The Company

Schroder GAIA (the 'Company') is an umbrella structured open-ended investment company with limited liability, organised as a 'société anonyme' and qualifies as a SICAV under Part I of the Law of 17 December 2010 as amended. The Company was incorporated on 21 October 2009 and its Articles were published in the Memorial on 12 November 2009 as amended.

This report covers the period from 1 October 2022 to 31 March 2023. The financial statements are prepared in accordance with Luxembourg regulations relating to undertakings for collective investment. The last day on which prices were calculated was 31 March 2023, the last working day of the period under review. At the date of this report, eleven sub-funds are available for investment within the Company (the 'sub-funds').

Please refer to the current prospectus for the investment objectives of the sub-funds as well as details of investment restrictions. The Investment Manager's report for each sub-fund can be found in the quarterly investment reports, which can be obtained from the Company's registered office and are also available on the website of Schroder Investment Management (Europe) S.A. (<http://www.schroders.lu>).

Schroders is a FATCA compliant organisation. The FATCA classification of this entity and its GIIN is as follows: FATCA entity classification: FFI; Sponsoring entity: Schroder Investment Management (Europe) S.A.; Sponsoring entity GIIN: 4RIMT7.00000.SP.442.

Corporate Governance

The Company is subject to corporate governance based on:

1. Its obligations as defined by the UCITS Directive 2009/65/EC dated 13 July 2009, as implemented in Luxembourg law which is available for inspection at the registered office of the Company at 5, rue Höhenhof, 1736 Senningerberg, Grand Duchy of Luxembourg.
2. Its Articles of Incorporation which are available for inspection at the registered office of the Company and at the Luxembourg corporate and trade register, Registre de Commerce et des Sociétés ('RCSL').
3. The obligations in respect of the management of the Company, for which the Company has appointed Schroder Investment Management (Europe) S.A. (the 'Management Company'), which is subject to the requirements of the Management Company Directive 2010/43/EC, as implemented in Luxembourg law.
4. The Association of the Luxembourg Fund Industry ('ALFI') Code of Conduct for Luxembourg Investment Funds, the principles of which the Company has voluntarily adopted.

Internal Control and Risk Management Systems

The Board of Directors is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board of Directors has contracted with the Management Company to put procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including the production of annual and semi-annual reports. The annual and semi-annual reports of the Company are required to be approved by the Board of Directors of the Company and filed with the Commission de Surveillance du Secteur Financier ('CSSF') and in the case of the annual reports, with the Registre de Commerce et des Sociétés ('RCSL'). The annual statutory financial statements are required to be audited by independent auditors who report to the Board of Directors on their findings.

The Board meets at least four times a year and ensures that the Company maintains high standards of integrity and control in its operations and that it possesses adequate governance and means of control as law and regulation demand.

Investment Manager's Report

The sub-funds in the Schroder GAIA range can take advantage of positive or adverse market conditions through long or short exposures. This approach can sometimes result in quite diverse performance in the short term relative to the markets in which the funds invest.

Economic review

The six-month period saw rising interest rates across developed markets as inflation remained above target. However, by the end of the period hopes were building that interest rates may be at or close to their peak as inflationary pressures began to abate. The US inflation rate declined from 7.7% in October 2022 to 5.0% in March 2023. However, "core" inflation, which strips out food and energy prices, fell at a slower rate. The US core PCE price index, the Federal Reserve's preferred gauge to measure inflation, fell from 5.1% in October 2022 to 4.6% in March 2023.

Concern over the health of the banking system also bolstered hopes that interest rates might be close to peak. The collapse of US regional lender Silicon Valley Bank in March, along with two other small US banks, caused volatility for global markets. Falling deposits forced Silicon Valley Bank to crystallise the losses on its bond portfolio. Fears over the bank's liquidity spread rapidly, leading to more depositors withdrawing their funds. The nervousness over banks extended to Europe too where the Swiss authorities quickly brokered a deal for UBS to rescue troubled peer Credit Suisse, which had also been experiencing deposit outflows.

Developed market central banks raised interest rates over the period, and the banking sector stress did not put an end to the hikes. The US Fed Funds rate began the period at 3.00-3.25% and this was raised to 4.75-5.00% in March 2023. The European Central Bank's main refinancing rate had risen to 3.50% in March 2023, from 1.25% in September 2022. The Bank of England's official bank rate was 4.25% in March 2023, up from 2.25% in September 2022. Of major developed economies, Japan remained the outlier in not raising interest rates. However, in December the Bank of Japan (BoJ) did make a change to its yield curve control policy, widen the band within which it has been maintaining 10-year bond yields. The period also marked the end of BoJ governor Haruhiko Kuroda's tenure, with Kazuo Ueda taking the helm from April 2023.

Interest rate rises in Europe and the UK came as inflation remained persistently strong, even as energy prices declined. Natural gas prices in particular fell as a combination of warmer winter weather and measures to reduce consumption alleviated fears over natural gas shortages. Falling natural gas prices also fed through into stronger than feared economic activity, with both regions avoiding recession over the winter months.

