

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Mercer Diversified Growth Fund (the "Fund")

a sub-fund of MGI Funds plc (the "Umbrella")

Class M5 EUR Hedged (IE00BGSH7B43) (the "Share Class")

Mercer Diversified Growth Fund is authorised in Ireland and regulated by the Central Bank of Ireland.

This product is managed by Mercer Global Investments Management Limited (the "Manager"), an indirect wholly owned subsidiary of Marsh McLennan and a member of the Mercer Global Investments group, which is authorised in Ireland and regulated by the Central Bank of Ireland as a UCITS Management Company. The Central Bank of Ireland is responsible for supervising the Manager in relation to this Key Information Document. For more information on this product, please refer to <https://investment-solutions.mercer.com> or contact the Manager on +353 1 603 9700

Dated: 20 March 2023

What is this product?

Type

This product is a UCITS Investment Fund.

Term

This product has no fixed end date. However the Fund, at its absolute discretion, can redeem all the shares of the Fund under the circumstances set out in the prospectus.

Objectives

Investment objective The investment objective of the Fund is to seek long-term growth of capital and income.

Investment policies The Fund will seek to achieve its investment objective primarily by holding a range of Underlying Funds which in turn invest in assets including shares, equity interests, fixed and floating rate bonds issued by government and other corporate entities and indices on which commodities such as energy, agricultural and industrial products and precious metals are traded. The Fund can invest up to 100% of its assets in other collective investment schemes which fall within the categories specified by the Central Bank of Ireland as permissible investments for UCITS ("Underlying Funds") which are consistent with the Fund's investment objectives and restrictions, but no more than 20% may be invested in any one Underlying Fund. Additionally, when it is determined to be the best approach, the Fund may also invest in such assets directly.

The Fund seeks to promote environmental characteristics within the meaning of Article 8 of the Sustainable Finance Disclosure Regulation ("SFDR"), namely, to seek to mitigate the impact of climate change through progressive decarbonisation within the Fund's portfolio. The Investment Manager relies on specific analyses to assess the Fund's current and future potential alignment to the decarbonisation expectations. Climate scenario research and modelling is used to assess the future impact of certain climate change scenarios, and forward-looking portfolio analytics and bottom-up assessment of holdings are used to examine the impact of any proposed investment decisions on the carbon exposure of the Fund. In addition, the Fund will have exposure to sustainable investments either directly or through investment in Underlying Funds. The Fund will invest at least 20% in sustainable investments, being investments which, according to the Investment Manager's framework: (a) contribute positively to UN Sustainable Development Goals ("SDGs"); (b) do no significant harm to any environmental or social objective; and (c) follow good governance practices.

The Fund is actively managed and will seek to outperform cash by 3.0% - 4.0%, gross of the fees of the Manager, the Investment Manager and the Distributor, but net of all other fees and expenses of the Fund, on average per annum over the medium to long term. For the purposes of the calculation of outperformance of cash, an appropriate rate has been used as detailed in the past performance document referred to in the "Other relevant information" section. The Fund is in no way constrained by any benchmark and there is no guarantee the Fund will outperform cash. The asset allocation views of the Investment Manager may be implemented through investment in Underlying Funds.

Underlying Funds can include other sub-funds of MGI Funds plc. The Fund may invest up to 20% of its assets in real estate investment trusts and up to 35% of its assets in Underlying Funds which invest in emerging markets securities. The Fund may invest no more than 30% in bonds which are rated below investment grade.

The Fund may use financial derivative instruments (instruments for which the price is dependent on one or more underlying asset, "FDI") up to a maximum of 20% of its assets. This can be to achieve the investment objective, to hedge a given investment or to hedge against anticipated movements in a market or other sector or to manage the portfolio more efficiently. FDI may enable the Fund to obtain market exposure in excess of the value of the Fund's assets.

The Fund may be leveraged up to 100% of its assets through FDI. The use of FDI may multiply the gains or losses made by the Fund on a given investment or on its investments generally.

Your shares will be hedged with the aim of mitigating the effect of exchange rate fluctuations between the currency of your share class and the currencies of the Fund's underlying assets. The currency hedging approach may not be successful, so changes in exchange rates may adversely impact the value of your investment.

Redemption and Dealing You can buy and sell shares in the Fund on demand each day which is a bank business day in Ireland or the United Kingdom ("Dealing Day").

