

Key Investor Information Document

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it to help you make an informed decision about whether to invest.

Lazard Global Convertibles Recovery Fund EA Acc CHF Hedged

Lazard Global Convertibles Recovery Fund is a sub-fund of Lazard Global Investment Funds Public Limited Company (the "UCITS")

ISIN: IE00BMW2TW20

This Fund is managed by Lazard Fund Managers (Ireland) Limited, part of the Lazard Group

Objectives and Investment Policy

Lazard Global Convertibles Recovery Fund (the "Fund") aims to maximise total return from income and capital growth.

The Fund is actively managed and will primarily invest in convertibles bonds (i.e. debt securities that are convertible into the equity securities of the issuer) which the Investment Manager has determined are likely to experience recovery in valuations. The strategy of the Fund is to focus on investment opportunities presented by companies, sectors or regions that have been underperforming or undervalued at the time of investment.

The Fund will also invest in investment grade, non-graded investments, unrated convertible bonds and/or debt securities (e.g. bonds) which are issued by companies, governments, government agencies, quasi sovereign bodies or supranational bodies (such as the World Bank) across the world.

The Fund has flexibility to invest up to 100% of its value in securities that are rated below investment grade. The Fund also has flexibility to invest up to 100% of its value in emerging markets.

The Fund may also invest up to 10% of its value in units or shares of other investment funds (including exchange traded funds and other sub-funds of the UCITS).

The Fund may invest in cash and in investments that are deemed to be nearly equivalent to cash at any time and to the extent considered appropriate to do so.

The Fund does not intend to invest directly in equities, however, the Fund may from time to time hold equity securities on an ancillary basis up to a limit of 10% of the value of the Fund.

The Fund may gain exposure to the asset classes above either by investing in them directly, or by using derivatives (which are financial contracts whose value is linked to the price of an underlying investment). The currency exposures of the Fund's portfolio may be hedged back into US Dollars, being the base currency of the Fund.

As a result of its use of derivatives, the Fund may be 'geared' or 'leveraged' (which can lead to a proportionately much larger movement in the value of the Fund's assets). The expected level of the Fund's leverage will be 100% of the value of the Fund.

The Fund has discretion as to which investments it will hold within the limits of the Investment Objective and Policy.

You can buy and sell shares in the Fund on any day treated as a normal business day in Dublin, London and New York.

Income and profits, if any, attributable to your shares will not be paid out as a dividend but will be accumulated in the Fund on your behalf and reflected in an increase in the value of your holdings.

The Fund's performance is not measured in reference to a benchmark.

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within a short period of time.

Risk and Reward Profile

The risk and reward categories above are calculated using historic data and may not be a reliable indicator of the Fund's future risk profile. The risk and reward category may shift over time and is not a target or guarantee. The lowest category (i.e. category 1) does not mean "risk free".

The risk rating of this share class is calculated on the basis of historic volatility – i.e. how much the value of the underlying assets of the Fund has fluctuated over the last 5 years. As this share class does not have 5 years' performance data available, we have simulated the volatility, using a suitable proxy, based on historic data.

This share class has been placed in the risk category stated above, because based on the simulated historic data, the underlying assets within the Fund have shown moderately high volatility.

Please note, there are other risks that may not be reflected in the risk and reward categories above. Some of these risks are summarised below.

- There is no capital guarantee or protection of the value of the Fund. The value of your investment and the income from it can go down as well as up and you may not get back the amount you originally invested.
- This Fund may invest in the securities of emerging markets. These markets may be less developed than others and so there is a greater risk that the Fund may experience greater volatility, delays in buying, selling and claiming

ownership of its investments. Emerging markets may also have less developed political, economic and legal systems and there is a higher risk that the Fund may not get back its money.

- Investment in lower rated bonds increases the risk of default on repayment and the risk to capital of the Fund.
- There is a risk that the other side to certain contracts that the Fund may enter into may not be able to meet obligations. For example, this may arise in the Fund where an investment is made using a derivative or a debt instrument, and the other side to the agreement becomes insolvent, or is otherwise unable to meet its obligations. In such a case, the Fund may incur loss.
- There are additional risks relating to the use of derivatives - the Fund invests in derivatives for the purposes of reducing exposure (hedging), gaining greater exposure, and speculating in the value of underlying investments. The use of derivatives to gain greater exposure to investments rather than by direct investment can increase the possibility for profit but also increase the risk of loss.
- The Fund may invest in units or shares of other investment funds. Such other funds may themselves be subject to their own fees and expenses.
- There is a risk with convertible bonds that their value, when converted into equity securities, will vary to those of non-convertible equity securities, and their yield will be less than non-convertible debt securities. Additionally, such securities may have a mandatory equity conversion feature, which may result in receiving equity when it is declining or at an unfavourable price.
- Your shares will be hedged with the aim of reducing the effect of exchange rate fluctuations between their denominated currency and the base currency of the Fund. This may not completely eliminate currency risk and therefore, any residual risk may affect the performance of your shares. See "Risk Factors" in the UCITS' Prospectus and Fund Supplement for more information about risks.

Charges

The charges you pay are used to pay the costs of running the Fund, including marketing and distributing costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	3.00%
Exit charge	2.00%
This is the maximum that might be taken out of your money before it is invested and before proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charges	0.68%
Charges taken from the Fund under certain specific conditions	
Performance fee	N/A

The entry and exit charges shown are maximum figures. In some cases you may pay less.

You can find out the actual charges from your financial advisor.

The ongoing charges figure stated in the table is an estimate of the charges based on the expected charges that will be taken from the Fund over the year and does not include any performance fee or portfolio transaction costs incurred where we buy or sell assets for the Fund. Ongoing charges may vary from year to year.

An amount for "Duties and Charges" as defined in the UCITS' Prospectus may be applied.

The Directors may, in their absolute discretion, charge a switching fee of up to 1% of the Net Asset Value of the shares to be switched.

Please see "Fees and Expenses" in the UCITS' Prospectus, Fund Supplement and Appendix I Share Class Details of the Fund Supplement.

Past Performance

As this Share Class does not yet have performance data for one complete calendar year, there is insufficient data to provide a useful indication of past performance to investors.

The Fund was established on: 31/07/2020

The share class seed date was: 17/08/2020

Practical Information

The UCITS' depositary is State Street Custodial Services (Ireland) Limited.

The Fund is one of a number of sub-funds of the UCITS. The assets and liabilities of each sub-fund are segregated by law from each other and the rights of investors and creditors in relation to a sub-fund should normally be limited to the assets of that sub-fund.

You may switch between sub-funds of the UCITS. See "Switching Between Share Classes and Funds" in the UCITS' Prospectus.

Further information about the Fund may be obtained from the UCITS' Prospectus (available in English and German), the annual and half-yearly Report and Accounts which are prepared for the UCITS as a whole (available in English, German and Italian). These documents are available free of charge from Lazard Asset Management Limited, 50 Stratton Street, London, W1J 8LL or at www.lazardassetmanagement.com.

The Fund is subject to the tax legislation of Ireland. This may have an impact on your personal tax position.

Latest share prices of the UCITS are available at www.lazardassetmanagement.com.

Details of Lazard Fund Managers (Ireland) Limited's Remuneration Policy, including a description of how remuneration and benefits are calculated and the identities of the persons responsible for awarding such remuneration/benefits, can be accessed from the following website: www.lazardassetmanagement.com. A paper copy of these policy details is also available free of charge from Lazard Fund Managers (Ireland) Limited upon request.

Lazard Fund Managers (Ireland) Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the UCITS' Prospectus.
