General Information

Principal activities

Tabula ICAV ("the ICAV") is an umbrella Irish collective asset-management vehicle incorporated in Ireland on 25 October 2017, pursuant to the Irish Collective Asset-management Vehicles Act 2015, as amended (the "ICAV Act") and approved by the Central Bank of Ireland (the "Central Bank"). It was incorporated under the registration number of C174472.

The ICAV is authorised by the Central Bank as an ICAV pursuant to part 2 of the ICAV Act, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48 (1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019, (the "Central Bank UCITS Regulations"). The ICAV was authorised as a UCITS on 3 August 2018.

The investment objective and policies for each Sub-Fund and the investment restrictions in relation thereto will be formulated by the directors at the time of creation of such Sub-Fund. Each Sub-Fund aims to achieve its investment objective, through investment in transferable securities and liquid financial assets in accordance with the UCITS Regulations.

The transferable securities and liquid financial assets in which each Sub-Fund may invest generally must be listed or traded on a regulated market except that up to 10% of the Net Asset Value of a Sub-Fund may be invested in transferable securities and liquid financial assets which are not so listed or traded.

The ICAV is organised in the form of an umbrella fund with segregated liability between Sub-Funds. The Instrument of Incorporation provides that the ICAV may offer separate classes of shares, each representing interests in Sub-Funds, with each Sub-Fund comprising a separate and distinct portfolio of investments. The ICAV may establish Mutual Sub-Funds and UCITS ETF Sub-Funds. A separate pool of assets shall not be maintained for each class within a Sub-Fund. Further shares must be effected in accordance with the requirements of the Central Bank.

The assets of each Sub-Fund will be invested in accordance with the investment objective and policies applicable to such Sub-Fund.

As at 30 June 2023, the ICAV has obtained the approval of the Central Bank for the establishment of fifteen Sub-Funds the Tabula Global IG Credit Curve Steepener UCITS ETF, Tabula CDX IG Bond UCITS ETF, Tabula US Enhanced Inflation UCITS ETF, Tabula EUR IG Bond Paris-aligned Climate UCITS ETF, Tabula Haitong Asia ex-Japan High Yield Corp USD Bond ESG UCITS ETF, Tabula Liquid Credit Income UCITS Fund, Tabula USD HY Bond Paris-Aligned Climate UCITS ETF, Tabula EUR HY Bond Paris-Aligned Climate UCITS ETF, Tabula Euro Enhanced Inflation UCITS ETF, Tabula Balanced Credit UCITS Fund, Tabula GCC Sovereign USD Bonds UCITS ETF, Tabula GBP IG Bond Paris-aligned Climate UCITS ETF, Tabula FTSE Indian Government Bond Short Duration UCITS ETF, Tabula Global High Yield Fallen Angels Paris-aligned Climate UCITS ETF and Tabula Global High Yield Credit UCITS Fund (Collectively the "Sub-Funds").

Tabula Global IG Credit Curve Steepener UCITS ETF was approved by the Central Bank of Ireland on 8 July 2020 and commenced operations on 18 August 2020.

Tabula CDX IG Bond UCITS ETF was approved by the Central Bank of Ireland on 22 July 2020 but had not yet commenced operations as at 30 June 2023.

Tabula US Enhanced Inflation UCITS ETF was approved by the Central Bank of Ireland on 22 September 2020 and commenced operations on 22 October 2020.

Tabula EUR IG Bond Paris-aligned Climate UCITS ETF was approved by the Central Bank of Ireland on 11 December 2020 and commenced operations on 7 January 2021.

Tabula Haitong Asia ex-Japan High Yield Corp USD Bond ESG UCITS ETF was approved by the Central Bank of Ireland on 17 August 2021 and commenced operations on 2 September 2021.

Tabula Liquid Credit Income UCITS Fund was approved by the Central Bank of Ireland on 26 November 2021 and commenced operations on 16 December 2021.

Tabula EUR HY Bond Paris-Aligned Climate UCITS ETF was approved by the Central Bank of Ireland on 20 December 2021 and commenced operations on 26 January 2022.

Tabula GCC Sovereign USD Bonds UCITS ETF was approved by the Central Bank of Ireland on 30 September 2022 and commenced operations as at 6 January 2023.

Tabula USD HY Bond Paris-Aligned Climate UCITS ETF was approved by the Central Bank of Ireland on 20 December 2021 but had not yet commenced operations as at 30 June 2023.

Tabula Euro Enhanced Inflation UCITS ETF was approved by the Central Bank of Ireland on 4 April 2022 but had not yet commenced operations as at 30 June 2023.

Tabula Balanced Credit UCITS Fund was approved by the Central Bank of Ireland on 15 September 2022 but had not yet commenced operations as at 30 June 2023.

Tabula GBP IG Bond Paris-aligned Climate UCITS ETF was authorised by the Central Bank on 11 October 2022 but had not yet commenced operations as at 30 June 2023.

Tabula FTSE Indian Government Bond Short Duration UCITS ETF was authorised by the Central Bank on 22 November 2022 but had not yet commenced operations as at 30 June 2023.

Tabula Global High Yield Fallen Angels Paris-aligned Climate UCITS ETF was authorised by the Central Bank on 18 May 2023 and commenced operations as at 21 June 2023.

Tabula Global High Yield Credit UCITS Fund was authorised by the Central Bank on 29 March 2023 but had not yet commenced operations as at 30 June 2023.

Additional Sub-Funds may be established by the ICAV with the prior approval of the Central Bank.

General Information (continued)

Principal activities (continued)

The investment objective of Tabula Global IG Credit Curve Steeper UCITS ETF is to track the performance of the iTraxx-CDX IG Global Credit Steeper Index (the Index) to within an acceptable tracking error. The Sub-Fund seeks to achieve its investment objective primarily through Index CDS trading activity in order to track, as closely as possible, the performance of the Index.

The investment objective of Tabula US Enhanced Inflation UCITS ETF is to track the performance of the Bloomberg Barclays US Enhanced Inflation Index (the Index) to within an acceptable tracking error. In order to achieve its investment objective, the Sub-Fund intends to invest its net assets in OTC Total Return Swaps whereby the Sub-Fund receives the return of certain Underlying Indices in exchange for payment to the Swap Counterparty of an agreed rate of return pursuant to an agreement in accordance with the requirements of the International Swaps and Derivatives Association together with a portfolio of US TIPS.

The investment objective of Tabula EUR IG Bond Paris-aligned Climate UCITS ETF is to track the performance of the Solactive ISS Paris Aligned Select Euro Corporate IG Index (the Index) to within an acceptable tracking error thereby aligning investments to the Paris Climate Agreement and assisting the movement towards a low carbon economy. The Sub-Fund will seek to achieve its investment objective primarily through investment in a portfolio of investment grade fixed rate corporate bonds that, as far as practicable, reflects the composition of the Index. While it is intended that the Sub-Fund's investments will comprise investment grade issues, issues may be downgraded in certain circumstances from time to time. In such event the Sub-Fund may hold non-investment grade issues until such time as the non-investment grade issues cease to form part of the Sub-Fund's Index (where applicable) and it is possible and practicable (in the Investment Manager's view) to liquidate the position.

The investment objective of Tabula Haitong Asia ex-Japan High Yield Corp USD Bond ESG UCITS ETF is to track the performance of the the Markit iBoxx MSCI ESG USD Asia ex-Japan High Yield Capped Index (the "Index") within an acceptable tracking error (which will take into account, amongst other things, the fees and expenses incurred) while seeking to provide investors with a total return, taking into account both capital and income returns, which reflects the return of the Index. In order to achieve its investment objective, the Sub-Fund will invest in a portfolio of fixed income securities that, as far as possible and practicable, consist of the constituent securities of the Index. The types of fixed income securities in which the Sub-Fund may invest are US dollar-denominated, sub-investment grade, fixed-rate corporate securities issued by companies in Asia (excluding Japan) and traded in the U.S. and Europe.

The investment objective of Tabula Liquid Credit Income UCITS Fund is to maximise total rates of return, meaning capital appreciation plus income of its investments, over the medium term primarily from returns of credit derivatives, with prudent levels of risk while maintaining generally moderate levels of volatility. The Sub-Fund will seek to achieve its investment objective primarily through long or short exposure to the credit risk of corporates via credit derivatives.

The investment objective of Tabula EUR HY Bond Paris-Aligned Climate UCITS ETF is to track the performance of the Markit iBoxx MSCI ESG EUR High Yield Paris-Aligned Capped Index (the Index) within an acceptable tracking error (which will take into account, amongst other things, the fees and expenses incurred) thereby aligning investments with the EU Paris-Aligned Benchmark framework and helping investors move towards a low carbon economy, while at the same time seeking to provide investors with a total return which reflects the return of the Index.

The investment objective of Tabula GCC Sovereign USD Bonds UCITS ETF is to track the performance of the ICE Gulf Cooperation Council Government Bond ex-144a Index (the Index) to within an acceptable tracking error. The Sub-Fund will seek to achieve its investment objective primarily through investment in a portfolio of USD-denominated sovereign fixed rate bonds and Sukuks issued by members of the GCC that, as far as practicable, reflects the composition of the Index. The issuers are rated either investment grade or sub-investment grade. The Sub-Fund may hold sovereign issues that may cease to form part of the Index (where applicable) and it is possible and practicable (in the Investment Manager's view) to liquidate the position.

The investment objective of Tabula Global High Yield Fallen Angels Paris-aligned Climate UCITS ETF is to track the performance of the Bloomberg MSCI Global Corporate Fallen Angels Paris-Aligned Index (the Index) within an acceptable tracking error (which will take into account, amongst other things, the fees and expenses incurred) thereby aligning investments with the EU Paris-Aligned Benchmark framework, assisting the movement towards a low carbon economy and contributing to broader environmental objectives, while at the same time seeking to provide investors with a total return which reflects the return of the Index. The Sub-Fund will seek to achieve its investment objective primarily through investment in a portfolio of corporate bonds from issuers in developed markets that, as far as practicable, reflects the composition of the Index. The issuers have been downgraded to sub-investment grade, although the Sub-Fund may hold investment grade bonds. The Sub-Fund primarily invests in fixed rate corporate bonds and may also invest in floating rate bonds.

The ICAV has appointed KBA Consulting Management Limited (the "Manager") as its management company pursuant to the Management Agreement. The Manager is a limited company incorporated under Irish law on 4 December 2006.

The Manager has appointed Tabula Investment Management Limited (the "Investment Manager") with discretionary powers pursuant to the Investment Management Agreement. The Investment Manager is a limited liability company incorporated under the laws of England and Wales on 3 April 2018 and is authorised and regulated in the conduct of investment business in the United Kingdom by the Financial Conduct Authority.

General Information (continued)

Principal activities (continued)

The Manager has also appointed Tabula Investment Management Limited as the marketer of the ICAV. The Marketer shall be responsible for promoting the sale of the Shares in accordance with the provisions of this Prospectus and in accordance with the requirements of applicable law. The Marketer also acts as promoter of the ICAV. The Marketer may appoint placement agents in connection with the marketing of the Shares of the ICAV in jurisdictions where local law and regulation require the Marketer to do so. The Marketer may also appoint sub-marketers to promote the sale of the Shares. The fees of any placement agents or sub-marketers will be paid by the Marketer.

The Manager has appointed Haitong International Asset Management (HK) Limited (the "Investment Manager") as investment manager for Tabula Haitong Asia ex-Japan High Yield Corp USD Bond ESG UCITS ETF with discretionary powers pursuant to an investment management agreement. The Investment Manager is authorised and regulated by the Securities and Futures Commission of Hong Kong.

As at 30 June 2023, EUR Acc is listed on Euronext Dublin, Main Market of London Stock Exchange, Deutsche Boerse and Swiss BX.

As at 30 June 2023, Tabula GCC Sovereign USD Bonds UCITS ETF has the following classes in issue: USD Acc and GBP Hedged Dist Shares.

As at 30 June 2023, USD Acc and GBP Hedged Dist Shares of the Tabula GCC Sovereign USD Bonds UCITS ETF are listed on Euronext Dublin and Main Market of London Stock Exchange.

As at 30 June 2023, Tabula Global High Yield Fallen Angels Paris-aligned Climate UCITS ETF has the following classes in issue: USD Acc and SEK Hedged Acc Shares.

As at 30 June 2023, USD Acc and SEK Hedged Acc Shares of the Tabula Global High Yield Fallen Angels Paris-aligned Climate UCITS ETF are listed on Euronext Dublin and Main Market of London Stock Exchange.

Directors' Report

The directors of Tabula ICAV (the "ICAV") present their report, together with the annual report and the audited financial statements of the ICAV for the year ended 30 June 2023.

As at 30 June 2023, the ICAV has obtained the approval of the Central Bank for the establishment of fifteen Sub-Funds, the Tabula Global IG Credit Curve Steepener UCITS ETF, Tabula CDX IG Bond UCITS ETF, Tabula US Enhanced Inflation UCITS ETF, Tabula EUR IG Bond Paris-aligned Climate UCITS ETF, Tabula Haitong Asia ex-Japan High Yield Corp USD Bond ESG UCITS ETF, Tabula Liquid Credit Income UCITS Fund, Tabula USD HY Bond Paris-Aligned Climate UCITS ETF, Tabula EUR HY Bond Paris-Aligned Climate UCITS ETF, Tabula Euro Enhanced Inflation UCITS ETF, Tabula Balanced Credit UCITS Fund, Tabula GCC Sovereign USD Bonds UCITS ETF, Tabula GBP IG Bond Paris-aligned Climate UCITS ETF, Tabula FTSE Indian Government Bond Short Duration UCITS ETF, Tabula Global High Yield Fallen Angels Paris-aligned Climate UCITS ETF and Tabula Global High Yield Credit UCITS Fund (Collectively the "Sub-Funds").

The investment objectives of the Sub-Funds are disclosed in the General Information section in the annual report.

Principal risks and uncertainties

The ICAV is an umbrella Irish collective asset-management vehicle with segregated liability between Sub-Funds. The principal risks facing the ICAV relate primarily to the holding of financial instruments and markets in which it invests. The most significant types of financial risk to which the ICAV is exposed are market risk, credit risk and liquidity risk. Market risk includes other price risk, currency risk and interest rate risk. Details of the risks associated with financial instruments are included in Note 5 to the financial statements.

Directors

The directors of the ICAV are detailed on page 1. All directors acted as non-executive directors during the year.

Directors' and Secretary's interests

As at 30 June 2023, two directors of the controlling entity to Tabula Investment Management Limited ("Tabula") hold two subscriber shares. No other directors or the ICAV Secretary or their respective families held any interest, beneficial or otherwise, in the share capital of the ICAV in these financial statements as at 30 June 2023.

The Board of directors are not aware of any contracts or arrangements of any significance in relation to the business of the ICAV in which the directors had any interest at any time during the year ended 30 June 2023, other than those described under 'Related parties transactions' in Note 11 to the financial statements.

Directors' remuneration

Details of directors' fees are disclosed in Note 4 to the financial statements.

Connected persons

In accordance with the requirements of the Central Bank UCITS Regulations, all transactions carried out with the ICAV by the Manager or Depositary and the delegates or sub-delegates of the Manager or Depositary (excluding any non-group company sub-

custodians appointed by the depositary) and any associated or group company of the Manager, Depositary, delegate or sub-delegate ("connected persons") must be carried out as if conducted at arm's length and be in the best interests of shareholders.

The directors of the Manager are satisfied that there are arrangements (evidenced by written procedures) in place to ensure that the obligations set out in the Central Bank UCITS Regulations are applied to all transactions with connected persons and transactions with connected persons entered into during the financial year complied with the obligations set out in the Central Bank UCITS Regulations.

