What is this product?

Type:

This product is a UCITS Fund which is structured as an umbrella investment company with segregated liability authorized by the Central Bank of Ireland.

Term:

The Fund is an open-ended UCITS and has an indefinite duration. The Fund may be terminated at any time upon two weeks' notice to shareholders.

Objectives: The Fund's investment objective is to seek a high current income and the opportunity for capital appreciation to produce a high total return.

The Fund primarily invests in high yield debt securities (also referred to as “junk bonds”). The Fund may invest up to 20% of its net assets in non-U.S. debt securities. The Fund may also invest in investment grade debt securities.

The debt securities primarily include bonds, inflation-linked securities, stripped debt securities (securities in which the principal and interest are separately sold), mortgage-backed securities, mortgage related securities, asset-backed securities and collateralised debt Obligations. The Fund may also hold equity securities of companies of any market capitalisation range in limited circumstances.

In pursuing its investment objective, the Fund may use financial derivative instruments (“FDIs”) to seek to enhance returns, to attempt to hedge some of its investment or currency risk, to manage portfolio duration, or as a substitute for holding the underlying reference asset on which the FDI is based.

Any income less expenses realised will only be distributed to investors in distributing classes and will be accumulated in the net asset value per share for accumulation classes.

The Fund is actively managed. It uses the ICE BofA U.S. High Yield Constrained Index for performance comparison purposes.

Investors can redeem shares each day (except Saturdays, Sundays, and normal bank holidays) on which banks in Dublin and New York are open for regular business.

For full investment objective and policy details, please refer to the “Investment Objective” and “Investment Policies” sections of the Fund's supplement to the Prospectus of the Company (the “**Prospectus**”).

This Fund may not be appropriate for investors who plan to withdraw their money within 5 years. The Fund is intended for investors: (i) with knowledge and/or experience of these types of products; (ii) that have obtained appropriate investment advice; and (iii) that have the ability to bear losses up to the amount they have invested in the Fund.

The Fund's assets are held through its depositary, which is Brown Brothers Harriman Trustee Services (Ireland) Limited (the “**Depositary**”).

The Fund is a sub-fund of the Company, an open-ended investment company with segregated liability between sub-funds. This means that the assets of the Fund cannot be used to pay the liabilities of other sub-funds of the Company.

Shares in the Fund may be switched for the shares of another share class of the Fund or another sub-fund of the Company, subject to certain conditions and meeting the requirements for investment in such other share classes or sub-funds. See the section titled “Conversion of Shares” of the Prospectus for more information.

What are the risks and what could I get in return?

Risk Indicator

 The risk indicator assumes you keep the product for at least 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level and poor market conditions are unlikely to impact the value of your investment. The risk category shown is not guaranteed and may shift over time.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the Prospectus available at www.lordabbett.com/LordAbbettGlobalFunds.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor / and includes the costs of your advisor or distributor.
