What is this product?

TYPE OF PRODUCT

The product is a Sub-Fund of MFM Funds (Lux), an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However, the Directors may decide to close this product under certain circumstances.

OBJECTIVES

Objectives and investment policy

The Sub-Fund's investment objective is to produce consistent absolute returns with low volatility and risk in all market conditions, regardless of the direction of interest rates or default rates.

The Sub-Fund seeks to invest in a diversified range of long, short, relative value and paired opportunities. Some securities may be used to hedge or augment the portfolio's existing long or short exposure. Short positions are exclusively entered into through the use of financial derivative instruments.

The Sub-Fund will mainly be exposed to debt securities (including money market instruments) of any type, issued or guaranteed by European issuers (corporate entities or European countries and their public authorities).

The Sub-Fund will mainly invest:

- directly in the securities above-mentioned; and/or
- in financial derivative instruments having as underlying or offering an exposure to the above-mentioned securities.

Except the geographical focus, the choice of investments will neither be limited by an economic sector nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed on a single European country (or some European countries) and/or in a single currency and/or in a single economic sector.

On an ancillary basis, the Sub-Fund may invest in any other type of eligible asset, such as cash, debt securities other than those above-mentioned, equities and equity-related securities, undertakings for collective investment (UCIs).

However, investments in UCIs are limited to 10% of the Sub-Fund's net assets.

The Sub-Fund may:

- invest a substantial part of its net assets in European emerging markets.
- be exposed to investment grade and non-investment grade debt securities.
- invest up to 75% of its net assets in non-investment grade debt securities (or issuers).
- invest up to 10% of its net assets in distressed or defaulted debt securities (or issuers).
- invest up to 20% of its net assets in contingent convertible debt securities.
- invest up to 10% of its net assets in asset-backed/mortgage-backed securities.
- invest up to 10% of its net assets in structured products

If the investment manager considers this to be in the best interest of the shareholders, on a temporary basis and for defensive purposes, the Sub-Fund may also hold, up to 100% of its net assets, term deposits, money market UCIs (within the 10% above-mentioned limit) and money market instruments.

Derivatives For hedging and for any other purposes, the Sub-Fund may use all types of financial derivative instruments traded on a regulated market and/or over the counter. However, the investment manager intends to principally use credit default swaps, total return swaps and currency derivatives.

Benchmark The Sub-Fund is actively managed. The Sub-Fund has no benchmark index and is not managed in reference to a benchmark index.

Dividend Policy This Class is cumulative. Dividend distributions are not planned.

Share Class Currency The currency of the Class is GBP.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The return of the product is determined using the Net Asset Value (the "NAV") calculated by the Central administration. This return depends mainly on the market value fluctuations of the underlying investments.

INTENDED RETAIL INVESTORS

The product is reserved for institutional investors. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 5 years.

OTHER INFORMATION

Depository Pictet & Cie (Europe) S.A. (the "Depository").

Asset segregation The assets and liabilities of each sub-fund are segregated by law, which means that the performance of the assets in other sub-funds does not influence the performance of your investment.

Dealing The Net Asset Value for the Class is calculated on Thursday in Luxembourg (or the following business day if Thursday is not a business day) (the "Calculation Day"), on the basis of the prices as of the preceding business day (the "Valuation Day"). The cut-off time to submit subscriptions/ redemptions orders is 12 noon Luxembourg time on the bank business day preceding the Valuation Day.

Switching Shareholders may apply for any share of any sub-fund to be converted into shares of another sub-fund, provided that the conditions for accessing the target class, type or sub-type, are fulfilled with respect to this Sub-Fund, on the basis of their respective net asset value calculated on the valuation day following receipt of the conversion request. The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus. For more details about how to switch between sub-funds, please refer to the prospectus, section which details the switch between sub-funds.

Additional Information More detailed information on this Sub-Fund, such as the prospectus, other classes, the key information, the latest Net Asset Value, the articles of incorporation as well as the latest annual and semi annual report, can be obtained free of charge, in English, from the central administrator, the distributors, the Management Company or online at www.fundsquare.net.

This key information document describes the Class of one Sub-Fund of the Fund. For more information about other sub-funds, please refer to the prospectus and periodic reports that are prepared for the entire Fund.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if your cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

We have classified this product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Please refer to the prospectus for more information on the specific risks relevant to this product not included in the summary risk indicator.

This product does not include any protection from future market performance, so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Recommended holding period (RHP): Example investment		5 years GBP 10,000		
		If you exit after 1 year	If you exit after 5 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs Average return each year	GBP 8,450 -15.5%	GBP 6,800 -7.4%	
Unfavourable scenario	What you might get back after costs Average return each year	GBP 9,350 -6.5%	GBP 9,250 -1.6%	This type of scenario occurred for an investment in the proxy between November 2013 and November 2018.
Moderate scenario	What you might get back after costs Average return each year	GBP 9,760 -2.4%	GBP 9,880 -0.3%	This type of scenario occurred for an investment in the proxy then the product between June 2015 and June 2020.
Favourable scenario	What you might get back after costs Average return each year	GBP 11,800 18.0%	GBP 12,350 4.3%	This type of scenario occurred for an investment in the proxy then the product between March 2017 and March 2022.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to this Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depositary, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depositary's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depositary will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10,000 is invested

Investment of GBP 10,000	If you exit after 1 year	If you exit after 5 years
Total costs	GBP 462	GBP 1,265
Annual cost impact (*)	4.6%	2.4%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.1% before costs and -0.3% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this Class. The person selling you this product may charge up to 2.50%.	Up to GBP 250
Exit costs	We do not charge an exit fee for this Class. The person selling you this product may charge up to 0.25%.	Up to GBP 25
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.24% of the value of your investment per year. This is an estimate based on actual costs over the last year.	GBP 124
Transaction costs	0.20% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	GBP 20
Incidental costs taken under specific conditions		
Performance fees	Paid yearly to the investment manager and equals to 10.00% of the performance of the Net Asset Value per share exceeding the high water mark as defined in the prospectus. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	GBP 43

How long should I hold it and can I take my money out early?

Recommended holding period (RHP): 5 years.

The RHP was chosen to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The Net Asset Value for the Class is calculated on Thursday in Luxembourg (or the following business day if Thursday is not a business day) (the "Calculation Day"), on the basis of the prices as of the preceding business day (the "Valuation Day"). The cut-off time to submit subscriptions/ redemptions orders is 12 noon Luxembourg time on the bank business day preceding the Valuation Day.

How can I complain?

In the event a natural or legal person wishes to file a complaint with the Fund in order to recognize a right or to redress a harm, the complainant should address a written request that contains description of the issue and the details at the origin of the complaint, either by email or by post, in an official language of their home country to the following address:

FundPartner Solutions (Europe) S.A.,