Accounting records

The measures taken by the directors to secure compliance with the ICAV's obligation to keep adequate accounting records are the use of appropriate systems and procedures and the employment of competent service providers. The accounting records are maintained at HSBC Securities Services (Ireland) DAC, 1 Grand Canal Square, Grand Canal Harbour, Dublin 2, Ireland.

Principal material changes

There have been no material changes in the objectives and strategies of the ICAV since inception.

Financial commitments

As at 30 June 2023, there were no agreements in place for the provision of any services by means of soft commission, no off-balance sheet arrangements and no financial commitments entered into by the ICAV other than as set out in the financial statements and accompanying notes.

Corporate governance code and listing exchange requirements

The ICAV is subject to the requirements of the ICAV Act, the UCITS Regulations and the Central Bank UCITS Regulations. The ICAV is subject to corporate governance practices imposed by:

1. The ICAV Act which is available for inspection at the registered office of the ICAV at 35 Shelbourne Road, Ballsbridge, Dublin 4, Ireland; and may also be obtained at <https://www.irishstatutebook.ie/>
2. The Instrument of Incorporation of the ICAV ("the Instrument") which may be obtained and is available for inspection at the registered office of the ICAV; and
3. The Central Bank UCITS Regulations which can be obtained from the Central Bank of Ireland website at: - <https://www.centralbank.ie/regulation/industry-market-sectors/funds>

Directors' Report

Corporate governance code and listing exchange requirements (continued)

The directors have adopted the voluntary Irish Funds Corporate Governance Code for Irish domiciled Collective Investment Schemes and Management Companies (the "IF Code"). The directors have reviewed and assessed the measures included in the IF Code and consider its corporate governance practices and procedures since the adoption of the IF Code as consistent therewith.

Diversity report

The Board considers that diversity in its membership is beneficial and therefore seeks to ensure that the Board's size, structure and composition, including skills, knowledge, experience and diversity is sufficient for the effective direction and control of the ICAV. However, as the Board is committed to appointing the most appropriate candidates as directors of the ICAV, it has not set any measurable objectives in respect of this policy.

Statement of directors' responsibilities in respect of the directors' report and the financial statements

The directors are responsible for preparing the directors' Report and financial statements, in accordance with applicable law and regulations.

The ICAV Act requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare these financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union.

The financial statements are required to give a true and fair view of the assets, liabilities and financial position of the ICAV at the end of the financial year and of the profit or loss of the ICAV for the financial year. In preparing these financial statements, the directors are required to:

- Select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether they have been prepared in accordance with applicable accounting standards, namely IFRS as adopted by the European Union, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the ICAV will continue in business.

The directors confirm that they have complied with the above requirements in preparing the financial statements.

The directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the assets, liabilities, financial position and profit or loss of the ICAV and enable them to ensure that the financial statements comply with the ICAV Act, the UCITS Regulations and the Central Bank UCITS Regulations.

The directors have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the ICAV. In this regard they have entrusted the assets of the ICAV to the Depositary for safe-keeping. They have general responsibility for taking such steps as are reasonably open to them to prevent and detect fraud and other irregularities. The directors are also responsible for preparing a directors' Report that complies with the requirements of the ICAV Act.

The Financial Statements are published on www.tabulaim.com. The Investment Manager is responsible for the maintenance and integrity of the financial information included on this website. Legislation in the Republic of Ireland governing the presentation and dissemination of the Financial Statements may differ from legislation in other jurisdictions.

Independent auditors

The ICAV's auditors, Mazars, were appointed in accordance with Section 125 of the ICAV Act on 14 July 2021, and have expressed their willingness to continue in office.

Distributions

The dividend distribution details are disclosed in Note 8 to the financial statements.

Significant events during the year

Significant events during the year are disclosed in Note 15 to the financial statements.

Significant events subsequent to the financial year end

Significant events subsequent to the year-end are disclosed in Note 16 to the financial statements.

Signed on behalf of the Board:

Investment Manager's Report

The below table provides information relating to the tracking difference and error of each Sub-Fund vs its respective index. In addition, the Investment Manager has provided some high level commentary to accompany the data presented.

The non-hedged share classes tracked their indices effectively during the year and had tracking difference within the expected levels. This divergence in the FX hedged share class during the year is predominantly from interest rate differentials, future value & hedge ratio drift and unrealized hedging P&L.

Sub-Fund (1 July 2022 to 30 June 2023)	Sub-Fund Performance	Index Performance	Net Tracking Diff. ^(a)	TER Fees ^(b)	Gross Tracking Diff. ^(a+b)	Daily Tracking Error (ABS)	Annualised Tracking Error	Expected Max Annualised Tracking Error

- Note that the above table displays the base and any hedged share classes.

- The expected tracking error per year is up to 50bps, up to 12.5bps per quarter of tracking error in normal circumstances.

(a) Realised Tracking Error - the difference between the Sub-Fund's performance (total return) and the index's performance (total return).

(b) Total Expense Ratio ("TER") or the Expected Tracking Error which is the total annual fees and operating expenses of the Sub-Fund (except for transaction charges and taxes or duty charges for portfolio re-balancing, all of which are paid separately out of the assets of the Sub-Fund) per Share class as a percentage per annum of the Net Asset Value of the Share Class.

Non-ETF Sub-Funds

Tabula Liquid Credit Income UCITS Fund

Launch to 30-Jun-2023

The financial market has been very unstable since inception of Tabula Liquid Credit Income UCITS Fund (i.e., 16-Dec-2021). There was an enormous shift in the financial conditions, driven by the Ukraine war, the supply chain bottlenecks and the inflationary conditions not seen since the 80s, which caused a reversal of the 40-year bond bull market. Although the market saw a significant drawdown – with S&P 500 being down around -25.00% and credit spreads in Europe and the US reaching the widest levels seen since covid, there was a significant recovery in the market from the beginning of 2023 to date. During this period (inception of the fund to end of June), Tabula Liquid Credit Income UCITS Fund had a positive net return of 0.19%, which massively outperformed any comparable funds in the space. For example, Bloomberg Global High Yield Total Return Index, had a return of -10.00% and Bloomberg Global Aggregate Corporate Total Return Index had a return of -15.00%, while the S&P 500 was down -4.68%. The fund, performed in-line with the expectations, outperforming its benchmark by 1.40%.

01-Jul-2022 to 30-Jun-2023

From the beginning of July 2022 to the end of June 2023, the fund had a net return of 20.29%, which allowed it to fully recover from the drawdown seen earlier in 2022, caused by the economic factors outlined earlier. During this period, again the fund outperformed all its peers, with Bloomberg Global High Yield Total Return Index being up 7.05% and Bloomberg Global Aggregate Corporate Total Return Index being down -1.13% and the S&P 500 being up 17.57%.

Annual Depositary Report to the Shareholders

We, HSBC Continental Europe, appointed Depositary to Tabula ICAV (the "ICAV") provide this report solely in favour of the Shareholders of the ICAV for the year ended 30 June 2023 (the Accounting Period"). This report is provided in accordance with the UCITS Regulations – European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended ("the Regulations"). We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

In accordance with our Depositary obligation as provided for under the Regulations, we have enquired into the conduct of the ICAV for the Accounting Period and we hereby report thereon to the Shareholders of the ICAV as follows;

We are of the opinion that the ICAV has been managed during the Accounting Period, in all material respects:

(i) in accordance with the limitations imposed on the investment and borrowing powers of the ICAV by the constitutional documents and the Regulations; and

(ii) otherwise in accordance with the provisions of the constitutional documents and the Regulations.

HSBC Continental Europe has a registered branch in Ireland (registration number 908966) having its registered office at 1 Grand Canal Square, Grand Canal Harbour, Dublin 2, D02 P820 and is regulated and supervised by the Central Bank of Ireland as a depositary for Irish authorised investment funds and otherwise regulated by the Central Bank of Ireland for conduct of business rules. HSBC Continental Europe is a company incorporated under the laws of France as a société anonyme (registered number 775 670 284 RCS Paris), having its registered office at 38 Avenue Kléber, 75116 Paris, France. HSBC Continental Europe is supervised by the European Central Bank, as part of the Single Supervisory Mechanism, the French Prudential Supervisory and Resolution Authority (l'Autorité de Contrôle Prudentiel et de Résolution) as the French National Competent Authority and the French Financial Markets Authority (l'Autorité des Marchés Financiers) for the activities carried out over financial instruments or in financial markets.

RESTRICTED

Independent auditor's report to the shareholders of Tabula ICAV

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Tabula ICAV ('the ICAV'), which comprise the Statement of Financial Position, the Statement of Comprehensive Income, the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, the Statement of Cash Flows, the Schedule of Investments and the related notes to the financial statements, including the summary of significant accounting policies set out in note 2. The financial reporting framework that has been applied in their preparation is the Irish Collective Asset-management Act 2015 ('the ICAV Act 2015'), the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

In our opinion, the accompanying financial statements:

- give a true and fair view of the assets, liabilities and financial position of the ICAV as at 30 June 2023, and of its results for the year then ended;
- have been properly prepared in accordance with IFRSs as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the ICAV Act 2015 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

We are independent of the ICAV in accordance with the ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard for Auditors (Ireland) issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), applied as required for the types of entity determined to be appropriate in the circumstances. We have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

We evaluated management's assessment of the ICAV's ability to continue as a going concern by:

- obtaining and reviewing management's formal assessment,
- preparing our own assessment of the ICAV's ability to continue as a going concern, and
- reviewing subsequent financial information and Board meeting minutes.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the ICAV's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditor, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We summarise below the key audit matters in forming our audit opinion above, together with an overview of the principal audit procedures performed to address each matter and, where relevant, key observations arising from those procedures.

Key audit matter	How the matter was addressed
<p>Existence of financial assets and financial liabilities at fair value through profit or loss</p> <ul style="list-style-type: none"> ▪ The ICAV’s financial position and operating results depend, to a significant degree, on the valuation and existence of the financial instruments (transferable securities and derivative instruments) and is a particular focus of the users of the financial statements, as such we consider this a KAM. <p>Refer to Note 2 (e) (Financial instruments accounting policy) and Note 3 (Fair value measurement financial disclosures).</p>	<ul style="list-style-type: none"> ▪ For transferable securities and derivatives, we obtained independent confirmation from the depositary and brokers for all the financial instruments held as at 30 June 2023, and agreed amounts held to the accounting records. Any reconciling items between the confirmations and the ICAV’s investment portfolios were investigated to obtain assurance that trades were recorded in the correct reporting period; <p>No material misstatements were identified as a result of the procedures we performed.</p> <p>Based on the evidence obtained from the above listed procedures, we consider the existence of financial instruments to be reasonable.</p>
<p>Valuation of financial instruments at fair value through profit or loss</p> <ul style="list-style-type: none"> ▪ The ICAV’s financial position and operating results depend, to a significant degree, on the valuation and existence of the financial instruments (transferable securities and derivative instruments) and is a particular focus of the users of the financial statements, as such we consider this a KAM. <p>Refer to Note 2 (e) (Financial instruments accounting policy) and Note 3 (Fair value measurement financial disclosures).</p>	<ul style="list-style-type: none"> ▪ We reviewed the appropriateness of the valuation methodology applied in valuation of financial instruments, in accordance with the requirements of IFRS, as adopted by the EU; ▪ We independently re-priced all transferable securities using independent third-party pricing sources; ▪ We independently re-priced derivative instruments and compared to the valuation applied in the financial statements of the ICAV; ▪ We assessed the appropriateness of fair value hierarchy disclosure of financial instruments and other fair value disclosures; <p>No material misstatements were identified as a result of the procedures we performed.</p> <p>Based on the evidence obtained from the above listed procedures, we consider the valuation of financial instruments to be reasonable.</p>

Our application of materiality

We apply the concept of materiality in planning and performing the audit and in evaluating the impact of misstatements, if any. Materiality is an expression of the relative significance or importance of a matter in the context of the financial statements. Misstatements in the financial statements are material if they, individually or in aggregate, could reasonably be expected to influence the economic decisions of users taken based on the financial statements.

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and on the financial statements as a whole. Based on our professional judgement, we determined materiality for the financial statements as a whole as follows:

<p>Overall materiality and how we determined it</p>	<p>1% of Net Assets Value ("NAV") at 30 June 2023 for each of the ICAV's sub-funds.</p> <table border="0" style="width: 100%;"> <tr> <td style="width: 80%;">Tabula Global IG Credit Curve Steepener UCITS ETF</td> <td style="text-align: right;">€457,571</td> </tr> <tr> <td>Tabula US Enhanced Inflation UCITS ETF</td> <td style="text-align: right;">\$335,040</td> </tr> <tr> <td>Tabula EUR IG Bond Paris-aligned Climate UCITS ETF</td> <td style="text-align: right;">€2,082,787</td> </tr> <tr> <td>Tabula Haitong Asia ex-Japan High Yield Corp USD Bond ESG</td> <td style="text-align: right;">\$2,324,444</td> </tr> <tr> <td>Tabula EUR HY Bond Paris-Aligned Climate</td> <td style="text-align: right;">€626,696</td> </tr> <tr> <td>Tabula Liquid Credit Income UCITS Fund</td> <td style="text-align: right;">€1,971,938</td> </tr> <tr> <td>Tabula GCC Sovereign USD Bonds UCITS ETF</td> <td style="text-align: right;">\$389,009</td> </tr> <tr> <td>Tabula Global High Yield Fallen Angels Paris-aligned Climate UCITS ETF</td> <td style="text-align: right;">\$500,144</td> </tr> </table>	Tabula Global IG Credit Curve Steepener UCITS ETF	€457,571	Tabula US Enhanced Inflation UCITS ETF	\$335,040	Tabula EUR IG Bond Paris-aligned Climate UCITS ETF	€2,082,787	Tabula Haitong Asia ex-Japan High Yield Corp USD Bond ESG	\$2,324,444	Tabula EUR HY Bond Paris-Aligned Climate	€626,696	Tabula Liquid Credit Income UCITS Fund	€1,971,938	Tabula GCC Sovereign USD Bonds UCITS ETF	\$389,009	Tabula Global High Yield Fallen Angels Paris-aligned Climate UCITS ETF	\$500,144

<p>Reporting threshold</p>	<p>We communicated with those charged with governance that we would report to them misstatements identified during our audit above 3% of the overall materiality as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.</p>																

Overview of the scope of the audit

As part of designing our audit, we assessed the risk of material misstatement in the financial statements, whether due to fraud or error, and then designed and performed audit procedures responsive to those risks. In particular, we looked at where the directors made subjective judgements such as making assumptions on significant accounting estimates.

We tailored the scope of our audit to ensure that we performed sufficient work to be able to give an opinion on the financial statements as a whole. We used the outputs of a risk assessment, our understanding of the ICAV, its environment, controls and critical business processes, to consider qualitative factors in order to ensure that we obtained sufficient coverage across all financial statement line items.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the ICAV Act 2015

In our opinion, based on the work undertaken in the course of the audit, we report that:

- the information given in the directors' report for the financial period for which the financial statements are prepared is consistent with the financial statements;
- the directors' report has been prepared in accordance with applicable legal requirements;
- the accounting records of the ICAV were sufficient to permit the financial statements to be readily and properly audited; and
- the financial statements are in agreement with the accounting records.

We have obtained all the information and explanations which, to the best of our knowledge and belief, are necessary for the purposes of our audit.

Matters on which we are required to report by exception

Based on the knowledge and understanding of the ICAV and its environment obtained in the course of the audit, we have not identified any material misstatements in the directors' report.

The ICAV Act 2015 requires us to report to you if, in our opinion, the requirements of Section 117 of the Act, which relate to disclosures of directors' remuneration and transactions are not complied with by the ICAV. We have nothing to report in this regard.

