What is this product?

Type: Shares of Amundi Eastern Europe Stock, an investment fund.

Term: The term of the Fund is open-ended. The Management Company may terminate the Fund by dissolution or merger with another fund, in accordance with the legal provisions.

Objectives: This product has a financial investment objective and a sustainable investment objective. The **Amundi Eastern Europe Stock** is a financial product promoting ESG characteristics in accordance with Article 8 of the Disclosure Regulation. More detailed information can be found in the prospectus under Section 14, "Investment objective", and in the "Additional investor information" annex under "Pre-contractual information" or "Sustainability (ESG) principles".

Financial investment objective: Achieve long-term capital growth with adequate risk diversification.

Sustainable investment objective: achieve a better ESG rating than the MSCI EM EUROPE 10-40 NR close

Investment strategy and instruments: The Amundi Eastern Europe Stock is an equity fund that invests primarily, i.e. at least 51% of the Fund's assets, in equities of companies that have their registered office and/or part of their business in the countries of Central, Eastern and South Eastern Europe (including the successor states of the former Soviet Union and Turkey). Equities of other issuers based in countries bordering the Mediterranean can be added. Up to 10% of the Fund's assets may be invested in shares of other investment funds.

As part of the investment strategy, up to 34% of the Fund's assets may be invested in derivative instruments (calculated on the basis of current market prices) which are used for hedging purposes. As a result, there may be an increased risk of loss of the Fund's assets, at least temporarily.

Benchmark: The Amundi Eastern Europe Stock has an active investment strategy and aims to outperform the 100% MSCI EM EUROPE 10-40 NR close (hereinafter referred to as "Index") "Index"). The Amundi Eastern

Europe Stock invests mainly in financial instruments included in the Index. However, the Amundi Eastern Europe Stock is actively managed at its discretion and may also invest in non-index financial instruments.

The Fund Manager attempts to optimise performance by selectively overweighting or underweighting individual equities or sectors within the Fund's investment universe. The risk of the Fund is measured against the Index, and the extent of the deviation can be significant. The Index is not defined as a benchmark in accordance with Article 8 (1)b of the Disclosure Regulation.

The Fund Manager will use macro market data in combination with basic analysis of individual issuers to identify equities with improved long-term prospects.

Intended Retail Investor: This product is intended for investors with a basic knowledge and with no or limited experience of investing in funds, seeking to increase the value of their investment over the recommended holding period and who are prepared to take on a high level of risk to their original capital.

Redemption and Dealing: Shares may be sold (redeemed) as stated in the prospectus and investor information document at the respective dealing price (net asset value). Further details can be found in the prospectus or the investor information document of Amundi Eastern Europe Stock.

Distribution Policy: As this is a non-distributing share class, investment income is reinvested.

What are the risks and what could I get in return?

RISK INDICATOR

Lower risk

Higher risk

The risk indicator assumes you keep the product for six years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 6 out of 7, which is the second-highest risk class. The risk of potential losses from future performance is therefore classified as high. In unfavourable market conditions, it is very likely that our ability to pay you will be compromised.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Product's performance. Further information can be found in the prospectus or the investor information document of Amundi Eastern Europe Stock.
