Asian Equity Yield

a sub-fund of Schroder International Selection Fund SICAV

Class B Accumulation USD (LU0188438468)

This fund is managed by Schroder Investment Management (Luxembourg) S.A., which is a member of the Schroders Group.

Objectives and Investment Policy

Objectives

The fund aims to provide capital growth and income.

Investment Policy

At least two-thirds of the fund (excluding cash) will be invested in shares of Asian companies (excluding Japan). The fund has no bias to any particular country or industry.

The fund aims to generate stable long-term returns through a combination of capital growth and income streams at a low level of volatility. We invest in the shares of companies in the Asia (ex Japan) region that are disciplined in how they use their available cash, preferring those that pay attractive levels of dividends now but, crucially, also retain enough cash to reinvest back into the company to generate future growth.

The fund may also invest in other financial instruments and hold cash on deposit. Derivatives may be used to achieve the

investment objective and to reduce risk or manage the fund more efficiently.

Benchmark

This share class is managed with reference to the MSCI AC Pacific ex Japan Gross TR financial index. The manager invests on a discretionary basis and is not limited to investing in accordance with the composition of this benchmark.

Dealing Frequency

Daily.

Distribution Policy

This share class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the share class.

Risk and Reward Profile

The risk and reward indicator

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Other particular risks

Liquidity risk / small cap liquidity risk: Investments in small companies can be difficult to sell quickly which may affect the value of the fund and, in extreme market conditions, its ability to meet redemption requests upon demand.

Operational risk / third parties: The fund's operations depend on third parties and it may suffer disruption or loss in the event of their failure.

Charges

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the fund over a year	
Ongoing Charge	2.60%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2011 and may vary from year to year.

You can find more information about the charges in Section 3 of the fund's prospectus.

Past Performance

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in US dollar after the ongoing charges and the portfolio transaction costs have been paid. Entry and exit charges are excluded from calculations of past performance.

The fund was launched on 11 June 2004.
