 2022, there were no currency forwards held by the ICAV.

Direct and indirect operational costs and fees arising from OTC swaps or securities financing transactions may be deducted from the revenue delivered to the UCITS. These costs and fees do not and should not include hidden revenue. All the revenues arising from securities financing transactions and any other efficient portfolio management techniques shall be returned to the relevant Sub-Fund following the deduction of any direct and indirect operational costs and fees arising.

The entities to which direct and indirect costs and fees may be paid include banks, investment firms, broker-dealers, securities lending agents or other financial institutions or intermediaries and may be related parties to the Investment Manager or the Depositary.

Where a Sub-Fund undertakes securities lending, the relevant supplement will disclose the proportion of the revenue generated which will remain with the Sub-Fund and the proportion of the revenue generated (representing the attendant direct and indirect operational costs and fees of any securities lending) which will be retained by the securities lending agent. Such direct and indirect operational costs and fees shall not include hidden revenue.

#### (f) Offsetting and amounts subject to master netting/similar agreements

As of 30 June 2022 and 30 June 2021, the ICAV holds no financial instruments or derivative instruments that are subject to a master netting agreement. The Sub-Funds are subject to a securities lending agency agreement with the Sub-Custodian.

#### 8. Fair value measurement

As the Sub-Funds' investments are classified as financial assets at fair value through profit or loss, the carrying value of the Sub-Funds' investments is a reasonable approximation of fair value. The Sub-Funds accounting policy on fair value measurements is discussed in Note 2(d).

Notes to the Financial Statements (continued)

For the year ended 30 June 2022 (Expressed in United States Dollars)

#### 8. Fair value measurement (continued)

The Sub-Funds measure fair values, as defined by IFRS 13 'Fair Value Measurement' ("IFRS 13"), using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Quoted market price (unadjusted) in an active market for an identical instrument.
- Level 2: Valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.
- Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Fair values of financial assets that are traded in active markets are based on quoted market prices or dealer price quotations. For all other financial instruments, each Sub-Fund determines fair values using valuation techniques as described above. As at 30 June 2022, all financial assets and liabilities measured at fair value were carried at Level 1 except for investments in five securities domiciled in Russia, which include RusHydro PJSC4 which represents 0.24% of the NAV of Global X Renewable Energy Producers UCITS ETF, Magnitogorsk Iron & Steel Works PJSC, Severstal PAO, X5 Retail Group NV and Unipro PJSC which represents 0.03%, 0.03%, 0.02% and 0.05% of the NAV of Global X SuperDividend® UCITS ETF which were all written down and were carried at Level 3.

The tables below analyse the Sub-Funds assets measured at fair value as at 30 June 2022 by the level in the fair value hierarchy into which the fair value measurement is categorised:

#### 8. Fair value measurement (continued)

The following tables provide information on the valuation techniques, significant unobservable inputs to valuation and the range of inputs for the securities classified as Level 3 as of 30 June 2022.

# Global X Renewable Energy Producers UCITS ETF 30 June 2022

Financial Assets	Fair Value		Valuation Approach	Unobservable Inputs	Range
Equity securities	\$	5,877	Management valuation*	Not applicable	Not applicable
Total	\$	5,877			

### Global X SuperDividend® UCITS ETF

30 June 2022

Financial Assets	Fair Val	ue	Valuation Approach	Unobservable Inputs	Range
Equity securities	\$	3,443	Management valuation*	Not applicable	Not applicable
Equity securities	\$	41,783	Fair valued at last traded price**	Not applicable	Not applicable
Total	\$	45,226			

<sup>\*</sup> These pertains to securities related to companies domiciled in Russia and/or listed on exchanges located in Russia, including the Moscow Exchange ("Russian Securities") which were written down on 25 February 2022. Management decided to write down the Russian Securities following the events arising in Ukraine and Russia. Refer to details in Note 11 for more details.

There were no Level 3 securities as of 30 June 2021.

Transfers between levels are recognised at the end of the reporting period. There were transfers between Level 1 and Level 3 for five securities held during the period ended 30 June 2022 (30 June 2021; none).

