

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you to understand the nature and the risk of this fund. You are advised to read it so you can make an informed decision about whether to invest.

Lord Abbett Climate Focused Bond Fund - Class Z USD Accumulating - ISIN: IE00BFNXSC85

a Class of a sub-fund of Lord Abbett Passport Portfolios plc (the "Company")

The Company is managed by Lord Abbett (Ireland) Ltd. (the "Manager")

Objectives and Investment Policy

The investment objective of the Fund is to seek income and capital appreciation to produce a high total return while pursuing sustainable investments.

The Fund will invest in the securities of issuers that the Investment Manager believes are sustainable investments and in the securities of issuers that the Investment Manager believes have, or will have, a positive impact on the climate, in each case through the issuer's operations or the products and services provided by the issuer and/or the issuer's proposed use of the proceeds of the issue.

The Fund invests primarily in investment grade debt securities (with a minimum rating within the top four tiers assigned by a regulated rating agency or equivalent) but may invest up to up to 30% of its Net Asset Value in high yield debt securities (which are below investment grade and commonly referred to as "junk bonds") ("High Yield Debt Securities"). The Fund will invest in debt securities issued by public sector or government sponsored entities, corporate debt securities and U.S. and Non-U.S. (including emerging market) debt securities, including bonds (fixed and/or floating rate), treasury notes, structured notes (which may embed leverage) and debentures.

The Fund may invest in equity-related debt securities such as convertible bonds, preferred stocks and debt securities with warrants, and mortgage backed, mortgage-related and asset-backed securities (structured products that pool together assets such as mortgages, bonds, and loans and repackage these asset pools into discrete portions that can be sold to investors).

The Fund may invest up to 10% of its Net Asset Value in short-term floating or adjustable rate loans including bridge loans (short-term loan arrangements made by a borrower in anticipation of intermediate-term or long-term permanent financing), novations, assignments or participations. The Fund's investments in loans may include senior loans, second liens or other subordinated loans. The Fund's investments will include labeled "green" bonds (certified as earmarking proceeds for climate and environmental projects) and

unlabeled "green" bonds (climate-aligned bonds without formal certification).

In addition to relying on the verification of labeled green bonds, the Investment Manager will use carbon emission data from third parties, where available, and its own fundamental analysis to determine an issuer's impact on, and contribution to, the environment and to monitor and report on the overall emissions profile of the Fund.

The Fund may invest up to 10% of its net assets in other open-ended regulated collective investment schemes which have investment policies consistent with the investment policies of the Fund. The Fund may invest in financial derivative instruments ("FDIs"), which are two-party contracts whose values depend on the rise and fall of an underlying reference asset or index. The Fund may use FDIs to seek to enhance returns, to attempt to hedge some of its investment risk, to manage portfolio duration, or as a substitute for holding the underlying reference asset on which the FDI is based. Leverage of up to 100% of assets may be obtained using FDIs.

Any income less expenses realised will only be distributed to investors in distributing classes and will be accumulated in the net asset value per share for accumulation classes.

The Fund is actively managed and is not managed in reference to an index although it uses ICE BofA Green Bond Index (GREN) and the Bloomberg Barclays Global Aggregate Bond Index for performance comparison purposes.

Investors can redeem shares each day (except Saturdays, Sundays, and normal bank holidays) on which banks in Dublin and New York are open for regular business.

For full investment objective and policy details, please refer to the "Investment Objective" and "Investment Policies" sections of the Fund's supplement.

Recommendation: This Fund may be appropriate as a long-term investment option.

Risk and Reward Profile

The Fund is in category 3, as it invests primarily in debt instruments of investment grade and it may also invest up to 30% in High Yield Debt Securities, which may result in higher levels of price fluctuation than if it invested only in investment grade debt securities.

The risk indicator was calculated using simulated data and may not be a reliable indication of the future risk profile of the Fund. The risk category shown is not guaranteed and may change over time.

In pursuing its investment objective the Fund will be exposed to additional risks including without limitation:

Credit Risk: the failure of a counterparty or an issuer of a financial asset held within the Fund to meet its payment obligations will have a negative impact on the Fund.

High Yield Risk: High Yield Debt Securities typically pay a higher level of income but generally involve greater credit risk and sensitivity to economic developments than investment grade debt securities.

Mortgage and Asset-Backed Securities Risk: impairment of the value of underlying assets of mortgage-backed securities may result in a reduction of the security and a financial loss to the fund.

Liquidity Risk: there may be insufficient buyers or sellers to allow the Fund to buy or sell certain types of securities readily.