Respective responsibilities

Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 6, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the ICAV's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the ICAV or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

Based on our understanding of the ICAV and its industry, we identified that the principal risks of non-compliance with laws and regulations related to the ICAV Act 2015, the Listing Rules, the Applicable Regulations and fraud, and we considered the extent to which non-compliance might have a material effect on the financial statements.

In identifying and assessing risks of material misstatement in respect to irregularities including non-compliance with laws and regulations, our procedures included but were not limited to:

- Obtaining an understanding of the legal and regulatory framework applicable to the ICAV, and the industry in which it operates;
- Discussing with the directors and management as to whether the ICAV is in compliance with laws and regulations, and discussing the policies and procedures in place regarding compliance with laws and regulations;
- Inspecting relevant correspondence with the Central Bank of Ireland;
- Reviewing minutes of director meetings;
- Discussing amongst the engagement team the identified laws and regulations, and remaining alert to any indications of non-compliance; and
- Focusing on areas of laws and regulations that could reasonably be expected to have a material effect on preparation of the financial statements such as the ICAV Act 2015 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

Our procedures in relation to fraud included but were not limited to:

- Making enquiries of the directors and management on whether they had knowledge of any actual, suspected or alleged fraud;
- Discussing amongst the engagement team the risks of fraud such as opportunities for fraudulent manipulation of financial statements, and determined that the principal risks were

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF TABULA ICAV

related to posting manual journal entries to manipulate financial performance, management bias through judgements and assumptions in significant accounting estimates, and significant one-off or unusual transactions; and

- Addressing the risks of fraud through management override of controls by performing journal entry testing.

The primary responsibility for the prevention and detection of irregularities including fraud rests with both those charged with governance and management. As with any audit, there remained a risk of non-detection of irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal controls.

As a result of our procedures, we did not identify any key audit matters relating to irregularities. The risks of material misstatement that had the greatest effect on our audit, including fraud, are discussed under "Key audit matters" within this report.

A further description of our responsibilities for the audit of the financial statements is located on the Irish Auditing and Accounting Supervisory Authority's website at: http://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf. This description forms part of our auditor's report.

Other matters which we are required to address

Following the recommendation of the Board of Directors, we were appointed by the ICAV on 14 July 2021 to audit the financial statements for the year ending 30 June 2021 and subsequent financial periods. The period of total uninterrupted engagement including previous renewals and reappointments is 3 years.

The non-audit services prohibited by IAASA's Ethical Standard were not provided to the ICAV and we remain independent of the ICAV in conducting our audit.

Our audit opinion is consistent with the additional report to the Board of Directors we are required to provide in accordance with ISA (Ireland) 260.

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the ICAV's shareholders, as a body, in accordance with section 120(1)(b) of the ICAV Act 2015. Our audit work has been undertaken so that we might state to the ICAV's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the ICAV and the ICAV's shareholders, as a body, for our audit work, for this report, or for the opinions we have formed.

TABULA ICAV

Notes to the Financial Statements

for the year ended 30 June 2023

1. General

Tabula ICAV ("the ICAV") is an umbrella Irish collective asset-management vehicle incorporated in Ireland on 25 October 2017, pursuant to part 2 of the Irish Collective Asset-management Vehicles Act 2015, as amended (the "ICAV Act"), the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48 (1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"). It was incorporated under the registration number of C174472. The ICAV was authorised as a UCITS on 3 August 2018.

As at 30 June 2023, the ICAV has obtained the approval of the Central Bank for the establishment of fifteen Sub-Funds, the Tabula Global IG Credit Curve Steeper UCITS ETF, Tabula CDX IG Bond UCITS ETF, Tabula US Enhanced Inflation UCITS ETF, Tabula EUR IG Bond Paris-aligned Climate UCITS ETF, Tabula Haitong Asia ex-Japan High Yield Corp USD Bond ESG UCITS ETF, Tabula Liquid Credit Income UCITS Fund, Tabula USD HY Bond Paris-Aligned Climate UCITS ETF, Tabula EUR HY Bond Paris-Aligned Climate UCITS ETF, Tabula Euro Enhanced Inflation UCITS ETF, Tabula Balanced Credit UCITS Fund, Tabula GCC Sovereign USD Bonds UCITS ETF, Tabula GBP IG Bond Paris-aligned Climate UCITS ETF, Tabula FTSE Indian Government Bond Short Duration UCITS ETF, Tabula Global High Yield Fallen Angels Paris-aligned Climate UCITS ETF and Tabula Global High Yield Credit UCITS Fund (Collectively the "Sub-Funds").

2. Significant accounting policies

The significant accounting policies adopted by the Sub-Funds in the preparation of these Financial Statements are set out below.

(a) Basis of accounting

The Financial Statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted for use in the European Union, and applied in accordance with the ICAV Act, the UCITS Regulations and the Central Bank UCITS Regulations.

The presentation of financial statements in conformity with IFRS as adopted by the European Union requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources.

If in the future such estimates and assumptions, which are based on management's best judgement at the date of the financial statements deviate from the actual outcome, the original estimates and assumptions will be modified as appropriate in the financial year in which the circumstances change.

(b) Basis of measurement

The financial statements have been prepared on a historical cost basis, except for the non-derivative financial instruments at fair value through profit or loss and derivative financial instruments which have been valued at fair value through profit or loss.

(c) Going concern

The financial statements of each of the Sub-Funds, Tabula Global IG Credit Curve Steeper UCITS ETF, Tabula US Enhanced Inflation UCITS ETF, Tabula EUR IG Bond Paris-aligned Climate UCITS ETF, Tabula Haitong Asia ex-Japan High Yield Corp USD Bond ESG UCITS ETF, Tabula Liquid Credit Income UCITS Fund, Tabula EUR HY Bond Paris-Aligned Climate UCITS ETF, Tabula GCC Sovereign USD Bonds UCITS ETF, and Tabula Global High Yield Fallen Angels Paris-aligned Climate UCITS ETF have been prepared on a going concern basis as the directors have made an assessment of each Sub-Fund's ability to continue as a going concern and are satisfied that the Sub-Funds have the resources to continue for the foreseeable future. Details of the liquidity risk of the Sub-Funds are disclosed in Note 5.

Furthermore, the directors are not aware of any material uncertainties that may cast significant doubt upon the ability of the ICAV to continue as a going concern.

(d) Consistency of accounting policies

The accounting policies have been applied consistently by the ICAV to all the periods presented in these financial statements, unless otherwise stated.

(e) Financial assets and liabilities

(i) Classification and measurement of financial assets and financial liabilities

Subsequent to initial recognition, IFRS 9 includes three categories to measure financial assets and financial liabilities:

- Amortised cost
- Fair value through other comprehensive income ("FVOCI") and;
- Fair value through profit or loss ("FVTPL").

All financial assets of the Sub-Funds are measured at FVTPL, except for cash and cash equivalents, cash collateral pledged, receivables for securities sold, due from broker, interest receivable other receivables, due from brokers and due from shareholder which are measured at amortised cost.

TABULA ICAV

Notes to the Financial Statements (continued)

for the year ended 30 June 2023

2. Significant accounting policies (continued)

(e) Financial assets and liabilities (continued)

These assets are subsequently measured at amortised cost using the effective interest method. Interest income calculated using the effective interest method is recognised in 'interest income', foreign exchange gains and losses are recognised in 'net gains/(losses) on foreign exchange' and impairment is recognised in 'impairment losses on financial instruments' in the Statement of Comprehensive Income. Any gain or loss on derecognition is also recognised in profit or loss.

All financial liabilities of the Sub-Funds are measured at FVTPL, except for bank overdraft, cash collateral received, investment management fees payable, payable for securities purchased, distribution payable to redeemable participating shareholders, interest payable, due to shareholders, due to brokers, other liabilities and net assets attributable to holders of redeemable participating shares which are measured at amortised cost.

(ii) Recognition

Purchases and sales of financial instruments are accounted for on a trade date basis, which is the date that the ICAV commits to purchase or sell an asset. Purchases or sales are purchases or sales of financial instruments that require delivery of assets within the period generally established by regulation or convention in the market place. Realised gains and losses on disposals of financial instruments are calculated using the average costing method and are recorded in the Statement of Comprehensive Income.

(iii) Impairment of financial assets

IFRS 9 includes a forward-looking 'expected credit loss' ("ECL") model. The impairment model applies to financial assets measured at amortised cost or FVOCI, except for investments in equity instruments.

Under IFRS 9, loss allowances are measured on either of the following bases:

- 12-month ECLs: these are ECLs that result from possible default events within the 12 months after the reporting date; and
- lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument.

Management consider ECLs to be close to zero. As a result, no loss allowance has been recognised as any such impairment would be wholly insignificant to the Sub-Funds.

(iv) Fair value measurement principles

The fair value of financial instruments where quoted in an active market is based on their quoted market prices at the reporting date without any deduction for estimated future selling costs. The ICAV utilises the last traded market price for both financial assets and financial liabilities where the bid-ask spread is narrow.

If an active quoted market price is not available on a recognised stock exchange or from a broker/dealer for non-exchange-traded financial instruments, the fair value of the instrument is estimated using valuation techniques, including use of recent arm's length market transactions, reference to the current fair value of another instrument that is substantially the same, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

(v) Derecognition

The ICAV derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the ICAV neither transfers nor retains substantially all of the risk and rewards of ownership and does not retain control of the financial asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset that is derecognised) and the consideration received (including any new asset obtained less any new liability assumed) is recognised in the profit or loss. Any interest in such transferred financial assets that is created or retained by the ICAV is recognised as a separate asset or liability.

The ICAV derecognises a financial liability when its contractual obligations are discharged or cancelled, or expired.

(vi) Offsetting of financial assets and liabilities

Financial assets and liabilities are offset and the net amount reported in the statement of financial position and statement of comprehensive income where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liabilities simultaneously.

Credit Default Swap Contracts

The Sub-Funds value credit default swaps using readily available vendor pricing. The Sub-Funds also consider counterparty credit risk in their valuation of credit default swaps. Under IFRS 9, Credit Default Swap Contracts are classified and measured under FVTPL.

Total Return Swap Contracts

The Sub-Funds value total return swaps using a model based on the underlying price received from the broker and a calculated interest element. The Sub-Funds also consider counterparty credit risk in their valuation of total return swaps. Under IFRS 9, Total Return Swap Contracts are classified and measured under FVTPL.

Options

Options are contractual arrangement under which the seller (writer) grants the purchaser (holder) the right, but not the obligation, either to buy (a call option) or sell (a put option) at or by a set date or during a set period, a specific amount of securities or a financial instrument at a predetermined price. The seller receives a premium from the purchaser in consideration for the assumption of the future securities price.

TABULA ICAV

Notes to the Financial Statements (continued)

for the year ended 30 June 2023

2. Significant accounting policies (continued)

(e) Financial assets and liabilities (continued)

Forward Foreign Exchange Currency Contracts

Forward exchange contracts are contractual agreements to buy or sell a specified financial instrument at a specific price and date in the future. Forwards are customised contracts transacted in the OTC market. The ICAV may enter into forward foreign exchange contracts to manage the currency risk arising from the ICAV's investment or anticipated investment in investments denominated in foreign currencies. Forward exchange contracts may be used for hedging and currency management of both local and foreign currencies.

OTC or Centrally cleared derivatives

OTC derivatives are contracts that are traded (and privately negotiated) directly between two parties, without going through an exchange or other intermediary. The total return swaps held on Tabula US Enhanced Inflation UCITS ETF are OTC swaps.

Central clearing is where an entity steps between a buyer and seller to take the position. Essentially, the central counterparty ("CCP") clearing house becomes the buyer to every seller and the seller to every buyer. This means that two transactions are created; a buy and sell between the buyer and the CCP, and a buy and sell between the CCP and the seller. Centrally cleared contracts require the management of margin or collateral. This benefit will need to be weighed against the cost of transacting in the OTC market. The credit default swaps held on Tabula Global IG Credit Curve Steepener UCITS ETF and Tabula Liquid Credit Income UCITS Fund are centrally cleared swaps with Intercontinental Exchange Inc ("ICE") acting as the central clearing house.

(f) Realised gains and losses on sales of investments

The computation of realised gains and losses on sales of financial assets at fair value through profit or loss is made on the basis of average cost and accounted for in the Statement of Comprehensive Income.

(g) Net gains and losses on derivative financial instruments

Net gains and losses on derivative financial instruments relate to all fair value movements on swaps, options and forward exchange contracts held by the Sub-Funds and includes realised and unrealised fair value movements and net coupon payments and receipts and amortisation on swaps. Any gains and losses arising from changes in fair value of the derivative financial instruments are recognised in the Statement of Comprehensive Income and detailed in Note 3.

(h) Distribution

Dividend distributions to redeemable participating shareholders are accrued in the Statement of Financial Position and classified as finance costs in the Statement of Comprehensive Income in the year in which they are declared.

Where both Income Shares and Accumulation Shares in a Sub-Fund are in issue, all income of a Sub-Fund after deduction of expenses will be allocated between holders of Accumulation Shares and holders of Income Shares in accordance with their respective interests. Dividend distribution details are disclosed in Note 8.

(i) Cash and cash equivalents and bank overdrafts

Cash and cash equivalents and bank overdrafts are valued at their face value with interest accrued and interest payable, where applicable, recorded as interest receivable and interest payable. Cash and cash equivalents include bank overdrafts, current and call accounts with maturities of three months or less, to which the Sub-Funds are exposed to credit risk. Cash comprises of cash held with the Depositary, HSBC Continental Europe.

(j) Expenses

All expenses, including investment management fees, are recognised in the Statement of Comprehensive Income on an accruals basis.

(k) Redeemable participating shares

Redeemable participating shares are redeemable at the shareholder's option and are classified as financial liabilities. The redeemable participating shares can be redeemed at any time for cash equal to a proportionate share of a particular Sub-Fund's net asset value.

The participating shares are carried at the redemption amount that is payable at the Statement of Financial Position date if the shareholders exercised their right to put the share back to the Sub-Fund.

(l) Equalisation

Equalisation is operated in connection with the issue and redemption of shares. It represents the income element included in the price for the issue and redemption of shares. Equalisation arrangements are intended to ensure that the income per share is not affected by changes in the number of shares in issue during the financial year.

The buying/selling price of each share contains an amount called equalisation which is equivalent to the net income less expenses accrued in the Sub-Funds at the time of purchase/sale. For distributing Sub-Funds, equalisation attributable to subscriptions in the Sub-Funds form part of the distribution to those shareholders who subscribed to the Sub-Funds during the distribution period. The equalisation element of the distribution is not reported to shareholders separately from the net income distributed.

The equalisation attributable to redemptions from the respective Sub-Fund, if any, is disclosed in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares.

TABULA ICAV

Notes to the Financial Statements (continued)

for the year ended 30 June 2023

2. Significant accounting policies (continued)

(m) Cash collateral pledged or received

Cash collateral pledged or received represent cash collateral pledged or received in respect of derivatives held with the following counterparties, JP Morgan Chase and Co, BNP Paribas, Goldman Sachs International, Morgan Stanley and Barclays Bank Plc.

(n) Pricing policy

The fair value of financial instruments traded in active markets (such as publicly traded derivatives and trading securities) is based on quoted market prices at the Statement of Financial Position date. The quoted market price used for financial instruments held by Tabula EUR IG Bond Paris-aligned Climate UCITS ETF, Tabula Haitong Asia ex-Japan High Yield Corp USD Bond ESG UCITS ETF, Tabula EUR HY Bond Paris-Aligned Climate UCITS ETF, Tabula GCC Sovereign USD Bonds UCITS ETF and Tabula Global High Yield Fallen Angels Paris-aligned Climate UCITS ETF is the closing bid price. The quoted market price used for financial instruments held by Tabula Global IG Credit Curve Steepener UCITS ETF and Tabula Liquid Credit Income UCITS Fund is the closing middle price. The quoted market price used for financial instruments held by Tabula US Enhanced Inflation UCITS ETF is the mid of bid and offer price.

