

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Asian Total Return

a sub-fund of Schroder International Selection Fund SICAV

Class S Distribution USD (LU1041109676)

This fund is managed by Schroder Investment Management (Europe) S.A., which is a member of the Schroders Group.

Objectives and Investment Policy

Objectives

The fund aims to provide capital growth and income by investing in equities of Asia Pacific companies. The fund is designed to participate in rising markets whilst aiming to mitigate losses in falling markets through the use of derivatives. The mitigation of losses cannot be guaranteed.

Investment Policy

The fund invests at least two-thirds of its assets in Asia Pacific equities.

The fund may invest directly in China B-Shares and China H-Shares and may invest less than 30% of its assets in China A-Shares through Shanghai/Shenzhen-Hong Kong Stock Connect.

The fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the fund more efficiently and in particular to mitigate losses in falling markets. The fund may also hold cash.

Benchmark

This share class is not managed with reference to a financial index.

Dealing Frequency

You may redeem your investment upon demand. This fund deals daily.

Distribution Policy

This share class pays an annual distribution at a variable rate based on gross investment income.

Risk and Reward Profile

The risk and reward indicator

The risk category is based upon the fund's risk target and there is no guarantee that the fund will achieve it.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Risk factors

The following risks may affect fund performance.

Capital risk / distribution policy: the expenses of this share class are paid out of capital rather than out of investment income. Capital growth will be reduced and in periods of low growth capital erosion may occur.

China country risk: Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the fund.

Counterparty risk: The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the fund, potentially creating a partial or total loss for the fund.

Currency risk: The fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

Derivatives risk: A derivative may not perform as expected, and may create losses greater than the cost of the derivative.

Emerging markets & frontier risk: Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

Equity risk: Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

Leverage risk: The fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares.

Operational risk: Failures at service providers could lead to disruptions of fund operations or losses.

Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect risk: The fund may be investing in China "A" shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may involve clearing and settlement, regulatory, operational and counterparty risks.

Short selling risk: The fund may take positions that seek to profit if the price of a security falls. A large rise in the price of the security may cause large losses.

Charges

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the fund over a year

Ongoing Charge	0.80%
----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee: None

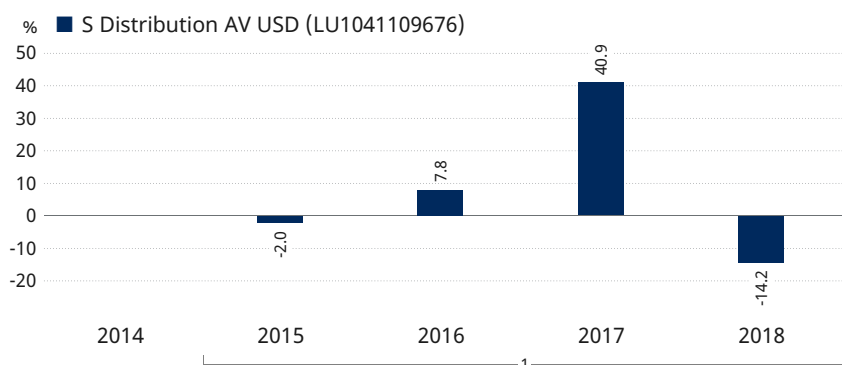

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2018 and may vary from year to year.

You can find more information about the charges in Section 3 of the fund's prospectus.

Past Performance

1 Performance achieved during this period was achieved in circumstances that no longer apply. The fund's investment policy was changed in February 2018.

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in US dollar after the ongoing charges and the portfolio transaction costs have been paid.

The fund was launched on 16 November 2007.

Performance figures are only available since the launch of the respective share class.

Practical Information

Depository: J. P. Morgan Bank Luxembourg S.A.
