Amundi S&P 500 VIX Futures Enhanced Roll UCITS ETF Acc

A Sub-Fund of MULTI UNITS LUXEMBOURG
LU0832435464 - Currency: EUR

This Sub-Fund is authorised in Luxembourg.

Management Company: Amundi Luxembourg S.A. (hereafter: "we"), a member of the Amundi Group of companies, is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

The CSSF is responsible for supervising Amundi Luxembourg S.A. in relation to this Key Information Document.

What is this product?

Type: Shares of a Sub-Fund of MULTI UNITS LUXEMBOURG, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: The Fund is an index-tracking UCITS passively managed.

The investment objective of the Fund is to track both the upward and downward evolution of the "S&P 500 VIX Futures Enhanced Roll Index" (the "Benchmark Index"), denominated in US Dollars (USD), representative of the movement of the futures contracts market, as listed on the Chicago CBOE pertaining to the implicit volatility of the S&P 500 Index, while minimizing the volatility of the difference between the return of the Fund and the return of the Benchmark Index (the "Tracking Error").

The anticipated level of Tracking Error in normal market conditions is indicated in the prospectus of the Fund.

The website <https://us.spindices.com/> contains more detailed information about the Benchmark Index.

For exposure to be maintained, the futures contract positions must be "rolled". Rolling futures contracts consists of transferring a position on futures contracts nearing maturity (and, in any case, before expiry of the futures contracts) onto futures contracts with a longer maturity.

Investors are exposed to a risk of loss or gain arising from the roll operation on the futures contracts.

The Fund seeks to achieve its objective via indirect replication by entering into an over-the-counter swap contract (financial derivative instrument, the FDI").

The Fund may also invest in a diversified portfolio of international equities, whose performance will be exchanged against the performance of the benchmark Index via the FDI.

Updated composition of the Fund holdings is available on www.lyxoretf.com.

In addition, the indicative net asset value is published on the Reuters and Bloomberg pages of the Fund, and might also be mentioned on the websites of the stock exchanges where the Fund is listed.

Intended Retail Investor: This product is intended for investors, with a good knowledge of and experience of investing in funds, with the ability to bear losses up to the amount invested.

Redemption and Dealing: The Sub-Fund's shares are listed and traded on one or more stock exchanges. In normal circumstances, you may deal in shares during the trading hours of the stock exchanges. Only authorised participants (e.g., selected financial institutions) may deal in shares directly with the Sub-Fund on the primary market. Further details are provided in the MULTI UNITS LUXEMBOURG prospectus.

Distribution policy: As this is a non-distributing share class, investment income is reinvested. The accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

More Information: You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: Amundi Luxembourg S.A. at 5, allée Scheffer 2520 Luxembourg, Luxembourg.

The Net Asset Value of the Sub-Fund is available on www.amundi.lu.

Depository: Societe Generale Luxembourg.