In China, the key policy event of the period was the lifting of the zero-Covid policy in mid-December. This represented a rapid change in official policy, spurring the re-opening of the domestic economy alongside the lifting of travel restrictions. China's economy rebounded following the lifting of restrictions with GDP growth of 2.2% quarter-on-quarter in Q1 2023, after 0.6% growth in Q4 2022.

Equity market review

Shares delivered strong gains over the six-month period. The MSCI World index returned 18.3% as investors took the view that major developed market economies would avoid a deep recession and that interest rates might soon peak. In terms of equity styles, growth outperformed value, with the banking sector stress towards the end of the period weighing on value shares. Among global equity sectors, information technology outperformed while real estate was a laggard.

The US S&P 500 registered a return of 15.3% (in US dollars) with gains led by the information technology sector. Eurozone shares saw a very strong advance with the MSCI EMU index returning 26.5% (in euros). The gains came as investors returned to the region after a period of caution following Russia's invasion of Ukraine in February 2022. Shares were also boosted by reduced worries over potential power shortages. Gains were led by the consumer discretionary sector – where news of China lifting its zero-Covid policy helped luxury goods stocks and the information technology sector. It was a similar picture for the UK, with consumer discretionary shares leading gains for the FTSE All-Share index.

Gains for emerging markets were more muted than for developed markets. The MSCI EM (Emerging Markets) index returned 14.0% (in US dollars). As in developed markets, the information technology sector posted robust returns, alongside communication services. By country, some of the Eastern European markets saw the strongest gains, including Poland, Czech Republic and Hungary. Earlier in 2022, these markets had been hit hard by their proximity to the Russian-Ukraine war, as well as higher natural gas prices. The fall in natural gas prices over the European winter was therefore helpful for sentiment towards these economies.

Weaker commodity prices over the period weighed on returns for commodity-exporting nations. Brazil was among the countries registering a negative return, alongside Qatar, Saudi Arabia and the UAE. Indian shares were also weaker over the period.

Bond market review

Global government bond yields dropped towards the end of the six-month period. The collapse of Silicon Valley Bank in March prompted a sharp rally in government bond markets and sparked concerns over the re-accelerating of inflation.

Within days of the market reaction to the banking crisis, government bond markets went from pricing in rate hikes to discounting sizeable rate cuts in some markets. Meanwhile, the US government intervened and invoked a "systemic risk exception" guaranteeing depositors access to their money to calm panicked customers.

Amid the changing market dynamics, central banks continued with their interest rate hikes, though some adjusted their stance. In the last six months, the Federal Reserve (Fed) announced four rate hikes, with the latest being a relatively slower hike of 25bps in response to the banking sector's turmoil. The Bank of England (BoE) also approved four rate hikes and followed the Fed's lead by taking the final increase to 25bps. The European Central Bank (ECB) maintained its stance, also enacting four rate hikes but raising their final rate by 50bps.

The information contained in this report is historical and not necessarily indicative of future performance.

Investment Manager's Report (cont)

Bond market review (cont)

Against this backdrop markets were volatile, with US and European investment grade posting positive returns, but high yield was negative with poor performance from the banking sector dominating. Eurozone and US inflation continued their downward trajectory, pulling back from record highs seen last year but still remaining elevated.

The US 10-year yields fell from 3.83% to 3.47%, with the two-year going from 4.28% to 4.03%. Germany's 10-year yield increased from 2.11% to 2.29%. The UK 10-year yield fell from 4.15% to 3.49% and two-year decreased from 4.92% to 3.44%.

The US dollar weakened against the euro and UK pound, driven by changes in rate hike expectations.

Outlook

The outlook for China has clearly improved since the zero-Covid policy was abandoned. Activity is normalising and the Schroders Economics Group thinks a recovery driven by services could drive GDP growth of 6.2% in 2023 and 4.5% next year.

China's sheer size means that stronger activity will mechanically lift global GDP growth. However, it is not clear that a services-led recovery in China will offer much support to the rest of the world. Small Asian economies will benefit from the return of holidaymakers. But prior strong investment and soft external demand means that the recovery is unlikely to spur a renewed investment cycle in manufacturing that sucks in imports from Europe and the rest of the world.

Commodity exporters may receive some support if prices rise, but the playbook may be different this time. Whereas past recoveries driven by construction have buoyed the prices of industrial metals, a recovery in services may be more supportive of energy which could fire up global inflation again. Some emerging markets would thrive in this environment, but most face a period of sluggish growth as higher interest rates and subdued external demand bite.

The Schroders Economics Group has become less pessimistic on the outlook for developed markets, but more for domestic reasons. Despite most warning signs flashing red, the US economy has continued to defy gravity. We still think that higher interest rates, which are now expected to peak at 5.25% in the second quarter, will lead to a recession. But it is likely to be relatively short and shallow. A period of below-trend growth should still bring inflation down, allowing the Federal Reserve to pivot back to rate cuts in late 2023.

