What is this product?

TYPE OF PRODUCT

The product is a sub-fund of Lemanik SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Fund is established for an unlimited duration. However the Board of Directors may decide to close this product under certain circumstances.

OBJECTIVES

The Fund will mainly invest on equity markets, in order to achieve a competitive level of total return by outperforming the MSCI Italy Gross Return Index (the "Benchmark").

The Fund mainly invest in shares issued by companies listed on stock exchanges or traded on international regulated markets, with particular focus on the Italian issuers listed on Euro Area stock markets. It intends to invest in companies which hold a high growth rate expectation.

The Fund is eligible for the Italian PIR (Piano Individuale di Risparmio a lungo termine) tax wrapper.

The Fund's strategy is to invest at least 70% of its assets in shares issued by companies not engaged in real estate business, which are resident in Italy or in another EU or EEA Member State with permanent establishment in Italy. At least 17.5% of these shares shall be securities issued by companies which are not listed in the FTSE MIB index or in any equivalent indices, and at least 3.5% of these shares shall be securities issued by companies which are not listed in the FTSE MIB index, FTSE Mid Cap index or in any equivalent indices. The sub-fund cannot invest more than 10% of its assets in financial instruments issued by, or entered into with the same company, or companies belonging to the same group, or in cash deposits.

The Fund's strategy is also to invest in Financial Derivatives Instruments (instruments whose prices are dependent on one or more underlying assets 'FDIs'). The Investment Manager is free to manage the exposure to relevant exchange rates and may decide to hedge (an investment position intended to offset potential losses) or not to hedge exchange risks. The Fund may also invest in a wide range of securities. To achieve its investment goals, for treasury purposes and/or in case of unfavourable market conditions, the sub-fund may, invest in money market instruments and deposits on an ancillary basis.

The sub-fund is actively managed and references the MSCI Italy Gross Return Index (the "Benchmark") for performance comparison, and performance fee calculation purposes only. The target of the sub-fund is to outperform the Benchmark. Shareholders' attention is drawn to the fact that the Benchmark is not an index which integrates environmental and social considerations.

Sale of shares in the Fund can be made on any business day.

The Fund may use FDIs in order to reduce the possibility of financial losses or to achieve higher gains.

The Investment Manager may use a hedging strategy that aims to ensure returns for investors are consistent with the Fund's investment objective.

Please refer to the Prospectus for more information about the Sustainable Finance Disclosure Regulation ("SFDR") classification of the Fund.

The Fund does not intend to distribute dividends. Any income arising from the Fund's investments is reinvested and reflected in the value of your shares. However, the annual general meeting of shareholders may decide to distribute such income.

INTENDED RETAIL INVESTORS

The product may be suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 5 years.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

What happens if Lemanik Asset Management S.A. is unable to pay out?

Lemanik Asset Management S.A. is not making any payment to you in relation to this Fund and you would still be paid in case of a default from Lemanik Asset Management S.A.

The Fund's assets are held with CACEIS Investor Services Bank S.A. and are segregated from the assets of other sub-funds of the Company. The assets of the Fund cannot be used to pay the debts of other sub-funds of the Company.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does.

The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested

| | | |
|---------------------------------|---------------------------------|----------------------------------|
| Investment of EUR 10 000 | If you exit after 1 year | If you exit after 5 years |
| Total costs | EUR 533 | EUR 1 936 |
| Annual cost impact (*) | 5.3% | 3.0% |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.2% before costs and 5.2% after costs.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Please refer to the Prospectus for more information on the specific risks relevant to the product not included in the summary risk indicator.

This product does not include any protection from future market performance, so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Composition of costs

| One-off costs upon entry or exit | | If you exit after 1 year |
|---|--|--------------------------|
| Entry costs | Up to 3.00% of the amount you pay in when entering this investment. This is the highest you could be charged. The person selling you the product will inform you of the actual charge. | Up to EUR 300 |
| Exit costs | We do not charge an exit fee for this product. | EUR 0 |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 1.94% of the value of your investment per year. This is an estimate based on actual costs over the last year. | EUR 194 |
| Transaction costs | 0.16% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | EUR 16 |
| Incidental costs taken under specific conditions | | |
| Performance fees | 15% of the aggregate appreciation in value above MSCI Italy Gross Return Index. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years. | EUR 23 |

How long should I hold it and can I take my money out early?

Recommended holding period (RHP): 5 years.

The RHP was chosen to provide a consistent return less dependent on market fluctuations.

Redemptions are possible every Bank Business Day (a day on which banks are generally open for business in Luxembourg). All redemption requests must be received in good order by the Registrar and Transfer Agent prior to 2 p.m (Central European time) on one (1) Bank Business Day preceding the relevant Valuation Day (each Bank Business Day). Redemption proceeds shall be paid in the relevant reference currency usually within three (3) Bank Business Days following the relevant Valuation Day.

How can I complain?
