Principal Investment Manager's Report

Market Overview for the year ended 31 March 2023

2022 was another challenging year for Asian and emerging market (EM) equities, with the MSCI Emerging Markets Index down 10.63% (in USD terms) over the 2022-23 fiscal year (FY23). The cause of the poor performance was predominantly due to the two largest economies in the world – the US and China. In the West, the US consistently reported higher-than-expected inflation data through 2022, which led to an incrementally more hawkish US Federal Reserve. The strong dollar encouraged capital flows away from EM countries while simultaneously raising the cost of dollar-denominated debt and imports. In the East, the resurgence of Covid in China under the zero-Covid policy led to a delay in economic recovery and supply chain disruptions across the region. Together, these challenges led global investors to reduce their EM positions, driving valuations to historically low levels.

By the start of the new calendar year, China's sudden pivot to reopening was a welcome relief for its population and for investors. However, the pace and strength of recovery remain a looming question. Globally, the banking system faced a shake-up in March following a series of US regional bank collapses and UBS's last-minute rescue takeover of Credit Suisse. While rapid intervention by policymakers has limited the immediate fallout, it's clear that uncertainties remain in the macro environment as economic activity begins to slow.

Asia

In India, equities underperformed initially on rising interest rates and elevated inflation, then later due to concerns of global slowdown and recession risks. The headline consumer price index (CPI) remained above the government's 6% threshold for most of the year. Subsequently, the Reserve Bank of India raised the repo rate by 250bps throughout the year to 6.50%. While export sectors, especially IT services, saw gradual impacts due to the slowdown in global demand, India's domestic economy remained fairly resilient. Monthly goods and services tax (GST) revenues exceeded INR 1.4 trillion (~USD17 billion) for 12 consecutive months, with FY23 gross revenues up 22% year-on-year (y/y). Additionally, the government's 2023 Union Budget demonstrated a focus on balancing growth with fiscal prudence. Capital spending is budgeted to increase 33% y/y to INR 10 trillion (~USD120 billion), while the government also reiterated its intention to keep the fiscal deficit below 4.5% of GDP by 2025-26.

Korea was the worst-performing market in Asia over FY23, with equities down 14.41% (in USD terms). Given that Korea's economy is highly export-dependent, equity performance is strongly influenced by global growth and demand. Korean equities saw a slight uptick in May 2022 on improving investor sentiment following President Biden's visit to Korea. However, this was dampened in subsequent months as inflation ran high and central banks remained hawkish. Equity underperformance was also driven by foreign exchange headwinds, which saw the Korean Won depreciate ~6% against the US Dollar during the fiscal year. Pleasingly, Korean market sentiment has improved slightly in 2023 on expectations of a bottoming semiconductor cycle, while China's reopening has also encouraged a rebound in customs exports.

Similarly, in Taiwan, equities fell sharply over the first half of the fiscal year, correcting on concerns of a tech demand slowdown. Resilient results by leading IT players throughout the year were also overshadowed by the brewing geopolitical tensions between China and the US. However, as US CPI prints began to moderate towards the end of 2022, sentiment towards the tech industry improved with the de-risking of earnings expectations and anticipation of demand recovery from China's reopening. Export orders showed sequential improvement in January and February 2023 as mainland China's supply chain normalised, but the manufacturing Purchasing Managers' Index (PMI) remained in contraction, reflecting soft global demand conditions.

Countries in the ASEAN (Association of Southeast Asian Nations) region saw mixed performance over FY23. Commodity exporters like Indonesia saw strong equity outperformance thanks to resilient commodity prices. Indonesia's current account surplus increased significantly to USD13.2 billion (1% of GDP) in 2022, compared with a USD3.5 billion surplus (0.3% of GDP) in 2021, which has also helped the Rupiah remain relatively steady against the US Dollar. Thailand was another outperforming country relative to the index in FY23, thanks to its earlier tourism resumption, which was also later helped by China's reopening prospects. Elsewhere, ASEAN countries continued to benefit from the diversification of manufacturing away from China in 2022, while the zero-Covid policy caused uncertainties about supply chain disruption. Vietnam, for instance, is a great example of Asia's structural growth story as the country continued to gain new supply chain mandates from major companies, including the likes of Apple.

Principal Investment Manager's Report

Market Overview for the year ended 31 March 2023 (continued)

China

Chinese equity volatility continued in FY23, but performance improved markedly from the prior year's regulatory tightening. July to September was the worst-performing quarter for China, as a resurgence of Covid-19 cases and property development issues drove concerns over the country's delayed economic recovery. Investors became increasingly bearish in October as concern grew about the concentration of decision-making power in President Xi's new party, while geopolitical uncertainty intensified following the US semiconductor ban on China. Chinese internet companies, in particular, were hard hit due to the prolonged market rotation into cyclicals and concerns that ongoing Covid outbreaks would delay the long-awaited consumption rebound and growth. Elsewhere, margin pressure remained a concern for traditional consumer and auto names, driven by supply chain disruptions and inflation of raw material prices.

However, negative sentiment was quickly dispelled after the Chinese government delivered a sudden pivot to relax Covid control guidelines in November, which was followed by the complete lifting of most curbs by the year-end. Key drivers of performance at the start of 2023 included favourable policy shifts for internet, game approvals, and real estate, and the resumption of foreign investor inflows after record lows in 2022. Still, the path to economic recovery remains in a degree of uncertainty while low income growth and high unemployment rates weigh on consumer confidence.

GEM

Latin American equities saw mixed performance throughout FY23, affected by political instability, inflation, and slow economic growth. April to June was the worst-performing quarter, as Latin America equities declined 21.7%, whereas the subsequent quarters saw steady rebounds with gains of 3.70%, 5.95%, and 4.04%. Mexico was the strongest-performing market in Latin America, with an uptick towards to end of 2022 due to a weaker US dollar and progress in the manufacturing sector. The country also saw momentum for nearshoring drive economic activity in early 2023. Meanwhile, Colombia and Brazil delivered the weakest performance in Latin America due to weaker energy prices and uncertainties around country-specific political proposals from left-leaning leaders.

EEMEA (Eastern Europe, Middle East & Africa) equities also saw mixed performance in FY23. The region fell 17.0% in the April to June quarter, dragged down by Eastern Europe as Russia's invasion of Ukraine impeded post-pandemic recovery. Czech Republic was the only exception and was among the best-performing EM markets in FY23, thanks to one energy company representing roughly 68% of its concentrated benchmark. Despite falling energy prices, equities in the Middle East began the fiscal year with resilience, as markets like Qatar and Saudi Arabia hold currency pegs to the US Dollar. Higher interest rates also helped margins in the banking sector, while the region saw increased economic activity ahead of the much-anticipated World Cup in November. However, after a strong run, investors shifted to profit-taking towards the year-end. With weakening oil prices in 2023 and pullbacks in the banking sector due to the US/European banking turmoil, the Gulf countries ended the fiscal year with some of the lowest index performances.

Outlook for the next fiscal year

The global banking system saw a shake-up going into FY24, following a series of US regional bank collapses and UBS's last-minute rescue takeover of Credit Suisse. But rapid intervention by policymakers has meant that the fallout and contagion risk should not be very significant. Moreover, bad news can be interpreted as good news at this point in time, as these signs of slowdown should help bring inflation in check. As lending growth continues to slow, we believe that economic activity will be slower in the second half of 2023, and a shallow recession could be possible. Unlike previous cycles where over-investment was common, we believe that a recession this time around will be shallow, as the focus on reshoring and manufacturing build-up will be a priority as inflation comes under control. With this in mind, we expect economies to bottom out at a higher level than in previous recessions, meaning things will bounce back quickly.

For Asia, the downside effects arising from weaker trade would be partly offset by the easing financial conditions after the initial round of volatility, supported by a lower Fed policy path than what markets were pricing prior to the recent banking events. Easier financial conditions in Asia will help support domestic demand and guard against weaker external demand conditions. Thus, despite some slowdown, we expect the Asian growth differential will still be superior to Western developed markets, which should shine through in the second half of the year.

Principal Investment Manager's Report

Market Overview for the year ended 31 March 2023 (continued)

Outlook for the next fiscal year (continued)

There remain mixed views on China's recovery due to heightened geopolitical tensions, which has resulted in slow re-ratings even as preliminary 1QCY23 numbers appear decent. However, the strong 1Q GDP report points to a strong post-reopening recovery, attributable to a solid rebound in travel-related consumption and services, front-loaded macro policy support, stronger-than-expected export sector performance, and earlier-than-expected bottoming out of housing activity. There are some questions on China's maturing internet and e-commerce sector; however, in the near term, BABA's restructuring remains a positive catalyst, while Tencent's outlook has also improved with new game approvals – both of which are positive indicators for the overall sector.

In India, equities have done well to start the fiscal year on the back of positive 4QFY23 results and as the Reserve Bank of India maintains its rate hike hold. Although performance is also influenced by global demand sentiment, the country's current account deficit (CAD) is in a much healthier position than before, thanks to a rapid increase in services trade surplus, steady rise in remittances, and a reduction in the goods trade deficit as commodity prices moderate. This has led to the rapid narrowing of the CAD from a peak of 3.7% of GDP in Q2FY23 to 2.2% in Q3FY23, and it's forecast to turn into a surplus of 0.3% in Q4FY23. Considering this and the country's ongoing investment and infrastructure spending, we believe India remains well-positioned to deliver strong, sustainable growth relative to other major economies this year.

We remain optimistic about the ASEAN region, especially countries that we believe are better placed to generate domestic demand alpha. These include Indonesia and Vietnam, which are expected to be among the top 10 global consumer markets by 2030. Elsewhere, China's reopening remains one of the most significant upside opportunities yet to transpire for tourism-driven countries like Thailand and Malaysia. In addition, a growth recovery in China should have positive spillover benefits via a boost to trade channels, given that China is the largest or second-largest trade partner to almost all economies in the region.