The eurozone is set to avoid recession after some respite from the energy crisis. Inflation should fall back more quickly, relieving some of the pressure on real incomes. The economy is likely to be largely stagnant meaning that while the European Central Bank may raise rates a bit further in the near term, it is also likely to cut next year.

By contrast, the UK still faces a recession as higher inflation and interest rates, along with austere fiscal policy, dampen the outlook. Interest rates may have already peaked with cuts likely in 2024.

Notes to the Financial Statements as at 31 March 2023

The Company

The Company is an open-ended investment company organised as a 'société anonyme' under the laws of the Grand Duchy of Luxembourg and qualifies as a Société d'Investissement à Capital Variable ('SICAV'). The exclusive objective of the Company is to place the sub-funds available to it in transferable securities of any kind and other permitted assets, including financial derivative instruments, with the purpose of spreading investment risks and affording its Shareholders the results of the management of its portfolios.

The investment strategy of each sub-fund is based on an alternative investment strategy which has been designed and is currently managed by each of the Investment Managers.

Classes of Shares

Shares are generally issued as Accumulation Shares. Distribution Shares will only be issued within any sub-fund at the Directors' discretion. Investors may enquire at the Management Company or their Distributor whether any Distribution Shares are available within each Share Class and sub-fund.

The Directors may decide to create within each sub-fund different Share Classes whose assets will be commonly invested pursuant to the specific investment policy of the relevant sub-fund, but where a specific fee structure, currency of denomination or other specific feature may apply to each Share Class. A separate Net Asset Value per Share, which may differ as a consequence of these variable factors, will be calculated for each Share Class. The classes of share available for each sub-fund are set out in detail in the current prospectus.

E Share Class is not available through Schroders' global network of distributors. For any questions in this regard, please contact the Management Company.

Initial Charge

The Management Company and Distributors are entitled to an initial charge, which can be partly or fully waived at the Directors' discretion.

Share Classes	Initial Charge
A ¹ , A2 and K Shares	Up to 3.09278% of the Net Asset Value per Share
A1 Shares	Up to 2.04081% of the Net Asset Value per Share
C, C1, E, F and P Shares	Up to 1.01010% of the Net Asset Value per Share
I, IF, IZ, N, PI, R, S, X, Y, Y1 and Y2 Shares	No initial charge

Distribution Charge

As at the date of this report, there is a distribution charge of 0.50% on all Schroder GAIA A1 Share Classes. There are no other distribution charges attributable to any other classes of Shares available for investment within the Company.

Swing Pricing

A sub-fund may suffer dilution of the Net Asset Value per Share due to investors buying or selling Shares in a sub-fund at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows. In order to counter this impact, a Swing Pricing mechanism may be adopted to protect the interests of the Shareholders of the sub-fund. If on any Valuation Day, the aggregate net transactions in Shares of a sub-fund exceed a pre-determined threshold, as determined and reviewed for each sub-fund on a periodic basis by the Management Company, the Net Asset Value per Share may be adjusted upwards or downwards to reflect net inflows and outflows respectively.

The net flow will be determined by the Management Company based on the latest available information at the time of calculation of the Net Asset Value per Share. The extent of the price adjustment will be set by the Management Company to reflect dealing and other costs. Such adjustment may vary from sub-fund to sub-fund and will not exceed 2% of the original Net Asset Value per Share.

The mechanism has been implemented for Schroder GAIA sub-funds since their inception.

On 31 March 2023, the last Calculation Day of the period under review, swing pricing adjustments were applied to Schroder GAIA Contour Tech Equity and Schroder GAIA Oaktree Credit. The official Net Asset Values per Share of these sub-funds following the application of the swing pricing adjustment on that date are shown in the following table. All other financial information stated in this report is shown before any adjustments for swing pricing.

Notes to the Financial Statements as at 31 March 2023 (cont)

Summary of Significant Accounting Policies

The financial statements are prepared and presented in accordance with generally accepted accounting principles in Luxembourg for investment funds on a going concern basis.

Net Asset Value

Calculation of Net Asset Value per Share

The Net Asset Value per Share of each Share Class is calculated on the Calculation Day in the currency of the relevant Share Class. It will be calculated by dividing the Net Asset Value attributable to each Share Class, being the proportionate value of its assets less its liabilities, by the number of Shares of such Share Class then in issue. The resulting sum shall be rounded to the nearest up to four decimal places. Further details on rules that apply in valuing total assets can be found in the current prospectus.

Valuation of the Assets of the Company

The value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received shall be deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Company may consider appropriate in such case to reflect the true value thereof.

