

# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## NN (L) Global Sustainable Equity - X Cap CZK (hedged i)

ISIN: LU1542713687

A sub-fund (hereafter referred to as the fund) of NN (L)

This fund is managed by NN Investment Partners B.V.

### Objectives and Investment Policy

The fund is classified as a financial product with a sustainable investment objective as described in Article 9 of EU Sustainable Finance Disclosure Regulation. The fund invests in companies, listed on stock exchanges worldwide, which pursue a sustainable business model. Selection of these companies combines the analysis of environmental (e.g. carbon intensity), social (e.g. human rights, non-discrimination, the issue of child labour, gender diversity) and governance (e.g. remuneration policy) factors with a financial performance. Selection process may be limited by the quality and availability of the data disclosed by issuers or provided by third parties. The fund uses active management to target companies with sustainable business models, focusing on products and services delivered, with maximum stock level overweight limits maintained relative to the benchmark. The fund also aims for lower carbon intensity than the benchmark. Its stock level composition will therefore materially deviate from the benchmark. The fund has a global investment universe. At least annually, its initial investment universe is reduced by at least 20%, as a result of the application of a "Best-in-Universe" approach and the below mentioned exclusions and restrictions. The fund may also include investments into securities that are not part of the benchmark universe. In the stock selection process the fund makes use of fundamental

and ESG analysis and also excludes investments in companies involved in activities including but not limited to, the development, production, maintenance or trade of controversial weapons, the production of tobacco products, thermal coal mining and/or oil sands production. Further, more stringent restrictions are applicable for investments in companies involved in activities related to gambling, weapons, adult entertainment, fur & specialty leather, Arctic drilling and shale oil & gas. Measured over a period of several years we aim to beat the performance of the benchmark MSCI World NR. The benchmark is a broad representation of our investment universe. There is no actual benchmark for this specific hedged share class as we apply a currency hedging strategy. The sub-fund's base currency is euro (EUR) and the sub-fund can be exposed to non-euro currencies. By hedging this share class we aim to exchange the base currency of the sub-fund (EUR) with the base currency of this share class Czech koruna (CZK). The exposure towards non-CZK currencies in the sub-fund remains in this share class. A currency hedge consists of taking an offsetting position in another currency. You can sell your participation in this fund on each (working) day on which the value of the units is calculated, which for this fund occurs daily. The fund does not aim to provide you with a dividend. It will reinvest all earnings.

### Risk and Reward Profile

Lower risk - Typically lower rewards

Higher risk - Typically Higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Historical data, such as is used for calculating this indicator, may not be a reliable indication of the future risk profile of this fund. There is no guarantee that the risk indicator will remain unchanged, it may shift over time. The lowest category of risk does not mean that the investment is riskfree.

This fund is in category 6 because of the behaviour of the product during the measuring period. The overall market risk, taking into account past performances and future potential evolution of the markets, associated with stocks and/or financial instruments used to reach the investment objective is considered high.

These financial instruments are impacted by various factors. These include, but are not limited to, the development of the financial market, the economic development of issuers of stocks and/or financial instruments who are themselves affected by the general world economic situation and the economic and political conditions in each country. The fund's liquidity risk is set to medium. Liquidity risks arise when a specific underlying investment is difficult to sell, causing possible difficulty to redeem your investment from the fund. Moreover, currency fluctuation may impact highly the Sub-Fund's performance. No guarantee is provided as to the recovery of your initial investment. Hedging share classes, a method to try to manage specific currency risk, may lead to additional credit risk and to residual market risk depending on the effectiveness of the hedging performed.

## Charges

All fees paid by investors are used to meet the ongoing charges of the fund, including sales and marketing costs. These charges reduce the potential growth of the investment.

### One-off charges taken before or after you invest:

Entry charge	5%
Exit charge	0%
Switching fee	3%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

### Charges taken from the fund over a year:

Ongoing charge	2.32%
----------------	-------

### Charges taken from the fund under certain specific conditions:

Performance fee	0%
-----------------	----

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charges figure is based on expenses for the year ending 12/2021. This figure may vary from year to year.

It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the funds when buying or selling units in another collective investment undertaking.

You will find further details on fees in the section "Fees, expenses and taxation" of the sales prospectus on the website <http://www.fundinfo.com>.

## Past Performance

- Performance in the past is not a reliable indicator of future results.
- The past performance shown here takes account of all charges and costs, excluding entry and exit costs and fund switching costs.
- This sub-fund was launched in 2000.
- This share class was launched in 2017.
- The past performance is calculated in CZK.

## Practical information