As a region, Latin America presents an interesting market landscape, benefiting from higher energy prices and oil exports. If we see a strong recovery in Chinese GDP growth, Latin American countries should be key beneficiaries of a price rebound in materials. Perhaps most importantly, central banks in the region have been prudent in raising interest rates to fight inflation well ahead of the Fed. This has created a strong interest rate differential, which has and should continue to protect currencies through global market volatility.

Finally, the outlook for EEMEA in FY24 remains divided. The Middle East and North African countries stand to benefit from elevated oil prices, their USD pegs, and continued social reforms. South Africa's performance is likely tied to both China's reopening as well as commodity prices. We remain cautious on Turkey due to the unorthodox monetary policy in the face of rampant inflation. Greece should be able to better manage the uncertainty present in the Eurozone due to the continued recovery in the tourism industry and improving domestic fundamentals. Poland, the Czech Republic, and Hungary remain the most affected by weakness in Western Europe and the war in Ukraine.

Overall, we expect markets to remain volatile in the near term as global demand and economic activity slow down. However, while global growth begins to slow, Asia and select EM countries look to be a positive counterweight. Although headwinds from external demand still exist, easing financial conditions in 2023 should extend the runway for growth in domestic demand, which we expect will drive EM outperformance.

Mirae Asset Global Investments (Hong Kong) Limited

Principal Investment Manager

Wanyoun CHO
30 June 2023

Independent auditor's report

To the Shareholders of
Mirae Asset Global Discovery Fund
31 z.a. Bourmicht
L-8070 Bertrange
Grand Duchy of Luxembourg

Opinion

We have audited the financial statements of Mirae Asset Global Discovery Fund and of each of its sub-funds (the "Fund"), which comprise the statement of net assets and the schedule of investments as at 31 March 2023, and the statement of operations and changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 31 March 2023, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and of each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “réviseur d'entreprises agréé” for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d'entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.

- Conclude on the appropriateness of Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds (except for the sub-funds liquidated during year) to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to the Financial Statements

for the year ended 31 March 2023

1. Description of the Company

Mirae Asset Global Discovery Fund (referred to hereafter as the “Company”) is an open-ended investment company with variable capital incorporated under the laws of the Grand Duchy of Luxembourg as a *Société d’Investissement à Capital Variable* (SICAV) under the form of a *société anonyme*. The Company is governed by the law of the Grand Duchy of Luxembourg of 10 August 1915 on commercial companies, as amended, and by Part I of the law of 17 December 2010, as amended.

The Company was incorporated for an unlimited period of time on 30 April 2008. The registered office of the Company is established at 31, z.a. Bourmicht, L-8070 Bertrange, Grand Duchy of Luxembourg.

The Articles have been deposited with the Chancery of the District Court of Luxembourg and published in the Memorial on 16 June 2008. The Articles have been last amended on 29 June 2012, with publication in the Memorial dated 24 August 2012.

As of 31 March 2023, the Company issued shares of the following sub-funds for subscription:

- Mirae Asset ESG China Sector Leader Equity Fund⁽¹⁾
- Mirae Asset ESG India Sector Leader Equity Fund⁽¹⁾
- Mirae Asset ESG Asia Sector Leader Equity Fund⁽¹⁾
- Mirae Asset ESG Asia Pacific Equity Fund⁽¹⁾
- Mirae Asset GEM Sector Leader Equity Fund*
- Mirae Asset ESG Asia Great Consumer Equity Fund⁽¹⁾
- Mirae Asset Global Great Consumer Equity Fund*
- Mirae Asset ESG Asia Growth Equity Fund⁽¹⁾
- Mirae Asset ESG China Growth Equity Fund⁽¹⁾
- Mirae Asset Next Asia Pacific Equity Fund*
- Mirae Asset India Mid Cap Equity Fund*
- Mirae Asset Global Dynamic Bond Fund*
- Mirae Asset Chindia Great Consumer Equity Fund*⁽¹⁾
- Mirae Asset Vietnam Equity Fund*⁽¹⁾

As of 31 March 2023, the following classes of shares are offered to investors: Class A, Class E, Class I, Class J, Class K, Class N, Class R and Class Z.

The Company may in the future create new sub-funds and new classes.

2. Significant accounting policies

The financial statements have been prepared in accordance with Luxembourg legal and regulatory requirements applicable to investment funds. The following is a summary of significant accounting policies followed by the sub-funds.

a) Valuation of investment in securities

Securities which are listed or traded on any Regulated Market, stock exchange in an Other State or Other Regulated Market are valued at the closing price on such markets.

If a security is listed or traded on several markets, the closing price at the market which constitutes the main market for such securities is determined.

Securities not listed or traded on any Regulated Market, stock exchange in an Other State or Other Regulated Market are valued at their last available market price.

Securities for which no price quotation is available or for which the closing price at the market is not representative of the fair market value, are valued prudently, and in good faith by the Board of Directors on the basis of their reasonably foreseeable sales prices.

Units or shares of open-ended UCIs (undertakings for collective investment) are valued at their last official net asset values, excluding redemption fees, if any, as reported or provided by such UCIs or their agents, or at their last unofficial net asset values (i.e. estimates of net asset values) if more recent than their last official net asset values, provided that due diligence has been carried out by the Investment Manager, in accordance with instructions and under the overall control and responsibility of the Board of Directors, as to the reliability of such unofficial net asset values. The Net Asset Value calculated on the basis of unofficial net asset values of target UCIs may differ from the net asset value which would have been calculated, on the relevant Valuation Day, on the basis of the official net asset values determined by the administrative agents of the target UCIs. The Net Asset Value is final and binding notwithstanding any different later determination. Units or shares of quoted closed-ended UCIs are valued at their last available stock market value.

* Not authorised in Hong Kong and not available to Hong Kong Residents
⁽¹⁾ Please refer to note 18

Notes to the Financial Statements

for the year ended 31 March 2023 (continued)

2. Significant accounting policies (continued)

a) Valuation of investment in securities (continued)

The Board of Directors has appointed a Pricing Committee which shall be entitled to approve the mechanisms of monitoring for significant events, along with decisions on whether a substantial proportion of the investments have been affected by the significant event and a fair value pricing of the portfolios is needed.

In a case where none of the members of the Pricing Committee is available for making a decision, it shall be the responsibility of the Board to decide how to proceed with the fair valuation of the assets in order to serve the best interests of shareholders.

b) Conversion of foreign currencies

The financial statements and accounting records of each sub-fund are expressed in the reference currency of the relevant sub-fund.

Transactions in currencies other than the sub-fund's reference currency are translated into the sub-fund's reference currency at the exchange rate ruling at the date of the transactions.

Assets and liabilities denominated in currencies other than the sub-fund's reference currency are translated into the sub-fund's reference currency at the exchange rate on the Statement of Net Assets date. Any resulting gains or losses are recognised in the Statement of Operations and Changes in Net Assets under the heading "Net realised gain/(loss) on foreign exchange".

Main exchange rates used as of 31 March 2023 are:

1 USD =	1.494545	AUD
	0.917500	CHF
	0.919921	EUR
	0.808048	GBP
	133.324978	JPY

c) Interest income

Interest income includes interest applied to bonds and to bank accounts. It is accrued gross on a daily basis.

d) Dividend income

Dividends are credited to income on an "ex-dividend" basis net of any irrecoverable withholding tax.

e) Net realised gain/(loss) on sales of investments in securities

The net realised gain/(loss) on sales of investments in securities is calculated on the basis of average cost of securities sold.

f) Forward foreign exchange contracts

Forward foreign exchange contracts, if any, are valued on the basis of forward foreign exchange rates prevailing on the net asset value date and the resulting net change in net unrealised appreciation or depreciation is included in the Statement of Operations and Changes in Net Assets, under the heading "Net change in unrealised appreciation/(depreciation) on forward foreign exchange contracts". The realised gain/(loss) on forward foreign exchange contracts is disclosed in the Statement of Operations and Changes in Net Assets.

g) Future contracts

Outstanding future contracts, if any, are valued on the basis of futures exchange values prevailing on the net asset value date. The realised gain/(loss) on future contracts is disclosed in the Statement of Operations and Changes in Net Assets under the heading "Net realised gain/(loss) on future contracts". The unrealised gain/(loss) on future contracts is disclosed in the Statement of Net Assets under the heading "Unrealised gain/(loss) on future contracts".

h) Option contracts

Outstanding option contracts, if any, are valued at the close of business market price or the last available market price of the instruments.

The market value of option contracts, if any, is included in the Statement of Net Assets under the line "Option contracts at market value".

The realised gain/(loss) on option contracts, if any, is disclosed in the Statement of Operations and Changes in Net Assets under the line "Net realised profit/(loss) on option contracts".

i) Combined figures

The combined Statement of Net Assets and the combined Statement of Operations and Changes in Net Assets are expressed in Euro and are presented for information purposes only.

Notes to the Financial Statements

for the year ended 31 March 2023 (continued)

2. Significant accounting policies (continued)

i) Combined figures (continued)

For this purpose, the corresponding statements of each sub-fund have been translated into Euro at the exchange rates prevailing at the date of the financial statements. The difference between opening net assets stated at exchange rates ruling at the beginning of the year and its value at the end of the year is shown as a "Currency translation adjustment" in the Statement of Operations and Changes in Net Assets.

j) Formation expenses

The formation expenses represent the cost of establishing the Company and its sub-funds. The formation costs are amortised on a straight line basis over 5 years from the date on which sub-funds commenced business.

k) Legal, regulatory and professional expenses

In cases where the legal, regulatory and professional fees incurred by the Company can be directly attributed to the relevant sub-fund which incurred such fees, this sub-fund is the one bearing such fees.

In cases where these fees cannot be attributed to a specific sub-fund or affect the Company as a whole, such fees are attributed to all sub-funds on an equitable basis pro rata to their respective net asset value as at the date of the relevant invoice. The Board of Directors, the Management Company and/or the Principal Investment Manager shall in such case endeavour to ensure that such fees are fair and reasonable.