The value of securities, financial derivative instruments and assets is determined on the basis of the prices at the close of market on the Business Day, on the stock exchange or any other Regulated Market on which these securities or assets are traded or admitted for trading. If a security is not traded or admitted on any official stock exchange or any Regulated Market, or in the case of securities so traded or admitted the last available price of which does not reflect their true value, the Directors are required to proceed on the basis of their expected sales price, which shall be valued with prudence and in good faith.

The financial derivative instruments which are not listed on any official stock exchange or traded on any other organised market are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the Company's initiative.

Should any of the aforesaid valuation principles not reflect the valuation method commonly used in specific markets or if any such valuation principles do not seem accurate for the purpose of determining the value of the Company's assets, the Directors may fix different valuation principles in good faith and in accordance with generally accepted valuation principles and procedures.

Units or Shares in open-ended UCIs shall be valued on the basis of their last available Net Asset Value as reported by such UCIs.

Fair Value Pricing

The Directors reserve the right to implement fair value pricing whenever they deem it appropriate.

As at 31 March 2023, the fair value adjustment was applied to the following securities:

Sub-Fund	Security name
Schroder GAIA Cat Bond	LionRock SideCar 2020-1C perpetual, ZCP
	LionRock SideCar 2021-1 perpetual, ZCP
	Putnam Re 07/06/24, 10.18%
	Voussoir Re perpetual, variable
Schroder GAIA Helix	CFD on MAGNIT PJSC
	CFD on TRINITY LIMITED
	Fix Price Group
Schroder GAIA Wellington Pagosa	Clementia Pharmaceuticals
	Credit Suisse Group perpetual, 7.25%
	Credit Suisse Group perpetual, 7.50%
	Credit Suisse Group perpetual*, 7.50%

Taxation

The Company is not subject to any taxes in Luxembourg on income or capital gains.

The only tax to which the Company is subject is the 'taxe d'abonnement' at a rate of 0.05% per annum based on the Net Asset Value of each sub-fund at the end of the relevant quarter, calculated and paid quarterly.

In respect of any Share Class or sub-fund which comprises only institutional Investors (within the meaning of Article 174 of the Law of 17 December 2010 as amended), the tax levied will be at the rate of 0.01% per annum.

Interest and dividend income received by the Company may be subject to non-recoverable withholding tax in the source countries. The Company may further be subject to tax on the realised or unrealised capital appreciation of its assets in the countries of origin, and provisions in this respect may be recognised in certain jurisdictions.

Notes to the Financial Statements as at 31 March 2023 (cont)

Management Fees

The Investment Managers are entitled to receive management fees for their services, which are calculated and accrued daily by reference to the Net Asset Value of the sub-funds and are paid monthly. The actual rates payable for the period under review are set out in the following table:

These fees may be partially waived at the discretion of the Management Company.

Directors' Fees

Marie-Jeanne Chèvremont-Lorenzini received a remuneration of EUR 10,083 for the period under review. Bernard Herman and Eric Bertrand received a remuneration of EUR 9,243 each for the period under review. Hugh Mullan received a remuneration of EUR 8,000 for the period under review. The remaining directors have waived their remuneration.

* Please refer to the Directors' Report for details of all corporate actions that occurred during the period under review.

Notes to the Financial Statements as at 31 March 2023 (cont)

Performance Fees

The performance fee becomes due in the event of outperformance, that is if the increase in the Net Asset Value per Share during the relevant performance period exceeds the High Water Mark, i.e. by reference to the highest Net Asset Value per Share at the end of any previous performance period (the High Water Mark).

A Share Class performance fee is accrued on each Business Day and included in the Net Asset Values of the sub-funds on the following Calculation Day, on the basis of the difference between the Net Asset Value per Share determined on the same Calculation Day (before deduction of any provision for the performance fee) and the hurdle, multiplied by the average number of Shares in issue over the financial period or in the case of a performance fee based on outperformance over a benchmark the higher of the Target Net Asset Value per Share (i.e. the hypothetical Net Asset Value per Share assuming a performance based on the benchmark until the Business Day) or the High Water Mark, multiplied by the average number of Shares in issue over the financial period. No performance fee is calculated for I Shares.

Details of performance fees calculations for the period under review are shown in the table below. Further details of the calculation of performance fees can be found in the current prospectus and the fees payable for the period are shown in the Statement of Net Assets under 'Performance fees payable'. Performance fees charged per share class during the period are shown on pages 137-138.

For Schroder GAIA Asian Equity Long Short*, Schroder GAIA Contour Tech Equity, Schroder GAIA Egerton Equity, Schroder GAIA Two Sigma Diversified and Schroder GAIA Tellworth UK Dynamic Absolute Return Fund* the performance fee is 20% of the outperformance.

For Schroder GAIA Helix, Schroder GAIA Sirios US Equity and Schroder GAIA Wellington Pagosa the performance fee is 20% of the outperformance (with the exception of E Shares where the rate is 15% of the outperformance).

For Schroder GAIA BlueTrend the performance fee is 10% of the outperformance.