Each Sub-Fund's financial instruments not measured at fair value through profit or loss consist of cash and cash equivalents, other assets, bank overdraft, TER fees payable and other payables whereas cash is classified as Level 1 and the rest as Level 2. These financial instruments are realised or settled within a short period of time. The carrying value of these other financial instruments approximate their fair value.

#### 9. Related Parties and Connected Persons

The following parties are considered related parties:

- Carne Global Fund Managers Manager
- Global X Management Company, LLC Investment Manager
- Carne Global Financial Services Ltd Fund Governance Services
- Bradwell Limited Fund Governance Services
- Broadridge Financial Solutions Inc. Fund Governance Services

<sup>\*\*</sup>This pertains to securities in Logan Group Co Ltd that suspended its trading on 12 May 2022. Management used the last traded price as the fair value.

Notes to the Financial Statements (continued)

For the year ended 30 June 2022 (Expressed in United States Dollars)

#### 9. Related Parties and Connected Persons (continued)

Directors' fees are disclosed in Note 5, Fees and Expenses.

Expenses charged during the year ended 30 June 2022 by the Directors, the Manager and Investment Manager are detailed in Note 5.

Carne Global Fund Managers (Ireland) Limited, as Manager is considered a related party to the ICAV as it is considered to have significant influence over the ICAV in its role as Manager. During the year ended 30 June 2022, the Manager received fees of USD 182,232 (30 June 2021: USD 18,741), of which USD 29,337 (30 June 2021: USD 2,968) was payable at year end. Carne Global Financial Services Limited, the parent company of the Manager, received fees amounting to USD 149,485 (30 June 2021: USD 50,425) during the year ended 30 June 2022 in respect of other fund governance services to the ICAV, of which USD 28,036 (30 June 2021: USD Nil) was payable at year end.

In line with the underlying Management Agreement certain costs and expenses of the ICAV shall be borne by the Investment Manager.

There were no other related party transactions for the financial year other than those disclosed above, and in Note 5, including any other emoluments or gains which have been paid or are payable, to any Director of the ICAV. All transactions with related parties were at arm's length.

### 10. Transaction Costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument.

During the year ended 30 June 2022, the Sub-Funds incurred the following transaction costs:

	<b>Transaction Costs</b>
<b>Sub-Fund</b>	USD
Global X Video Games & Esports UCITs ETF	39,948
Global X Telemedicine & Digital Health UCITS ETF	7,182
Global X Genomics & Biotechnology UCITS ETF	6,744

Global X Silver Miners UCITS ETF	3,189

### 11. Significant events during the reporting year

The outbreak of Coronavirus (COVID-19), declared by the World Health Organisation as a global pandemic in 2020, has impacted many aspects of daily life and the global economy. Travel movements and operational restrictions were implemented by many countries throughout 2019-2021. However, in 2022, most economies globally have fully reopened and the pace of recovery has varied from country to country. Countries and their workforce have successfully adapted to living and working in this pandemic environment. As we move into the latter half of 2022, there continues to be potential unforeseen economic consequences from this virus and market reaction to such consequences could be rapid, unpredictable and vary significantly from country to country.

The Directors together with the Manager will continue to monitor business continuity and resilience processes with the objective of mitigating any potential for ongoing impact of COVID-19.

During the year ended, the following Sub-Funds of the ICAV launched:

Sub-Funds	Launch date
Global X Genomics & Biotechnology UCITS ETF	2 November 2021
Global X U.S. Infrastructure Development UCITS ETF	2 November 2021
Global X Cloud Computing UCITS ETF	2 November 2021
Global X E-commerce UCITS ETF	16 November 2021
Global X FinTech UCITS ETF	16 November 2021
Global X CleanTech UCITS ETF	16 November 2021
Global X Robotics & Artificial Intelligence UCITS ETF	16 November 2021
Global X Cybersecurity UCITS ETF	16 November 2021
Global X Autonomous & Electric Vehicles UCITS ETF	16 November 2021
Global X Internet of Things UCITS ETF	16 November 2021
Global X Copper Miners UCITS ETF	22 November 2021
Global X Renewable Energy Producers UCITS ETF	7 December 2021
Global X Clean Water UCITS ETF	7 December 2021
Global X Lithium & Battery Tech UCITS ETF	7 December 2021
Global X Data Center REITs & Digital Infrastructure UCITS ETF	7 December 2021
Global X Blockchain UCITS ET	21 January 2022