(o) Changes to the accounting policies

New standards, amendments and interpretations to existing standards which are effective from 1 January 2023

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on or after 1 January 2023 that have a material effect on the financial statements of the ICAV.

Standards, interpretations and amendments to existing standards in issue but not yet effective

There are a number of new standards, amendments to standards and interpretations issued but not yet effective for annual periods beginning after 1 January 2023 which have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the ICAV.

3. Fair value measurement

The ICAV classifies fair value measurements using a fair value hierarchy that prioritises the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy are described below. In determining an instrument's placement within the hierarchy, the directors separate the Sub-Funds' investment portfolios into two categories: investments and derivative instruments.

Level 1	Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Sub-Funds have the ability to access at the measurement date;
Level 2	Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active;
Level 3	Inputs that are unobservable.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, and other factors. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

However, the determination of what constitutes "observable" requires significant judgement by the directors. The directors consider observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The categorisation of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the directors' perceived risk of that instrument.

Transferable securities

Transferable securities whose values are based on quoted market prices in active markets are classified within Level 1. These include active listed equities and treasury bills. The directors do not adjust the quoted price for such instruments, even in situations where the Sub-Funds hold a large position and a sale could reasonably impact the quoted price.

Transferable securities that trade in markets that are not considered to be active, but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2.

Transferable securities classified within Level 3 have significant unobservable inputs, as they trade infrequently or not at all. There were no Level 3 investments held at the financial year end.

TABULA ICAV

Notes to the Financial Statements (continued)

for the year ended 30 June 2023

3. Fair value measurement (continued)

Derivative instruments

Derivative instruments can be exchange-traded, privately negotiated OTC or centrally cleared.

Exchange-traded derivatives, such as contracts for difference, futures contracts and exchange traded option contracts, are typically classified within Level 1 or Level 2 of the fair value hierarchy depending on whether or not they are deemed to be actively traded. OTC derivatives such as credit default swaps and forward foreign exchange currency contracts and centrally cleared derivatives such as total return swaps are typically classified within Level 2.

No investments have been classified within Level 3 at any time during the year, consequently no reconciliation of Level 3 fair value measurements is required.

Cash and cash equivalents and bank overdrafts are classified within Level 1 since they have observable inputs in the active market.

The Sub-Funds redeem and issue redeemable Participating Shares at the amount equal to the proportionate share of net assets of the Sub-Funds at the time of subscription or redemption, calculated on a basis consistent with that used in the financial statements.

Accordingly, the carrying amount of Net assets attributable to holders of Participating Shares approximates their fair value. The shares are categorised into Level 2 of the fair value hierarchy.

For the year ended 30 June 2023 and 30 June 2022, all other assets and liabilities, other than investments at fair value, cash and cash equivalents, bank overdrafts and redeemable participating shares, whose carrying amounts approximate fair value would have been considered to be classified within Level 2 of the fair value hierarchy if such classification was required.

The Sub-Funds may invest in Financial Derivatives Instruments ("FDI") for investment purposes, for hedging purposes and for efficient portfolio management purposes.

Credit Default Swap Contracts

Credit default swap contracts represent a commitment with a counterparty to provide a level of credit protection in exchange for a commitment to pay interest at a fixed rate based on the potential risk of default of the relevant underlying issuer. The Sub-Funds may enter into credit default swaps in an attempt to simulate long and short bond positions in reference to a single issuer or a basket of issuers. The Sub-Funds use these swaps to reduce risk where the Sub-Funds have exposure to the issuer(s), or to take an active long or short position with respect to the likelihood of default by the underlying issuer(s).

The buyer of a credit default swap is obligated to pay the seller an upfront payment or a periodic stream of payments over the term of the contract, which typically is between one month and five years, in return for a contingent payment upon the occurrence of a credit event with respect to an underlying reference obligation.

Generally, a credit event means bankruptcy, failure to pay, obligation acceleration or modified restructuring.

The contingent payment may be a cash settlement or a physical delivery of the reference obligation in return for payment of the face amount of the obligation. If the Sub-Fund is a buyer of protection and no credit event occurs, the Sub-Fund records the premium as a reduction in realised gains and losses. However, if a credit event occurs, the buyer typically receives a payment equal to the full notional value for a reference obligation. As a seller, the Sub-Fund receives an upfront payment or a periodic stream of payments throughout the term of the contract, which typically is between one month and five years, provided that no credit event occurs. If a credit event occurs, the Sub-Fund may be required to pay the buyer an amount equal to the full notional value of the reference obligation which may be in excess of the fair value of the credit default swap contract.

Total Return Swap Contracts

A Total Return Swap is a contract between two parties who exchange the return from a financial asset between them. In this agreement, one party makes payments based on a set rate while the other party makes payments based on the total return of an underlying asset.

In a Total Return Swap contract, the party receiving the total return gets any income generated by the financial asset without actually owning it. The payments made by the total return receiver are equal to LIBOR +/- an agreed-upon spread. An increase in LIBOR during the agreement increases payments due to the payer, while a decrease in LIBOR decreases the payments to the payer.

OTC or centrally cleared derivatives, including, credit default swaps, and total return swaps are generally valued by the Investment Manager using observable inputs, such as quotations received from the counterparty, dealers or brokers, whenever available and considered reliable. In instances where models are used, the value of an OTC or centrally cleared derivative depends upon the contractual terms of, and specific risks inherent in, the instrument as well as the availability and reliability of observable inputs.

Such inputs include market prices for reference securities, yield curves, credit curves, and measures of volatility, prepayment rates and correlations of such inputs. Certain OTC derivatives, such as forward foreign exchange currency contracts swaps and options, have inputs which can generally be corroborated by market data and are therefore classified within Level 2.

TABULA ICAV

Notes to the Financial Statements (continued)

for the year ended 30 June 2023

3. Fair value measurement (continued)

Total Return Swap Contracts (continued)

When the swap contract is exercised, the difference between the premium and the amount paid or received, net of brokerage commissions, or the full amount of the premium if the option expires worthless, is recognised as a gain or loss and is presented in the Statement of Comprehensive Income within net gains/losses on financial assets and liabilities at fair value through profit or loss.

Forward Foreign Exchange Currency Contracts

A Forward Foreign Exchange Currency Contract involves an obligation to purchase or sell a specific currency at a future date, at a price set at the time the contract is made. Forward currency contracts are valued by reference to a forward price at which a new forward contract of the same size and maturity could be undertaken at the valuation date. The unrealised gain or loss on open forward exchange contracts is calculated as the difference between the contract rate and the forward price and the relevant Sub-Fund recognises a realised gain or loss when the contract is closed. Unrealised gains or losses are taken to the Statement of Comprehensive Income.

Options

Options are contractual arrangement under which the seller (writer) grants the purchaser (holder) the right, but not the obligation, either to buy (a call option) or sell (a put option) at or by a set date or during a set period, a specific amount of securities or a financial instrument at a predetermined price. The seller receives a premium from the purchaser in consideration for the assumption of the future securities price.

TABULA ICAV

Notes to the Financial Statements (continued)

for the year ended 30 June 2023

4. Fees and expenses

Investment management fees

The ICAV has a fee structure where, in respect of each of the Sub-Funds, all of the fees and expenses (except for broker fees, transaction charges and taxes or duty charges for portfolio re-balancing, all of which are paid separately out of the assets of the respective Sub-Funds) are paid as one single fee. This is referred to as the "Total Expense Ratio" or "TER" in the Prospectus of the ICAV and the Supplement of respective Sub-Funds and is being disclosed in this financial statements as "Investment management fee".

The TER is calculated and accrued daily from the Net Asset Value of each Sub-Fund and is payable monthly in arrears to Tabula. Tabula will receive no further disbursement for expenses, out of pocket or otherwise from the Sub-Funds. Except for transaction charges and taxes or duty charges for portfolio re-balancing, all of which are paid separately out of the assets of the Sub-Funds, Tabula will be responsible for the payment of all fees, costs, and expenses of the Sub-Funds, including but not limited to fees and expenses paid to any sub-distributor or paying agent, Haitong International Asset Management (HK) Limited, the Manager, HSBC Continental Europe (the "Depositary"), HSBC Securities Services (Ireland) DAC (the "Administrator") and Mazars (the "Auditor").

The TER is not expected to exceed the percentages disclosed in the Additional Disclosure section of these financial statements on page 131. However, if an increase is required it will require prior approval by shareholders of the relevant Sub-Fund, which must be approved by a majority vote at a meeting of shareholders or by written resolution of all shareholders. If the share classes' expenses exceed the TER outlined above in relation to operating the Sub-Funds, the Investment Manager will cover any shortfall from its own assets. The payments made in excess of the TER by Tabula amounted to EUR 1,624,996 for the year ended 30 June 2023 (2022: EUR 2,053,499). The Investment Manager has agreed to continue to cover any expenses which exceed the TER for the foreseeable future.

As at 30 June 2023 and 30 June 2022, the following fee percentage was in place for the active share classes on each of the Sub-Funds.

TABULA ICAV

Notes to the Financial Statements (continued)

for the year ended 30 June 2023

4. Fees and expenses (Continued)

The TER is expressed as a percentage of the Net Asset Value of the Share Classes which represents all legitimate fees and expenses payable by the Sub-Funds (including the Investment Manager's, Manager's, Administrator's and Depositary's fees) on behalf of the Share Classes. The investment management fee for the financial year ended 30 June 2023 amounted to EUR 3,867,022 (2022: EUR 2,248,340) of which EUR 344,976 was payable at 30 June 2023 (2022: EUR 269,241).

Directors' remuneration and expenses

The directors shall be entitled to a fee by way of remuneration for their services at a rate to be determined from time to time by the directors. Each director's remuneration will not exceed EUR 50,000 per annum. The directors are also entitled to be reimbursed by the ICAV for all reasonable disbursements and out-of-pocket expenses incurred by them, if any. However, the reimbursements will not exceed EUR 5,000 per director per annum.

Directors' remuneration and expenses which were paid out of the TER for the financial year ended 30 June 2023 amounted to EUR 27,250 (2022: EUR 27,250). As at 30 June 2023, no directors' remuneration and expenses were payable (2022: EUR Nil). Michael John Lytle and Franco Mancini have waived their directors' fees.

Fees payable to the statutory auditor, exclusive of VAT

	30 June 2023	30 June 2022
	EUR	EUR
Statutory Audit	39,000	41,500
Tax advisory services	-	-
Total	39,000	41,500

EUR 39,000 was outstanding as at 30 June 2023 (2022: EUR 41,500). All payments for the statutory auditor are met from the TER charge, levied by Tabula, as at 30 June 2023.

Transaction costs

Transaction costs are incremental costs, which are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, an entity shall measure it at its fair value plus or minus, in the case of a financial asset or a financial liability not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Transaction costs on the purchase of fixed income securities are included on the purchase and sale price of the investment. They cannot be practically or reliably gathered as they are embedded in the cost of the investment and cannot be separately verified or disclosed.

Any transaction costs on purchases and sales of credit default swaps are included in net gains/(losses) on financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income for each Sub-Fund.

Establishment costs

The cost of establishing the ICAV and its Sub-Funds, including the expenses associated with obtaining authorisation from any authority (including, but not limited to, the Central Bank), filing fees, the preparation and printing of the Prospectus, marketing costs and the fees and expenses of legal counsel and other professionals involved in the establishment and initial offering of the ICAV, is paid by Tabula.

5. Risks associated with financial instruments

The Sub-Funds' risks are those set out in the Prospectus and the relevant Supplements and any consideration of risk here should be viewed in the context of the Prospectus and the relevant Supplements which is the primary documentation governing the operation of the ICAV.

The Sub-Funds' activities expose them to a variety of financial risks: market risk (including price risk, currency risk and interest rate risk), credit risk and liquidity risk. The Sub-Funds' overall risk management process focuses on the unpredictability of financial markets and seeks to mitigate potential adverse effects on the Sub-Funds' financial performance.

The Investment Manager seeks to mitigate the financial risk in the Sub-Funds in its daily risk management process. From year to year, the Sub-Funds' exposure to risk will alter as market conditions change and as the components of the portfolios change and are adjusted through trading, subscriptions and redemptions. With regard to the objectives, policies and processes for managing the risk, whilst adapting to the current market conditions, the approach will remain consistent from year to year.

TABULA ICAV

Notes to the Financial Statements (continued)

for the year ended 30 June 2023

5. Risks associated with financial instruments (continued)

(a) Market risk

The potential for changes in the fair value or cash flows of the Sub-Funds' investment portfolios is referred to as Market Risk. Categories of Market Risk include price risk, currency risk and interest rate risk.

Tabula EUR IG Bond Paris-aligned Climate UCITS ETF, Tabula Haitong Asia ex-Japan High Yield Corp USD Bond ESG UCITS ETF, Tabula EUR HY Bond Paris-Aligned Climate UCITS ETF, Tabula GCC Sovereign USD Bonds UCITS ETF and Tabula Global High Yield Fallen Angels Paris-aligned Climate UCITS ETF use the commitment approach for the calculation of global exposure.

Tabula Global IG Credit Curve Steepener UCITS ETF, Tabula Liquid Credit Income UCITS Fund and Tabula US Enhanced Inflation UCITS ETF (2022: commitment approach) use the absolute value-at-risk (VaR) approach for the calculation of global exposure.

In accordance with the requirements of the Central Bank, the Sub-Funds which use the absolute VaR approach for the calculation of global exposure are subject to an absolute VaR limit of 20% of each Sub-Fund's Net Asset Value, based on a 20 business day holding period, a historical observation period of at least one year (250 business days), unless a shorter observation period is justified by a significant increase in price volatility, and a 99% one-tailed confidence interval.

However, the absolute VaR limit of each Sub-Fund is not expected to exceed 15% during normal market conditions in line with the Investment Manager's internal risk guidelines. VaR is a statistical methodology that seeks to predict, using historical data, the likely maximum loss that the Sub-Fund could suffer, calculated to a specific one-tailed confidence level. The VaR calculation model's methodology is the historical simulation method where no assumptions regarding returns distributions are made. The lowest, highest, and average utilisation of the VaR limit during the year ended 30 June 2023 are detailed in the table below.

Sub-Fund	Lowest	Highest	Average
Tabula Global IG Credit Curve Steepener UCITS ETF	2.43%	8.73%	4.37%
Tabula Liquid Credit Income UCITS Fund	7.60%	16.68%	11.91%
Tabula US Enhanced Inflation UCITS ETF	10.06%	14.81%	12.46%

The lowest, highest, and average utilisation of the VaR limit during the year ended 30 June 2022 are detailed in the table below.

Sub-Fund	Lowest	Highest	Average
Tabula Global IG Credit Curve Steepener UCITS ETF	3.01%	6.61%	3.97%
Tabula Liquid Credit Income UCITS Fund	9.43%	14.53%	11.60%

The average leverage employed during the year ended 30 June 2023, calculated as the gross notional of derivative securities held is detailed in the table below:

Sub-Fund	Leverage
Tabula Global IG Credit Curve Steepener UCITS ETF	810.30%
Tabula Liquid Credit Income UCITS Fund	1,517.60%
Tabula US Enhanced Inflation UCITS ETF	208.68%

The average leverage employed during the year ended 30 June 2022, calculated as the gross notional of derivative securities held is detailed in the table below:

Sub-Fund	Leverage
Tabula Global IG Credit Curve Steepener UCITS ETF	843.00%
Tabula Liquid Credit Income UCITS Fund	1,354.70%

TABULA ICAV

Notes to the Financial Statements (continued)

for the year ended 30 June 2023

5. Risks associated with financial instruments (continued)

(a) Market risk (continued)

(i) Price risk

Price risk is the risk that the value of instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market. It represents the potential loss the Sub-Funds might suffer through holding market positions in the face of price movements. The securities held by the Sub-Funds are held at fair value with fair value changes recognised in the Statement of Comprehensive Income. All changes in market conditions will therefore directly affect net investment income for the Sub-Funds. The Sub-Funds manage this exposure to individual price movements of underlying positions by only making investments which are in line with the investment restrictions.

