

Key Investor Information

This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

Storebrand Global ESG Plus LUX (the "Sub-Fund"): Share Class I Euro Acc
a sub-fund of Storebrand SICAV ("the "Company")

ISIN: LU1932673434

The management company is FundRock Management Company S.A.

Objectives and Investment Policy

The Sub-Fund's objective is to provide its Shareholders with long-term capital growth, through a model based portfolio of equities in global mature economies (developed markets). The Sub-Fund is fossil free and has additional ESG criteria and sustainability focus. The Sub-Fund is actively managed and will seek to reproduce the risk and return profile of the benchmark, as closely as possible, given its ESG and sustainability properties.

The Sub-Fund seeks to invest in companies that have a high sustainability rating, and refrain from investing in companies with a low rating. The rating is based on an ESG risk rating supplied by a leading independent global provider. This rating is combined with an in-house analysis that ranks companies according to how sustainable their services and products are, and to what extent they operate in line with the UN's sustainability goals.

The Sub-Fund seeks to invest in companies with a low carbon footprint. The Sub-Fund also refrains from investing in certain sectors, e.g. companies whose main business is the production and/or distribution of fossil fuels. Derivatives may be used to ensure less expensive or more efficient management. Instead, the Sub-Fund may invest more than the Sub-Fund's benchmark in companies related to clean energy, energy efficiency, recycling and low-carbon transport. For further information, see section 3 of the Sub-Fund particular 2 of the prospectus of the Company.

Benchmark index: The MSCI World Index is the benchmark used for asset allocation and performance comparison purposes.

The Benchmark is chosen to represent the investable universe for the Sub-fund. The weightings of securities held in the Sub-fund will typically deviate somewhat from Benchmark weightings. In addition, the Investment Manager can take positions in securities which are not in the Benchmark if they identify a specific investment opportunity. This will result in the Sub-fund having some tracking error (typically below 2%).

Recommendation: this Sub-Fund may not be appropriate for investors who plan to withdraw their money within less than five years.

Dividends and other income that the Sub-Fund receives will be reinvested in the Sub-Fund.

Investors may redeem their shares on demand.

Sub-Fund shares may be bought on all banking days in Luxembourg. Orders received by 1 p.m. (Luxembourg time) on these days will be processed on the same day.

Minimum investment is EUR 30 million.

Risk and Reward Profile

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category does not mean 'risk free'.

The risk and reward category shown is not guaranteed to remain unchanged, and the categorization of the Sub-Fund may shift over time. This indicator measures the risk of price fluctuations. The risk assessment is based on a representative portfolio's historical volatility calculated using weekly data for the last five years, places the Sub-Fund in category 5. That means that the purchase of shares is associated with a moderate to high risk of price fluctuations. The Sub-Fund's position on the risk scale is not fixed and may vary over time.

The following risks, that are materially relevant to the Sub-Fund, are not adequately captured by the synthetic indicator:

Equity Investment Risks: The market value of equities may go down as well as up.
