What is this product?

Type:

This product is a UCITS fund which is structured as an umbrella investment company with segregated liability authorized by the Central Bank of Ireland.

Term:

The Fund is an open-ended UCITS and has an indefinite duration. The Fund may be terminated at any time upon two weeks' notice to shareholders.

Objectives: The investment objective of the Fund is to seek income and capital appreciation to produce a high total return while pursuing sustainable investments.

The Fund will invest in the securities of issuers that Lord, Abbett & Co. LLC (the “Investment Manager”) believes are sustainable investments and in the securities of issuers that the Investment Manager believes have, or will have, a positive impact on the climate, in each case through the issuer's operations or the products and services provided by the issuer and/or the issuer's proposed use of the proceeds of the issue.

The Fund invests primarily in investment grade debt securities (with a minimum rating within the top four tiers assigned by a regulated rating agency or equivalent) but may invest up to up to 30% of its Net Asset Value in high yield debt securities (which are below investment grade and commonly referred to as “junk bonds”) (“High Yield Debt Securities”). The Fund will invest in debt securities issued by public sector or government sponsored entities, corporate debt securities and U.S. and Non-U.S. (including emerging market) debt securities, including bonds (fixed and/or floating rate), treasury notes, structured notes (which may embed leverage) and debentures.

The Fund may invest in equity-related debt securities such as convertible bonds, preferred stocks and debt securities with warrants, and mortgage backed, mortgage-related and asset-backed securities.

The Fund may invest up to 10% of its Net Asset Value in short-term floating or adjustable-rate loans including bridge loans. The Fund's investments in loans may include senior loans, second liens or other subordinated loans.

The Fund may invest up to 10% of its net assets in other open-ended regulated collective investment schemes which have investment policies consistent with the investment policies of the Fund. The Fund may invest in financial derivative instruments (“FDIs”). The Fund may use FDIs to seek to enhance returns, to attempt to hedge some of its investment risk, to manage portfolio duration, or as a substitute for holding the underlying reference asset on which the FDI is based.

Any income less expenses realised will only be distributed to investors in distributing classes and will be accumulated in the net asset value per share for accumulation classes.

The Fund is actively managed and is not managed in reference to an index although it uses ICE BofA Green Bond Index Hedged CHF and the Bloomberg Barclays Global Aggregate Bond Index for performance comparison purposes.

Investors can redeem shares each day (except Saturdays, Sundays, and normal bank holidays) on which banks in Dublin and New York are open for regular business.

For full investment objective and policy details, please refer to the “Investment Objective” and “Investment Policies” sections of the Fund's supplement to the Prospectus of the Company (the “Prospectus”). Unless otherwise expressly defined herein, defined terms have the same meaning assigned in the Prospectus.

This share class is an accumulating share class and the Directors intend to accumulate and to reinvest all earnings, dividends and other distributions.
