

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Wellington Pagosa

a sub-fund of Schroder GAIA

Class A Accumulation CHF Hedged (LU1732476137)

This product is managed by Schroder Investment Management (Europe) S.A, a member of the Schroders Group. For more information on this product, please refer to www.schroders.lu or call +352 341 342 212. Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising Schroder Investment Management (Europe) S.A. in relation to this Key Information Document. Schroder Investment Management (Europe) S.A. is authorised in Luxembourg and regulated by the CSSF.

This document was published on 22/11/2023.

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type

This is an open ended UCITS fund.

Term

There is no maturity date of the fund.

Investment objective

The fund aims to provide capital growth in excess of the Secured Overnight Financing Rate (SOFR) after fees have been deducted over a three year period by investing in equity and equity related securities, fixed and floating rate securities and currencies worldwide, including emerging markets.

The fund is actively managed and adopts a multi strategy approach to invest in a diversified range of styles, assets, time horizons and markets.

The fund invests in equities, bonds (including convertible and contingent convertible bonds) and currencies, as well as in investment funds investing in such instruments. The fund may invest up to 50% of its assets in sub-investment grade bonds (with a credit rating below investment grade), up to 20% of its assets in distressed bonds, 20% of its assets in mortgage backed and asset-backed securities, and up to 10% of its assets on a net basis in contingent convertible bonds.

The fund invests in equities of Chinese companies listed and traded in RMB on Chinese stock exchanges. The fund invests directly by purchasing physical holdings and/or indirectly through derivatives. The fund may be net long or net short when long and short positions are combined.

The fund may hold cash (subject to the restrictions provided in appendix I in the fund's prospectus) and invest in money market investments and liquid assets other than cash. The fund may invest up to 10% of its assets in open ended investment funds.

Recommendation: Investors should seek independent advice and satisfy themselves that they understand the techniques employed by the manager.

The fund uses derivatives extensively, long and short, with the aim of achieving investment gains, reducing risk or managing the fund more efficiently.

The fund is valued with reference to the net asset value of the underlying assets.

Benchmark: The fund's performance should be assessed against its target benchmark, being to exceed Secured Overnight Financing Rate (or an alternative reference rate) over a three year period and compared against the MSCI World (Net TR) index. The comparator benchmark is only included for performance comparison purposes and does not have any bearing on how the investment manager invests the fund's assets. The fund's investment universe is expected to overlap directly or indirectly to a limited extent with the components of the comparator benchmark. Please see appendix III of the fund's prospectus for further details.

Dealing Frequency: You can buy and sell shares weekly on Wednesday (or the next business day if a Wednesday is not a business day) and on the last business day in a month.

Distribution Policy: This share class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the share class.

Depository: Brown Brothers Harriman (Luxembourg) S.C.A.

Intended retail investor

The fund is intended for professional investors. The fund is not intended for retail Investors other than those who are advised by a professional investment advisor or who are sophisticated investors. A sophisticated investor means an investor who:

- understands the fund's strategy, characteristics and risks in order to make an informed investment decision; and
- has knowledge of, and investment experience in, financial products that use complex derivatives and/or derivative strategies (such as this fund) and financial markets generally.

What are the risks and what could I get in return?

Risks

The risk indicator assumes you keep the product for 3 years.

You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the market or because we are not able to pay you.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions.

Recommended holding period:		3 years	
Example Investment:		CHF 10000	
		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	CHF 6810	CHF 7140
	Average return each year	-31.9%	-10.6%
Unfavourable	What you might get back after costs	CHF 9190	CHF 9380
	Average return each year	-8.1%	-2.1%
Moderate	What you might get back after costs	CHF 10050	CHF 10610
	Average return each year	0.5%	2.0%
Favourable	What you might get back after costs	CHF 11000	CHF 12140
	Average return each year	10.0%	6.7%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The maximum loss you could incur would be the full value of your investment

We have classified this product as 2 out of 7, which is a low risk class.

The fund is in this category because it seeks to provide rewards whilst limiting price volatility.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

Credit risk: A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

You can find more information about the other risks in the prospectus at: <https://api.schroders.com/document-store/GAIA-Prospectus-LUEN.pdf>

The Unfavourable scenario occurred for an investment between 01 2018 to 01 2021

The Moderate scenario occurred for an investment between 06 2016 to 06 2019

The Favourable scenario occurred for an investment between 11 2012 to 11 2015

What happens if Schroder Investment Management (Europe) S.A. is unable to pay out?

For your protection the company's assets are held with a separate company, a depository, so the fund's ability to pay out would not be affected by the insolvency of Schroder Investment Management (Europe) S.A.. If the fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment. You are not covered by the Luxembourg compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- CHF 10 000,00 is invested

	If you exit after 1 year	If you exit after 3 years
Total costs	CHF 731	CHF 1805
Annual cost impact (*)	7.3%	5.5% each year

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7,5 % before costs and 2,0 % after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	These costs are already included in the price you pay when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge. [3.00%]	Up to CHF 300
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	CHF 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	These costs are an estimate based on actual costs over the last year that we take each year for managing your investments. [2.46%]	CHF 246
Transaction costs	This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. [1.50%]	CHF 150
Incidental costs taken under specific conditions		
Performance fees	These costs are taken from your investment subject to the "high water mark" principle, 20.00% of the share class absolute outperformance in excess of the Swiss Average Rate Overnight. See the prospectus for more details. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years. [0.18%]	CHF 18

How long should I hold it and can I take money out early?

There is no recommended minimum holding period for this fund but investors should not view this as a short term investment. However, you can redeem your investment without penalty at any time in accordance with the fund's prospectus.

How can I complain?

Should you wish to complain about the fund or any aspect of the service provided to you by Schroders, you may contact the Compliance Officer, Schroder Investment Management (Europe) S.A., at 5, rue Höhenhof, L-1736 Senningerberg, Luxembourg or submit your complaint via the contact form on our website, www.schroders.lu or email on EUSIM-Compliance@Schroders.com.

Other relevant information

Depending on how you buy these shares you may incur other costs, including broker commission, platform fees and Stamp Duty. The distributor will provide you with additional documents where necessary.

You can get further information about this fund, including the prospectus, latest annual report, any subsequent half-yearly report and the latest price of shares from the fund's management company at 5, rue Höhenhof, L-1736 Senningerberg, Luxembourg, and from www.schroders.lu/kiids. They are available free of charge in English, French, German, Greek, Italian, Flemish, Dutch, Swedish, Finnish, Portuguese and Spanish.

Tax legislation: The fund is subject to Luxembourg tax legislation which may have an impact on your personal tax position.

Umbrella Fund: This fund is a sub-fund of an umbrella fund, the name of which is at the top of this document. The prospectus and periodic reports are prepared for the entire umbrella fund. To protect investors, the assets and liabilities of each sub-fund are segregated by law from those of other sub-funds.

This Key Information Document is updated at least every 12 months, unless there are any ad-hoc changes.

The cost, performance and risk calculations included in this Key Information Document follow the methodology prescribed by EU rules.
