Country of authorisation and approval:	LAZARD FRERES GESTION SAS is approved in France under no. GP-04000068 and regulated by the AMF.
Date of production of the Key Information Document:	21/08/2023

WHAT IS THIS PRODUCT?

Type: Organisme de Placement Collectif en Valeurs Mobilières (OPCVM), Fonds Commun de Placement (FCP)

Term: The UCI's term is 99 years from 10/12/2019, except in the event that the Fund is dissolved before the end of the term or extended pursuant to these regulations.

Objectives:

Obtain an annualised performance net of management fees, hedging and estimated default calculated by the management company, equal to 1,60% at June 30th, 2025, by investing mainly in bonds with no financial rating restriction whose issuers are companies and financial institutions, traded in euros and/or US dollars and/or pounds sterling, while taking into account environmental, social and governance criteria.

The management company would like to point out that there is a risk that the issuer's actual Financial position may turn out to be weaker than predicted; and that such unfavourable conditions (e.g., higher number of defaults, lower recovery rate) will have a negative impact on the Fund's performance. As a result, it may not be possible to achieve the investment objective.

The Fund seeks to take advantage of attractive actuarial yields on corporate bonds.

The Fund is invested only in bonds or securities of issuers the registered offices of which are established in OECD-member countries and/or in securities listed on a financial market of one of these countries.

The Fund's investment strategy will mainly entail a carry strategy. Nevertheless, the manager has leeway to actively manage the portfolio by selling securities and buying new securities. The fund's turnover rate will therefore be low. As an exception to the 5%-10%-40% ratios, the management team may invest more than 35% of the UCI's net assets in securities guaranteed by an EEA Member State or the United States. The UCI promotes environmental and/or social characteristics within the meaning of Article 8 of Regulation (EU) 2019/2088, the "SFDR". The consideration of ESG criteria impacts the overall structure of the portfolio by investing exclusively in bonds with an initiated, convincing or advanced ESG profile according to our ESG partner. This approach excludes at least 20% of the Fund's investment universe. The modified duration will be between 0 and 5,5.

The investment strategy consists, based on this ESG investment universe, in applying a quantitative filter to isolate bonds that fit the Fund's investment strategy through the appropriate liquidity levels (sufficient amount in circulation), first end maturity date or early repayment date (before June 30th, 2025), and issuance currency. To build his portfolio, the portfolio manager conducts his own qualitative analysis of the bonds. He also refers to agency ratings but does not rely on them solely and mechanically.

As the bonds in the portfolio gradually mature and are redeemed, the manager may reinvest in:

- bonds whose maturity (end maturity or the issuer or holder's repayment options) fall on or before June 30th, 2025.
- debt securities (maturing no later than June 30th, 2025) or money market instruments and up to 100% of the Fund's assets. The manager may also invest in additional Tier 1 contingent convertible bonds (CoCos) up to a maximum of 35% of the net assets. The securities will be denominated in EUR, USD or GBP and will be hedged against foreign exchange risk with a residual foreign exchange risk of a maximum of 5% of the Fund's net assets.

The Fund may invest up to one times its assets in forward financial instruments traded on French or foreign regulated, organised or over-the-counter markets. The manager may take positions in futures contracts or forward exchange contracts solely with a view to hedging the portfolio against foreign exchange risk.

Allocation of distributable income:

- Allocation of net income: Distribution and/or retention
- Allocation of net realised capital gains: Accumulation and/or Distribution and/or Retention

Right of redemption: Orders are executed as indicated in the table below

Business day	Day on which NAV is set (d)	The business day following the valuation day (D+1)	Two business days following the valuation day (D+2)
Daily order reception and Daily centralisation of redemption orders before 12:00 p.m. (Paris time)	Order executed by the latest on d	Publication of the net asset value	Settlement of redemptions

Targeted retail investors: This product may be suitable for retail investors with a limited level of knowledge of financial markets and products who seek international bonds and other debt securities exposure and who accept the risk of losing part of the invested capital.

The UCI may not be offered or sold in the United States. For further information, please refer to section "11. Eligible subscribers and typical investor profile" in the prospectus.

Recommendation: This UCI may not be suitable for investors planning to withdraw their investment within 3 years

Name of custodian: CACEIS BANK

Where/how to obtain information on the UCI :

All other practical information on this product, including the latest unit price, the prospectus, the latest annual and periodic reports, the composition of assets and the standards of LAZARD FRERES GESTION SAS with regard to the exercise of voting rights, as well as the report on the exercise of voting rights, will be sent out within eight working days upon written request to LAZARD FRERES GESTION SAS, 25, rue de Courcelles 75008 Paris France.

WHAT ARE THE RISKS AND WHAT'S IN IT FOR ME?

Risk indicator:

The risk indicator assumes that you keep the product for 3 years. The actual risk may be very different if you opt to exit before the end of the recommended holding period, and you may get less in return.

