

## Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

### Swisscanto (LU) Money Market Fund Responsible AUD DT (ISIN: LU1481721709)

Swisscanto (LU) Money Market Fund Responsible AUD DT is a unit class of the subfund Swisscanto (LU) Money Market Fund Responsible AUD (hereinafter "fund"), a subfund in the umbrella fund Swisscanto (LU) Money Market Fund. The fund is managed by Swisscanto Asset Management International S.A., Luxembourg.

## Objectives and investment policy

The investment objective is a long-term capital preservation with an adequate return in AUD, by investing in money market instruments issued by debtors with a good credit rating.

### Important features:

The fund classifies itself as a standard variable net asset value money market fund (VNAF MMF). It invests 100% of its assets in money market instruments in accordance with the Money Market Fund Regulation, of which at least 80% is made in AUD. The weighted average duration may not be longer than six months, and the weighted average residual maturity may not be longer than 12 months. At least 2/3 of the investments are selected by systematically taking into account ESG<sup>1</sup> criteria in accordance with responsibility requirements. The fund is classified under Art. 8 SFDR<sup>2</sup>.

The securities are selected on a discretionary basis using a consistent investment process (active management). With regard to portfolio composition, the selection of stocks and the associated weightings are focused on companies from the FTSE 3-Month Australian Dollar Eurodeposit. The portfolio composition may deviate moderately from this benchmark index.

The investment policy is to outperform the benchmark index. The Asset Manager may at any time deviate – significantly or insignificantly, positively or negatively – from the benchmark index by actively overweighting or underweighting individual securities and sectors based on market conditions and risk assessments.

Derivatives may be used for achieving the investment objective.

Fund units will be issued or redeemed basically on any bank business day in Luxembourg.

Earnings and profits of the unit class are not distributed, but reinvested.

### Additional important information:

The total commitments of the fund may not amount to more than 210% as a result of the use of derivatives (max. 100%) and temporary borrowing (max. 10%).

Recommendation on holding period: this fund is appropriate for investors with a very short-term investment horizon (less than one year) or a longer-term investment horizon.

## Risk and reward profile

The historical data used for calculating the risk and profit category cannot serve as a reliable indicator of the future risk profile.

The risk and profit category shown may very well undergo changes. Assignment to a category may change over time.

The lowest risk category cannot be equated with a risk-free investment.

Reasons for being assigned to the risk and profit category:

- Yield curve
- Interest-rate premium

There is no capital guarantee and no capital protection.

The risk of loss of the principal is to be borne by the investor.

Further risks that are essential for the fund and not adequately covered by the indicator above:

- Credit risks, because substantial investments are made in interest-bearing securities where repayment default is possible.
- Existing risk of capital fluctuations, since an investment is not the same as a deposit, and the liquidity is not guaranteed through external support, nor does the NAV per share remain steady.

<sup>1</sup> ESG: environment, social, governance

<sup>2</sup> SFDR: Sustainable Finance Disclosure Regulation (EU) 2019/2088

## Charges

The costs borne by you are used for the management of the fund as well as its distribution and marketing. The costs may impair the further development of the fund.