For Schroder GAIA Cat Bond and Schroder GAIA Oaktree Credit no performance fee is charged (with the exception of Schroder GAIA Cat Bond PI Shares where the rate is 10% of the outperformance).

* Please refer to the Directors' Report for details of all corporate actions that occurred during the period under review.

** The Investment Manager for Schroder GAIA Tellworth UK Dynamic Absolute Return Fund* has changed from BennBridge Ltd to Tellworth Investments LLP effective 5 December 2022.

Notes to the Financial Statements as at 31 March 2023 (cont)

Custodian and Administration fees

The Custodian and Fund Administrator are entitled to fees for related services rendered in accordance with common practice in Luxembourg, payable monthly, out of the net assets of the Fund.

Cash Collateral Reinvestment

For the purpose of counterparty risk mitigation, sub-funds with currency hedging transactions related to hedged Share Classes will pay or receive cash collateral on a daily basis from the counterparty, thus reducing their exposure over the duration of the forward contract.

Investment Managers may reinvest the cash collateral they receive from their counterparty in connection with currency hedging.

Collateral receivable or payable at the maturity date of the forward contracts are shown in the Statement of Net Assets as 'Net Hedged currency class forward contracts collateral receivable/payable'. Collateral calls receivable or payable are shown in the Statement of Net Assets as 'Hedged currency class forward contracts collateral calls receivable/payable'.

Forward Foreign Exchange Contracts

Outstanding forward foreign exchange contracts were valued at the last available price at NAV Calculation Day, by reference to the forward rate of exchange applicable to the maturity of the relevant contract. The unrealised appreciation/(depreciation) is shown in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on forward foreign exchange contracts'.

On 31 March 2023, the following sub-funds were committed to forward foreign exchange contracts:

Notes to the Financial Statements as at 31 March 2023 (cont)

Total Return Swap Contracts

The Fund may use total return swaps. A total return swap is a bilateral financial contract which allows the Fund to enjoy all of the cash flow benefits of an asset without actually owning this asset (the 'Reference Asset'). The sub-funds will have to pay a periodic fee (fixed or floating payment) in exchange of their rights to receive the total return of the Reference Assets (coupons and/or capital gains and/or losses). The Reference Asset can be almost any asset, which constitutes an eligible investment for the sub-funds. The sub-funds may use such instruments to seek exposure to an eligible market or for hedging purposes.

The total return swaps were valued at the last available price at NAV Calculation Day. The unrealised gain or loss on total return swaps at period-end is represented by the values of interests to be received (or paid), based on relevant swap agreements' interest rates less (or plus, respectively), the value of the performance to be paid (or received, respectively), based on the total return value of underlying assets, which is made of the current fair value of equities plus the dividend distributed for such equities for the relevant swap year. The unrealised appreciation/(depreciation) is shown in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on total return swap contracts'.

As at 31 March 2023, the following sub-funds were committed to total return swap contracts agreements:

Protection Position	Industry	Counterparty	Currency	Nominal Amount	Market Value	Maturity Date	Unrealised Appreciation/(Depreciation)

Notes to the Financial Statements as at 31 March 2023 (cont)

Contracts for Differences

Contracts for differences ("CFDs") are valued based on the closing market price of the underlying security converted into the base currency of the contract for differences, less any financing charges attributable to each contract which are booked separately. On entering a contract for differences, the Fund may be required to pledge an amount of cash and/or other assets to the broker which is equal to a certain percentage of the contract amount ('initial margin'). Subsequently, payments known as 'variation margins' are made or received by the Fund periodically, depending on the fluctuations in the value of the underlying security. Realised gains or losses at the closure of the contract are equal to the difference between the value of the contract for differences at the time it was opened (including any financial changes) and the value at the time it was closed. Dividends (net of withholding taxes) attributable to open contracts for differences are deemed to be dividends receivable at the end of the period. The result of these revaluations is shown in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on contracts for differences'.

As at 31 March 2023, the following sub-funds were entered into contracts for differences on financial indices and futures contracts:

Contract	Counterparty	Quantity	Market Value	Unrealised Appreciation/ (Depreciation)

Credit Default Index Swap Contracts

A credit default index swap allows the transfer of default risk. This allows a Fund to effectively buy insurance on a reference index obligation it holds (hedging the investment), or buy protection on a reference index obligation it does not physically own in the expectation that the credit will decline in quality. One party, the protection buyer, makes a stream of payments to the seller of the protection, and a payment is due to the buyer if there is a credit event (a decline in credit quality, which will be predefined in the agreement between the parties). If the credit event does not occur the buyer pays all the required premiums and the swap terminates on maturity with no further payments. The risk of the buyer is therefore limited to the value of the premiums paid. In addition, if there is a credit event and the Fund does not hold the underlying reference obligation, there may be a market risk as the Fund may need time to obtain the reference index obligation and deliver it to the counterparty. Furthermore, if the counterparty becomes insolvent, the Fund may not recover the full amount due to it from the counterparty. The market for credit default indices may sometimes be more illiquid than the bond markets. The Company will mitigate this risk by monitoring in an appropriate manner the use of this type of transaction.

