You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type

This is an open ended UCITS fund.

Term

There is no maturity date of the fund.

Investment objective

The fund aims to provide income and capital growth over rolling five year periods by investing directly, or indirectly through derivatives, in a diversified range of equities and bonds worldwide.

The fund is actively managed and invests at least two-thirds of its assets directly, or indirectly through derivatives, in equities and bonds worldwide.

In particular, the fund will invest indirectly in global or local equity market indices (such as the S&P500, EuroSTOXX 50, FTSE100 and other equity market indices) via exposure to a diversified portfolio of defined return investments (also known as autocallable exposure).

In most cases, the fund will aim to achieve autocallable exposures by holding equity total return swaps and bonds. From time to time, the fund may also hold autocall notes if better terms are offered through this instrument. The return of such autocallable exposures is based on the performance of the underlying equity market indices. The autocallable exposure selection and portfolio construction process are designed to ensure that exposures are diversified by underlying market, barrier, call levels and call dates, thereby seeking to manage overall risk.

Adverse equity market conditions can lead to higher risk and negative returns in the fund and as such, investors' capital is at risk. Also, when equity markets perform strongly the return on the fund may be less than the market return.

The fund may invest in government bonds and corporate bonds that have investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies).

The fund will hold at least 50% of its assets in government bonds, cash and money market instruments.

The fund may also invest up to one third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, investment funds and warrants.

Recommendation: Investors should seek independent advice or satisfy themselves that they have an understanding of the strategies and techniques employed by the manager.

The fund may use derivatives long and short, with the aim of achieving investment gains, reducing risk or managing the fund more efficiently.

The fund is valued with reference to the net asset value of the underlying assets.

Benchmark: The fund's performance should be assessed by measuring the absolute performance of the fund over rolling five year periods.

Dealing Frequency: You may redeem your investment upon demand. This fund deals daily.

Distribution Policy: This share class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the share class.

Depositary: J.P. Morgan SE

Intended retail investor

The fund is not intended for retail investors other than those who are advised by a professional investment adviser.

What are the risks and what could I get in return?

Risks

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the market or because we are not able to pay you.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions.

Recommended holding period:		5 years
Example Investment:		USD 10000
		If you exit after 5 years
Scenarios		
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress	What you might get back after costs	USD 2030
	Average return each year	-27.3%
Unfavourable	What you might get back after costs	USD 9940
	Average return each year	-0.1%
Moderate	What you might get back after costs	USD 13300
	Average return each year	5.9%
Favourable	What you might get back after costs	USD 14300
	Average return each year	7.4%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The maximum loss you could incur would be the full value of your investment

The Unfavourable scenario occurred for an investment between 12 2021 to 04 2023

The Moderate scenario occurred for an investment between 05 2014 to 05 2019

The Favourable scenario occurred for an investment between 04 2013 to 04 2018

What happens if Schroder Investment Management (Europe) S.A. is unable to pay out?

For your protection the company's assets are held with a separate company, a depository, so the fund's ability to pay out would not be affected by the insolvency of Schroder Investment Management (Europe) S.A.. If the fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment. You are not covered by the Luxembourg compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- USD 10 000,00 is invested

If you exit after 5 years	
Total costs	USD 1519
Annual cost impact (*)	2.4% each year

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7,1 % before costs and 4,8 % after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	These costs are already included in the price you pay when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge. [3.09%]	Up to USD 309
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	USD 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	These costs are an estimate based on actual costs over the last year that we take each year for managing your investments. [1.54%]	USD 154
Transaction costs	This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. [0.03%]	USD 3
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	USD 0

How long should I hold it and can I take money out early?

There is no recommended minimum holding period for this fund but investors should not view this as a short term investment. However, you can redeem your investment without penalty at any time in accordance with the fund's prospectus.

How can I complain?

Should you wish to complain about the fund or any aspect of the service provided to you by Schroders, you may contact the Compliance Officer, Schroder Investment Management (Europe) S.A., at 5, rue Höhenhof, L-1736 Senningerberg, Luxembourg or submit your complaint via the contact form on our website, www.schroders.lu or email on EUSIM-Compliance@Schroders.com.

Other relevant information

Depending on how you buy these shares you may incur other costs, including broker commission, platform fees and Stamp Duty. The distributor will provide you with additional documents where necessary.

You can get further information about this fund, including the prospectus, latest annual report, any subsequent half-yearly report and the latest price of shares from the fund's management company at 5, rue Höhenhof, L-1736 Senningerberg, Luxembourg, and from www.schroders.lu/kiids. They are available free of charge in English, German and Spanish.

Tax legislation: The fund is subject to Luxembourg tax legislation which may have an impact on your personal tax position.

Umbrella Fund: This fund is a sub-fund of an umbrella fund, the name of which is at the top of this document. The prospectus and periodic reports are prepared for the entire umbrella fund. To protect investors, the assets and liabilities of each sub-fund are segregated by law from those of other sub-funds.

This Key Information Document is updated at least every 12 months, unless there are any ad-hoc changes.

The cost, performance and risk calculations included in this Key Information Document follow the methodology prescribed by EU rules.
