HSBC GLOBAL INVESTMENT FUNDS - GLOBAL REAL ESTATE EQUITY

a sub-fund of HSBC Global Investment Funds, (the "UCITS");
 managed by HSBC Investment Funds (Luxembourg) S.A.

Class:ZC
 ISIN:LU1163227819

Objectives and Investment Policy

Investment Objective:

The Fund aims to provide long term capital growth and income by investing in shares of companies related to the real estate industry, while promoting environmental, social and governance (ESG) characteristics within the meaning of Article 8 of SFDR. The Fund aims to do this with a lower carbon intensity and a higher ESG Rating, calculated as a weighted average of the ESG Ratings of the Fund's investments, than the weighted average of the constituents of the reference benchmark. The Fund promotes ESG characteristics within the meaning of Article 8 of SFDR. More information on HSBC Global Asset Management's responsible investing policies is available at www.assetmanagement.hsbc.com/about-us/responsible-investing/policies.

Investment Policy:

In normal market conditions, the Fund will invest at least 90% of its assets in shares of companies of any size related to the real estate industry and/or Real Estate Investment Trusts based in developed markets and emerging markets. The Fund includes the identification and analysis of a company's ESG Credentials as an integral part of the investment decision making process to reduce risk and enhance returns. The Fund will not invest in companies with involvement in specific excluded activities, such as, companies involved in the production of controversial weapons and tobacco; companies with more than 10% revenue generated from thermal coal extraction; and companies with more than 10% revenue generated from coal-fired power generation. The Fund conducts enhanced due diligence on companies that are considered to be non-compliant with the UN Global Compact Principles. Please refer to the Prospectus for more details on ESG Credentials and Excluded Activities. The Fund may invest up to 20% in China A and China B-shares. For China A-shares, up to 10% through the Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong

Kong Stock Connect, up to 10% in CAAPs and up to 10% in CAAPs issued by any single issuer.

The Fund may invest up to 10% of its assets in other funds, including HSBC funds and may also invest in bank deposits, money market instrument for treasury purposes. The Fund may also invest in derivatives and may use them for hedging, efficient portfolio management and cashflow management purposes. Derivatives will not be used extensively for investment purposes. Derivatives may also be embedded in other instruments used by the Fund.

Risk and Reward Profile

The risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment.

Why is this Fund in this specific category?

This Fund is classified in category 6 because its price or simulated data has shown high fluctuations historically.

Material risks not fully captured by the Risk and Reward Indicator:

- ◆ **Counterparty Risk** The possibility that the counterparty to a transaction may be unwilling or unable to meet its obligations.

- ◆ **Derivatives Risk** Derivatives can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly reflecting the pricing or volatility of their underlying reference(s), instrument or asset.
- ◆ **Exchange Rate Risk** Changes in currency exchange rates could reduce or increase investment gains or investment losses, in some cases significantly.
- ◆ **Investment Fund Risk** Investing in other funds involves certain risks an investor would not face if investing in markets directly. Governance of underlying assets can be the responsibility of third-party managers.
- ◆ **Investment Leverage Risk** Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- ◆ **Liquidity Risk** Liquidity Risk is the risk that a Fund may encounter difficulties meeting its obligations in respect of financial liabilities that are settled by delivering cash or other financial assets, thereby compromising existing or remaining investors.
- ◆ **Operational Risk** Operational risks may subject the Fund to errors affecting transactions, valuation, accounting, and financial reporting, among other things.
- ◆ **Real Estate Investments Risk** Real estate and related investments can be negatively impacted by any factor that makes an area or individual property less valuable.