Global X Wind Energy UCITS ETF	7 February 2022
Global X Solar UCITS ETF	15 February 2022
Global X SuperDividend® UCITS ETF	15 February 2022
Global X AgTech & Food Innovation UCITS ETF	15 February 2022
Global X Uranium UCITS ETF	20 April 2022
Global X Silver Miners UCITS ETF	4 May 2022

On 13 May 2022, an addendum to the Prospectus was issued.

Notes to the Financial Statements (continued)

For the year ended 30 June 2022 (Expressed in United States Dollars)

#### 11. Significant events during the reporting year (continued)

During the year ended, the following Sub-Funds of the ICAV were approved by the Central Bank of Ireland but have not launched prior to 30 June 2022:

Fund Name	<b>Authorisation Date</b>	<b>Launch Date</b>
Global X Disruptive Materials UCITS ETF	5 May 2022	7 September 2022

Events arising in Ukraine, as a result of military action being undertaken by Russia in Ukraine, has impacted the securities related to companies domiciled in Russia and/or listed on exchanges located in Russia, including the Moscow Exchange ("Russian Securities").

Global X Renewable Energy Producers UCITS ETF and Global X SuperDividend® UCITS ETF have exposure to securities of companies domiciled in Russia of approximately less than 5% of the NAV of their respective NAV as at 30 June 2022. See Note 8 for further details.

The Directors are monitoring developments related to this military action, including current and potential future interventions of foreign governments and economic sanctions against Russia, in order to assess their impact on any Russian Securities held by the Sub-Funds, including their potential impact on the liquidity of Russian Securities.

There were no other significant events during the reporting period that requires adjustments or disclosure in these financial statements.

#### 12. Events after the reporting year

Subscriptions have been received since period end for the following Sub-Funds:

Appendix 2 – UCITS V Remuneration Disclosure (Unaudited)

For the year ended 30 June 2022 (Expressed in United States Dollars)

The European Union Directive 2014/91/EU as implemented in Ireland by S.I. No. 143/2016 - European Union (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2016, requires management companies to establish and apply remuneration policies and practices that promote sound and effective risk management, and do not encourage risk taking which is inconsistent with the risk profile of the UCITS.

To that effect, Carne Global Fund Managers (Ireland) Limited ("the Manager"), has implemented a remuneration policy that applies to all UCITS for which the Manager acts as manager (the "Remuneration Policy") and covers all staff whose professional activities have a material impact on the risk profile of the Manager or the UCITS it manages ("Identified Staff of the Manager"). The Remuneration Policy also applies to all alternative investment funds for which the Manager acts as alternative investment fund manager. In accordance with the Remuneration Policy, all remuneration paid to Identified Staff of the Manager can be divided into:

- Fixed remuneration (payments or benefits without consideration of any performance criteria); and
- Variable remuneration (additional payments or benefits depending on performance or, in certain cases, other contractual criteria) which is not based on the performance of the UCITS.

The Manager has designated the following persons as Identified Staff of the Manager:

- 1. The Designated Persons;
- 2. Each of the Manager's directors;
- 3. Compliance Officer;
- 4. Risk Officer:
- 5. Money Laundering Reporting Officer;
- 6. Chief Executive Officer;
- 7. Chief Operating Officer;
- 8. Head of Compliance with responsibility for Anti-Money Laundering and Counter Terrorist Financing; and
- 9. All members of the investment committee.

The Manager has a business model, policies, and procedures which by their nature do not promote excessive risk taking and take account of the nature, scale, and complexity of the Manager and the UCITS. The Remuneration Policy is designed to discourage risk taking that is inconsistent with the risk profile of the UCITS and the Manager is not incentivised or rewarded for taking excessive risk.

The Manager has determined not to constitute a separate remuneration committee and for remuneration matters to be determined through the Manager's Compliance and AML Committee.

The Manager's Compliance and AML Committee is responsible for the ongoing implementation of the Manager's remuneration matters and will assess, oversee, and review the remuneration arrangements of the Manager as well as that of the delegates as relevant, in line with the provisions of the applicable remuneration requirements.