A 5% increase in prices, as at 30 June 2023, would have increased the net assets attributable to holders of redeemable shares for Tabula Global IG Credit Curve Steepener UCITS ETF by EUR 2,301,171, Tabula US Enhanced Inflation UCITS ETF by USD 1,642,127, Tabula EUR IG Bond Paris-aligned Climate UCITS ETF by EUR 10,312,734, Tabula Haitong Asia ex-Japan High Yield Corp USD Bond ESG UCITS ETF by USD 11,282,372, Tabula Liquid Credit Income UCITS Fund by EUR 7,775,877, Tabula EUR HY Bond Paris-Aligned Climate UCITS ETF by EUR 3,067,499, Tabula GCC Sovereign USD Bonds UCITS ETF by USD 1,906,357 and Tabula Global High Yield Fallen Angels Paris-aligned Climate UCITS ETF by USD 2,456,887.

A 5% increase in prices, as at 30 June 2022, would have increased the net assets attributable to holders of redeemable shares for Tabula Global IG Credit Curve Steepener UCITS ETF by EUR 6,031,691, Tabula US Enhanced Inflation UCITS ETF by USD 3,372,626, Tabula EUR IG Bond Paris-aligned Climate UCITS ETF by EUR 5,379,595, Tabula Haitong Asia ex-Japan High Yield Corp USD Bond ESG UCITS ETF by USD 11,462,851, Tabula Liquid Credit Income UCITS Fund by EUR 1,197,321 and Tabula EUR HY Bond Paris-Aligned Climate UCITS ETF by EUR 3,162,797.

An equal change in the opposite direction would have decreased the net assets attributable to holders of redeemable participating shares by an equal but opposite amount.

(ii) Currency risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Sub-Funds may hold assets or liabilities denominated in currencies other than the functional currencies of the Sub-Funds.

The Sub-Funds may, therefore, be exposed to currency risk as the value of the assets and liabilities denominated in currencies other than the functional currency may fluctuate as a result of movements in the exchange rates.

The Sub-Funds may enter into forward foreign exchange contracts to hedge the currency exposures of securities denominated in a currency other than the functional currency of the relevant Sub-Fund and to hedge against other changes in currency rates which may have an impact on a Sub-Fund. Forward foreign exchange contracts may be also used by the Investment Manager to hedge the currency exposure on behalf of investors invested in foreign currency share classes offered by each Sub-Fund in relation to the functional currency of that Sub-Fund.

Any financial instruments used to implement such strategies with respect to one or more classes shall be assets/liabilities of a Sub-Fund as a whole but will be attributable to the relevant class and the gains/losses on and the costs of the relevant financial instruments will accrue solely to the relevant class.

As at 30 June 2023, Tabula Global IG Credit Curve Steepener UCITS ETF, Tabula US Enhanced Inflation UCITS ETF, Tabula EUR IG Bond Paris-aligned Climate UCITS ETF, Tabula Haitong Asia ex-Japan High Yield Corp USD Bond ESG UCITS ETF, Tabula Liquid Credit Income UCITS Fund, Tabula GCC Sovereign USD Bonds UCITS ETF and Tabula Global High Yield Fallen Angels Paris-aligned Climate UCITS ETF were exposed to currency risk. All of the other Sub-Funds were not exposed to significant currency risk as all of the assets and liabilities of the Sub-Funds were reflected in the Sub-Funds' base currencies.

As at 30 June 2022, Tabula Global IG Credit Curve Steepener UCITS ETF, Tabula US Enhanced Inflation UCITS ETF, Tabula EUR IG Bond Paris-aligned Climate UCITS ETF, Tabula Haitong Asia ex-Japan High Yield Corp USD Bond ESG UCITS ETF and Tabula Liquid Credit Income UCITS Fund were exposed to currency risk. All of the other Sub-Funds were not exposed to significant currency risk as all of the assets and liabilities of the Sub-Funds were reflected in the Sub-Funds' base currencies.

The tables below outline the Sub-Funds' net foreign currency risk exposure.

(iii) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Fluctuations in interest rates of the currency in which the Shares are denominated and/or fluctuations in interest rates of the currency or currencies in which the Sub-Funds' assets are denominated may affect the value of the Shares. The Sub-Funds may employ a hedging strategy in order to hedge against the fluctuations in the interest rates. The success of any hedging transactions will be subject to the movements in the direction of interest rates.

Therefore, while the Sub-Funds might enter into such transactions to reduce interest rate risks, an unanticipated change in interest rates may result in poorer overall performance for the Sub-Funds than if it had not engaged in such hedging.

Interest rate risk is managed by the Sub-Funds tracking their benchmark indices and offering similar interest rate exposure. Collateral is managed with short dated government bonds so as to minimise additional interest rate risk.

5. Risks associated with financial instruments (continued)

(a) Market risk (continued)

(iii) Interest rate risk (continued)

The following tables detail the effect on net assets should interest rates have increased/decreased by 50 basis points (bps) with all other variables remaining constant, assuming that a 50bps increase/decrease in the base interest rate would result in a correlating 50bps increase/decrease in the value of interest bearing instruments. In reality, an increase/decrease of 50bps would not result in a direct correlating increase/decrease in the fair value of interest bearing instruments, as the movement in the value of the interest bearing instruments would depend on the individual instrument class and/or market sentiment towards any sensitivity in the interest rate.

(b) Credit risk

Credit risk is the risk of financial loss to the Sub-Funds if a counterparty to a financial instrument fails to discharge an obligation or commitment that it has entered into with the Sub-Funds. Credit risk is generally higher when a non-exchange traded financial instrument is involved because the counterparty for non-exchange traded financial instruments is not backed by an exchange clearing house.

This exposure exists between trade date and settlement date for asset purchase and sale transactions, for securities re-used by counterparty and for the lifetime of derivative transactions. This exposure also exists for collateral held at counterparties. The counterparties and brokers of the Sub-Funds have the right to re-use assets, which may increase counterparty risk. Assets that are re-used by the counterparties are subject to the risk of the counterparty defaulting on its obligations.

It is the policy of the Sub-Funds to transact the majority of their securities and contractual commitment activity and their derivative transactions with brokers, counterparties and banks that the directors consider to be well established. The securities traded by the Sub-Funds also include counterparty risk as to the solvency of the issuer of the securities. The counterparties, brokers and bankers of the Sub-Funds hold cash as bankers and the Sub-Funds are thus in a position of general creditor to such counterparties also for such amounts.

Cash collateral and other financial instruments amounts disclosed on the offsetting table on pages 68 to 74 have been limited to the net amount of financial assets or liabilities presented in the Statement of Financial Position to eliminate the effect of over collateralisation.

HSBC Bank plc who is the holding company of the Depositary, HSBC Continental Europe, was rated as A+ (2022: A+) by Standard and Poor's as at 30 June 2023.

In addition, netting agreements and collateral arrangements (including Swaps) are routinely put in place when appropriate to allow the counterparty risk mitigating benefits of close-out netting and payment netting (as applicable).

As at 30 June 2023, the Sub-Funds held cash collateral of EUR 1,798,497 (2022: EUR 686,963) with JP Morgan Chase and Co, EUR 30,252,471 (2022: EUR 4,473,326) with Barclays Bank Plc, EUR 530,000 (2022: EUR 300,000) with Morgan Stanley, EUR 1,186,759 (2022: EUR 259,444) with Goldman Sachs and USD 180,270 (2022: USD 697,225) with BNP Paribas.

TABULA ICAV

Notes to the Financial Statements (continued)

for the year ended 30 June 2023

5. Risks associated with financial instruments (continued)

(c) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Sub-funds are exposed to daily cash redemptions of redeemable participating shares and monitor this activity to ensure that funds are available to meet the redemption requirements. The Sub-Funds' actively traded securities are considered to be readily realisable as they are actively traded on recognised stock exchanges.

The Sub-Funds' financial instruments also comprise investments in derivative contracts traded over-the-counter, which are not traded in an organised public market and which generally may be illiquid. As a result, the Sub-Funds may not be able to liquidate quickly some of its investments in these instruments at an amount close to its fair value in order to meet its liquidity requirements, or to respond to specific events such as a deterioration in the credit worthiness of any particular issuer.

However, the TRS agreement with BNP Paribas allows for termination on a daily basis aside from UK and US bank holidays. Most of the underlying exposure in the TRS is derived from CDS which is a highly liquid market. In the event of a redemption in times of market stress and in order to protect investors in the Sub-Funds, Tabula, may, in its discretion, refuse to redeem any shares in excess of 10% until the following day.

The tables below analyse the Sub-Funds' financial liabilities into relevant maturity groupings based on the period at the Statement of Financial Position date to the contractual maturity date. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

Notes to the Financial Statements (continued)

for the year ended 30 June 2023

5. Risks associated with financial instruments (continued)

(d) Offsetting financial instruments

None of the financial assets or financial liabilities are offset in the Statement of Financial Position. The disclosures set out in the tables below include financial assets and financial liabilities that are subject to an enforceable master netting arrangement or similar agreement that covers similar financial instruments.

The International Swaps and Derivatives Association (“ISDA”) and similar master netting arrangements do not meet the criteria for offsetting in the Statement of Financial Position. This is because they create a right of set-off of recognised amounts that is enforceable only following an event of default, insolvency or bankruptcy of the Sub-Fund or the counterparties. In addition, the Sub-Funds and their counterparties do not intend to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

The following tables represent the Sub-Funds’ financial assets and liabilities subject to offsetting, enforceable master netting and similar agreements.

6. Share capital and redeemable participating shares

The authorised share capital of the ICAV is comprised of subscriber shares to the value of Euro 2 (the "Subscriber Shares") which entitle the shareholders holding them to attend and vote at all meetings of the ICAV, but do not entitle the holders to participate in the dividends or net assets of any Sub-Fund or of the ICAV.

Each of the Shares entitles the Shareholder to participate equally on a pro rata basis in the dividends and net assets of a Sub-Fund attributable to the relevant Class in respect of which they are issued, save in the case of dividends declared prior to becoming a Shareholder. The Subscriber Shares' entitlement is limited to the amount subscribed and accrued interest thereon.

7. Taxation

Under current law and practice the ICAV qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended (the "TCA"). As such, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of Shares and any deemed disposal of Shares for Irish tax purposes arising as a result of holding Shares in the ICAV for a period of eight years or more. Where a chargeable event occurs, the ICAV is required to account for the Irish tax thereon.

A Chargeable Event does not include:

(i) any transactions (which might otherwise be a chargeable event) in relation to, Shares held in a recognised clearing system as designated by order of the Revenue Commissioners; or

(ii) a transfer of Shares between spouses/civil partners and any transfer of Shares between spouses/civil partners or former spouses/civil partners on the occasion of judicial separation, decree of dissolution and/or divorce, as appropriate; or
(iii) an exchange by a Shareholder, effected by way of arm's length bargain where no payment is made to the Shareholder, of Shares in the ICAV for other Shares in the ICAV; or

(iv) an exchange of Shares arising on a qualifying amalgamation or reconstruction (within the meaning of Section 739H of the TCA) of the ICAV with another investment undertaking.

If the ICAV becomes liable to account for tax on a chargeable event, the ICAV shall be entitled to deduct from the payment arising on that chargeable event an amount equal to the appropriate tax and/or, where applicable, to repurchase and cancel such number of Shares held by the Shareholder as is required to meet the amount of tax. The relevant Shareholder shall indemnify and keep the ICAV indemnified against loss arising to the ICAV by reason of the ICAV becoming liable to account for tax on the happening of a chargeable event.

Income, interest and capital gains (if any) received on investments made by the ICAV may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the ICAV or its shareholders.

8. Dividend distribution

The distributions made during the year have been included in the Statement of Comprehensive Income under "Distribution to redeemable participating shareholders".

The dividend distribution details are as follows:

Tabula Haitong Asia ex-Japan High Yield Corp USD Bond ESG UCITS ETF 30 June 2023

**The Sub-Fund was established on 18 May 2023 and commenced operations on 21 June 2023, and as such, there are no comparatives.

The Directors are not aware of any related party transactions other than those disclosed in these financial statements.

12. Financial derivative instruments and efficient portfolio management

Subject to the conditions and within the limits from time to time laid down by the Central Bank, and except as otherwise stated in the investment objective and policies of the ICAV, the Investment Manager may employ investment techniques and instruments such as futures contracts, credit default swaps, total return swaps, options, forward foreign currency contracts and other derivatives for investment purposes or efficient portfolio management. Furthermore, new techniques and instruments may be developed which may be suitable for use by the ICAV in the future, and the Investment Manager may employ such techniques and instruments subject to the prior approval of, and any restrictions imposed by, the Central Bank.

The Sub-Funds may use Financial Derivative Instruments ("FDIs") for efficient portfolio management of their assets and for investment purposes.

During the year ended 30 June 2023, Tabula Global IG Credit Curve Steepener UCITS ETF and Tabula Liquid Credit Income UCITS Fund used credit default swaps for investment purposes; Tabula US Enhanced Inflation UCITS ETF used total return swaps for investment purposes and Tabula US Enhanced Inflation UCITS ETF, Tabula Haitong Asia ex-Japan High Yield Corp USD Bond ESG UCITS ETF, Tabula Liquid Credit Income UCITS Fund, Tabula EUR IG Bond Paris-aligned Climate UCITS ETF, Tabula GCC Sovereign USD Bonds UCITS ETF and Tabula Global High Yield Fallen Angels Paris-aligned Climate UCITS ETF used forward foreign currency contracts for hedging purposes. Tabula Liquid Credit Income UCITS Fund used Options for investment purposes. Tabula EUR HY Bond Paris-Aligned Climate UCITS ETF did not use any FDI during the period ended 30 June 2023. Realised and unrealised gains and losses on FDIs are recognised in the Statement of Comprehensive Income. The gains and losses related to FDIs are disclosed in Note 3.

13. Capital management

Participating Shares in the ICAV provide an investor with the right to request redemption of their shares for cash at the value proportionate to the investor's shares in the ICAV's net assets and are classified as liabilities. The ICAV's objective, in managing the Participating Shares, is to ensure a stable base to maximise returns to investors and to manage liquidity and to manage liquidity risk arising from redemptions.

TABULA ICAV

Notes to the Financial Statements (continued)

for the year ended 30 June 2023

14. Exchange rates

The average exchange rate used to convert expenses incurred in GBP to EUR was 1.149943 for the year ended 30 June 2023 (2022: GBP to EUR 1.1872). Disclosure of Remuneration Policy

The Manager has designed and implemented a remuneration policy (the "Policy") in line with the provisions of S.I. 257 of 2013 European Union (Alternative Investment Fund Managers) Regulations 2013 (the "AIFM Regulations"), S.I. 352 of 2011 European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations") and of the ESMA Guidelines on sound remuneration policies under the UCITS Directive and AIFMD (the "ESMA Guidelines"). The Policy is designed to ensure that the remuneration of key decision makers is aligned with the management of short and long-term risks, including the oversight and where appropriate the management of sustainability risks in line with the Sustainable Finance Disclosure Regulations.

