What is this product?

Type

UCITS investment fund in the form of an authorised unit trust.

Term

The Sub-Fund has no maturity date, however the Manager is entitled to terminate the Sub-Fund at any time.

Objectives

The Sub-Fund seeks to provide long-term capital appreciation (i.e. to grow the value of your investment over the long term) by investing in equity (i.e. shares) and equity-related securities of companies listed on stock exchanges in India or closely related to the economic development and growth of India.

At least two-thirds of the Sub-Fund's total assets will be invested (either directly by the Sub-Fund or through PineBridge Investments GF Mauritius Ltd (the "Mauritian Subsidiary") for efficient portfolio management) in equities and equity-related securities (excluding convertibles and bonds with warrants attached) of issuers domiciled in or exercising the predominant part of their commercial activities in India. The Investment Manager constructs the portfolio based on a combination of bottom-up high conviction lists and a top-down industry allocation framework.

Within the remaining one third the Sub-Fund may invest in other types of transferable securities, and in particular: equity and equity-related securities including but not limited to common stock, preferred stock and securities which are convertible into or exchangeable for such equity securities, or which carry warrants to purchase such equity securities; equity index- and equity-related instruments including but not limited to, participatory receipts / participatory certificates and share index notes; American Depositary Receipts (ADRs) / International Depositary Receipts (IDRs) / Global Depositary Receipts (GDRs); hold deposits with credit institutions.

The Sub-Fund may invest up to 10% of its Net Asset Value in other investment funds including real estate investment trusts ("REITS"). These investment funds must have investment objectives and policies that are consistent with those of the Sub-Fund.

The Sub-Fund seeks to promote environmental and social characteristics in line with Article 8 of the Sustainable Finance Disclosures Regulation (SFDR) by virtue of the incorporation of environmental, social and governance ("ESG")- and sustainability risk-related factors into the Sub-Fund's investment process and the overall assessment of a company. This includes examining issues related to governance such as business ethics, board independence and diversity in both management and board-level positions and environmental impact and social factors including energy management, waste and waste water impact, air quality impact

employee health and safety, community engagement and supply chain management.

The Sub-Fund may use financial derivative instruments ("FDI") for efficient portfolio management (including hedging) purposes only. The Sub-Fund will not use FDI extensively for any purpose.

Share Class Benchmark The benchmark is MSCI India Daily Total Return Net Index.

Benchmark The Sub-Fund is actively managed, in reference to a benchmark. The Sub-Fund is seeking to deliver excess returns over the Sub-Fund's benchmark. The holdings may or may not be components of the benchmark and the Investment Manager has discretion to deviate entirely from the benchmark securities, weightings and risk characteristics. The degree to which the Sub-Fund resembles the composition and risk characteristics of the benchmark is not a specifically targeted outcome and could vary over time, and the Sub-Fund's performance may be meaningfully different from that of the Sub-Fund's benchmark.

Redemption and Dealing This Unit Class of the Sub-Fund may be redeemed on demand on any dealing day as detailed in the supplement. The price you pay or receive depends on the net asset value per unit on the dealing day when the unit is bought or sold.