Appendix 2 – UCITS V Remuneration Disclosure (Unaudited) (continued)

For the year ended 30 June 2022 (Expressed in United States Dollars)

The Manager's parent company is Carne Global Financial Services Limited ("Carne"). Carne operates through a shared services organisational model which provides that Carne employs the majority of staff and enters into inter-group agreements with other Carne Group entities within the group to ensure such entities are resourced appropriately. Additionally, the Manager has a number of directly employed staff. The one non-executive independent director, is not an employee of the Manager. 4 of the Designated Persons are directly employed by the Manager. The remainder of the identified staff are employees of Carne, or employees of another entity within the Carne Group, and are remunerated directly based on their contribution to Carne Group as a whole. In return for the services of each of the Carne Identified Staff, the Manager pays an annual staff recharge to Carne (the "Staff Recharge").

The non-executive independent director is paid a fixed remuneration and each other Identified Staff member's remuneration is linked to their overall individual contribution to the Carne Group, with reference to both financial and non-financial criteria and not directly linked to the performance of specific business units or targets reached or the performance of the UCITS.

The aggregate of the total Staff Recharge and the remuneration of the independent non-executive director is &1,762,906 paid to 21 individuals for the year ended 31 December 2021. The Manager has also determined that, on the basis of number of sub-funds / net asset value of the UCITS relative to the number of sub-funds / assets under management, the portion of this figure attributable to the UCITS is &28,497.

The Fund does not pay any fixed or variable remuneration to identified staff of the Investment Manager.

The Remuneration Policy and the Manager's remuneration practices and procedures were amended during the financial year. Also, the committee responsible for remuneration matters for the Manager has changed to the Compliance and AML Committee, a Committee of the Manager's Board.

Appendix 3 – Securities Financing Transactions Regulations Disclosures (Unaudited)

For the year ended 30 June 2022 (Expressed in United States Dollars)

The ICAV entered into a securities lending agency agreement with Brown Brothers Harriman & Co. on 8 April 2021. Securities lending commenced on Global X Video Games & Esports UCITS ETF on 8 April 2021. As at 30 June 2022, the Sub-Fund was engaged in one securities lending arrangement.

## Global X Video Games & Esports UCITS ETF

## **Global Data:**

• The amount of securities and commodities on loan as a proportion of total lendable assets: 3.13%

# **Concentration Data:**

- Ten largest collateral issuers across all securities financing transactions:
  - o Counterparty name: 0.00%
- Top ten counterparties of each type of securities financing transaction:
  - o Counterparty name: 0.00%

# Aggregate Transactions Data for Each Type of securities financing transaction Separately Broken Down According to the Below Categories:

- Type and Quality of Collateral: European Government and European Government Agency interest instruments
- Maturity Tenor of the Collateral:

0		Less than one day:	\$ 0
0		One day to one week:	\$ 0
0		One week to one month:	\$ 0
0		One month to three months:	\$ 0
0		Three months to one year:	\$ 0
	0	Above one year	\$ 548,206

• Maturity Tenor of the securities financing transaction:

0		Less than one day:	\$ 0
0		One day to one week:	\$ 0
0		One week to one month:	\$ 0
0		One month to three months:	\$ 0
0		Three months to one year:	\$ 0
	0	Above one year	\$ 521,945

- Country in which the counterparties are established: England
- Settlement and clearing: Bilateral

# **Data on Reuse of Collateral:**

Share of collateral received that is reused: 0.00%
 Cash collateral reinvestment returns: 0.00%

# <u>Safekeeping of Collateral Received by Global X Video Games & Esports UCITS ETF as Part of securities financing transactions:</u>

Custodian Name: Brown Brothers Harriman & Co.

• Amount Held: \$ 548,206

# <u>Safekeeping of Collateral Granted by Global X Video Games & Esports UCITS ETF as Part of securities financing transactions:</u>

• Proportion held in segregated accounts: 100.00%

Appendix 3 – Securities Financing Transactions Regulations Disclosures (Unaudited) (continued)

For the year ended 30 June 2022 (Expressed in United States Dollars)

# **Data on Return and Cost for securities financing transactions:**

• The costs reported below are securities financing transactions fees paid to Brown Brothers Harriman & Co. that are not included in the cost of the equity and are not included in the below return.