The Manager's remuneration policy applies to its identified staff whose professional activities might have a material impact on the ICAV's risk profile and so covers senior management, risk takers, control functions and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers and whose professional activities have a material impact on the risk profile of the ICAV. The Manager's policy is to pay identified staff a fixed component with the potential for identified staff to receive a variable component. It is intended that the fixed component will represent a sufficiently high proportion of the total remuneration of the individual to allow the Manager to operate a fully flexible policy, with the possibility of not paying any variable component. When the Manager pays a variable component as performance related pay certain criteria, as set out in the Manager's remuneration policy, must be adhered to. The various remuneration components are combined to ensure an appropriate and balanced remuneration package that reflects the relevant staff rank and professional activity as well as best market practice. The Manager's remuneration policy is consistent with, and promotes, sound and effective risk management and does not encourage risk-taking which is inconsistent with the risk profile of the funds it manages.

These disclosures are made in respect of the remuneration policies of the Manager. The disclosures are made in accordance with the ESMA Guidelines.

Total remuneration (in EUR) paid to the identified staff of the Manager fully or partly involved in the activities of the ICAV that have a material impact on the ICAV's risk profile during the financial year to 31 December 2022 (the Manager's financial year):

Fixed remuneration	EUR
Senior Management	1,387,113
Other identified staff	-
Variable remuneration	
Senior Management	180,517
Other identified staff	-
Total remuneration paid	1,567,630

No of identified staff – 15

Neither the Manager nor the ICAV pays any fixed or variable remuneration to identified staff of the Investment Manager.

The Securities Financing Transaction Regulation Disclosure

A Securities Financing Transaction (“SFT”) is defined as per Article 3(11) of the Securities Financing Transaction Regulation (“SFTR”) as:

- a repurchase transaction;
- securities or commodities lending and securities or commodities borrowing;
- a buy-sell back transaction or sell-buy back transaction; or
- a margin lending transaction.

As at 30 June 2023, the Tabula US Enhanced Inflation UCITS ETF held the following type of SFT:

- Total Return Swaps (“TRSs”)

The amount of securities and commodities on loan as a proportion of total lendable assets (excluding cash and cash equivalents) was (0.64%) as at 30 June 2023.

GLOBAL DATA

Type of Instrument	Absolute Amount (USD)	Proportion of AUM (%)	Maturity tenor
TRSs	209,044	0.62%	1-3 months

CONCENTRATION DATA:

Swap positions were collateralised by cash as follows:

Type of Instrument	Counterparty	Collateral amount (USD)
Swap	BNP Paribas	180,270

The counterparties of the Swaps were as follows:

Counterparty	Gross volume of outstanding trades	Credit Rating
BNP Paribas	209,044	A+

AGGREGATE TRANSACTION DATA:

	Type of collateral	Currency	Maturity tenor (collateral)	Country of counterparty establishment	Settlement and clearing
BNP Paribas	Cash	USD	N/A	UK	Bilateral

The counterparties have the right to re-use 100% of the posted collateral.

SAFEKEEPING:

Custodian	Collateral assets safe-kept (USD)
BNP Paribas	180,270

The collateral is generally held with counterparties in non-segregated accounts.

RETURN/COSTS

	Absolute Cost	% overall returns

The investments underlying the Sub-Funds do not take into account EU criteria for environmentally sustainable economic activities, as defined in Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment.

The additional disclosure requirements under SFDR Level 2 for all annual reports, published after 1 January 2023, are contained in the remainder of this report. These disclosures were prepared using data, and the analysis of such information, provided by third party data providers which was available as at the date of which the disclosures were produced. Similarly, the activities reported in the disclosures may be an output of proprietary analysis, which in turn may utilise data published by underlying investee companies. The availability of such data and analysis has presented challenges. The presentation of information in the disclosures may also change with regulatory developments and it is in this context the information should be read and understood. The Board and The Board of the Management Company continues to actively monitor the evolution of data provision and regulation in this regard.

Periodic disclosure for financial products referred to in Article 9(1), (2) and (3) of Regulation (EU) 2019/2088 and Article 5 of Regulation (EU) 2020/852

Product name: **Tabula EUR IG Bond Paris-Aligned Climate UCITS ETF**

Legal entity identifier: 635400TLEBYMVGAOU019

Reference period: 30 June 2022 to 30 June 2023 (end of financial year)

Sustainable investment objective

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system, establishing a list of environmentally sustainable economic activities. For the time being, it does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

Yes

It made sustainable investments with an environmental objective: **99.7%**

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made sustainable investments with a social objective: ___%

No

It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators

measure how the sustainable objectives of this financial product are attained.

To what extent was the sustainable investment objective of this financial product met?

[list the sustainable investment objective of this financial product, and describe how the sustainable investments contributed to the sustainable investment objective. For the financial products referred to in Article 5, first paragraph, of Regulation (EU) 2020/852, in respect of sustainable investments with environmental objectives, indicate to which environmental objectives set out in Article 9 of Regulation (EU) 2020/852 to the investment underlying the financial product contributed to. For the financial products referred to in Article 9(3) of Regulation (EU) 2019/2088, indicate how the objective of a reduction in carbon emissions was aligned with the Paris Agreement]

The sustainable investment objective of the Sub-Fund is to provide Euro investment grade bond exposure that is aligned with the objectives of the Paris Agreement, while not significantly harming other environmental, social and governance (ESG) objectives. To achieve this objective, the Sub-Fund held a portfolio of bonds as similar as possible to the composition of the Solactive ISS Paris-Aligned Select Euro Corporate Bond Index. This is a reference benchmark meeting the criteria for an EU Paris-aligned Benchmark (PAB) under the EU Low Carbon Benchmark Regulation. The reference benchmark methodology is available at tabulagroup.com.

The Investment Manager is satisfied that the Sub-Fund met its sustainable investment objective during the reference period. The table below provides details of the indicators used for this assessment.

Note: decarbonisation is measured annually on 31 January, the anniversary of the base date of the reference benchmark. Between 31 January 2022 and 31 January 2023, the reference benchmark reduced its GHG emissions by 7.1%, exceeding its 7% target. On both dates, the

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sub-Fund had lower GHG emissions than the reference benchmark. This was due to portfolio optimisation by the Investment Manager designed to 1) reduce emissions as much as possible within acceptable tracking error and 2) ensure that Sub-Fund emissions remained at or below the reference benchmark while allowing for potential market movements over monthly rebalancing periods. As a result, the Sub-Fund's decarbonisation in percentage terms was less than 7%. Given that the reference benchmark met its 7% target, and that the GHG emissions of the Sub-Fund were below those of the reference benchmark, the Investment Manager is satisfied that the Sub-Fund met its objective of Paris alignment.

How did the sustainability indicators perform? And compared to previous periods?

Indicator		2022/23	2021/22
Weighted average GHG emissions (M T Co2e)			
Sub-Fund		26.7	27.2
Reference benchmark		27.5	27.3
Broad market index		56.9	55.1
% reduction relative to broad market index (target 50%)			
Sub-Fund		53.2%	51.5%
Reference benchmark			
Year-on-year weighted average GHG emissions reduction (target 7%)			
Sub-Fund	Start of year (M T CO2e)	28.9	n/a
	End of year (M T CO2e)	27.4	n/a
	% reduction	5.2%*	
Reference benchmark	Start of year (M T CO2e)	29.6	
	End of year (M T CO2e)	27.5	
	% reduction	7.1%	
Broad market index	Start of year (M T CO2e)	59.7	
	End of year (M T CO2e)	59.2	
	% reduction	0.9%	

*Data: Solactive/ISS ESG. Average GHG emissions are as of the end of the relevant reference period (30 June). Broad market index is the Solactive Euro IG Corporate Index. YoY reduction is measured from January to January. YoY reduction is not available for 2021/22 as the methodology for Scope 3 emissions was revised in January 2022 and the index base date reset. *See note above.*

How did the sustainable investments not cause significant harm to any environmental or social sustainable investment objective?

In addition to the reduction in GHG emissions described above, the Sub-Fund applied a number of screens designed to exclude certain harmful bond issuers. These screens were built into the methodology of the reference benchmark and applied by the benchmark provider. The table below shows the exposure to harmful issuers at the end of the reference period. However, the screens were applied monthly, when the reference benchmark was rebalanced, and the Investment Manager performed monthly checks to ensure that issuers excluded from the reference benchmark were also excluded from the Sub-Fund.

Screen	Target	Actual
Issuers causing severe environmental harm (measured as significant negative impact on UN Sustainable Development Goals 12 -15)	0%	0%
Issuers in violation of established norms such as the UN Global Compact, the OECD Guidelines for Multinational Enterprises or the UN Guiding Principles for Business and Human Rights.	0%	0%
Issuers with fossil fuel revenues above thresholds in PAB rules	0%	0%
Issuers involved with controversial weapons	0%	0%
Issuers involved with tobacco	0%	0%

How were the indicators for adverse impacts on sustainability factors taken into account?

- **GHG emissions (Principal Adverse Impact #1):** the Sub-Fund reduced its weighted average GHG emissions of the Sub-Fund by 53.2% relative to the broad Euro investment grade bond market and by 5.2% year on year. Note that, in accordance with the PAB rules, the Sub-Fund uses a different indicator of GHG emissions to those specified in the PAI metrics. Please refer to the Sub-Fund's PAI disclosures, available at tabulagroup.com, for the PAI metrics.
- **Exposure to companies active in the fossil fuel sector (Principal Adverse Impact #4):** the Sub-Fund excluded issuers with revenues from oil, gas, coal and energy intensive electricity above the thresholds specified in the PAB rules.
- **Violations of UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (Principal Adverse Impact #10):** the Sub-Fund excluded issuers verified as failing to respect established norms such as the UN Global Compact (UNGC) principles, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights.
- **Exposure to controversial weapons (Principal Adverse Impact #14):** the Sub-Fund excluded issuers with alleged or verified involvement in controversial weapons, including chemical weapons, biological weapons, nuclear weapons, depleted uranium, cluster munitions and anti-personnel mines.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?

All holdings of the Sub-Fund were screened using the ISS ESG Norms-Based Research methodology, which is aligned with both the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. Bond issuers involved with verified failures to respect these international norms were excluded.

Note that this screen is built into the methodology of the reference benchmark. Please refer to the reference benchmark methodology for more information. The Investment Manager ensured that the Sub-Fund was aligned with this screen by a) replicating the reference benchmark as far as possible and practicable and b) ensuring that the same constraints were applied to the actual holdings of the Sub-Fund.

How did this financial product consider principal adverse impacts on sustainability factors?

The Sub-Fund considered the 14 mandatory PAI indicators plus one optional climate-related PAI indicator (Investments in companies without carbon emission reduction initiatives).

The following PAIs were formally considered within the reference benchmark methodology, using data provided by ISS ESG:

1. GHG emissions (using weighted average emissions, as per PAB rules)
4. Exposure to companies active in the fossil fuel sector
10. Violations of UN Global Compact Principles and OECD Guidelines for Multinational Enterprises
14. Exposure to controversial weapons

The remaining PAIs were not incorporated in the reference benchmark methodology and therefore could not be formally considered in the day-to-day investment process. However, the Investment Manager monitored these PAIs on a quarterly basis using MSCI data and is currently assessing whether the quality and availability of data is sufficient to incorporate them into the reference benchmark methodology. Disclosures pursuant to Article 11(2) of Regulation (EU) 2019/2088 for 2022 are available at <https://www.tabulaim.com/products/ie00bn4gxl63/sustainability/>

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference

Largest bond issuers	Sector	% Assets	Country
BNP Paribas SA	Financials	4.0%	France
ING Groep NV	Financials	2.6%	Netherlands

Intesa Sanpaolo SpA	Financials	1.7%	Italy

Data: Tabula, assets as of 30 June 2023

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

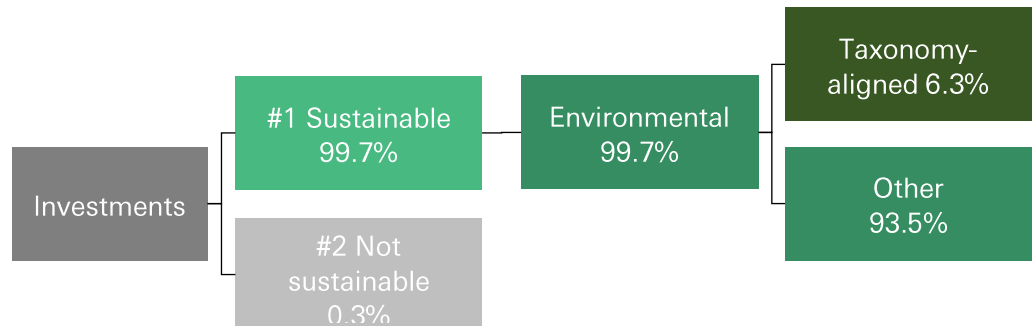

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

What was the proportion of sustainability-related assets?

The diagram shows the asset allocation of the Sub-Fund as of 30 June 2023. The percentage of assets aligned with the EU Taxonomy is based on Turnover. EU Taxonomy alignment data is sourced from MSCI ESG and is based on the most recent issuer data available, as of September 2023.

[Include only relevant boxes, remove irrelevant ones for the financial product]

Data: Tabula, assets as of 30 June 2023

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy? [include the section for financial products referred to in Article 5,

first paragraph, of Regulation (EU) 2020/852 and include information in accordance with Article 62 of this regulation]

The Sub-Fund did not commit to making any sustainable investments with an environmental objective aligned with the EU Taxonomy. This is because alignment with the EU Taxonomy is not currently in the criteria for PABs and is therefore not incorporated in the reference benchmark methodology. However, in replicating the reference benchmark, the Sub-Fund did make a small percentage of investments aligned with the EU Taxonomy. As of 30 June 2023, the percentage alignments were 6.3% (Turnover), 8.6% (CapEx) and 6.9% (OpEx).

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

Yes [specify below, and details in the graphs of the box]

In fossil gas In nuclear energy
 No

The two graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments in transitional and enabling activities? [include a breakdown of the proportions of investments during the reference period]

	% alignment based on Turnover
Transitional activities	0.0%
Enabling activities	1.8%

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

	End of current reference period (30 June 2023)	End of previous reference period (30 June 2022)
Turnover	6.3%	5.9%
CapEx	8.6%	8.3%
OpEx	6.9%	6.5%

[include note only for financial products referred to in Article 5 of Regulation (EU) 2020/852

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

available and among others have greenhouse gas emission levels corresponding to the best performance.

Turnover	6.3%	5.2%
CapEx	8.6%	7.5%
Opex	6.9%	6.2%

* are environmentally sustainable investments that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy*? *include only for the financial products referred to in Article 5, first paragraph, of Regulation (EU) 2020/852 where the financial product included investments with an environmental objective that invested in economic activities that are not environmentally sustainable economic activities and explain why the financial product invested in economic activities that were not taxonomy-aligned]*

Over 90% of Sub-Fund assets were not aligned with the EU Taxonomy. Alignment with the EU Taxonomy is not currently in the criteria for PABs and is not incorporated in the reference benchmark methodology. As a result, to ensure that the fund closely tracks the reference benchmark, the Investment Manager does not currently commit to a specific minimum percentage alignment with the EU Taxonomy and any alignment is therefore coincidental.

What actions have been taken to attain the sustainable investment objective during the reference period? *[list the actions taken within the period covered by the periodic report to attain the sustainable investment objective of the financial product, including shareholder engagement as referred to in Article 3g of Directive 2007/36/EC and any other engagement relating to the sustainable investment objective]*

The Investment Manager undertook engagement activities consistent with the objectives of the Sub-Fund and to further the objectives of the Paris Agreement. These were collaborative engagements via Climate Action 100+. The Investment Manager was allocated to the engagement team for a specific corporate issuer, currently excluded from the Sub-Fund because of its fossil fuel revenues. The Investment Manager participated in multiple meetings focused on pushing the CEO to commit to Paris-aligned targets and to disclose Scope 3 emissions. In particular, the Investment Manager stressed that these targets and disclosures are now non-negotiable for many European investors.