Distribution Policy The Share Class will not distribute dividends. Income and capital gains from the Fund are reinvested.

Intended retail investor

Investors who have at least a basic understanding of financial markets and the underlying investment instruments, who understand the risk of the Fund including the risk of capital loss and that the product should not constitute a complete investment plan and:

- have a long term investment horizon
- seek a product which promotes environmental and/or social characteristics

Practical information

Depository The Fund's assets are held through its depository, State Street Custodial Services (Ireland) Limited.

Further information This document describes a Share Class of the Fund, which is a sub-fund of MGI Funds plc constituted as an umbrella, comprising a number of sub-funds (including the Fund), each having a separate portfolio of assets. As a matter of Irish law, the assets of one sub-fund will not be available to meet the liabilities of another. However, MGI Funds plc is a single legal entity that may operate, have assets held on its behalf, or be subject to claims in other jurisdictions that may not necessarily recognise such segregation. Accordingly, there is no absolute certainty that the assets of a sub-fund will not be exposed to the liabilities of other sub-funds of MGI Funds plc. Investors do not have the right to exchange shares in one sub-fund for shares in another sub-fund. The prospectus, latest annual and semi-annual reports, which are prepared for the entire Umbrella, and information on other share classes

are available free of charge in English on <https://investment-solutions.mercer.com>.

The net asset value per share is published on www.bloomberg.com.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between July 2021 and July 2022.

Moderate: this type of scenario occurred for an investment between November 2015 and November 2020.

Favourable: this type of scenario occurred for an investment between January 2016 and January 2021.

Recommended holding period		5 years	
Example Investment		10,000 EUR	
Scenarios		if you exit after 1 year	if you exit after 5 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	7,560 EUR -24.4%	6,740 EUR -7.6%
Unfavourable	What you might get back after costs Average return each year	8,880 EUR -11.2%	9,250 EUR -1.5%
Moderate	What you might get back after costs Average return each year	10,550 EUR 5.5%	12,580 EUR 4.7%
Favourable	What you might get back after costs Average return each year	12,830 EUR 28.3%	13,830 EUR 6.7%

What happens if Mercer Global Investments Management Limited is unable to pay out?

The Fund is responsible for paying redemptions and any other payment obligations due to investors. The Manager is not responsible for meeting the obligations of the Fund to investors from its own assets. The Fund's assets are safeguarded by the Depositary in accordance with applicable law. If the Fund is unable to pay out to investors due to its insolvency, investors will be unsecured creditors in the insolvency process and are likely to suffer a financial loss. Investors may also suffer a financial loss in the event of the Depositary's insolvency or default (or that of any custody delegate). Investors in UCITS, such as the Fund, are not covered under the terms of the Irish statutory investor compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	61 EUR	303 EUR
Annual cost impact*	0.6%	0.6%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.3% before costs and 4.7% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	0.00%, we do not charge an entry fee.	0 EUR
Exit costs	0.00%, we do not charge an exit fee.	0 EUR
Ongoing costs taken each year		Annual cost impact if you exit after 1 year
Management fees and other administrative or operating costs	0.40% of the value of your investment per year. This is an estimate of the cost impact of managing your investment, based on actual costs over the last year.	40 EUR
Transaction costs	0.21% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments of the Fund. The actual amount will vary depending on how much we buy and sell.	21 EUR
Incidental costs taken under specific conditions		Annual cost impact if you exit after 1 year
Performance fees	There is no performance fee for this Share Class however certain underlying investments held by the Fund may charge performance fees. Their impact to the Share Class is reflected here.	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This product is designed for long term investment; you should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty at any time during this period, or hold the investment longer. Redemptions are possible on any Dealing Day provided written instruction is received by the Administrator before 11.30am (Irish time). It will typically take 3 Business Days for you to be paid.

How can I complain?

Any complaints about the Fund, the conduct of the Manager or the person advising on, or selling the Fund, should be sent to DS.ClientSupport@mercer.com or addressed to Mercer Global Investments Management Limited at 70 Sir John Rogerson's Quay, Dublin 2, Dublin, D02R296, Ireland and will be dealt with in line with regulatory obligations and as quickly as possible. The Complaints Policy is available in the website at: <https://investment-solutions.mercer.com/global/all/en/investment-solutions-home/corporate-policies.html>