* Please refer to the Directors' Report for details of all corporate actions that occurred during the period under review.

Notes to the Financial Statements as at 31 March 2023 (cont)

Credit Default Index Swap Contracts (cont)

Credit default indices were valued at their intrinsic value. The valuation method involves the current value of the interest-rate series and the current value of the credit spread traded on the market at the closing date. The result of these revaluations together with any interest receivable/payable in relation to credit default index is shown in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on credit default index swap contracts'.

On 31 March 2023, the following sub-funds were committed to credit default indices agreements on financial indices:

Credit Default Swap Contracts

A credit default swap allows the transfer of default risk. This allows the Fund to effectively buy insurance on a reference obligation it holds (hedging the investment), or buy protection on a reference obligation it does not physically own in the expectation that the credit will decline in quality. One party, the protection buyer, makes a stream of payments to the seller of the protection, and a payment is due to the buyer if there is a credit event (a decline in credit quality, which will be predefined in the agreement between the parties). If the credit event does not occur the buyer pays all the required premiums and the swap terminates on maturity with no further payments. The risk of the buyer is therefore limited to the value of the premiums paid. In addition, if there is a credit event and the sub-fund does not hold the underlying reference obligation, there may be a market risk as the sub-fund may need time to obtain the reference obligation and deliver it to the counterparty. Furthermore, if the counterparty becomes insolvent, the sub-fund may not recover the full amount due to it from the counterparty. The market for credit default swaps may sometimes be more illiquid than the bond markets. The Company will mitigate this risk by monitoring in an appropriate manner the use of this type of transaction.

Credit default swaps were valued at their intrinsic value. The valuation method involves the current value of the interest-rate series and the current value of the credit spread traded on the market at the closing date. The result of these revaluations together with any interest receivable/payable in relation to credit default swaps is shown in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on credit default swap contracts'.

On 31 March 2023 the following sub-fund was committed to credit default swap agreements:

Cross Currency Swap Contracts

The cross currency swaps were valued at the last available price at NAV Calculation Day. The Unrealised appreciation/(depreciation) is disclosed in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on cross currency swap contracts'. A cross currency swap is a contract by which two parties commit themselves during a given period to exchange interest payments denominated in two different currencies.

On 31 March 2023, the following sub-fund was entered in to cross currency swap contracts:

Counterparty	Paying Currency	Nominal	Receiving Currency	Nominal	Maturity	Paying Rate	Receiving Rate	Unrealised Appreciation/ (Depreciation)
Schroder GAIA Wellington Pagosa								
BNP Paribas	CNH	14,096,000	USD	2,060,638	20-Sep-2025	2.92%	USD SOFR 1 day	(12,451)

Inflation Rate Swap Contracts

An inflation rate swap allows the transfer of inflation risk. One party to the contract seeks to reduce their risk (by hedging), while the other increases exposure to the risk (by speculating). The party looking to hedge their inflation risk pays the floating rate linked to an inflation index while receiving fixed cash flows. By swapping floating for fixed, it reduces the hedging party's exposure to inflation risk and increases their certainty of future cash flows. Inflation rate swaps were valued at the last available price at NAV Calculation Day. The Unrealised appreciation/(depreciation) is disclosed in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on inflation rate swap contracts'.

On 31 March 2023, the following sub-fund was committed to swap agreements on inflation rates:

Nominal Amount	Currency	Counterparty	Security Description	Maturity Date	Unrealised Appreciation/ (Depreciation)
Schroder GAIA Wellington Pagosa					
5,675,000	EUR	J.P. Morgan	Pay fixed 2.43%, Receive floating HICPX 10 year	15-Feb-2033	7,867

Interest Rate Swap Contracts

In order to hedge against interest rate fluctuations, the Company may enter into interest rate swaps provided:

- The commitments deriving therefrom do not exceed the value of the relevant assets to be hedged; and
- The total amount of such transactions does not exceed the level necessary to cover the risk of the fluctuation of the value of the assets concerned.

Such contracts must be denominated in the currencies in which the assets of such Fund are denominated, or in currencies which are likely to fluctuate in a similar manner and must be either listed on an exchange or dealt in on a Regulated Market.

Interest rate swaps were valued at the last available price at NAV Calculation Day at their intrinsic value. The valuation method involves a current value of each interest rate and capital series converted into the currency of the Fund on the closing date. The result of these revaluations together with any interest receivable/ payable in relation to interest rate swaps is shown in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on interest rate swap contracts'.

On 31 March 2023, the following sub-funds were committed to swap agreements on interest rates:

Notes to the Financial Statements as at 31 March 2023 (cont)

Disclosure of Transaction Costs

The transaction costs are broker commission fees and taxes related to the purchase and sale of transferable securities. Bond sub-funds will generally show the figure of zero as the broker commission fees are included in the spread, which is excluded from the calculation pursuant to Annex I, Schedule B, Chapter V of Directive 2009/65/EC of the European Parliament. The transaction costs part of the acquisition cost/sale price of the related assets and the Custodian transaction costs are not included in this table. Costs for structured products are included in the market value.