The Investment Manager also supported broader collaborative efforts on climate such as the Global Investor Statement and letters to the UK Government co-ordinated by organisations such as IIGCC.

[include note for financial products referred to in Article 9(1) of Regulation (EU) 2019/2088]

Reference benchmarks are indexes to measure whether the financial product attains the sustainable investment objective

How did this financial product perform compared to the reference sustainable benchmark? *[include section only for the financial products referred to in Article 9(1) of Regulation (EU) 2019/2088 and indicate where the methodology used for the calculation of the designated index can be found]*

Product name: **Tabula Haitong Asia ex-Japan High Yield Corp USD Bond ESG UCITS ETF**

Legal entity identifier: **635400BK5J6GBMBFNG77**

Reference period: 30 June 2022 to 30 June 2023 (end of financial year)

Environmental and/or social characteristics

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system, establishing a list of environmentally sustainable economic activities. For the time being, it does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

- Yes
- It made sustainable investments with an environmental objective: ___%
- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- It made sustainable investments with a social objective: ___%
- No
- It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective
- It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators

measure how the sustainable objectives of this financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met? *[list the environmental and/or social characteristics promoted by the financial product. For the financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852, in respect of sustainable investments with environmental objectives, list the environmental objectives set out in Article 9 of that Regulation to which the sustainable investment underlying the financial product contributed. For financial products that made sustainable investments with social objectives, list the social objectives]*

The Sub-Fund aimed to provide exposure with improved broad environmental, social and governance (ESG) characteristics relative to the wider Asia ex-Japan USD high yield bond market. To achieve this, it held a portfolio of fixed income securities as similar as possible to the composition of the iBoxx MSCI ESG USD Asia ex-Japan High Yield Capped Index (the reference benchmark)

The table below shows the ESG characteristics of the Sub-Fund as of the end of the current and previous reference period(s). However, the Investment Manager also monitored these characteristics on a monthly basis. The Investment Manager is satisfied that the Sub-Fund met its objectives in promoting these ESG characteristics.

How did the sustainability indicators perform? And compared to previous periods?

Indicator	Target	2022/23	2021/22
a. Issuers involved with certain business activities: alcohol, tobacco, gambling, adult entertainment, genetically modified organisms, nuclear power, controversial weapons, nuclear weapons,	0%	0%	0%

civilian firearms or recreational cannabis, subject to certain revenue thresholds

b. Issuers with thermal coal revenues over 30%	0%	0%	0%
c. Issuers involved with very severe environmental, social or governance controversies	0%	0%	0%
d. Issuers without ESG ratings or coverage	0%	0%	0%
e. MSCI ESG Fund rating	n/a	BBB	A

As of the end of each reference period (30 June 2023, 30 June 2022). Please refer to the benchmark index methodology for more information on screening, including revenue thresholds for business activities

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30 June 2022 to 30 June 2023.

What were the top investments of this financial product?

Largest bond issuers	Sector	% Assets	Country
Medco Oak Tree Pte Ltd	Energy	3.1%	Indonesia
RKI Overseas Finance 2017 A Ltd	Real Estate	3.1%	China
Fortune Star BVI Ltd	Financial Services	3.1%	China

Vedanta Resources Ltd	Basic Materials	2.3%	India

Assets as of 30 June 2023

What was the asset allocation?

The diagram shows the asset allocation of the Sub-Fund as of 30 June 2023.

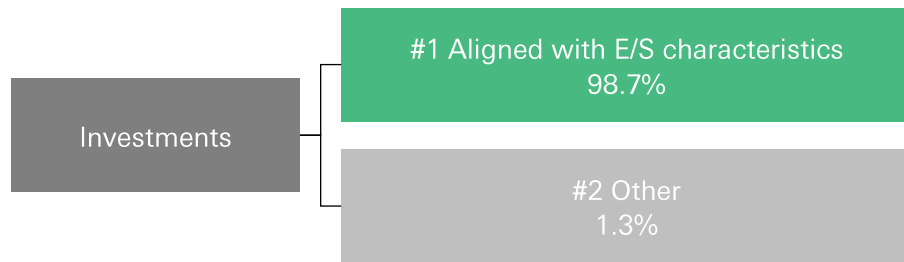

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

[Include only relevant boxes, remove irrelevant ones for the financial product]

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product. #2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

In which economic sectors were investments made?

Real Estate	27.0%
Core Financials	21.6%
Utilities	15.0%
Financial Services	8.6%
Basic Materials	6.6%
Industrials	6.2%
Energy	5.1%
Telecommunications	4.5%
Consumer Services	4.4%
Consumer Goods	0.9%

Assets as of 30 June 2023

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Sub-Fund did not commit to make sustainable investments with an environmental objective and did not commit to make investments aligned with the EU Taxonomy. In addition, Asian high yield issuers are typically not reporting on EU Taxonomy alignment.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

Yes [specify below, and details in the graphs of the box]

In fossil gas In nuclear energy

No

The two graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

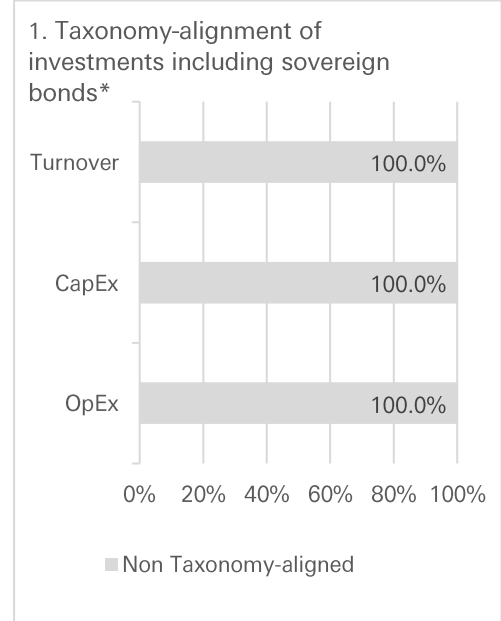

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

[include note only for financial products referred to in Article 5 of Regulation (EU) 2020/852

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

As of the end of the reference period (30 June 2023)* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments in transitional and enabling activities? *[include a breakdown of the proportions of investments during the reference period]*

% alignment based on Turnover

Transitional activities	0.0%
Enabling activities	0.0%

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

	End of current reference period (30 June 2023)	End of previous reference period (30 June 2022)
Turnover	0.0%	0.0%
CapEx	0.0%	0.0%
OpEx	0.0%	0.0%

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The Sub-Fund held a small Cash Component for the purposes of efficient portfolio management. In some share classes, it also invested in FX forwards for currency hedging purposes. No minimum environmental or social safeguards were applied to these assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period? *[list the actions taken within in the period covered by the periodic report to meet the environmental or social characteristics promoted by the financial product, including shareholder engagement as referred to in Article 3g of Directive 2007/36/EC and any other engagement relating to the environmental or social characteristics promoted by the financial product]*

Aside from applying the reference benchmark methodology to the Sub-Fund, no additional actions were undertaken during the reference period.

[include note for financial products where an index has been designated as a reference benchmark for the purpose of attaining the environmental or

How did this financial product perform compared to the reference benchmark? *[include section where an index has been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the financial product and indicate where the methodology used for the calculation of the designated index can be found]*

social characteristics promoted by the financial product]

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The Sub-Fund aims to track the performance of the reference benchmark after fees. The reference benchmark is the iBoxx MSCI ESG USD Asia ex-Japan High Yield Capped Index (the reference benchmark) and its methodology is available at tabulagroup.com.

How does the reference benchmark differ from a broad market index?

There is no established broad market index for the Asia ex-Japan USD high yield bond market. However, the reference benchmark differs from market capitalisation-weighted exposure to that market as follows:

Bond selection: excludes issuers involved with very severe ESG controversies, involved with certain business activities or without an ESG rating

Bond weighting: overweights issuers with good or improving ESG ratings, and vice versa

The reference benchmark also applies liquidity filters. See the reference benchmark methodology for more information.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

How did this financial product perform compared with the reference benchmark?

How did this financial product perform compared with the broad market index?

Indicator	Sub-Fund	Reference benchmark	Broad market*
a. Issuers involved with certain business activities: alcohol, tobacco, gambling, adult entertainment, genetically modified organisms, nuclear power, controversial weapons, nuclear weapons, civilian firearms or recreational cannabis, subject to certain revenue thresholds	0%	0%	~13%
b. Issuers with thermal coal revenues over 30%	0%	0%	~4%
c. Issuers involved with very severe environmental, social or governance controversies	0%	0%	0%
d. Issuers without ESG ratings or coverage	0%	0%	22%
e. MSCI ESG Fund Rating	BBB	n/a	n/a
12-month financial performance	3.8%	5.8%	7.4%

Data: Tabula/Markit/MSCI ESG/Bloomberg, as of 30 June 2023. Financial performance of the Sub-Fund is of the USD accumulating share class, after fees.

**A significant portion of the broad market is not covered by MSCI ESG data. The data shown reflects the broad market as of 30 June 2023, applying the latest ESG data available, as of 25 September 2023. It is therefore only indicative.*

Periodic disclosure for financial products referred to in Article 9(1), (2) and (3) of Regulation (EU) 2019/2088 and Article 5 of Regulation (EU) 2020/852

Product name: **Tabula EUR HY Bond Paris-Aligned Climate UCITS ETF**

Legal entity identifier: 635400DZBUIMTBCXGA12

Reference period: 30 June 2022 to 30 June 2023 (end of financial year)

Sustainable investment objective

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system, establishing a list of environmentally sustainable economic activities. For the time being, it does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

Yes

It made sustainable investments with an environmental objective: **99.3%**

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made sustainable investments with a social objective: ___%

No

It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators

measure how the sustainable objectives of this financial product are attained.

To what extent was the sustainable investment objective of this financial product met?

[list the sustainable investment objective of this financial product, and describe how the sustainable investments contributed to the sustainable investment objective. For the financial products referred to in Article 5, first paragraph, of Regulation (EU) 2020/852, in respect of sustainable investments with environmental objectives, indicate to which environmental objectives set out in Article 9 of Regulation (EU) 2020/852 to the investment underlying the financial product contributed to. For the financial products referred to in Article 9(3) of Regulation (EU) 2019/2088, indicate how the objective of a reduction in carbon emissions was aligned with the Paris Agreement]

The sustainable investment objective of the Sub-Fund was to reduce carbon emissions in Euro high yield bond allocations in alignment with the Paris Agreement. It achieved this by tracking the performance of the Markit iBoxx MSCI ESG EUR High Yield Paris-Aligned Capped Index. This is a reference benchmark meeting the criteria for an EU Paris-aligned Benchmark (PAB) described in regulation (EU) 2020/1818. The methodology for the reference benchmark is available at tabulagroup.com.

The Investment Manager is satisfied that the Sub-Fund met its sustainable investment objective during the reference period. The table below provides details of the indicators used for this assessment.

Note: The base date of the reference benchmark was reset on 31 December 2022 due to a change in methodology to incorporate Scope 3 emissions across all sectors. This means that 1) GHG emissions for this reference period (2022/2023) are not directly comparable with the previous reference period (2021/2022) and 2) Year-on-year emissions reduction metrics (calculated from December to December) are not yet available.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainability indicators perform? And compared to previous periods?

Indicator		2022/23	2021/22
Weighted average GHG emissions (M T Co2e)			
Sub-Fund		10.2	1.2
Reference benchmark		10.2	1.1
Broad market index		23.0	5.3
% reduction relative to broad market index (target 50%)			
Sub-Fund		55.6%	77.6%
Reference benchmark		55.5%	80.0%
Year-on-year weighted average GHG emissions reduction (target 7%)			
Sub-Fund	Start of year (M T CO2e)	n/a	n/a
	End of year (M T CO2e)	10.8	n/a
	% reduction	n/a	n/a
Reference benchmark	Start of year (M T CO2e)	n/a	n/a
	End of year (M T CO2e)	10.9	n/a
	% reduction	n/a	n/a
Broad market index	Start of year (M T CO2e)	n/a	n/a
	End of year (M T CO2e)	21.8	n/a
	% reduction	n/a	n/a

Data: Markit/MSCI ESG. Average GHG emissions are as of the end of the relevant reference period (30 June). Broad market index is the Markit iBoxx EUR High Yield 3% Issuer Cap Custom Index. YoY reduction is measured from December to December (see note above).

How did the sustainable investments not cause significant harm to any environmental or social sustainable investment objective?

In addition to the reduction in GHG emissions described above, the Sub-Fund applied a number of screens designed to exclude certain harmful bond issuers. These screens were built into the methodology of the reference benchmark and applied by the benchmark provider. The table below shows the exposure to harmful issuers at the end of the reference period. However, the screens were applied monthly, when the reference benchmark was rebalanced, and the Investment Manager performed monthly checks to ensure that issuers excluded from the reference benchmark were also excluded from the Sub-Fund.

Screen	Target	Actual
Issuers involved with very severe ESG controversies	0%	0%
Issuer involved with severe or very severe environmental controversies	0%	0%
Issuers in violation of the UN Global Compact	0%	0%
Issuers with fossil fuel revenues above thresholds in PAB rules	0%	0%
Issuers involved with alcohol, tobacco, gambling, adult entertainment, genetically modified organisms, nuclear power, controversial weapons, civilian firearms or recreational cannabis (revenue thresholds may apply)	0%	0%

How were the indicators for adverse impacts on sustainability factors taken into account?

- **GHG emissions (Principal Adverse Impact #1):** the Sub-Fund reduced its weighted average GHG emissions of the Sub-Fund by 55.6% relative to the broad Euro high yield bond market. Note that, in accordance with the PAB rules, the Sub-Fund uses a different indicator of GHG emissions to those specified in the PAI metrics. Please refer to the Sub-Fund's PAI disclosures, available at tabulagroup.com, for the PAI metrics.
- **Exposure to companies active in the fossil fuel sector (Principal Adverse Impact #4):** the Sub-Fund excluded issuers with revenues from oil, gas, coal and energy intensive electricity above the thresholds specified in the PAB rules.
- **Violations of UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (Principal Adverse Impact #10):** the Sub-Fund excluded issuers deemed in

violation of the UN Global Compact Principles or involved with very severe ESG controversies, including violation of international norms such as the OECD Guidelines.

- **Significant environmental harm:** the Sub-Fund excluded issuers involved with severe or very severe environmental controversies, including those related to land use and biodiversity, toxic spills and releases, energy and climate change, water management, operational non-hazardous waste, the environmental impact of products and services, and management of supply chain environmental impact.
- **Exposure to controversial weapons (Principal Adverse Impact #14):** the Sub-Fund excluded issuers involved with controversial weapons, including chemical and biological weapons, landmines and cluster munitions.
- **Exposure to additional harmful business activities:** the Sub-Fund excluded issuers involved with alcohol, tobacco, gambling, adult entertainment, genetically modified organisms, nuclear power, nuclear weapons, civilian firearms or recreational cannabis, subject to certain revenue thresholds.

Note that these indicators were built into the methodology of the reference benchmark and applied using data provided by MSCI. Please refer to the reference benchmark methodology for more information. The Investment Manager took the indicators into account by a) replicating the reference benchmark as far as possible and practical and b) ensuring that the same constraints were applied to the actual holdings of the Sub-Fund.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?

All holdings of the Sub-Fund were screened on a monthly basis using the MSCI ESG Controversy methodology, which is aligned with both the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights.

The methodology covers a wide range of environmental, social and governance controversies, including but not limited to the following:

- **Environmental:** biodiversity and land use, energy and climate change, supply chain management, water stress, toxic emissions and waste, operational waste (non-hazardous)
- **Social:** human rights and community impact, labour rights and supply chains, customers
- **Governance:** bribery and fraud, controversial investments, governance structures

Bond issuers with a score of zero (very severe controversy) for any controversy were excluded.

