What is this product?

Janus Henderson Horizon Euroland Fund is a sub-fund of Janus Henderson Horizon Fund, an open-ended investment company organised under the laws of the Grand Duchy of Luxembourg. Janus Henderson Horizon Fund qualifies as an undertaking for collective investment in transferable securities (UCITS).

Term

This investment has no maturity date. The Manufacturer has the right to terminate the product in a limited number of circumstances, as set out in the Prospectus.

Objectives

The Fund aims to provide capital growth over the long term. Performance target: To outperform the MSCI EMU Net Return EUR Index, after the deduction of charges, over any 5 year period. The Fund invests at least 75% of its assets in shares (equities) and equity-related securities of companies, of any size, in any industry, in the Eurozone. Companies will be incorporated in or having their principal business activities in the Eurozone. The Fund may also invest in other assets including companies outside the Eurozone, cash and money market instruments. The investment manager may use derivatives (complex financial instruments) to reduce risk or to manage the Fund more efficiently. The Fund is actively managed with reference to the MSCI EMU Net Return EUR Index,

which is broadly representative of the companies in which it may invest, as this forms the basis of the Fund's performance target and the level above which performance fees may be charged (if applicable). The investment manager has discretion to choose investments for the Fund with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index. The investment manager will seek to promote environmental, social and/or governance (ESG) principles in managing the Fund, which may include the exclusion of issuers that the investment manager considers could contribute to significant ESG harm, as further described in the prospectus. The Fund promotes environmental and/or social characteristics as defined under Article 8 of the Sustainable Finance Disclosure Regulation (SFDR). This share class distributes income after the deduction of charges. You can buy, sell or switch shares in the Fund on any dealing day, as defined in the Fund's Prospectus. The Fund's Depository is BNP Paribas, Luxembourg Branch.

Intended Retail Investor

Investors who understand the Fund's risks, seek capital growth from a Euroland-focused investment, and intend to invest their money for at least five years. This Fund is designed to be used only as a component in a diversified investment portfolio and is not designed for investors who are unable to accept more than a minimal loss of their investment.
