What is this product?

Type

SICAV

Term

The Fund is established for an indefinite period (open-ended fund) and can be terminated at any time as further stipulated in the articles of association of the SICAV. The amount the investor will receive upon early termination may be less than the amount invested.

Objectives

Investment Objective

The investment objective of JSS Sustainable Bond – Euro Broad (the "Sub-Fund") is to achieve a regular income while meeting the quality criteria specified below (see "Investment policy"), as well as balanced risk diversification.

Investment Policy

The assets of the Sub-Fund are invested worldwide exclusively in euro-denominated bonds, convertible bonds and bonds with warrants (the portion of assets invested in the latter two instruments shall be limited to a maximum of 25% of the Sub-Fund), as well as fixed or variable-rate securities (including zero bonds) denominated in euro.

Equities acquired through conversion or through the exercise of options may account for up to 10% of the Sub-Fund. Up to 10% of the Sub-Fund's net assets may be invested in Contingent Convertible Bonds (CoCos). The Sub-Fund's sustainable investment objectives are aligned with SFDR Art. 9, the Paris Agreement and J. Safra Sarasin's corresponding Climate Pledge to achieve carbon neutrality in portfolios by 2035. This product

considers environmental, social and governance aspects ("ESG") along the investment process with the aim to reduce controversial exposures, to align the portfolio with international norms, to mitigate sustainability risks and to harness opportunities emanating from ESG trends and to get a better-informed perspective of portfolio holdings.

The Sub-Fund is actively managed without replicating any benchmark. However, the Sub-Fund is managed with reference to ICE BofA Euro Broad Market Index (the "Benchmark").

Share Class Policy:

This share class of the Sub-Fund generally distributes income to investors within four months after financial year-end.

Processing of subscription and redemption orders

You may redeem or convert shares in the Sub-Fund on any business day.

Intended retail Investor

This Sub-Fund is suitable for investors with a medium-term investment horizon who are aiming for steady income. The Sub-Fund is aimed as a basic investment in the field of fixed and variable interest EUR investments for investors who opt for future-oriented economic development.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The product may be exposed to further risks such as operational, counterparty, political and legal risks. For further details please consult the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

J. Safra Sarasin

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		3 years	
Example Investment:		10,000 EUR	
		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	7,320 EUR	7,560 EUR
	Average return each year	-26.80%	-8.90%
Unfavourable	What you might get back after costs	7,950 EUR	7,870 EUR
	Average return each year	-20.50%	-7.67%
Moderate	What you might get back after costs	9,730 EUR	10,080 EUR
	Average return each year	-2.70%	0.27%
Favourable	What you might get back after costs	10,750 EUR	11,000 EUR
	Average return each year	7.50%	3.23%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between October 2020 and October 2023.

Moderate scenario: This type of scenario occurred for an investment between June 2015 and June 2018.

Favourable scenario: This type of scenario occurred for an investment between July 2018 and July 2021.

What happens if J. Safra Sarasin Fund Management (Luxembourg) S.A. is unable to pay out?

The investor of this product will not face financial loss due to the default of J. Safra Sarasin Fund Management (Luxembourg) S.A., as the Fund is considered to be a separate and segregated pool of assets.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000.00

	If you exit after 1 year	If you exit after 3 years
Total costs	420 EUR	685 EUR
Annual cost impact (*)	4.2%	2.2% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.5 % before costs and 0.3 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