The transaction costs for the period under review were as follows:

Sub-Funds	Currency	Commissions
Schroder GAIA Asian Equity Long Short*	USD	6,585
Schroder GAIA BlueTrend	USD	85,450
Schroder GAIA Cat Bond	USD	21,080
Schroder GAIA Contour Tech Equity	USD	342,385
Schroder GAIA Egerton Equity	EUR	181,492
Schroder GAIA Helix	USD	591,977
Schroder GAIA Oaktree Credit	USD	-
Schroder GAIA Sirios US Equity	USD	207,521
Schroder GAIA Tellworth UK Dynamic Absolute Return Fund*	GBP	29,450
Schroder GAIA Two Sigma Diversified	USD	83,508
Schroder GAIA Wellington Pagosa	USD	770,478

Cross sub-fund investment

As at 31 March 2023, the total cross sub-fund investment amounts to EUR 9,586,906 and therefore, the total combined NAV at the period end without cross sub-fund investments would amount to EUR 4,936,394,029. The details of the cross sub-fund investments are disclosed in the following table:

Investment	Sub-Fund Currency	Market Value	% of net assets
Schroder GAIA Helix			
Schroder GAIA Asian Equity Long Short*		10,397,000	3.48
	USD	10,397,000	3.48

Exchange Rate

The exchange rate used for the calculation of the combined total in EUR of the Financial Statements as at 31 March 2023 is:

1 Euro = 0.92208 US Dollar

1 Euro = 1.13748 Pound Sterling

Ukraine/Russia sanctions

The invasion of Ukraine by Russia which began on 24 February 2022 has increased valuation, liquidity and market risk for securities issued by Ukraine, Belarus and Russia, and to a certain extent, most global markets. As of the date of this report the resolution of this event, and the potential impact on the funds, continues to be uncertain. The Board are closely monitoring the situation with respect to all securities held in our funds. In relation to securities of Russian issuers held in our funds, these continue to be impacted by a range of actions taken by governments, stock exchanges and counterparties, including sanctions regimes, leading to severe valuation and liquidity issues. Russian markets have been suspended, and the funds will not be investing in Russian or Belarusian equities for the foreseeable future. The board will continue to apply appropriate valuation principles in accordance with our pricing processes. Because of these issues and due to our inability to transact or transfer these assets, the value of Russian securities in our funds has become de minimis and this is expected to be reflected until further notice in the NAV of any relevant funds.

The following sub fund has exposure to Russian and Ukrainian securities:

Schroder GAIA Helix

* Please refer to the Directors' Report for details of all corporate actions that occurred during the period under review.

Appendix I – Securities Financing Transactions

The sub-funds engage in Securities Financing Transactions (SFT) (as defined in Article 3 of Regulation (EU) 2015/2365, securities financing transactions include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions). In accordance with Article 13 of the Regulation, the sub-fund involvement relating to their exposure on total return swaps for the period ended 31 March 2023 is detailed below:

Schroder GAIA Egerton Equity

Global Data

Amount of assets engaged in total return swaps

Amount of Assets - Long Positions EUR	% of AUM
6,030,576	1.36%
Amount of Assets - Short Positions EUR	% of AUM
6,701,613	1.50%
Amount of Assets - Total EUR	% of AUM
12,732,189	2.86%

Concentration Data

Ten largest collateral issuers (across all SFT and total return swaps)

As at 31 March 2023, there are no collateral securities and commodities received in respect of total return swaps.

Top ten counterparties

Counterparty	Gross volume of outstanding transactions EUR
Goldman Sachs	5,869,927
Morgan Stanley	3,908,579
J.P. Morgan	1,609,795
Merrill Lynch	1,343,888
	12,732,189

The sub-fund deals with all of the above mentioned counterparties for its total return swaps.

Aggregate transaction data

Type and quality of collateral

As at 31 March 2023, no collateral was received in respect of total return swaps.

Maturity tenor of collateral

As at 31 March 2023, no collateral was received in respect of total return swaps.

Currency of collateral

As at 31 March 2023, no collateral was received in respect of total return swaps.

Maturity tenor of total return swaps

Maturity	Long Positions EUR	Short Positions EUR	Total EUR
less than 1 day	-	-	-
1 to 7 days	-	-	-
1 to 4 weeks	-	383,528	383,528
1 to 3 months	-	357,499	357,499
3 to 12 months	177,726	2,355,252	2,532,978
more than 1 year	5,852,850	3,605,334	9,458,184
open maturity	-	-	-
	6,030,576	6,701,613	12,732,189

Appendix I – Securities Financing Transactions (cont)

Schroder GAIA Egerton Equity (cont)

Country in which counterparties for total return swaps are established

Counterparty	Country
Goldman Sachs	United States of America
Morgan Stanley	United States of America
J.P. Morgan	United Kingdom
Merrill Lynch	United States of America

Settlement and clearing

The sub-fund utilises bi-lateral settlement and clearing with its counterparty for total return swaps.