		% of Beginning of
Return	Amount	Year NAV
Received by Fund	\$0	0.00%
Received by Manager	\$0	0.00%
Received by Third Parties	\$0	0.00%
Cost		
Paid by Fund to Third Parties	\$0	0.00%
Paid by Manager	\$0	0.00%
Paid by Third Parties	\$0	0.00%

Appendix 4 – Sustainable Finance Disclosure Regulation (Unaudited)

For the year ended 30 June 2022 (Expressed in United States Dollars)

## Global X CleanTech UCITS ETF

The investment objective of the Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Indxx Global CleanTech v2 Index (the "Index").

This Sub-Fund is classified as an Article 8 fund pursuant to the Sustainable Finance Disclosures Regulation ("SFDR"), and promotes environmental characteristics by focusing on investments in CleanTech Companies (as defined below) through replicating the Index and through a screening process detailed below.

The Index is designed to provide exposure to exchange-listed companies that are positioned to benefit from the increased adoption of technologies focused on improving the efficiency of renewable energy production and/or mitigating the adverse environmental effects of resource consumption ("CleanTech"), including, but not limited to, companies whose principal business is in developing technology relating to renewable energy, energy efficiency and storage, smart grid, lithium-ion batteries and/or fuel cells, and/or pollution prevention/amelioration (collectively, "CleanTech Companies"), as defined by Indxx LLC, the Index Provider.

The Index Provider also applies an ESG (Environmental, Social and Governance) screening process to the universe of eligible companies. The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviews each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products are defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable.

## Details of the screening process can be seen below:

## Gambling

- >0% revenues from owning or operating gambling establishments
- >5% revenues from providing supporting products/services to gambling operations
- >5% revenues from manufacturing specialized equipment used exclusively for gambling

## Weapons

- Companies involved in the production development or maintenance of Anti-personnel Mines, Biological or chemical weapons, Cluster munitions, Depleted uranium, Nuclear Weapons, or any other weapon that violate humanitarian principles through normal use
- Companies that produce or develop key and dedicated components for controversial weapons
- Companies involved in the production and/or services tailor made for the defence industry or the military
- Companies that hold ≥20% stake in a company that is involved in controversial weapons
- Companies currently  $\geq 50\%$  owned by a company that is involved in controversial weapons

# Small Arms

• >5% of their revenue from the production or distribution of arms, both public and private

## Thermal Coal

- 10% revenues from the exploration mining or refining of thermal coal
- Companies that base 30% or more of their operations on thermal coal
- Companies that produce >20 million tons of thermal- coal annually and are actively expanding

Appendix 4 – Sustainable Finance Disclosure Regulation (Unaudited) (continued)

For the year ended 30 June 2022 (Expressed in United States Dollars)

# Global X CleanTech UCITS ETF (continued)

## Conventional Oil & Gas

- >5% revenue from conventional oil and gas production, including natural gas, petroleum, and crude oil
- Companies building or operating pipelines that significantly facilitate export of conventional oil and gas

## Unconventional Oil & Gas

- >5% revenues from unconventional oil and gas production, including revenues from oil sands, oil shale, shale gas and oil and gas production in the arctic regions
- Companies building or operating pipelines that significantly facilitate export of unconventional oil and gas
- Palm Oil
- Companies that are involved in systematic unsustainable palm oil production
- Prisons
- Private companies that are involved in management or ownership of prisons
- Adult Entertainment
- >0% revenue from production of adult entertainment
- >5% revenues from the distribution of adult entertainment
- Recreational Cannabis & Tobacco
- >5% revenues from recreational cannabis
- >0% revenues from tobacco manufacturing
- >5% revenue from tobacco distribution and/or sale of tobacco products
- Alcohol
- >0% revenues from the production of alcoholic beverages including ingredients solely used in alcoholic beverages
- >5% revenues from the distribution of alcoholic beverages or alcoholic related services
- UN Global Compact Principles
- Non-Compliance with the UNGC

Appendix 4 – Sustainable Finance Disclosure Regulation (Unaudited) (continued)

For the year ended 30 June 2022 (Expressed in United States Dollars)

# **Global X Renewable Energy Producers UCITS ETF**

The investment objective of the Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Indxx Renewable Energy Producers v2 Index (the "Index").