A portion of the expenses attributable to each sub-fund may however be borne by the Principal Investment Manager on a fair and equitable basis; reducing, as the case may be, the expenses to be charged to the sub-funds. No such fees were borne by the Principal Investment Manager for the year ended 31 March 2023.

l) Use of estimates

The preparation of the financial statements in conformity with Luxembourg legal and regulatory requirements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported periods. Actual results could differ from those estimates.

3. Custodian and depositary fees

The Company pays a depositary fee calculated principally by reference to the Net Asset Value of the Company on each dealing day and payable monthly in arrears.

The fee paid by the Company depends upon the markets in which the assets of the Company are invested and custodied.

The maximum fee payable to the Depositary is 0.0225% per annum, plus any applicable custody fees, which vary by jurisdiction and do not exceed 0.50% per annum in any jurisdiction, in each case based on the Net Asset Value of the sub-fund, unless the Net Asset Value of the sub-fund falls below certain levels in which case agreed minimums will apply. In addition, the fees for settlement vary depending upon the country in which the relevant activity takes place, up to a maximum of USD 90 per transaction.

4. Registrar and transfer agent, domiciliary, administrative and paying agent fees

The Company pays fees for these services at the commercial rates agreed from time to time between the parties plus reasonable out-of-pocket expenses.

Domiciliary, Administrative and Paying Agent fees are up to 0.04% per annum of the Net Assets of each sub-fund, unless the Net Asset Value of the sub-fund falls below certain levels in which case agreed minimums will apply.

Registrar and Transfer Agent fees are calculated on a per transaction basis, the maximum amount being USD 20.

5. Management company fees

The Company pays to the Management Company an annual management company fee amounting to a maximum rate of 0.05% per year of the Net Asset Value of each sub-fund. The Management Company fee is payable monthly in arrears and calculated on the last Net Asset Value of each month with a minimum annual fee of EUR 15,000 per sub-fund, according to the following schedule:

Notes to the Financial Statements

for the year ended 31 March 2023 (continued)

5. Management company fees (continued)

Assets under management (in EUR)	Rate
50,000,000	0.05%
100,000,000	0.04%
500,000,000	0.03%
999,999,999,999	0.02%

The list of the funds managed by the Management Company, may be obtained, on simple request, at the registered office of the Management Company.

6. Investment management fees

The Company pays to the Principal Investment Manager and Investment Managers an annual management fee, accrued daily and payable monthly in arrears, amounting to a set rate of the Net Asset Value of each sub-fund which is as follows:

Class	Maximum rates Equity sub-funds	Maximum rates Bond sub-funds
Class A	2.00%	0.95%
Class E	0.35%*	-
Class I	1.00%	0.55%
Class J	0.59%**	-
Class K	0.65%	0.65%
Class R	0.75%	-
Class Z	0.50%	-

There is no management fee for Class N.

The effective rates respectively charged to the classes are as follows:

Class	Effective rates Equity sub-funds	Effective rates Bond sub-funds
Class A	1.50%	0.95%
Class E	0.35%***	-
Class I	1.00%	0.55%
Class J	0.59%****	-
Class K	0.65%	0.25%
Class R	0.75%	-
Class Z	0.50%	-

The Principal Investment Manager is responsible for the payment of the fees of the Investment Managers.

In addition, the Company will pay management fees of the target UCITS in the case of investment in other UCITS. However, when the sub-fund invests in the shares or units of other UCITS and/or other UCIs that are managed, directly or by delegation, by the same management company or by any other company to which the management company is linked by common management or control or by a substantial direct or indirect holding, that management company or other company may not charge any subscription nor redemption fees on account of the sub-fund's investment in the units of other UCITS and/or other UCI.

7. Taxation

Under current law and practice, the Company is not liable to any Luxembourg tax on income or capital gains, nor are dividends (if any) paid by the Company liable to any Luxembourg withholding tax.

The Company is, however, liable in Luxembourg to a *taxe d'abonnement* of 0.05% per annum of its Net Asset Value, such tax being payable quarterly and calculated on the Net Asset Value of the sub-funds at the end of the relevant calendar quarter. However, such rate is decreased to 0.01% per annum of their Net Asset Value for specific classes of shares or sub-funds which are restricted to Institutional Investors as specified in the Prospectus.

No Luxembourg tax is payable on the realised capital appreciation of the assets of the Company.

Dividends, capital gains and interest received by the Company on its investments may be subject to non-recoverable withholdings or other taxes in the countries of origin.

* The maximum rate is 0.25% for Mirae Asset China Growth Equity Fund – Class E
 ** The maximum rate is 0.65% for Mirae Asset Next Asia Pacific Equity Fund – Class J
 *** 0.25% for Mirae Asset China Growth Equity Fund
 **** 0.65% for Mirae Asset Next Asia Pacific Equity Fund

Notes to the Financial Statements

for the year ended 31 March 2023 (continued)

8. Forward foreign exchange contracts

As of 31 March 2023, the following sub-funds are committed to outstanding forward foreign exchange contracts as follows. As of 31 March 2023, the purpose of the forward foreign exchange contracts shown below is to hedge the currency exposure of the share classes (“hedging purpose”).

Notes to the Financial Statements

for the year ended 31 March 2023 (continued)

9. Option contracts

As of 31 March 2023, the Company has no outstanding option contracts.

10. Future contracts

As of 31 March 2023, the Company has no outstanding future contracts.

11. Other taxes

The Company pays to the Brazilian government a tax on all purchases of Brazilian securities denominated in Brazilian real. The Company also pays a tax on its capital gains when it sells securities in India. The Indian tax rate is provided by the Company's tax consultant in India, based on the current tax regulations and applicable factors such as the length of holding of the security and if the security is sold on a recognized stock exchange.

The excess Indian capital gain tax paid for previous accounting years, and expected to be recovered, is shown under "Other receivable" and "Other income" in the Statement of Net Assets and the Statement of Operations and Changes in Net Assets respectively.

12. Changes in the investment portfolio

The details of the changes in portfolio composition are held at the disposal of the shareholders at the registered office of the Company and are available upon request free of charge.

13. Related party transactions

All transactions with related parties were entered into in the ordinary course of business and under normal commercial terms. The related parties to the Company are the Principal Investment Manager, the Investment Managers, the Global Distributor, the Hong Kong Representative, Mirae Asset Securities (HK) Limited and Daiwa Capital Markets Hong Kong Limited. For the basis of the fee charged by the Principal Investment Manager and the Investment Managers, please refer to note 6.

The transactions with Daiwa Capital Markets Hong Kong Limited and Mirae Asset Securities (HK) Limited are as follows:

Daiwa Capital Markets Hong Kong Limited

Total Transaction Value (USD)	% of Total Transaction Value in the Scheme	Total Brokerage Commission (USD)	Average Rate of Commission
145,974,180.47	4.76	159,513.03	0.11

Mirae Asset Securities (HK) Limited

Total Transaction Value (USD)	% of Total Transaction Value in the Scheme	Total Brokerage Commission (USD)	Average Rate of Commission
172,443,121.06	5.62	252,027.85	0.15

14. Soft commission

The Principal Investment Manager and Investment Managers do not enter into any soft commission arrangements in relation to the Company. Neither the Principal Investment Manager and Investment Managers nor any of their connected persons have or are entitled to retain any cash rebates from any broker or dealer in consideration for directing transactions on behalf of sub-funds to that broker or dealer. Any such cash rebates received shall be held for the accounts of the relevant sub-fund.

15. Transaction costs

The transaction costs related to purchases and sales of transferable securities are included in the Statement of Operations and Changes in Net Assets, under the heading "Transaction costs". The transaction costs mainly relate to brokerage fees.

16. Global exposure

The global risk exposure is calculated for each sub-fund on a daily basis using the commitment approach.

17. Sub-fund closing fees

The sub-fund Mirae Asset Korea Equity Fund was closed as at 11 October 2022. Closing fees of USD 57,022 were recorded.

Notes to the Financial Statements

for the year ended 31 March 2023 (continued)

17. Sub-fund closing fees (continued)

The sub-fund Mirae Asset Asia Pacific Health Care Opportunities Equity Fund was closed as at 23 December 2022. Closing fees of USD 49,605 were recorded.

The sub-fund Mirae Asset GEM Great Consumer Equity Fund was closed as at 23 December 2022. Closing fees of USD 62,673 were recorded.

18. Important events

I Capitalisation EUR Hedged	4.03
R Capitalisation GBP	4.02
R Capitalisation EUR	4.58
R Capitalisation USD	4.86
R Capitalisation EUR Hedged	4.05

As at 31 March 2023, there was cash for an amount of USD 50,811 and EUR 1,512 remaining in the sub-fund.

19. Significant events

US & Europe Bank Collapses

The global banking system was shaken in March 2023 following a series of US regional bank collapse and UBS's last-minute rescue takeover of Credit Suisse. But rapid intervention by policymakers meant that the fallout and contagion risk was fairly limited. While these events will lead to heightened risk-off sentiment around the world, Asian banks have been very limited in terms of direct asset exposure to these companies. Potential systemic risks will be closely monitored.

Notes to the Financial Statements

for the year ended 31 March 2023 (continued)

19. Significant events (continued)

Russian Invasion of Ukraine

On 24 February 2022, Russia began its invasion of Ukraine in what would become a long and drawn-out geopolitical crisis. More than a year on, the conflict continues between the two countries, while also causing knock-on effects globally. In particular, the conflict has led to a surge in global energy prices, which has fuelled inflation and led to higher production costs. Additionally, the conflict has led to an increase in geopolitical uncertainty, including heightened awareness of tensions elsewhere such as the Cross-Strait relations. We expect the ongoing conflict will continue to dampen global recovery efforts, but the slowdown in demand should help with more immediate concerns on inflation.

Unaudited Supplementary Information

Information on remuneration

FundRock Management Company S.A. ("FundRock"), as subject to CSSF Circular 18/698, has implemented a remuneration policy in compliance with Articles 111a and 111b of the 2010 Law and/or Article 12 of the 2013 Law respectively.

