If a security is listed or traded on several markets, the closing price at the market which constitutes the main market for such securities is determined.

Securities not listed or traded on any Regulated Market, stock exchange in an Other State or Other Regulated Market are valued at their last available market price.

Securities for which no price quotation is available or for which the closing price at the market is not representative of the fair market value, are valued prudently, and in good faith by the Board of Directors on the basis of their reasonably foreseeable sales prices.

Units or shares of open-ended UCIs (undertakings for collective investment) are valued at their last official net asset values, excluding redemption fees, if any, as reported or provided by such UCIs or their agents, or at their last unofficial net asset values (i.e. estimates of net asset values) if more recent than their last official net asset values, provided that due diligence has been carried out by the Investment Manager, in accordance with instructions and under the overall control and responsibility of the Board of Directors, as to the reliability of such unofficial net asset values. The Net Asset Value calculated on the basis of unofficial net asset values of target UCIs may differ from the net asset value which would have been calculated, on the relevant Valuation Day, on the basis of the official net asset values determined by the administrative agents of the target UCIs. The Net Asset Value is final and binding notwithstanding any different later determination. Units or shares of quoted closed-ended UCIs are valued at their last available stock market value.

k) Legal, regulatory and professional expenses

In cases where the legal, regulatory and professional fees incurred by the Company can be directly attributed to the relevant sub-fund which incurred such fees, this sub-fund is the one bearing such fees.

In cases where these fees cannot be attributed to a specific sub-fund or affect the Company as a whole, such fees are attributed to all sub-funds on an equitable basis pro rata to their respective net asset value as at the date of the relevant invoice. The Board of Directors, the Management Company and/or the Principal Investment Manager shall in such case endeavour to ensure that such fees are fair and reasonable.

A portion of the expenses attributable to each sub-fund may however be borne by the Principal Investment Manager on a fair and equitable basis; reducing, as the case may be, the expenses to be charged to the sub-funds. No such fees were borne by the Principal Investment Manager for the period ended 30 September 2023.

l) Use of estimates

The preparation of the financial statements in conformity with Luxembourg legal and regulatory requirements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported periods. Actual results could differ from those estimates.