Issuer Risk: the issuer of a security may fail to pay interest or principal on time, or negative market perceptions of an issuer's ability to make such payments could cause the security to decline in value causing a financial loss to the Fund.

FDI Risk: the use of FDIs may create leverage leading to greater fluctuations in assets as well as potentially resulting in gains or losses that are greater than the amount originally invested in FDI.

Counterparty Risk: a party with whom the Fund contracts for securities or to safekeep the Fund's assets held may fail to meet its obligations or become bankrupt which may expose the Fund to a financial loss.

Currency Risk: changes in exchange rates may reduce or increase the returns an investor might expect to receive independent of the performance of such assets.

Climate-Focused Investing Risk: The Fund is subject to the risk that its climate-focused investment strategy may select or exclude securities of certain issuers for reasons other than investment performance considerations. As a result, the Fund may underperform funds that do not utilize a climate-focused investment strategy.

Interest Rate Risk: when interest rates rise, bond prices may fall, reflecting the ability of investors to obtain a more attractive rate of interest on their money elsewhere.

Non-U.S. Risk: investment in non-U.S. markets including emerging markets may expose the Fund to more social, political, regulatory and currency risks than securities in developed markets.

Share Currency Designation Risk: the performance of any unhedged classes may be affected by changes in the exchange rates between the currency denomination of any non-USD denominated unhedged class and the USD, the currency in which the Fund is denominated, as the Investment Manager will not purchase financial instruments to mitigate any such exchange rate fluctuations.

For more information on risks please refer to the "Investment Risks and Special Considerations" section of the Company's prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest:	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested or the proceeds of your investment are paid out.	
Charges taken from the fund over a year:	
Ongoing charge	0.70%
Expense Limitations	0.70%
Charges taken from the fund under certain specific conditions:	
Performance fee	None

The entry and exit charges shown are the maximum charges you may pay. In some cases you may pay less – you can find this out from your financial advisor.

The ongoing charges figure, which is based on last year's expenses, is subject to a commitment by the Manager to limit ongoing charges of the share class to the expense limitation. This commitment may be lifted at any time upon prior notice to shareholders. The ongoing charges exclude portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking. This figure may vary from year to year. The exact charges will be included in the financial statements for each year.

For more information about fees and expenses, please see the section titled "Fees and Expenses" of the Company's prospectus and the Supplement prepared for the Fund available from the Manager at www.passportportfolios.com.

Past Performance

Performance data quoted reflects past performance which was achieved under circumstances that no longer apply following a material change of investment policy during 2020, and is no guarantee of future results. The performance of the benchmark used for comparison purposes during the period preceding the change, Bloomberg Barclays U.S. Aggregate Bond Index, is also shown. Current performance may be higher or lower than the performance quoted. The net asset value performance shows the annual total returns of the share class after the payment of ongoing charges and transaction costs but excluding any entry or exit fees. The investment return and principal value of an investment in the share class will fluctuate so that shares, on any given day or when redeemed, may be worth more or less than their original cost.

The Fund was authorised on 06 February 2014. The share class was launched on 14 October 2014.

Past performance is calculated in USD.

Practical Information

The Fund's assets are held with its depositary, Brown Brothers Harriman Trustee Services (Ireland) Limited.

The Investment Manager is Lord, Abnett & Co. LLC.

The current share price and further information on the Fund (including the current prospectus and the most recent financial statements prepared for the Company as a whole), as well as information on other share classes of the Fund and other sub-funds of the Company are available at www.passportportfolios.com or from the Manager in English free of charge.

The up-to-date remuneration policy of the Manager, which describes how remuneration and benefits are determined and awarded, is available at www.passportportfolios.com. Paper copies are available free of charge from the office of the Manager on request.

The Fund is subject to Irish taxation legislation which may have an impact on the personal tax position of an investor in the Fund. Investors should consult their own tax advisers before investing in the Fund.

The Fund is a sub-fund of the Company, an open-ended investment company with segregated liability between sub-funds. This means that the assets of the Fund cannot be used to pay the liabilities of other sub-funds of the Company.

Shares in the Fund may be switched for the shares of another share class of the Fund or another sub-fund of the Company, subject to certain conditions and meeting the requirements for investment in such other share classes or sub-funds. See the section titled "Conversion of Shares" of the Company's prospectus for more information.

The Manager may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Company's prospectus.

In Switzerland, the representative is ACOLIN Fund Services AG, Leutschenbachstrasse 50, CH-8050 Zurich, whilst the paying agent is Bank Vontobel Ltd, Gotthardstrasse 43, CH-8022 Zurich. The prospectus, the key investor information documents, the articles of association as well as the annual and semi-annual reports may be obtained free of charge from the representative.