FundRock, as subject to Chapter 15 of the 2010 Law and AIFM, must also comply with the guidelines of the European Securities and Markets Authority ESMA/2016/5758 and ESMA/2016/5799 to have sound processes in place. FundRock has established and applies a remuneration policy in accordance with the ESMA Guidelines on sound remuneration policies under the UCITS V Directive (ESMA 2016/575) and AIFMD (ESMA 2016/579) and any related legal & regulatory provisions applicable in Luxembourg.

Further, consideration has been given to the requirements as outlined in Regulation (EU) 2019/2088 on sustainability – related disclosures in the financial sector, the SFDR Requirements.

The remuneration policy is aligned with the business strategy, objectives, values and interests of FundRock and the Funds that it manages and of the investors in such Funds, and which includes, inter alia, measures to avoid conflicts of interest; and it is consistent with and promotes sound and effective risk management and does not encourage risk taking which is inconsistent with the risk profiles, rules or instruments of incorporation of the Funds that the Management Company manages.

FundRock ensures that its remuneration policy adequately reflects the predominance of its oversight activity within its core activities. As such, it should be noted that FundRock's employees who are identified as risk-takers are not remunerated based on the performance of the funds under management.

A paper version of the remuneration policy is made available free of charge to investors at FundRock's registered office. FundRock's remuneration policy can also be found at: <https://www.fundrock.com/policies-and-compliance/remuneration-policy/>.

The total amount of remuneration for the financial year ending 31 December 2022 paid by FundRock to its staff: EUR 12,587,217.

Fixed remuneration: EUR 11,485,489
Variable remuneration: EUR 1,101,728

Number of beneficiaries: 147

The aggregated amount of remuneration for the financial year ending 31 December 2022 paid by FundRock to Identified staff/risk takers is EUR 2,524,731.

The total amount of remuneration is based on a combination of the assessment of the performance of the individual, the overall results of FundRock, and when assessing individual performance, financial as well as non-financial criteria are taken into account.

The Policy is subject to annual review by the Compliance Officer and the update is performed by HR department of FundRock and is presented for review to the Remuneration Committee and approval by the Board of FundRock.

European Regulation (EU) 2015/2365 on the transparency of financial transactions in securities and reuse of collateral (Securities Financing Transactions or SFTR)

During the year ended 31 March 2023, the Company did not enter into securities financing transactions and total return swaps.

European Regulation (EU) 2019/2088 on sustainability related disclosures in the financial services sector (the “SFDR”) and European Regulation (EU) Taxonomy Regulation (EU) 2020/852

EUROPEAN
COMMISSION

Brussels, 31.10.2022
C(2022) 7545 final

ANNEXES 1 to 4

ANNEXES

to the

COMMISSION DELEGATED REGULATION (EU) .../...

amending and correcting the regulatory technical standards laid down in Delegated Regulation (EU) 2022/1288 as regards the content and presentation of information in relation to disclosures in precontractual documents and periodic reports for financial products investing in environmentally sustainable economic activities

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:

Mirae Asset ESG Asia Great Consumer Equity Fund

Legal entity identifier:

222100CVW86PTOC83808

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

This Sub-Fund has met the environmental and/or social characteristics promoted.

This Sub-Fund aims at investing in companies with good environmental and/or social characteristics based on our proprietary ESG Scorecard (“the Mirae Asset ESG Scorecard”) through applying a best-in-class methodology. Among others, the environmental pillar includes resource & waste management, biodiversity, emissions, and supply chain

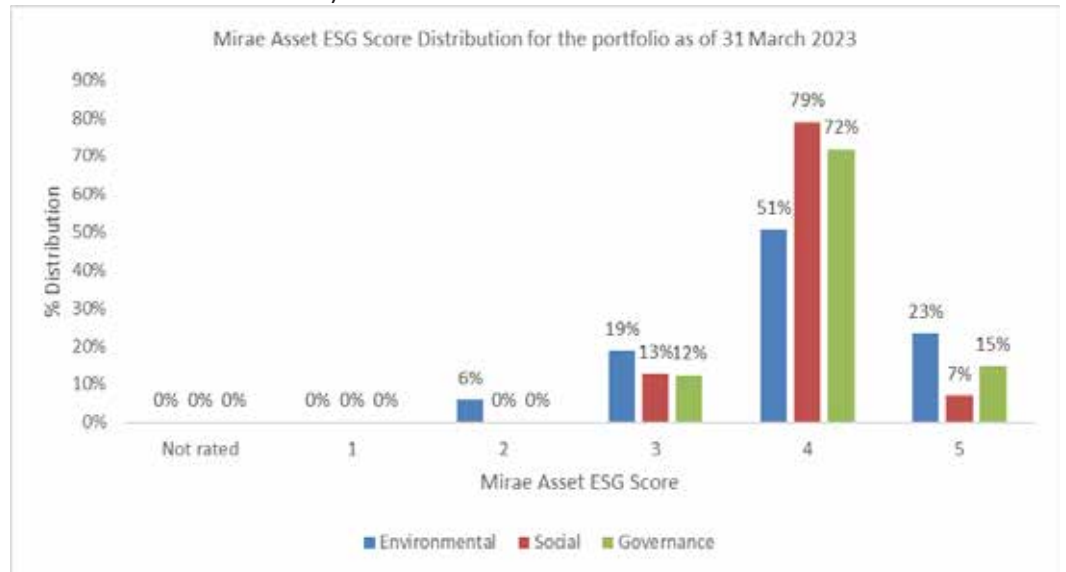

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

management (environmental), the social pillar includes human capital management, health & safety, data security & privacy, while the governance pillar includes corporate governance and business ethics.

Lastly, the Sub-Fund refrains from investing in business activities that are deemed harmful to the environment and society through applying the exclusions.

● **How did the sustainability indicators perform?**

1. The % distribution of the Sub-Fund’s net assets to ESG scores (based on the Mirae Asset ESG Scorecard) on a scale of 1 to 5

Source: Mirae Asset Global Investments (HK), March 2023. Mirae Asset ESG scores rounded up to whole numbers for charting purposes.

2. The % of portfolio companies that are not aligned with the exclusions.

Sectors	NAV %
Weapons	0.00
Tobacco	0.00
Thermal coal mining	0.00
Unconventional oil & gas	0.00
Thermal coal power generation	0.00
Nuclear power generation	0.00
Adult entertainment	0.00
Cannabis	0.00
Total	0.00

Source: MSCI ESG, ISS, FactSet, March 2023

- **...and compared to previous periods?**

Not applicable.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The list of PAIs considered, with reference to Annex I of the SFDR RTS, are as follows:

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

PAI Indicator	How this Sub-Fund has considered this PAI indicator
Table 1, #4 Exposure to companies active in the fossil fuel sector	This Sub-Fund has 0% exposure to companies that have significant (more than 15%) revenue in thermal coal mining and power generation, and unconventional oil & gas.
Table 1, #10 Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	This Sub-Fund has 0% exposure to companies with violations to Global Norms (i.e., United Nations Global Compact principles, United Nations Guiding Principles for Business and Human Rights, International Labour Organization's fundamental principles).
Table 1, #14 Exposure to controversial weapons	This Sub-Fund has 0% exposure to companies that have significant (more than 15%) revenue in controversial weapons.

Data availability for PAI indicators may vary between regions and thus some data might be missing or might be estimated. This might negatively impact the figures reported each year. The Principal Investment Manager will review the relevance and availability of data and consider adding more PAI indicators in the future.

What was the proportion of sustainability-related investments?

● What was the asset allocation?

● In which economic sectors were the investments made?

The proportion of investments made by sector and by sub-sector:

Sector	Average weight
Communication Services	9.9
Consumer Discretionary	38.7

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

* Average weight is the average weight of last 12 month end of the investment

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Sub-Fund does not currently commit to invest in any “sustainable investment” within the meaning of the Taxonomy Regulation. However, the position will be kept under review as the underlying rules are finalised and the availability of reliable data increases over time.

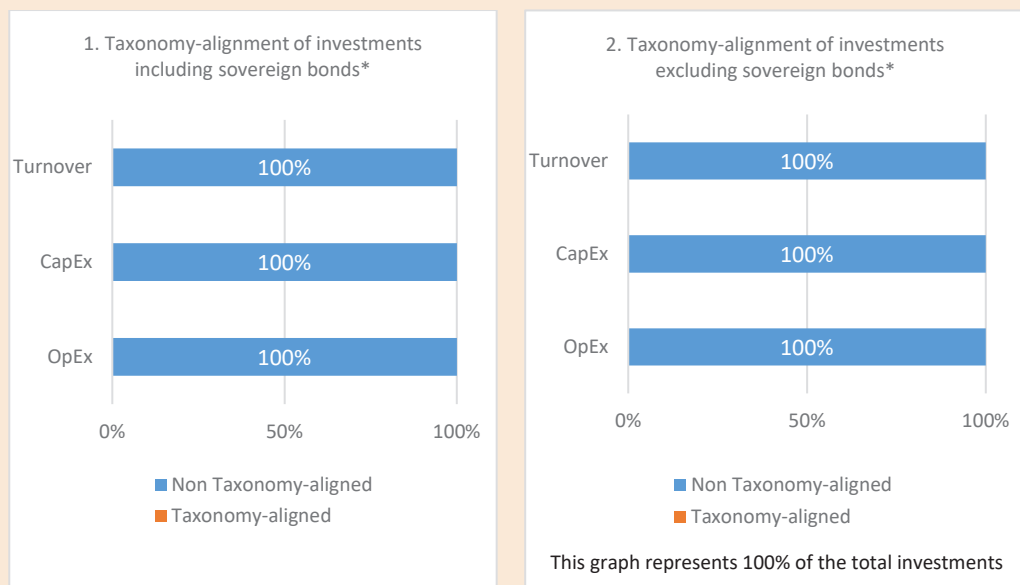

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

As the Sub-Fund does not currently commit to invest in any “sustainable investment” within the meaning of the Taxonomy Regulation, we do not monitor the Sub-Fund’s alignment to the EU Taxonomy and thus 100% of investments are deemed non Taxonomy-aligned.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund does not commit to invest any “sustainable investment” within the meaning of the Taxonomy Regulation, the minimum share of investments in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Sub-Fund promotes environmental and social characteristics but does not commit to making any sustainable investments. As a consequence, the Sub-Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The “Other” investments may include cash and cash equivalents held as ancillary liquidity, hedging instruments, unscreened investments for diversification purposes or investments for which data are lacking.

