

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Invesco Responsible Japanese Equity Value Discovery Fund (the "Fund") A sub-fund of Invesco Funds (the "Umbrella Fund") Class C accumulation - JPY (ISIN: LU0607515953) (the "Share Class")

The Fund is managed by Invesco Management S.A., part of the Invesco Group.

Objectives and Investment Policy

- The objective of the Fund is to achieve long-term capital growth.
- The Fund intends to invest primarily in shares of Japanese companies, which meet the Fund's environmental, social and governance (ESG) criteria.
- The Fund will invest in companies that, in the opinion of the investment manager, are attractively valued and demonstrate sustainable growth.
- Positive screening to identify the top portion (currently 70%) of issuers based on the investment manager's proprietary rating which uses internal and third party data, and which in the view of the investment manager meet sufficient practice and standards in terms of ESG and sustainable development for inclusion in the Fund's universe.
- Screening will also be employed to exclude issuers that do not meet the Fund's criteria, including but not limited to the level of involvement in certain activities such as coal, fossil fuels, tobacco, adult entertainment, gambling and weapons. The exclusion criteria may be updated from time to time.
- The Fund is actively managed and is not constrained by its benchmark, the TOPIX Index (Net Total Return), which is used for comparison purposes. However, the majority of the Fund's holdings are likely to be components of the benchmark. As an actively managed fund, this overlap will change and this statement may be updated from time to time.
- The Fund has broad discretion over portfolio construction and therefore securities, weightings and risk characteristics will differ. As a result, it is expected that over time the risk return characteristics of the Fund may diverge materially to the benchmark.
- Please refer to the Past Performance section below where a benchmark will be displayed if relevant.
- You can buy and sell shares in the Fund on any Dealing Day (as defined in the Prospectus).
- Any income from your investment will be reinvested.

Risk and Reward Profile

Lower Risk ← Higher Risk
Typically lower rewards → Typically higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- The Share Class is in risk category 6 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

Other Risks

- The value of investments, and income from them, can go down as well as up and you may not get back the full amount you invested.
- The Fund intends to invest in securities of issuers that manage their Environmental, Social and Governance (ESG) exposures better relative to their peers. This may affect the Fund's exposure to certain issuers and cause the Fund to forego certain investment opportunities. The Fund may perform differently to other funds, including underperforming other funds that do not seek to invest in securities of issuers based on their ESG ratings.
- Shares of companies are generally considered high risk investments and may result in fluctuations in the value of the Fund due to external factors.
- As this Fund is invested in a particular geographical region, you should be prepared to accept greater fluctuations in the value of the Fund than for a fund with a broader geographical investment mandate.
- The Fund may use derivatives (complex instruments) in an attempt to reduce the overall risk of its investments or reduce the costs of investing, although this may not be achieved.
- Investments in small and medium sized companies involve greater risks than those customarily associated with larger companies.
- A more detailed description of risk factors that apply to this Fund is set out in Section 8 of the Prospectus.

- Share Class launch date: 30 September 2011.
- The base currency of the Fund is JPY.
- Past performance of the Share Class is calculated in JPY.
- Performance is calculated after deduction of ongoing charges, portfolio transactions costs and is inclusive of gross income reinvested. Any entry /exit charges shown are excluded from the calculation.
- As the Fund is actively managed, it is not intended that the performance of the Share Class will track the performance of TOPIX Index (Net Total Return) (the "Benchmark"). Prior to 30.06.2020, the performance of the Share Class was compared to the performance of another benchmark: TOPIX Index (Total Return).
- Past performance is not a guide to future performance.
