

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Jupiter Asset Management Series PLC - Jupiter Merian World Equity Fund (the 'Fund'), a sub-fund of Jupiter Asset Management Series PLC

C USD Acc (ISIN - IE0031332939)

The Manager is Jupiter Asset Management (Europe) Limited (the "Manager")

Objectives and Investment Policy

Objective: capital growth by investing in shares (i.e. equities) and similar investments of companies listed or located throughout the world.

Policy: in seeking to achieve its investment objective, the fund aims to deliver a return, net of fees, greater than that of the MSCI World Index with net dividends re-invested over rolling 3 year periods. The Fund will invest at least 70% in company shares and similar investments anywhere in the world. Companies may be of all sizes and in any industry (e.g. pharmaceuticals, finance, etc).

The Fund may invest up to 20% in companies domiciled in emerging markets or which have a predominant proportion of their assets or business operations in the emerging markets and which are listed, traded or dealt in on a Regulated Market. The Fund may invest up to 15% in REITs (Real Estate Investment Trusts).

The Fund uses derivatives (i.e. financial contracts whose value is linked to the expected price movements of an underlying investment), with the aim of reducing the overall costs and/or risks of the Fund.

The Fund is actively managed. Portfolio construction is driven by systematic analysis of companies against several distinct characteristics including stock price valuation, balance sheet quality, growth characteristics, efficient use of capital, analyst sentiment and supportive market trends to identify attractively priced investment opportunities.

The Index is a representation of the markets in which the Fund primarily invests. Although a large proportion of the Fund's investments may be components of the Index, the Fund has the ability to deviate significantly from the Index.

Portfolio transaction costs are paid out of the assets of the Fund in addition to the charges set out below, and may have an impact on the performance of the Fund.

Recommendation: the Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Treatment of income: as shares in this class are accumulation shares, income from investments will be reinvested into the Fund and reflected in the value of the shares.

Dealing: you can buy and sell shares on business days where retail banks are open for business in Dublin and London (excluding Saturdays, Sundays and public holidays).

Risk and Reward Profile

The calculated risk and reward category, as shown above, uses a method of calculation derived from EU rules. It is based on the rate at which the returns of the Fund have moved up and down in the past (i.e. volatility) and is not a guide to the future risk and reward category of the Fund. The category shown is not a target or guarantee and may shift over time. Even the lowest category 1 does not mean a risk-free investment. The seven-category scale is nonlinear, for example, 2 is not twice as risky as 1.

Typically lower rewards
Lower risk

Typically higher rewards
Higher risk

- Funds in category 6 have in the past shown relatively high volatility. With a fund of category 6, you have a relatively high risk of losing money but your chance for gains is also relatively high.
- Investment risk** - there is no guarantee that the Fund will achieve its objective. A capital loss of some or all of the amount invested may occur.
- Company shares (i.e. equities) risk** - the value of Company shares and similar investments may go down as well as up in response to the performance of individual companies and can be affected by daily stock market movements and general market conditions.
- REITs risk** - REITs are investment vehicles that invest in real estate, which are subject to risks associated with direct property ownership.
- Currency risk** - the Fund is denominated in USD but holds assets denominated in other currencies. The value of your shares may rise and fall as a result of exchange rate movements.
- Derivative risk** - the Fund uses derivatives to reduce costs and/or the overall risk of the Fund (i.e. Efficient Portfolio Management (EPM)). Derivatives involve a level of risk, however, for EPM they should not increase the overall riskiness of the Fund. Derivatives also involve counterparty risk where the institutions acting as counterparty to derivatives may not meet their contractual obligations.
- For a more detailed explanation of risks, please refer to the "Risk Factors" section of the prospectus.

Charges

One-off charges taken before or after you invest

Entry charge	Up to 1.00%
Exit charge	Up to 1.00%

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charges	3.16%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	None
-----------------	------

- These charges are used to pay the costs of running the Fund, including the costs of marketing and distribution. Overall, they reduce the growth of your investment.
- The charges shown are the maximum figures. In some cases you might pay less. You can find out your actual charges from your financial adviser or distributor.
- The ongoing charges figure is based on the expenses of the Fund for the 12 month period ended December 2021. Where the Fund invests in other underlying funds, which may include closed-ended funds such as investment trusts, the ongoing charges figure will include the ongoing charges for those funds, and will therefore vary from year to year. The ongoing charges figure excludes portfolio transaction costs, except in the case of an entry/ exit charge paid by the Fund when buying or selling shares in another collective investment undertaking.
- A charge of 1% of your initial investment may apply if you sell your shares within 1 year of purchase.
- It is not the intention for a switching charge (2.50%) to apply but the Fund reserves the right to impose a switching charge in the future.
- You can find out more details about the charges by looking at the *Fees and Expenses* section of the prospectus.

Past Performance

Source: Jupiter/Factset SPAR 2021

■ C USD Acc

■ MSCI World Index with net dividends re-invested

- Past performance is not a guide to future performance.
- The Fund launched on 13 September 2000. This class started to issue shares on 16 July 2002.
- The value of the class is calculated in USD. The Index is in USD.
- The past performance shown does not take into account any entry or exit charges but does take into account the ongoing charge, as shown in the Charges section.
- In June 2013 the Fund changed its Investment Policy. The performance before this date was achieved under circumstances that no longer apply.