As a minimum E/S safeguard, the exclusions also apply to the unscreened investments and the investments for which data are lacking portion of the “Other” investments.

As for the remaining “Other” investments (cash, cash equivalents and hedging instruments), no minimum E/S safeguards are being put in place.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Mirae Asset ESG Scorecards were completed by sector analysts for all recommended stocks to compute ESG scores. The % distribution of the fund’s net assets to ESG scores (on a scale of 1 to 5) were monitored by the risk management unit every month.

The financial product’s exclusions to business activities Mirae Asset deems harmful to the environment and society were monitored every month: temporary breaches will be treated in the same way as our current compliance procedure for passive breach violations; Portfolio Managers are required to rectify the position for the corresponding fund within 15 business days.

Companies with violations of the Global Norms (e.g. United Nations Global Compact principles, United Nations Guiding Principles for Business and Human Rights, International Labour Organization's fundamental principles) would also fall on the ESG Restrictive List. Should violations be identified, Portfolio Managers and relevant sector analysts are required to document remedial plans based on discussions with the company on a bi-annual basis. The Investment Committee will then decide whether to put a buy restriction on these companies.

How did this financial product perform compared to the reference benchmark?

EUROPEAN
COMMISSION

Brussels, 31.10.2022
C(2022) 7545 final

ANNEXES 1 to 4

ANNEXES

to the

COMMISSION DELEGATED REGULATION (EU) .../...

amending and correcting the regulatory technical standards laid down in Delegated Regulation (EU) 2022/1288 as regards the content and presentation of information in relation to disclosures in precontractual documents and periodic reports for financial products investing in environmentally sustainable economic activities

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:

Mirae Asset ESG Asia Growth Equity Fund

Legal entity identifier:

254900P2Z53WBQ4U4R91

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

This Sub-Fund has met the environmental and/or social characteristics promoted.

This Sub-Fund aims at investing in companies with good environmental and/or social characteristics based on our proprietary ESG Scorecard (“the Mirae Asset ESG Scorecard”) through applying a best-in-class methodology. Among others, the environmental pillar includes resource & waste management, biodiversity, emissions, and supply chain

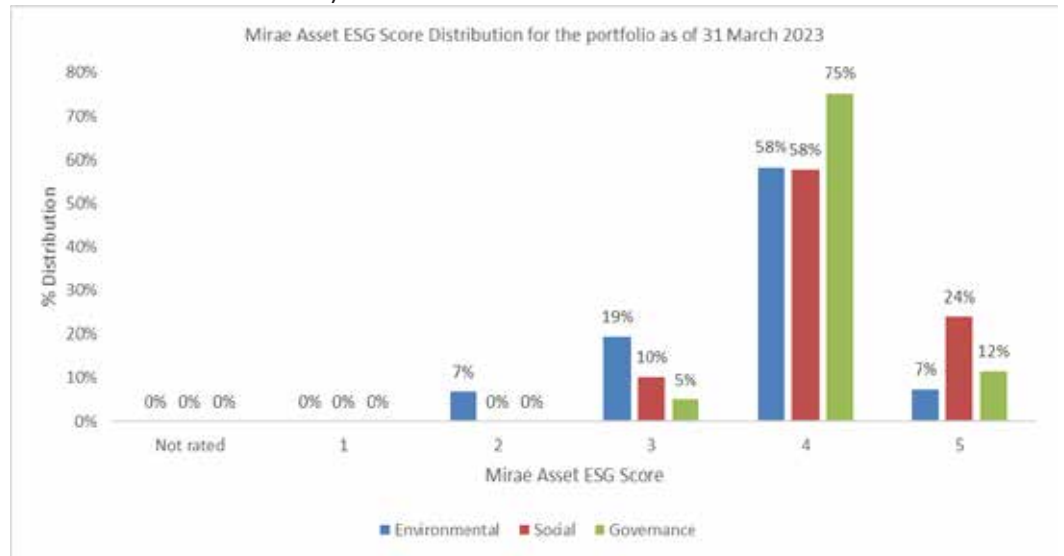

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

management (environmental), the social pillar includes human capital management, health & safety, data security & privacy, while the governance pillar includes corporate governance and business ethics.

Lastly, the Sub-Fund refrains from investing in business activities that are deemed harmful to the environment and society through applying the exclusions.

● **How did the sustainability indicators perform?**

1. The % distribution of the Sub-Fund’s net assets to ESG scores (based on the Mirae Asset ESG Scorecard) on a scale of 1 to 5

- **...and compared to previous periods?**

Not applicable.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The list of PAIs considered, with reference to Annex I of the SFDR RTS, are as follows:

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

PAI Indicator	How this Sub-Fund has considered this PAI indicator	
Table 1, #4	Exposure to companies active in the fossil fuel sector	This Sub-Fund has 0% exposure to companies that have significant (more than 15%) revenue in thermal coal mining and power generation, and unconventional oil & gas.
Table 1, #10	Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	This Sub-Fund has 0% exposure to companies with violations to Global Norms (i.e., United Nations Global Compact principles, United Nations Guiding Principles for Business and Human Rights, International Labour Organization's fundamental principles).
Table 1, #14	Exposure to controversial weapons	This Sub-Fund has 0% exposure to companies that have significant (more than 15%) revenue in controversial weapons.

Data availability for PAI indicators may vary between regions and thus some data might be missing or might be estimated. This might negatively impact the figures reported each year. The Principal Investment Manager will review the relevance and availability of data and consider adding more PAI indicators in the future.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

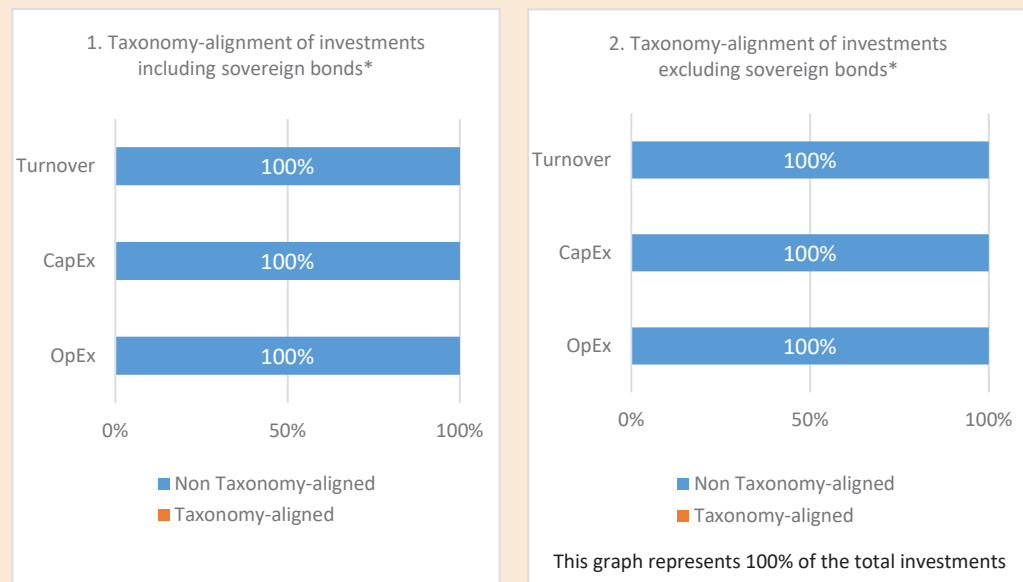

The Sub-Fund does not currently commit to invest in any “sustainable investment” within the meaning of the Taxonomy Regulation. However, the position will be kept

under review as the underlying rules are finalised and the availability of reliable data increases over time.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

As the Sub-Fund does not currently commit to invest in any “sustainable investment” within the meaning of the Taxonomy Regulation, we do not monitor the Sub-Fund’s alignment to the EU Taxonomy and thus 100% of investments are deemed non Taxonomy-aligned.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund does not commit to invest any “sustainable investment” within the meaning of the Taxonomy Regulation, the minimum share of investments in

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Sub-Fund promotes environmental and social characteristics but does not commit to making any sustainable investments. As a consequence, the Sub-Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The “Other” investments may include cash and cash equivalents held as ancillary liquidity, hedging instruments, unscreened investments for diversification purposes or investments for which data are lacking.

As a minimum E/S safeguard, the exclusions also apply to the unscreened investments and the investments for which data are lacking portion of the “Other” investments.

As for the remaining “Other” investments (cash, cash equivalents and hedging instruments), no minimum E/S safeguards are being put in place.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Mirae Asset ESG Scorecards were completed by sector analysts for all recommended stocks to compute ESG scores. The % distribution of the fund’s net assets to ESG scores (on a scale of 1 to 5) were monitored by the risk management unit every month.

The financial product’s exclusions to business activities Mirae Asset deems harmful to the environment and society were monitored every month: temporary breaches will be

treated in the same way as our current compliance procedure for passive breach violations; Portfolio Managers are required to rectify the position for the corresponding fund within 15 business days.

Companies with violations of the Global Norms (e.g. United Nations Global Compact principles, United Nations Guiding Principles for Business and Human Rights, International Labour Organization's fundamental principles) would also fall on the ESG Restrictive List. Should violations be identified, Portfolio Managers and relevant sector analysts are required to document remedial plans based on discussions with the company on a bi-annual basis. The Investment Committee will then decide whether to put a buy restriction on these companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Sub-Fund does not currently commit to invest in any “sustainable investment” within the meaning of the Taxonomy Regulation. However, the position will be kept under review as the underlying rules are finalised and the availability of reliable data increases over time.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.

- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.

- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

As the Sub-Fund does not currently commit to invest in any “sustainable investment” within the meaning of the Taxonomy Regulation, we do not monitor the Sub-Fund’s alignment to the EU Taxonomy and thus 100% of investments are deemed non Taxonomy-aligned.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund does not commit to invest any “sustainable investment” within the meaning of the Taxonomy Regulation, the minimum share of investments in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Sub-Fund promotes environmental and social characteristics but does not commit to making any sustainable investments. As a consequence, the Sub-Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The “Other” investments may include cash and cash equivalents held as ancillary liquidity, hedging instruments, unscreened investments for diversification purposes or investments for which data are lacking.

As a minimum E/S safeguard, the exclusions also apply to the unscreened investments and the investments for which data are lacking portion of the “Other” investments.

As for the remaining “Other” investments (cash, cash equivalents and hedging instruments), no minimum E/S safeguards are being put in place.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Mirae Asset ESG Scorecards were completed by sector analysts for all recommended stocks to compute ESG scores. The % distribution of the fund’s net assets to ESG scores (on a scale of 1 to 5) were monitored by the risk management unit every month.

The financial product’s exclusions to business activities Mirae Asset deems harmful to the environment and society were monitored every month: temporary breaches will be treated in the same way as our current compliance procedure for passive breach

violations; Portfolio Managers are required to rectify the position for the corresponding fund within 15 business days.

Companies with violations of the Global Norms (e.g. United Nations Global Compact principles, United Nations Guiding Principles for Business and Human Rights, International Labour Organization's fundamental principles) would also fall on the ESG Restrictive List. Should violations be identified, Portfolio Managers and relevant sector analysts are required to document remedial plans based on discussions with the company on a bi-annual basis. The Investment Committee will then decide whether to put a buy restriction on these companies.

ANNEXES

to the

COMMISSION DELEGATED REGULATION (EU) .../...

amending and correcting the regulatory technical standards laid down in Delegated Regulation (EU) 2022/1288 as regards the content and presentation of information in relation to disclosures in precontractual documents and periodic reports for financial products investing in environmentally sustainable economic activities

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

This Sub-Fund has met the environmental and/or social characteristics promoted.

This Sub-Fund aims at investing in companies with good environmental and/or social characteristics based on our proprietary ESG Scorecard (“the Mirae Asset ESG Scorecard”) through applying a best-in-class methodology. Among others, the environmental pillar includes resource & waste management, biodiversity, emissions, and supply chain

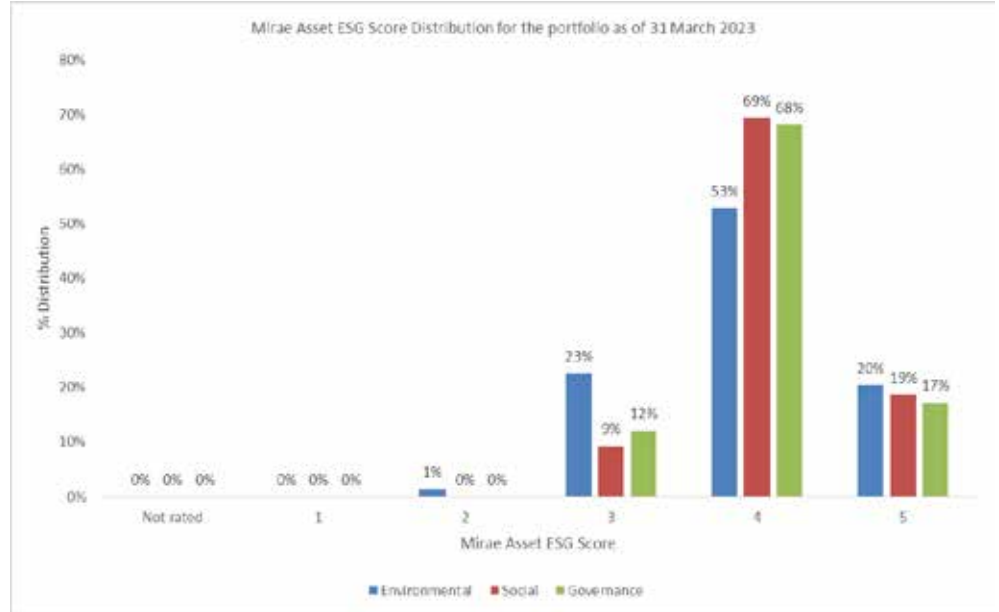

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

management (environmental), the social pillar includes human capital management, health & safety, data security & privacy, while the governance pillar includes corporate governance and business ethics.

Lastly, the Sub-Fund refrains from investing in business activities that are deemed harmful to the environment and society through applying the exclusions.

● **How did the sustainability indicators perform?**

- **...and compared to previous periods?**

Not applicable.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The list of PAIs considered, with reference to Annex I of the SFDR RTS, are as follows:

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

PAI Indicator	How this Sub-Fund has considered this PAI indicator	
Table 1, #4	Exposure to companies active in the fossil fuel sector	This Sub-Fund has 0% exposure to companies that have significant (more than 15%) revenue in thermal coal mining and power generation, and unconventional oil & gas.
Table 1, #10	Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	This Sub-Fund has 0% exposure to companies with violations to Global Norms (i.e., United Nations Global Compact principles, United Nations Guiding Principles for Business and Human Rights, International Labour Organization's fundamental principles).
Table 1, #14	Exposure to controversial weapons	This Sub-Fund has 0% exposure to companies that have significant (more than 15%) revenue in controversial weapons.

Data availability for PAI indicators may vary between regions and thus some data might be missing or might be estimated. This might negatively impact the figures reported each year. The Principal Investment Manager will review the relevance and availability of data and consider adding more PAI indicators in the future.

What were the top investments of this financial product?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Sub-Fund does not currently commit to invest in any “sustainable investment” within the meaning of the Taxonomy Regulation. However, the position will be kept under review as the underlying rules are finalised and the availability of reliable data increases over time.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.

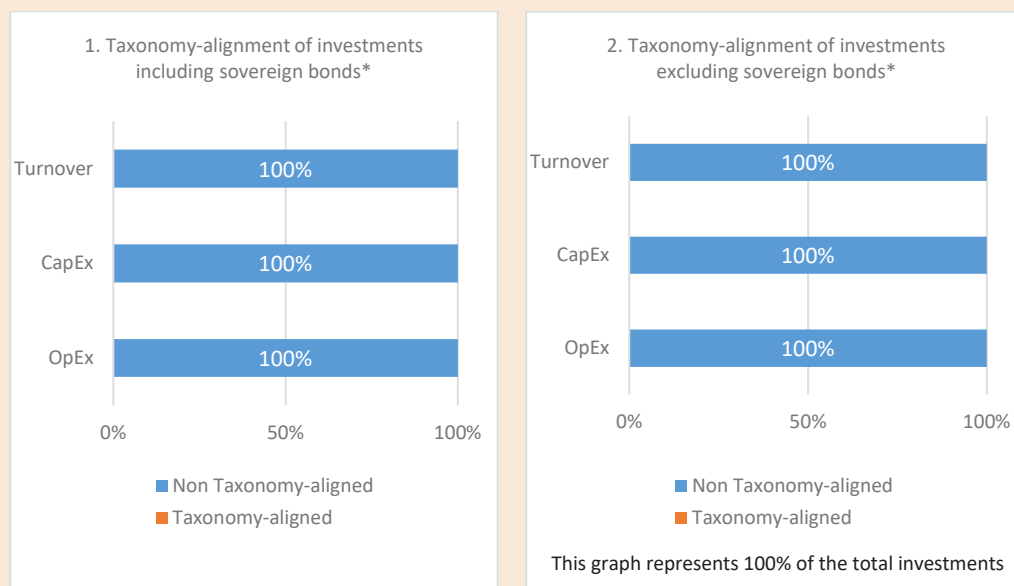

- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.

- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

As the Sub-Fund does not currently commit to invest in any “sustainable investment” within the meaning of the Taxonomy Regulation, we do not monitor the Sub-Fund’s alignment to the EU Taxonomy and thus 100% of investments are deemed non Taxonomy-aligned.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund does not commit to invest any “sustainable investment” within the meaning of the Taxonomy Regulation, the minimum share of investments in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Sub-Fund promotes environmental and social characteristics but does not commit to making any sustainable investments. As a consequence, the Sub-Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The “Other” investments may include cash and cash equivalents held as ancillary liquidity, hedging instruments, unscreened investments for diversification purposes or investments for which data are lacking.

As a minimum E/S safeguard, the exclusions also apply to the unscreened investments and the investments for which data are lacking portion of the “Other” investments.

As for the remaining “Other” investments (cash, cash equivalents and hedging instruments), no minimum E/S safeguards are being put in place.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Mirae Asset ESG Scorecards were completed by sector analysts for all recommended stocks to compute ESG scores. The % distribution of the fund’s net assets to ESG scores (on a scale of 1 to 5) were monitored by the risk management unit every month.

The financial product’s exclusions to business activities Mirae Asset deems harmful to the environment and society were monitored every month: temporary breaches will be treated in the same way as our current compliance procedure for passive breach violations; Portfolio Managers are required to rectify the position for the corresponding fund within 15 business days.

Companies with violations of the Global Norms (e.g. United Nations Global Compact principles, United Nations Guiding Principles for Business and Human Rights, International Labour Organization's fundamental principles) would also fall on the ESG Restrictive List. Should violations be identified, Portfolio Managers and relevant sector analysts are required to document remedial plans based on discussions with the company on a bi-annual basis. The Investment Committee will then decide whether to put a buy restriction on these companies.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

This Sub-Fund has met the environmental and/or social characteristics promoted.

