

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Investec

Global Dynamic Resources Fund

A sub-fund of Investec Global Strategy Fund

Class A Accumulation shares in US dollars
ISIN: LU0345780950

Objectives and Investment policy

The Fund aims to grow the value of your investment over the long term.

The Fund invests around the world primarily in the shares of companies that are expected to benefit from a long term increase in the prices of commodities and natural resources. These companies are typically involved in mining, extracting, producing, processing or transporting a natural resource or commodity.

The Fund may use derivatives (financial contracts whose value is linked to the price of an underlying asset) with the aim of either reducing the risks or costs of managing the Fund or to increase its value or income in a way which is consistent with the Fund's risk level (i.e. not for speculative purposes).

The Investment Manager is free to choose how the Fund is invested and does not manage it with reference to an index.

Any income due from your investment is reflected in the value of your shares rather than being paid out.

You can buy or sell shares in the Fund on any business day in both the UK and Luxembourg, as defined in the prospectus (section 3).

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within the short to medium term.

Risk and Reward profile

Lower risk
Potentially lower rewards

Higher risk
Potentially higher rewards

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean 'risk free'.

The value of your investment can fall as well as rise and you are not certain of making profits; losses may be made.

The Fund appears at the higher end of the Risk and Reward Indicator scale. This is because it invests in the shares of companies, whose values tend to fluctuate more widely.

The following risks may not be fully captured by the Risk and Reward Indicator:

The Fund invests in a narrow range of investments and specialised sectors. This may lead to its returns fluctuating more widely than those of more broadly invested funds. It may also mean that there are times when the value of the Fund decreases even while more broadly invested funds are growing.

The Fund invests in a smaller than average number of holdings relative to a typical fund. This may lead to the Fund's returns fluctuating more widely than those of other more broadly invested funds.

The full list of the Fund's risks are contained in Appendix 1 of the Fund's prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. The entry charge shown is the most you might pay, in some cases you might pay less. You can find out actual entry charges from your financial adviser.

The ongoing charges figure is based on last year's expenses for the year ending 31 December 2011. The figure excludes any performance fee and portfolio transaction costs, except in the case of an entry or exit charge paid by the Fund when buying or selling units in another fund. Ongoing charges may vary from year to year.

For more information about charges, please see Appendix 1 of the Fund's prospectus.

One-off charges taken before you invest

Entry Charge	5.00%
Exit Charge	None

This is the maximum that might be taken out of your money before it is invested.

Past performance

Past performance is not a guide to future performance. The value of your investment and income from it may go down as well as up and you may not get back the amount you invested.

The past performance shown in the chart takes account of all charges except the Fund's entry charge and the past performance is calculated in US dollars.

The Fund was launched on 31 January 2008.
