This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## LGT Sustainable Money Market Fund (EUR) (the "Fund") a sub-fund of the LGT Funds SICAV (the "UCITS") Class (EUR) B – ISIN/Valor: LI0015327740/1532774

This Fund is managed by LGT Capital Partners (FL) Ltd (the "Manager").

### 1. Objectives and Investment Policy

The Fund is a standard variable net asset value money market fund. The objective of this Fund is to achieve reasonable capital growth. The Fund will seek to achieve this by investing primarily in interest-bearing debt securities or equivalent securities and debt instruments issued by borrowers worldwide to raise short-term funds (money market instruments). Investments may also be made in forward contracts (contracting and settlement do not take place at the same time) or term deposits (deposits with a pre-agreed term and a fixed interest rate) with banks as well as in other similar funds. The investments have a weighted average remaining time to maturity of max. 6 months resp. final maturity of max. 12 months. Investments may only be made in securities with a remaining time to maturity before payout of the nominal value of not more than 2 years whose

next interest rate adjustment date must not be later than 397 days after the time of the investment. The Fund may invest in derivatives (financial instruments derived from other securities or assets) for hedging purposes. Environmental, social and governance ("ESG") aspects are considered as part of the Fund's investment process. The Fund's portfolio is actively managed. The Fund is not managed in reference to a benchmark. Investors may on a daily basis subscribe for shares of the Fund and may on a daily basis redeem shares of the Fund. Any income generated by the Fund is reinvested in the Fund, which increases the value of the shares. The portfolio transaction costs may have a material impact on performance. The Fund may not be appropriate for investors who plan to withdraw their money within less than 1 years.

### 2. Risk and Reward Profile

Typically lower rewards and lower risk

Typically higher rewards and higher risk

- This risk indicator is based on historical data; future developments can therefore not be predicted. The classification of the Fund may change in the future and is not a guarantee.
- The lowest category does not mean "risk free".

tailed description in the prospectus.

The Fund has been classified as **category 1**, as its unit price usually fluctuates very little, which means that both the risk of loss and profit opportunities are very low.

The following are typical risks to which the fund may be exposed:

- Market risks:** The risk of losses in an investment arising from adverse movements in market prices.
- Liquidity risks:** The risk that the Fund is unable to meet short term financing demands or has to sell investment securities at lower price levels under the condition of reduced market demand.
- Operational risks:** The risk of the Fund incurring losses as a result of inadequate or failed processes, people or systems failures, or from external or force majeure events.
- Political and legal risks:** The risk of change in rules and standards applied in the jurisdiction of an asset of the Fund. This includes restrictions on currency convertibility, the imposition of taxes or transaction controls, limitations on property rights or other legal risks. Investments in less developed financial markets may expose the Fund to increased operational, legal and political risk.
- Credit / counterparty risks:** The risk that a counterparty fails to meet contractual financial obligations on a timely basis.
- Issuer default risk:** The risk of losses of an investment in debt securities or equivalent due to the issuer becoming insolvent.