This Sub-Fund aims at investing in companies with good environmental and/or social characteristics based on our proprietary ESG Scorecard (“the Mirae Asset ESG Scorecard”) through applying a best-in-class methodology. Among others, the environmental pillar includes resource & waste management, biodiversity, emissions, and supply chain

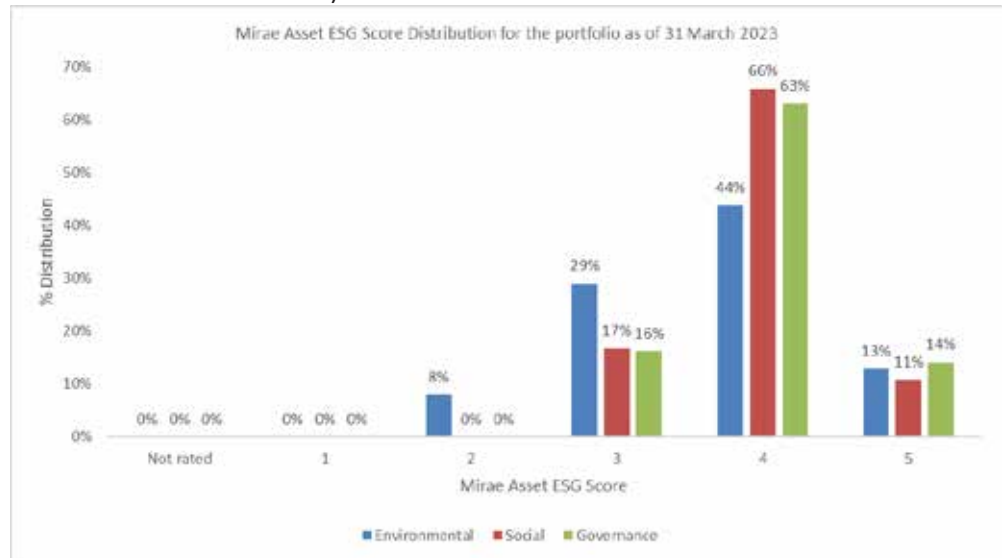

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

management (environmental), the social pillar includes human capital management, health & safety, data security & privacy, while the governance pillar includes corporate governance and business ethics.

Lastly, the Sub-Fund refrains from investing in business activities that are deemed harmful to the environment and society through applying the exclusions.

* Average weight is the average weight of last 12 month end of the investment

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Sub-Fund does not currently commit to invest in any “sustainable investment” within the meaning of the Taxonomy Regulation. However, the position will be kept under review as the underlying rules are finalised and the availability of reliable data increases over time.

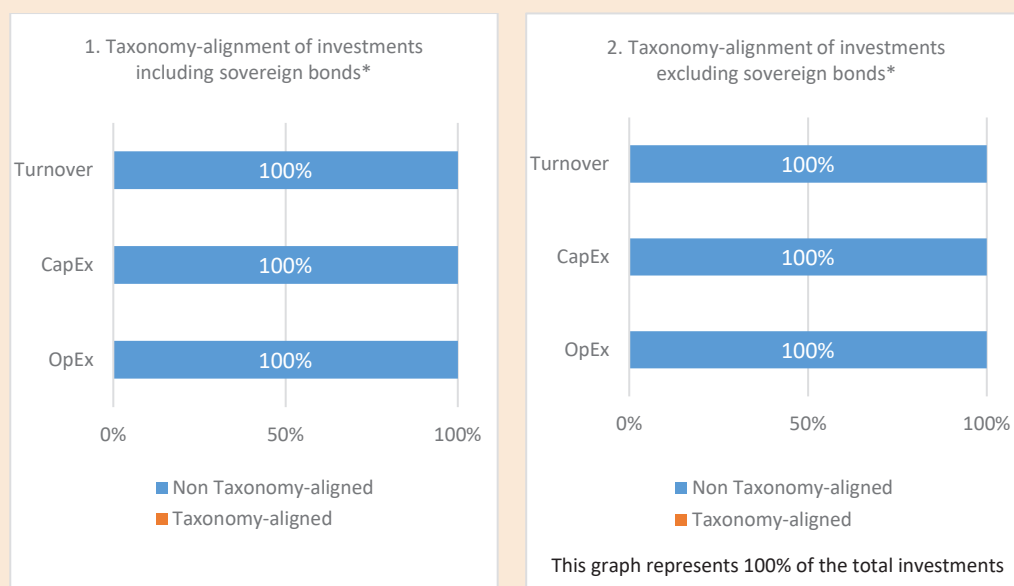

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

As the Sub-Fund does not currently commit to invest in any “sustainable investment” within the meaning of the Taxonomy Regulation, we do not monitor the Sub-Fund’s alignment to the EU Taxonomy and thus 100% of investments are deemed non Taxonomy-aligned.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund does not commit to invest any “sustainable investment” within the meaning of the Taxonomy Regulation, the minimum share of investments in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Sub-Fund promotes environmental and social characteristics but does not commit to making any sustainable investments. As a consequence, the Sub-Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The “Other” investments may include cash and cash equivalents held as ancillary liquidity, hedging instruments, unscreened investments for diversification purposes or investments for which data are lacking.

As a minimum E/S safeguard, the exclusions also apply to the unscreened investments and the investments for which data are lacking portion of the “Other” investments.

As for the remaining “Other” investments (cash, cash equivalents and hedging instruments), no minimum E/S safeguards are being put in place.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Mirae Asset ESG Scorecards were completed by sector analysts for all recommended stocks to compute ESG scores. The % distribution of the fund’s net assets to ESG scores (on a scale of 1 to 5) were monitored by the risk management unit every month.

The financial product’s exclusions to business activities Mirae Asset deems harmful to the environment and society were monitored every month: temporary breaches will be treated in the same way as our current compliance procedure for passive breach violations; Portfolio Managers are required to rectify the position for the corresponding fund within 15 business days.

Companies with violations of the Global Norms (e.g. United Nations Global Compact principles, United Nations Guiding Principles for Business and Human Rights, International Labour Organization's fundamental principles) would also fall on the ESG Restrictive List. Should violations be identified, Portfolio Managers and relevant sector analysts are required to document remedial plans based on discussions with the company on a bi-annual basis. The Investment Committee will then decide whether to put a buy restriction on these companies.

EUROPEAN
COMMISSION

Brussels, 31.10.2022
C(2022) 7545 final

ANNEXES 1 to 4

ANNEXES

to the

COMMISSION DELEGATED REGULATION (EU) .../...

amending and correcting the regulatory technical standards laid down in Delegated Regulation (EU) 2022/1288 as regards the content and presentation of information in relation to disclosures in precontractual documents and periodic reports for financial products investing in environmentally sustainable economic activities

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
Mirae Asset ESG China Sector Leader Equity Fund

Legal entity identifier:
222100XEFYM8TFX7MX77

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●● <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

This Sub-Fund has met the environmental and/or social characteristics promoted.

This Sub-Fund aims at investing in companies with good environmental and/or social characteristics based on our proprietary ESG Scorecard (“the Mirae Asset ESG Scorecard”) through applying a best-in-class methodology. Among others, the environmental pillar includes resource & waste management, biodiversity, emissions, and supply chain

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

management (environmental), the social pillar includes human capital management, health & safety, data security & privacy, while the governance pillar includes corporate governance and business ethics.

Lastly, the Sub-Fund refrains from investing in business activities that are deemed harmful to the environment and society through applying the exclusions.

● **How did the sustainability indicators perform?**

- **...and compared to previous periods?**

Not applicable.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The list of PAIs considered, with reference to Annex I of the SFDR RTS, are as follows:

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

PAI Indicator	How this Sub-Fund has considered this PAI indicator
Table 1, #4 Exposure to companies active in the fossil fuel sector	This Sub-Fund has 0% exposure to companies that have significant (more than 15%) revenue in thermal coal mining and power generation, and unconventional oil & gas.
Table 1, #10 Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	This Sub-Fund has 0% exposure to companies with violations to Global Norms (i.e., United Nations Global Compact principles, United Nations Guiding Principles for Business and Human Rights, International Labour Organization's fundamental principles).
Table 1, #14 Exposure to controversial weapons	This Sub-Fund has 0% exposure to companies that have significant (more than 15%) revenue in controversial weapons.

Data availability for PAI indicators may vary between regions and thus some data might be missing or might be estimated. This might negatively impact the figures reported each year. The Principal Investment Manager will review the relevance and availability of data and consider adding more PAI indicators in the future.

What were the top investments of this financial product?

Largest investments*	Sector	% Assets**	Country

What was the proportion of sustainability-related investments?

● What was the asset allocation?

● In which economic sectors were the investments made?

The proportion of investments made by sector and by sub-sector:

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

* Average weight is the average weight of last 12 month end of the investment

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Sub-Fund does not currently commit to invest in any “sustainable investment” within the meaning of the Taxonomy Regulation. However, the position will be kept under review as the underlying rules are finalised and the availability of reliable data increases over time.

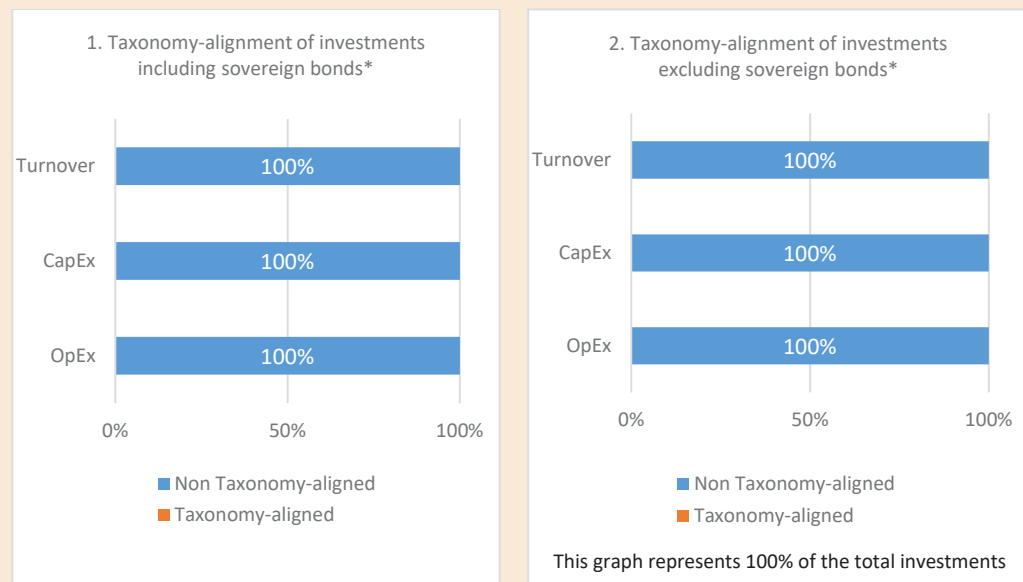

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

As the Sub-Fund does not currently commit to invest in any “sustainable investment” within the meaning of the Taxonomy Regulation, we do not monitor the Sub-Fund’s alignment to the EU Taxonomy and thus 100% of investments are deemed non Taxonomy-aligned.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund does not commit to invest any “sustainable investment” within the meaning of the Taxonomy Regulation, the minimum share of investments in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Sub-Fund promotes environmental and social characteristics but does not commit to making any sustainable investments. As a consequence, the Sub-Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The “Other” investments may include cash and cash equivalents held as ancillary liquidity, hedging instruments, unscreened investments for diversification purposes or investments for which data are lacking.