Reuse of collateral

The sub-fund does not reuse or reinvest collaterals received, if any, on total return swaps.

Safekeeping of collateral

Collateral received

As at 31 March 2023, no collateral was received in respect of total return swaps.

Collateral granted

The proportion of collateral held in segregated accounts or in pooled accounts, or in any other accounts in respect of total return swaps is as follows:

Account Type	Market Value EUR
Segregated	20,618,397
Pooled	-
Other	-
	20,618,397

OTC derivative transactions entered into by the sub-fund under an ISDA Master agreement are netted together for collateral purposes. Therefore, collateral disclosures provided above are in respect of all OTC derivative transactions and not just total return swaps.

Return and Cost

For the period ended 31 March 2023, data on return and cost in respect of total return swaps are as follows:

	% of Overall Returns	Return EUR*
Net interest on swaps**	2.06%	1,053,543
Net realised gains	39.68%	20,267,606
Net change in unrealised depreciation	58.26%	29,754,218
	100.00%	51,075,367

* expressed in absolute terms.

** Interest on swaps disclosure provided above is in respect of all swap transactions and not just total return swaps.

Return on total return swaps disclosed above are included as part of 'Net income on swaps' disclosed in the Statement of Operations and 'Net realised gains/(losses) on total return swaps contracts' and 'Net change in unrealised appreciation/(depreciation) on total return swaps contracts' in the Statement of Changes in Net Assets.

Cost

The costs attributed to total return swaps are included in the spread.

Morgan Stanley	9,199,793
Goldman Sachs	4,836,989
J.P. Morgan	4,769,565
	18,806,347

The sub-fund deals with all of the above mentioned counterparties for its total return swaps.

Aggregate transaction data

Type and quality of collateral

The aggregate transaction data for collateral received in respect of total return swaps is as follows:

Type	Market Value USD
Cash	2,304,484
	2,304,484

Maturity tenor of collateral

Maturity	Market Value USD
less than 1 day	2,304,484
1 to 7 days	-
1 to 4 weeks	-
1 to 3 months	-
3 to 12 months	-
more than 1 year	-
open maturity	-
	2,304,484

Appendix I – Securities Financing Transactions (cont)

Schroder GAIA Wellington Pagosa (cont)

Currency of collateral

Currency	Market Value USD
USD	2,304,484
	2,304,484

Maturity tenor of total return swaps

Maturity	Long Positions USD	Short Positions USD	Total USD
less than 1 day	-	-	-
1 to 7 days	-	-	-
1 to 4 weeks	-	-	-
1 to 3 months	34,497	40,344	74,841
3 to 12 months	-	3,612	3,612
more than 1 year	5,888,466	12,839,428	18,727,894
open maturity	-	-	-
	5,922,963	12,883,384	18,806,347

Country in which counterparties for total return swaps are established

Counterparty	Country
Morgan Stanley	United States of America
Goldman Sachs	United States of America
J.P. Morgan	United Kingdom

Settlement and clearing

The sub-fund utilises bi-lateral settlement and clearing with its counterparty for total return swaps.

Reuse of collateral

The sub-fund does not reuse or reinvest collaterals received, if any, on total return swaps.

Safekeeping of collateral

Collateral received

Custody of collateral received in respect of total return swaps is as follows:

Custodian	Market Value USD
J.P. Morgan	2,150,000
Goldman Sachs	154,484
	2,304,484

Collateral granted

The proportion of collateral held in segregated accounts or in pooled accounts, or in any other accounts in respect of total return swaps is as follows:

Account Type	Market Value USD
Segregated	1,812,401
Pooled	-
Other	-
	1,812,401

OTC derivative transactions entered into by the sub-fund under an ISDA Master agreement are netted together for collateral purposes. Therefore, collateral disclosures provided above are in respect of all OTC derivative transactions and not just total return swaps.

Appendix I – Securities Financing Transactions (cont)

Schroder GAIA Wellington Pagosa (cont)

Return and Cost

For the period ended 31 March 2023, data on return and cost in respect of total return swaps are as follows:

	% of Overall Returns	Return USD*
Net interest on swaps	–	–
Net realised gains	36.14%	9,460,866
Net change in unrealised depreciation	63.86%	16,718,880
	100.00%	26,179,746

* expressed in absolute terms.

Return on total return swaps disclosed above are included as part of 'Net income on swaps' disclosed in the Statement of Operations and 'Net realised gains/(losses) on total return swaps contracts' and 'Net change in unrealised appreciation/(depreciation) on total return swaps contracts' in the Statement of Changes in Net Assets.

Cost

The costs attributed to total return swaps are included in the spread.