This Sub-Fund is classified as an Article 8 fund pursuant to the Sustainable Finance Disclosures Regulation ("SFDR"), and promotes environmental characteristics by focusing on investments in Renewable Energy Companies (as defined below) through replicating the Index and through a screening process detailed below.

The Index is designed to provide exposure to publicly traded companies listed in either developed or emerging markets (excluding India) that produce energy from renewable sources including wind, solar, hydroelectric, geothermal, and biofuels (including publicly traded companies that are formed to own operating assets that produce defined cash flows and are focused on returning cash flows generated from renewable energy assets to shareholders (collectively, "Renewable Energy Companies"), as defined by Indxx LLC, the Index Provider. The Fund will not invest directly in securities listed in mainland China.

The Index Provider also applies an ESG (Environmental, Social and Governance) screening process to the universe of eligible companies. The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviews each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products are defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable.

## Global X Clean Water UCITS ETF

The investment objective of the Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Solactive Clean Water Industry v2 Index (the "Index").

This Sub-Fund is classified as an Article 8 fund pursuant to the Sustainable Finance Disclosures Regulation ("SFDR"), and promotes environmental characteristics by focusing on investments in Clean Water Companies (as defined below) through replicating the Index and through a screening process detailed below.

The Index is designed to provide exposure to companies that have business operations in the provision of clean water. Specifically, the Index will include securities issued by "Clean Water Companies" as defined by Solactive AG, the provider of the Index (the "Index Provider"). Clean Water Companies are those companies that derive at least 50% of their revenues, operating income, or assets from the following business activities: (1) Industrial water treatment, recycling (including water reclamation), purification, and conservation. (2) Water storage, transportation, metering, and distribution infrastructure. (3) Production of household and commercial water purifier and heating products. (4) Provision of consulting services identifying and implementing water efficiency strategies at the corporate and/ or municipal levels.

The Index Provider also applies an ESG (Environmental, Social and Governance) screening process to the universe of eligible companies. The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviews each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products are defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable.

# **Global X Hydrogen UCITS ETF**

The investment objective of the Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Solactive Global Hydrogen v2 Index (the "Index").

This Sub-Fund is classified as an Article 8 fund pursuant to the Sustainable Finance Disclosures Regulation ("SFDR"), and promotes environmental characteristics by focusing on investments in Hydrogen Companies (as defined below) through replicating the Index and through a screening process detailed below.

The Index is designed to provide exposure to companies that are positioned to benefit from further advances in the field of hydrogen technology. Hydrogen technology includes products and services focused on the development and implementation of hydrogen gas as a renewable fuel source. Hydrogen technology may play an important role in the transition toward renewable energy from fossil fuels. Specifically, the Index will include securities issued by "Hydrogen Companies" as defined by Solactive AG, the "Index Provider. "Hydrogen Companies" are those companies that derive at least 50% of their revenues, operating income, or assets from the following business activities: 1. Hydrogen Production: Companies involved in the production, transportation, storage, and distribution of hydrogen (including renewable hydrogen) that can be used as an energy source. 2. Hydrogen Fuel Cells: Companies that develop and/or manufacture fuel cells (and the components thereof) that convert chemical energy into electricity and heat, powered by hydrogen fuel and/or reformed hydrogen-rich gas. 3. Hydrogen Technology: Companies involved in the production of hydrogen electrolyzers (which produce hydrogen gas from water), tanks and pipelines, commercial and residential infrastructure, generators, engines, and vehicles powered by hydrogen fuel cells, as well as hydrogen fueling stations. 4. Hydrogen Integration: Companies that provide engineering and consulting services for the adoption and utilization of hydrogen-based fuel and/or energy sources at the residential, commercial, and industrial levels.