As a minimum E/S safeguard, the exclusions also apply to the unscreened investments and the investments for which data are lacking portion of the “Other” investments.

As for the remaining “Other” investments (cash, cash equivalents and hedging instruments), no minimum E/S safeguards are being put in place.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Mirae Asset ESG Scorecards were completed by sector analysts for all recommended stocks to compute ESG scores. The % distribution of the fund’s net assets to ESG scores (on a scale of 1 to 5) were monitored by the risk management unit every month.

The financial product’s exclusions to business activities Mirae Asset deems harmful to the environment and society were monitored every month: temporary breaches will be treated in the same way as our current compliance procedure for passive breach violations; Portfolio Managers are required to rectify the position for the corresponding fund within 15 business days.

Companies with violations of the Global Norms (e.g. United Nations Global Compact principles, United Nations Guiding Principles for Business and Human Rights, International Labour Organization’s fundamental principles) would also fall on the ESG Restrictive List. Should violations be identified, Portfolio Managers and relevant sector analysts are required to document remedial plans based on discussions with the company on a bi-annual basis. The Investment Committee will then decide whether to put a buy restriction on these companies.

EUROPEAN
COMMISSION

Brussels, 31.10.2022
C(2022) 7545 final

ANNEXES 1 to 4

ANNEXES

to the

COMMISSION DELEGATED REGULATION (EU) .../...

amending and correcting the regulatory technical standards laid down in Delegated Regulation (EU) 2022/1288 as regards the content and presentation of information in relation to disclosures in precontractual documents and periodic reports for financial products investing in environmentally sustainable economic activities

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:

Mirae Asset ESG India Sector Leader Equity Fund

Legal entity identifier:

222100U5R2US4E0X1N52

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

This Sub-Fund has met the environmental and/or social characteristics promoted.

This Sub-Fund aims at investing in companies with good environmental and/or social characteristics based on our proprietary ESG Scorecard (“the Mirae Asset ESG Scorecard”) through applying a best-in-class methodology. Among others, the environmental pillar includes resource & waste management, biodiversity, emissions, and supply chain

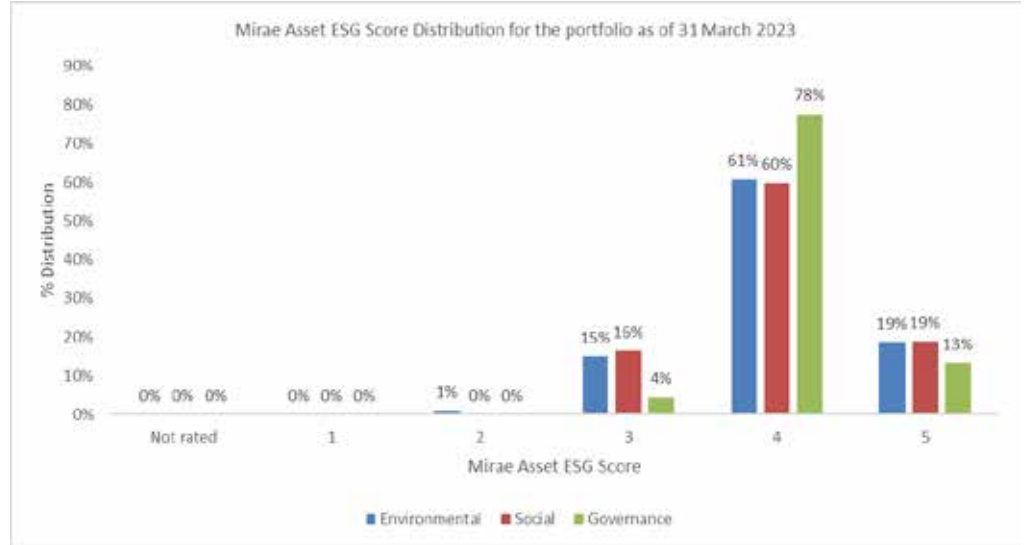

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

management (environmental), the social pillar includes human capital management, health & safety, data security & privacy, while the governance pillar includes corporate governance and business ethics.

Lastly, the Sub-Fund refrains from investing in business activities that are deemed harmful to the environment and society through applying the exclusions.

● **How did the sustainability indicators perform?**

1. The % distribution of the Sub-Fund’s net assets to ESG scores (based on the Mirae Asset ESG Scorecard) on a scale of 1 to 5

● **...and compared to previous periods?**

Not applicable.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The list of PAIs considered, with reference to Annex I of the SFDR RTS, are as follows:

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

PAI Indicator	How this Sub-Fund has considered this PAI indicator
Table 1, #4 Exposure to companies active in the fossil fuel sector	This Sub-Fund has 0% exposure to companies that have significant (more than 15%) revenue in thermal coal mining and power generation, and unconventional oil & gas.
Table 1, #10 Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	This Sub-Fund has 0% exposure to companies with violations to Global Norms (i.e., United Nations Global Compact principles, United Nations Guiding Principles for Business and Human Rights, International Labour Organization's fundamental principles).
Table 1, #14 Exposure to controversial weapons	This Sub-Fund has 0% exposure to companies that have significant (more than 15%) revenue in controversial weapons.

Data availability for PAI indicators may vary between regions and thus some data might be missing or might be estimated. This might negatively impact the figures reported each year. The Principal Investment Manager will review the relevance and availability of data and consider adding more PAI indicators in the future.

* Average weight is the average weight of last 12 month end of the investment

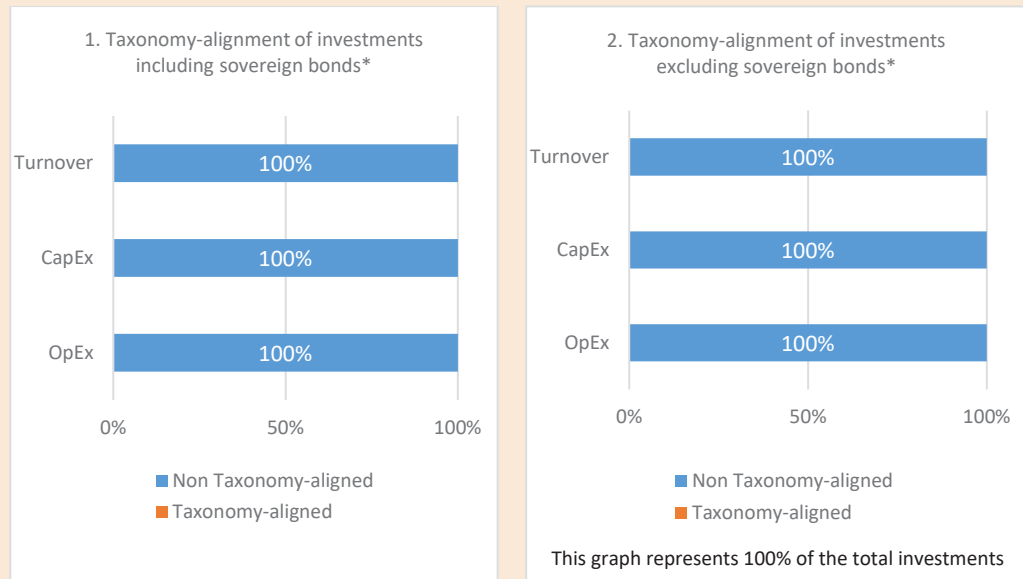

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Sub-Fund does not currently commit to invest in any “sustainable investment” within the meaning of the Taxonomy Regulation. However, the position will be kept under review as the underlying rules are finalised and the availability of reliable data increases over time.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

As the Sub-Fund does not currently commit to invest in any “sustainable investment” within the meaning of the Taxonomy Regulation, we do not monitor the Sub-Fund’s alignment to the EU Taxonomy and thus 100% of investments are deemed non Taxonomy-aligned.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund does not commit to invest any “sustainable investment” within the meaning of the Taxonomy Regulation, the minimum share of investments in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Sub-Fund promotes environmental and social characteristics but does not commit to making any sustainable investments. As a consequence, the Sub-Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The “Other” investments may include cash and cash equivalents held as ancillary liquidity, hedging instruments, unscreened investments for diversification purposes or investments for which data are lacking.

As a minimum E/S safeguard, the exclusions also apply to the unscreened investments and the investments for which data are lacking portion of the “Other” investments.

As for the remaining “Other” investments (cash, cash equivalents and hedging instruments), no minimum E/S safeguards are being put in place.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Mirae Asset ESG Scorecards were completed by sector analysts for all recommended stocks to commute ESG scores. The % distribution of the fund’s net assets to ESG scores (on a scale of 1 to 5) were monitored by the risk management unit every month.

The financial product’s exclusions to business activities Mirae Asset deems harmful to the environment and society were monitored every month: temporary breaches will be treated in the same way as our current compliance procedure for passive breach

violations; Portfolio Managers are required to rectify the position for the corresponding fund within 15 business days.

Companies with violations of the Global Norms (e.g. United Nations Global Compact principles, United Nations Guiding Principles for Business and Human Rights, International Labour Organization's fundamental principles) would also fall on the ESG Restrictive List. Should violations be identified, Portfolio Managers and relevant sector analysts are required to document remedial plans based on discussions with the company on a bi-annual basis. The Investment Committee will then decide whether to put a buy restriction on these companies.
