This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

LGT Crown Managed Futures Sub-Fund (the "Fund") a sub-fund of the Crown Alpha plc (the "AIF") Class A (USD) – ISIN/Valor: IE00B3V2HP91/10451595

This Fund is managed by LGT Capital Partners (Ireland) Limited (the "AIFM").

1. Objectives and Investment Policy

The investment objective of the Fund is to achieve long-term capital growth with principles designed to minimise the risk of capital loss. The Fund will seek to achieve the investment objective by investing up to 84% of its NAV in Crown Managed Futures Masters Segregated Portfolio ("Crown Managed Futures"). Crown Managed Futures is a segregated portfolio of Crown Alternative Strategies SPC, a Cayman Islands segregated portfolio company. Crown Managed Futures invests in CTA/Macro managers through relevant segregated portfolios of Crown Managed Accounts SPC, a Cayman Islands segregated portfolio company. The CTA/Macro managers attempt to opportunistically and/or systematically exploit pricing imbalances and/or trends in various instruments and derivatives thereof. The underlying markets include – but are not limited to – interest rates, equities, currencies, metals and agricultural and other commodities on a global or regional basis. The Fund may also invest up to 50% of its NAV in Crown Cash Management plc which is an

Irish, open-ended investment company, the investment objective of which is to generate income and capital appreciation by investing in money market instruments, debt securities and debt related instruments. The Fund may invest in derivatives (financial instruments derived from other securities or assets) for hedging purposes and for the purpose of implementing overlay strategies. The Fund's portfolio is actively managed. The Fund is not managed in reference to a benchmark. The Fund may have positions in cash and cash equivalents. Investors may on a weekly basis subscribe for shares of the Fund and may on a weekly basis redeem shares of the Fund. Any income generated by the Fund is reinvested in the Fund, which increases the value of the shares. The portfolio transaction costs may have a material impact on performance. The Fund may not be appropriate for investors who plan to withdraw their money within less than 5 years.

2. Risk and Reward Profile

asset, and/or increased leverage.

For further information on the Fund's risks, please refer to the detailed description in the prospectus.

The Fund has been classified as **category 5**, as its unit price usually fluctuates strongly, which means that both the risk of loss and profit opportunities are relatively high.

The following are typical risks to which the fund may be exposed:

- Market risks:** The risk of losses in an investment arising from adverse movements in market prices.
- Liquidity risks:** The risk that the Fund is unable to meet short term financing demands or has to sell investment securities at lower price levels under the condition of reduced market demand.
- Operational risks:** The risk of the Fund incurring losses as a result of inadequate or failed processes, people or systems failures, or from external or force majeure events.
- Political and legal risks:** The risk of change in rules and standards applied in the jurisdiction of an asset of the Fund. This includes restrictions on currency convertibility, the imposition of taxes or transaction controls, limitations on property rights or other legal risks. Investments in less developed financial markets may expose the Fund to increased operational, legal and political risk.
- Credit / counterparty risks:** The risk that a counterparty fails to meet contractual financial obligations on a timely basis.
- Currency risks:** The risk of losses arising from currency fluctuations, in case the currency of an asset is different from the Fund and/or investor's investment currency.
- Derivative risks:** The risk of losses from an investment in derivatives, due to high sensitivity to price movements of the underlying