In addition, companies identified by the Index Provider as deriving greater than 0% but less than 50% of revenue from the business activities described above ("Diversified Hydrogen Companies"), as well as 3 companies identified by the Index Provider as having primary business operations in the business activities described above but that do not currently generate revenues ("Pre-Revenue Hydrogen Companies"), are eligible for inclusion in the Index.

In addition, Diversified Hydrogen Companies and Pre-Revenue Hydrogen Companies are subject to an individual weight cap of 2% and an aggregate weight cap of 10% at each semi-annual rebalance.

The Index Provider also applies an ESG (Environmental, Social and Governance) screening process to the universe of eligible companies. The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviews each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products are defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable.

# **Global X Wind Energy UCITS ETF**

The investment objective of the Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Solactive Wind Energy v2 Index (the "Index").

This Sub-Fund is classified as an Article 8 fund pursuant to the Sustainable Finance Disclosures Regulation ("SFDR"), and promotes environmental characteristics by focusing on investments in Wind Energy Companies (as defined below) through replicating the Index and through a screening process detailed below.

The Index is designed to provide exposure to companies that are positioned to benefit from further advances in the field of wind energy technology. Specifically, the Index will include securities issued by "Wind Energy Companies" as defined by Solactive AG, the Index Provider. "Wind Energy Companies" are those companies that derive at least 50% of their revenues, operating income, or assets from the following business activities: Wind Energy Systems: Companies involved in development, manufacturing, integration, and/or maintenance of turbine components and turbines that harness energy from the wind and convert it into electrical power. Wind Power Production: Companies that generate and distribute electricity from wind power. Wind Energy Technology: Companies that develop commercial and residential infrastructure and systems powered by wind energy, as well as residential and commercial scale batteries for electricity produced from wind power. Wind Power Integration & Maintenance: Companies that provide engineering and/or advisory services for the installation, maintenance, and/or utilization of wind energy at the residential, commercial, and industrial levels.

In addition, companies identified by the Index Provider as having primary business operations in the business activities described above but that do not currently generate revenues ("Pre-Revenue Wind Energy Companies"), are eligible for inclusion in the Index if there are fewer than 25 eligible Wind Energy Companies. Pre-Revenue Wind Energy Companies are subject to an aggregate weight cap of 10% at each semi-annual rebalance.

The Index Provider also applies an ESG (Environmental, Social and Governance) screening process to the universe of eligible companies. The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviews each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products are defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable.

## **Global X Solar UCITS ETF**

The investment objective of the Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Solactive Solar v2 Index (the "Index").

This Sub-Fund is classified as an Article 8 fund pursuant to the Sustainable Finance Disclosures Regulation ("SFDR"), and promotes environmental characteristics by focusing on investments in Solar Companies (as defined below) through replicating the Index and through a screening process detailed below.

The Index is designed to provide exposure to companies that are positioned to benefit from further advances in the field of solar technology. Specifically, the Index consists of securities issued by "Solar Companies" as defined by Solactive AG, the Index Provider. "Solar Companies" are those companies that derive at least 50% of their revenues from the following business activities: Solar Energy Materials: Companies involved in the production of raw materials that are primarily used in photovoltaic solar cells or concentrating solar-thermal mirrors or lenses (including silicon, cadmium telluride, copper indium gallium deselenide, titanium dioxide, and/or perovskite). Solar Energy Systems & Components: Companies involved in the development and/or manufacturing of solar energy systems (and the components thereof) that harness energy from the photovoltaic effect or from sunlight to generate electricity. For example, a company involved in the production of solar panels may be categorised as having business activities related to Solar Energy Systems & Components. Solar panels consist of an arrangement of solar photovoltaic cells mounted in a framework for installation. Solar Power Production: Companies that generate and distribute electricity from light energy. 3 Solar Technology: Companies that develop commercial and residential infrastructure, generators, and engines powered by solar energy, as well as residential and commercial scale batteries for electricity produced from solar power, and solar-powered charging systems for electric vehicles or other electric devices. Solar Installation, Integration & Maintenance: Companies that provide engineering and/or advisory services for the installation, integration, maintenance, and/or utilization of solar power at the residential, commercial, and industrial levels.

The Index Provider also applies an ESG (Environmental, Social and Governance) screening process to the universe of eligible companies. The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviews each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products are defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable.
