## Nordea 1 - International High Yield Bond Fund, BP-EUR Share Class

ISIN-Code: LU0826393067

The fund is managed by Nordea Investment Funds S.A., a company of the group Nordea Bank AB.

### Objectives and Investment Policy

The fund aims to preserve the Shareholder's capital and to provide a return exceeding the average return of the international High Yield Bond market. The fund is further using its reference index as a tool for performance comparison purposes.

The fund shall invest at least 2/3 of its total assets (after deduction of cash) worldwide in bonds issued by companies that pay high interest due to their higher credit risk ("High Yield Bonds").

Within the remaining one-third of the fund's total assets: - The conditions in the aforementioned paragraph do not apply: debt instruments that may not qualify as High Yield Bonds, as well as equities, are eligible. - (i) convertible bonds, preferred securities and other equity-linked debt securities, (ii) a combination of money market instruments and/or government bonds, (iii) equity and equity related securities and (iv) asset-backed or mortgage-backed securities shall respectively not exceed 1/4, 1/3, 1/10 and 1/5 of the fund's total assets.

The fund may invest up to 5% of its total assets in Exchange Traded Funds (ETF). It may invest up to 100% of its net assets in securities authorised under rule 144a of the US Securities Act of 1933 and may accessarily hold cash.

While the fund compares its performance against the Merrill Lynch Global High Yield Constrained Index, it may freely select the securities that it will

invest in.

The fund may use financial derivative instruments\* mainly to:

- protect itself against the depreciation of foreign currencies in its portfolio\*\*; - mitigate the negative effect related to the default of the issuer(s) of debt instruments in its portfolio; or - extend or reduce its duration.

\* *These are financial contracts the value of which depends on the market price of a reference item.*

\*\* *The fund may decide to partially or completely eliminate this risk or to align this risk to the one of its reference index.*

Some of these derivatives' strategies may significantly increase risks.

Nordea's Policy for Responsible Investment aims to create responsible returns throughout environmental, social and governance analysis, norm based screening and active ownership activities. The fund may take part in a securities lending program. Any investor may redeem its shares in the fund on demand, on a daily basis. This fund may not be appropriate for investors who plan to withdraw their money within a period of 5 years.

This share class is not distributing dividends. Income from investments are reinvested.

The fund is denominated in USD. Investments in this share class settle in EUR. USD/EUR fluctuations may lead the performance in EUR of the share class to significantly deviate from the fund performance in USD.

### Risk and Reward Profile

The indicator measures the risk of price fluctuations in the fund certificates based on the last 5 years volatility and places the fund in category 5. This means that the purchase of units in the fund is connected to **medium risk** of such fluctuations. Please note that category 1 does not mean a risk free investment. Historical data, such as is used in calculating the synthetic indicator, may not be a reliable indication of the future risk profile of the UCITS, why the category might change in the future.

Following risks are materially relevant to the UCITS but are not adequately captured by the synthetic indicator and may cause additional loss:

**Credit risk:** The default of the issuer of a debt instrument held by the fund.

**Liquidity risk:** Securities in the fund may be sold below their valuation due to insufficient liquidity in the market.

**Counterparty risk:** A counterpart may fail paying the proceeds related to the sale of securities by the fund or may fail delivering the securities purchased by the fund. A counterpart of the fund in an OTC derivative may fail satisfying its obligations towards the fund at any event of the OTC derivative agreement.

**Derivatives risk:** Derivatives are used to increase, lower or maintain the risk level of the fund. The strategy followed by the fund may fail resulting in significant losses for the fund.

**Operational risk:** Failures or delays in operational processes may negatively affect the fund.

**Event risk:** Unforeseeable events such as devaluations, political events, etc...

**Charges**

One-off charges taken before or after you invest:	
Entry charge (%)	Up to 3%
Exit charge (%)	Up to 1%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out respectively.	
Charges taken from the fund over a year:	
Ongoing charge (%)	1.35%
Charges taken from the fund under certain specific conditions:	
Performance fee (%)	The fund is not subject to any performance fee.

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. The entry and exit charges shown are maximum figures. In some cases you might pay less – you can find this out from your financial advisor or distributor. The ongoing charges figure is based on the last year's expenses, for the year ending December 2011, and this figure may vary from year to year. It excludes performance related fees and transaction costs including third party brokerage fees and bank charges on securities transactions. For more information about charges, please see section 18 of the fund's prospectus, which is available at [www.nordea.lu](http://www.nordea.lu).

**Past Performance**

There are insufficient data to provide a useful indication of past performance of this share class: The fund was launched on 04.12.2012 and the share class on 04.12.2012. The past performance of the share class is calculated NAV to NAV excluding initial and exit charges. Such historical performance is only indicative and may not be met in the future. Reference index is the Merrill Lynch Global High Yield Constrained Index. Performances are shown in EUR.