Other sizeable risks not taken into account in the indicator:

Recommended holding period:

3 years

- Credit Risk
- Risks associated with derivatives
- CAUTION: this UCI may invest a 100% percentage issues of low credit quality debt securities with very high credit risk

The synthetic risk indicator is used to assess the risk level of this product compared with others. It indicates the probability that this product will incur losses in the event of market movements or if we are unable to pay you. We have classified this product in the risk class 3 out of 7, which is a risk class between low and medium. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity LAZARD FRERES GESTION SAS to pay you. This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios:

The figures shown include all costs of the product itself, but not necessarily all fees due to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you will receive.

What you get from this product depends on future market performance. Future market developments are uncertain and cannot be accurately predicted.

The unfavourable, intermediate and favourable scenarios presented represent examples using best and worst case performance, as well as the average performance of the product and of a benchmark index over the past 10 years. The scenarios presented represent examples based on past performance and certain assumptions. Markets could evolve very differently in the future.

Recommended holding period: 3 years Investment example: 10000 €			
Scenarios		If you exit after 1 year	If you exit after 3 years
<i>Minimum</i>		<i>There is no guaranteed minimum return. You could lose all or part of your investment.</i>	
Pressure	<i>What you could get after deducting costs</i>	3780 €	6450 €
	Average annual return	-62.2%	-10.4%
Unfavourable	<i>What you could get after deducting costs</i>	8420 €	8630 €
	Average annual return	-15.8%	-3.6%
Intermediary	<i>What you could get after deducting costs</i>	9980 €	10160 €
	Average annual return	-0.3%	0.4%
Favourable	<i>What you could get after deducting costs</i>	12100 €	10350 €
	Average annual return	21.0%	0.9%

The stress scenario shows what you could get in extreme market situations.

Unfavourable scenario: This type of scenario occurred for an investment between 30/03/2019 - 30/03/2020

Intermediate scenario: This type of scenario occurred for an investment between 30/06/2016 - 30/06/2017

Favourable scenario: This type of scenario occurred for an investment between 30/03/2020 - 30/03/2021

WHAT HAPPENS IF LAZARD FRERES GESTION SAS IS UNABLE TO MAKE THE PAYMENTS?

The product is a co-ownership of financial instruments and deposits separate from the portfolio management company. In the event of default by the latter, the assets of the product held by the custodian will not be affected. In the event of default by the custodian, the risk of financial loss to the product is mitigated by the legal segregation of the assets of the custodian from those of the product.

WHAT WILL THIS INVESTMENT COST ME?

The person who sells you this product or who gives you advice about it may ask you to pay additional costs. If so, this person will inform you about these costs and show you the impact of these costs on your investment.

Costs over time:

The tables show the amounts deducted from your investment to cover the different types of costs. These amounts depend on the amount you invest, how long you hold the product and the performance of the product. The amounts shown here are illustrations based on an example of an investment amount and different possible investment periods.

We have assumed: - that in the first year you would get back the amount you invested (annual return of 0.0%) - that for the remaining holding periods, the product evolves as indicated in the intermediate scenario - that 10000 EUR are invested

	If you exit after 1 year	If you exit after 3 years
Total costs	229 €	641 €
Impact of annual costs (*)	2.3%	1.6% every year

(*) It shows how costs reduce your return annually over the holding period. For example, it shows that if you exit at the end of the

recommended holding period, your average return per year is expected to be 2.0% before deduction of costs and 0.4% after that deduction.

Breakdown of costs:

One-off costs at entry or exit		If you exit after 1 year
Entry costs	1.00% of the amount invested. This is the maximum amount you could be required to pay. The person selling you the product will inform you of the actual costs.	Up to 100 €
Exit costs	We do not charge exit costs.	0 €
Recurring costs incurred each year		
Management fees and other administrative and operating costs	1.24% of the value of your investment per year. This estimate is based on actual costs over the past year.	122 €
Transaction costs	0.07% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on how much we buy and sell.	7 €
Incidental costs incurred under specific conditions		
Performance-related fees	There are no performance fees for this product.	0 €

HOW LONG DO I HAVE TO HOLD IT AND CAN I WITHDRAW MONEY EARLY?

Recommended holding period: 3 years

This product does not have a minimum holding period requirement. The recommended holding period (3 years) has been calculated to be consistent with the product's investment objective.

You may withdraw your investment before the end of the recommended holding period, without any charges or penalties under the conditions set out in the "Right of redemption" section. The risk profile of the product may be very different if you opt to exit before the end of the recommended holding period.

HOW CAN I MAKE A CLAIM?

Any complaints regarding this product can be addressed to the Legal Department of LAZARD FRERES GESTION SAS:

By post: LAZARD FRERES GESTION SAS - 25, rue de Courcelles 75008 Paris France
