What is this product?

Type

The Fund is a sub-fund of the Company, a UCITS authorised by the Central Bank, and this KID describes the share class above and the Fund.

Term

The Fund has no fixed maturity date, however it may be terminated in certain circumstances described in the Prospectus, including if the Net Asset Value ("NAV") of the Fund falls below US\$50 million. This share class may be terminated where its NAV falls below US\$10 million.

Objectives

Investment Objective

The Fund's objective is to provide medium to long term capital growth.

Investment Policy

The Fund will typically hold between 25-35 positions.

The Fund is a concentrated long-only fund which invests in shares of European companies (or companies which derive a predominant part of their revenues from activities in Europe). The Investment Manager, through the application of detailed screening criteria, seeks to invest in companies which are either established market leaders in their industries or which demonstrate a competitive advantage in new and underdeveloped markets with the majority of the portfolio invested in the former.

The Fund will have a Pan-European focus including the UK and will not focus on any industry or sector.

The Fund may actively use financial derivative instruments (ie instruments whose prices are dependent on one or more underlying assets ("FDI")) to achieve the investment objective, for hedging against anticipated movements in a market or a security, or where it is more economically effective than directly holding the underlying asset.

The Portfolio will seek to outperform the MSCI Europe Index.

Benchmarks. The Fund is actively managed. The Fund does not intend to track the MSCI Europe Index and is not constrained by it. The Benchmark is being used by the Fund for risk management purposes to ensure that the Fund is managed in a manner consistent with its investment objective and risk profile. The investment manager will manage global exposure of the Fund {Portfolio} to within 200% of the Benchmark's value-at-risk ("VaR"). The VaR of a portfolio is a daily estimation of the maximum loss which a fund may incur over a 1 day period. The risk management function of the Investment Manager will perform additional monitoring of positions in the fund relative to weights in the benchmark. Relative weights will be assessed with reference to a threshold which may be updated from time to time. Other risk monitoring may include tracking error versus the Benchmark as well as relative sector and/or country weights versus the Benchmark. While the Fund will focus on individual issuers that may or may not belong to the Benchmark, such investment may be in different weights than those used by the Benchmark. The above factors, considered together, may influence the extent to which the Portfolio deviates from the Benchmark

and such deviation may be significant. The Benchmark is also used for performance comparison purposes.

The Fund may also invest up to one third in a number of other assets including money market instruments, debt securities, other funds, cash and other liquid assets. Debt securities can be issued by either government or corporate issuers. The Fund may increase its holdings of cash and other liquid assets in times of market turbulence.

The Fund promotes, among other characteristics, environmental and social characteristics within the meaning of Article 8 of the Sustainable Finance Disclosure Regulation (SFDR). The Investment Manager also applies an exclusion list of controversial stocks or industries which may be related to arms and munitions, nuclear weapons, tobacco and coal-oriented activities.

Investment in the Fund may be suitable for investors seeking medium to long-term capital growth with an investment horizon of at least five years.

Share Class Policy:

Any income earned on investments will be added to the value of investors' shares.

The Fund may actively use FDI to provide investors with the currency risk associated with the underlying investments of the Fund, or of an appropriate benchmark.

Processing of subscription and redemption orders

Investors can buy and sell their shares on each Dealing Day of the Fund.

Intended retail Investor

This Fund is suitable for all types of retail investors that can accept a risk of investment losses of up to but not more than the amount originally invested. Potential investors need not have prior financial markets experience or knowledge to invest in this fund, although potential investors may wish to seek independent financial advice prior to investing in the Fund if unsure. Potential investors should be able to hold this investment for at least 5 years and should ensure that they are happy to accept the risk level indicated by the provided SRI measure.

Depositary

The Depositary of the Company is The Bank of New York Mellon SA/NV, Dublin Branch.

Further Information

Additional information related to the Fund is located in the Prospectus which is produced in an official language of the jurisdictions in which the Fund is registered for public sale. The Prospectus is available together with the most recent financial statements, information on other share classes and the latest share prices free of charge at <https://www.man.com/>. The periodic reports are prepared in respect of the Company. The Company is established as an umbrella fund with segregated liability between sub-funds under Irish law. The shares may be exchanged for shares in another sub-fund in accordance with the Prospectus.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will

lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of the Fund to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

For other risks materially relevant to the Fund which are not taken into account in the summary risk indicator, please read the Fund's Annual Report or Prospectus available at <https://www.man.com/documents>.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and the suitable benchmark over the last 10 years. Markets could develop very differently in the future.

What happens if Man Asset Management (Ireland) Limited is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary. In the event of the insolvency of the PRIIPs Manufacturer, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations). If the Fund is not able to pay out what you are owed, you are not covered by any investor compensation or guarantee scheme and you may face financial loss. There is no compensation or guarantee scheme protecting you from a default of the Fund's depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10 000,00

	If you exit after 1 year	If you exit after 5 years
Total costs	€190	€1194
Annual cost impact (*)	1.9%	1.9% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9,1% before costs and 7,2% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This product has no required minimum holding period but is designed for long-term investment; you should have an investment horizon of at least 5 years. You may buy or sell shares in the product, without penalty, on any normal business day by submitting a subscription or redemption request in the manner set out in the Prospectus. Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the shares. If you cash in at an early stage this will increase the risk of lower investment returns or a loss.