Note that this screen is built into the methodology of the reference benchmark. Please refer to the reference benchmark methodology for more information. The Investment Manager took the indicators into account by a) replicating the reference benchmark as far as possible and practicable and b) ensuring that the same constraints were applied to the actual holdings of the Sub-Fund.

How did this financial product consider principal adverse impacts on sustainability factors?

The Sub-Fund considered the 14 mandatory PAI indicators plus one optional climate-related PAI indicator (Investments in companies without carbon emission reduction initiatives).

The following PAIs were formally considered within the reference benchmark methodology, using data provided by MSCI ESG:

1. GHG emissions (using weighted average emissions, as per PAB rules)
4. Exposure to companies active in the fossil fuel sector
10. Violations of UN Global Compact Principles and OECD Guidelines for Multinational Enterprises
14. Exposure to controversial weapons

The remaining PAIs were not incorporated in the reference benchmark methodology and therefore could not be formally considered in the day-to-day investment process. However, the Investment Manager monitored these PAIs on a quarterly basis using MSCI data and is currently assessing whether the quality and availability of data is sufficient to incorporate them into the reference benchmark methodology. Disclosures pursuant to Article 11(2) of

Regulation (EU) 2019/2088 for 2022 are available at <https://www.tabulaim.com/products/ie000v6nho66/sustainability/>

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30 June 2022 to 30 June 2023.

What were the top investments of this financial product?

Largest bond issuers	Sector	% Assets	Country
Teva Pharmaceutical Finance Netherlands II BV	Health Care	3.4%	Israel
Telecom Italia SpA	Telecommunications	3.3%	Italy
Telefonica Europe BV	Telecommunications	3.2%	Spain
Deutsche Lufthansa AG	Consumer Services	2.7%	Germany
Banco BPM SpA	Core Financials	2.5%	Italy
Cellnex Finance Co SAU	Telecommunications	2.4%	Spain
SoftBank Group Corp	Telecommunications	2.3%	Japan
Forvia SE	Consumer Goods	2.3%	France

Mundys SpA	Industrials	1.8%	Italy
BPER Banca	Core Financials	1.7%	Italy
Ford Motor Credit Co Llc	Consumer Goods	1.5%	United States

Data: Tabula, assets as of 30 June 2023

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

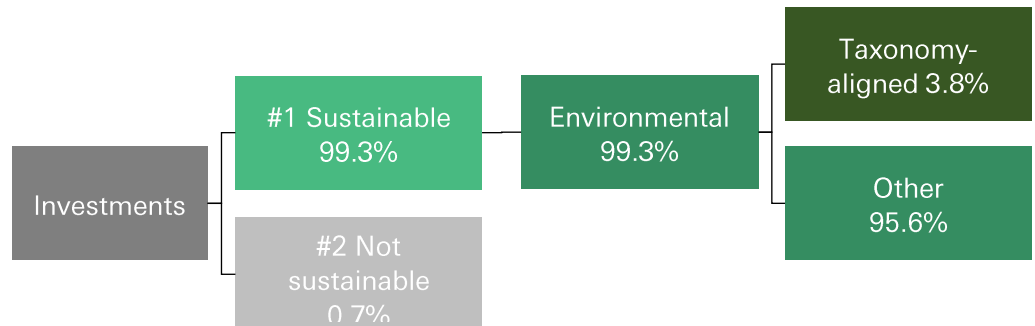

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

What was the proportion of sustainability-related assets?

The diagram shows the asset allocation of the Sub-Fund as of 30 June 2023. The percentage of assets aligned with the EU Taxonomy is based on Turnover. EU Taxonomy alignment data is sourced from MSCI ESG and is based on the most recent issuer data available, as of September 2023.

[Include only relevant boxes, remove irrelevant ones for the financial product]

In which economic sectors were investments made?

Sector	% Assets
Core Financials	19.1%
Telecommunications	18.3%

Consumer Goods	12.3%
Consumer Services	10.0%
Health Care	7.8%
Real Estate	4.9%
Technology	3.6%
Basic Materials	3.4%

Financial Services	2.9%
Utilities	1.4%

Data: Tabula, assets as of 30 June 2023

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy? [include the section for financial products referred to in Article 5, first paragraph, of Regulation (EU) 2020/852 and include information in accordance with Article 62 of this regulation]

The Sub-Fund did not commit to making any sustainable investments with an environmental objective aligned with the EU Taxonomy. This is because alignment with the EU Taxonomy is not currently in the criteria for PABs and is therefore not incorporated in the reference benchmark methodology. However, in replicating the reference benchmark, the Sub-Fund did make a small percentage of investments aligned with the EU Taxonomy. As of 30 June 2023, the percentage alignments were 3.8% (Turnover), 4.1% (CapEx) and 2.6% (OpEx).

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

Yes [specify below, and details in the graphs of the box]

In fossil gas In nuclear energy

No

The two graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

1. Taxonomy-alignment of investments including sovereign bonds*

■ Taxonomy-aligned (no gas and nuclear)
 ■ Non Taxonomy-aligned

2. Taxonomy-alignment of investments excluding sovereign bonds*

■ Taxonomy-aligned (no gas and nuclear)
 ■ Non Taxonomy-aligned

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments in transitional and enabling activities? [include a breakdown of the proportions of investments during the reference period]

% alignment based on Turnover

Transitional activities	0.0%
Enabling activities	0.4%

[include note only for financial products referred to in Article 5 of Regulation (EU) 2020/852

Enabling activities directly enable other activities to make

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

* are environmentally sustainable investments that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

	End of current reference period (30 June 2023)	End of previous reference period (30 June 2022)
Turnover	3.8%	2.7%
CapEx	4.1%	2.7%
Opex	2.6%	2.5%

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy*? *include only for the financial products referred to in Article 5, first paragraph, of Regulation (EU) 2020/852 where the financial product included investments with an environmental objective that invested in economic activities that are not environmentally sustainable economic activities and explain why the financial product invested in economic activities that were not taxonomy-aligned]*

Over 90% of Sub-Fund assets were not aligned with the EU Taxonomy. Alignment with the EU Taxonomy is not currently in the criteria for PABs and is not incorporated in the reference benchmark methodology. As a result, to ensure that the fund closely tracks the reference benchmark, the Investment Manager does not currently commit to a specific minimum percentage alignment with the EU Taxonomy and any alignment is therefore coincidental.

What actions have been taken to attain the sustainable investment objective during the reference period? *[list the actions taken within the period covered by the periodic report to attain the sustainable investment objective of the financial product, including shareholder engagement as referred to in Article 3g of Directive 2007/36/EC and any other engagement relating to the sustainable investment objective]*

The Investment Manager undertook collaborative engagement activities consistent with the objectives of the Sub-Fund and to further the objectives of the Paris Agreement. During the reference period, the Investment Manager was an active member of both Climate Action 100+ and the Institutional Investors Group on Climate Change. Details of the group's progress in reducing the emissions of large corporations can be found at climateaction100.org.

[include note for financial products referred to in Article 9(1) of Regulation (EU) 2019/2088]

Reference benchmarks are indexes to measure whether the financial product attains the sustainable investment objective

How did this financial product perform compared to the reference sustainable benchmark? *[include section only for the financial products referred to in Article 9(1) of Regulation (EU) 2019/2088 and indicate where the methodology used for the calculation of the designated index can be found]*

n/a. The Sub-Fund is a financial product referred to in Article 9(3) of Regulation (EU) 2019/2088. Performance relative to the reference benchmark and broad market index is detailed above under "Sustainability Indicators"

How did the reference benchmark differ from a relevant broad market index?

n/a

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?

n/a

How did this financial product perform compared with the reference benchmark?

n/a

How did this financial product perform compared with the broad market index

n/a

Periodic disclosure for financial products referred to in Article 9(1), (2) and (3) of Regulation (EU) 2019/2088 and Article 5 of Regulation (EU) 2020/852

Product name: **Tabula Global High Yield Fallen Angels Paris-Aligned Climate UCITS ETF**

Legal entity identifier: 635400PH5EPE3XKVPT22

Reference period: 21 June 2023 (launch date) to 30 June 2023 (end of financial year)

Sustainable investment objective

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system, establishing a list of environmentally sustainable economic activities. For the time being, it does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

- Yes
- It made sustainable investments with an environmental objective: **99.7%**
- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- It made sustainable investments with a social objective: ___%
- No
- It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective
- It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

To what extent was the sustainable investment objective of this financial product met?

[list the sustainable investment objective of this financial product, and describe how the sustainable investments contributed to the sustainable investment objective. For the financial products referred to in Article 5, first paragraph, of Regulation (EU) 2020/852, in respect of sustainable investments with environmental objectives, indicate to which environmental objectives set out in Article 9 of Regulation (EU) 2020/852 to the investment underlying the financial product contributed to. For the financial products referred to in Article 9(3) of Regulation (EU) 2019/2088, indicate how the objective of a reduction in carbon emissions was aligned with the Paris Agreement]

The sustainable investment objective of the Sub-Fund was to reduce carbon emissions in global fallen angel allocations, in alignment with the Paris Agreement, and contribute to a range of broader environmental objectives. It achieved this by tracking the performance of the Bloomberg MSCI Global Corporate Fallen Angels Paris-Aligned Index. This is a reference benchmark meeting the criteria for an EU Paris-aligned Benchmark (PAB) described in regulation (EU) 2020/1818. The methodology for the reference benchmark is available at <https://www.bloomberg.com/professional/product/indices/bloomberg-fixedincome-indices/#/ucits>

The Investment Manager is satisfied that the Sub-Fund met its sustainable investment objective during the reference period. The table below provides details of the indicators used for this assessment.

Note: The Sub-Fund was launched on 21 June 2023. This means year-on-year emissions reduction metrics (calculated from June to June) are not yet available.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainability indicators perform? And compared to previous periods?

Indicator	2022/23	
Weighted average GHG emissions (M T Co2e)		
Sub-Fund	10.9	
Reference benchmark	10.9	
Broad market index	21.9	
% reduction relative to broad market index (target 50%)		
Sub-Fund	50.2%	
Reference benchmark	50.2%	
Year-on-year weighted average GHG emissions reduction (target 7%)		
Sub-Fund	Start of year (M T CO2e)	n/a
	End of year (M T CO2e)	10.9
	% reduction	n/a
Reference benchmark	Start of year (M T CO2e)	n/a
	End of year (M T CO2e)	10.9
	% reduction	n/a
Broad market index	Start of year (M T CO2e)	n/a
	End of year (M T CO2e)	21.9
	% reduction	n/a
% green revenues (target > broad market index)		
Sub-Fund	4.2%	
Reference benchmark	4.2%	
Broad market index	3.0%	

Data: Bloomberg/MSCI ESG. Average GHG emissions are as of the end of the relevant reference period (30 June). Broad market index is the Bloomberg Global Corporate Fallen Angels Index.

How did the sustainable investments not cause significant harm to any environmental or social sustainable investment objective?

In addition to the reduction in GHG emissions described above, the Sub-Fund applied a number of screens designed to exclude certain harmful bond issuers. These screens were built into the methodology of the reference benchmark and applied by the benchmark provider. The table below shows the exposure to harmful issuers at the end of the reference period. However, the screens were applied monthly, when the reference benchmark was rebalanced, and the Investment Manager performed monthly checks to ensure that issuers excluded from the reference benchmark were also excluded from the Sub-Fund.

Screen	Target	Actual
Issuers involved with very severe ESG controversies	0%	0%
Issuer involved with severe or very severe environmental controversies	0%	0%
Issuers in violation of the UN Global Compact	0%	0%
Issuers with fossil fuel revenues above thresholds in PAB rules	0%	0%
Issuers with alcohol, tobacco, recreational cannabis, adult entertainment, controversial weapons, conventional weapons, nuclear weapons or civilian firearms (subject to certain revenue thresholds)	0%	0%

How were the indicators for adverse impacts on sustainability factors taken into account?

- GHG emissions (Principal Adverse Impact #1):** the Sub-Fund reduced its weighted average GHG emissions of the Sub-Fund by 50.2% relative to the broad global high yield fallen angel market. Note that, in accordance with the PAB rules, the Sub-Fund uses a different indicator of GHG emissions to those specified in the PAI metrics. Please refer to the Sub-Fund's PAI disclosures, available at tabulagroup.com, for the PAI metrics.
- Exposure to companies active in the fossil fuel sector (Principal Adverse Impact #4):** the Sub-Fund excluded issuers with revenues from oil, gas, coal and energy intensive electricity above the thresholds specified in the PAB rules.

- **Violations of UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (Principal Adverse Impact #10):** the Sub-Fund excluded issuers deemed in violation of the UN Global Compact Principles or involved with very severe ESG controversies, including violation of international norms such as the OECD Guidelines.
- **Significant environmental harm:** the Sub-Fund excluded issuers involved with severe or very severe environmental controversies, including those related to land use and biodiversity, toxic spills and releases, energy and climate change, water management, operational non-hazardous waste, the environmental impact of products and services, and management of supply chain environmental impact.
- **Exposure to controversial weapons (Principal Adverse Impact #14):** the Sub-Fund excluded issuers involved with controversial weapons, including chemical and biological weapons, landmines and cluster munitions.
- **Exposure to additional harmful business activities:** the Sub-Fund excluded issuers involved with alcohol, tobacco, gambling, adult entertainment, genetically modified organisms, nuclear power, nuclear weapons, civilian firearms or recreational cannabis, subject to certain revenue thresholds.

Note that these indicators were built into the methodology of the reference benchmark and applied using data provided by MSCI. Please refer to the reference benchmark methodology for more information. The Investment Manager took the indicators into account by a) replicating the reference benchmark as far as possible and practical and b) ensuring that the same constraints were applied to the actual holdings of the Sub-Fund.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?

All holdings of the Sub-Fund were screened on a monthly basis using the MSCI ESG Controversy methodology, which is aligned with both the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights.

The methodology covers a wide range of environmental, social and governance controversies, including but not limited to the following:

- **Environmental:** biodiversity and land use, energy and climate change, supply chain management, water stress, toxic emissions and waste, operational waste (non-hazardous)
- **Social:** human rights and community impact, labour rights and supply chains, customers
- **Governance:** bribery and fraud, controversial investments, governance structures

Bond issuers with a score of zero (very severe controversy) for any controversy were excluded.

Note that this screen is built into the methodology of the reference benchmark. Please refer to the reference benchmark methodology for more information. The Investment Manager took the indicators into account by a) replicating the reference benchmark as far as possible and practicable and b) ensuring that the same constraints were applied to the actual holdings of the Sub-Fund.

How did this financial product consider principal adverse impacts on sustainability factors?

The Sub-Fund considered the 14 mandatory PAI indicators plus one optional climate-related PAI indicator (Investments in companies without carbon emission reduction initiatives).

The following PAIs were formally considered within the reference benchmark methodology, using data provided by MSCI ESG:

1. GHG emissions (using weighted average emissions, as per PAB rules)
4. Exposure to companies active in the fossil fuel sector
10. Violations of UN Global Compact Principles and OECD Guidelines for Multinational Enterprises
14. Exposure to controversial weapons

The remaining PAIs were not incorporated in the reference benchmark methodology and therefore could not be formally considered in the day-to-day investment process. However, the Investment Manager monitored these PAIs on a quarterly basis using MSCI data and is currently assessing whether the quality and availability of data is sufficient to incorporate

them into the reference benchmark methodology. Disclosures pursuant to Article 11(2) of Regulation (EU) 2019/2088 for 2023 will be available at <https://www.tabulaim.com/products/ie000j9sv51/sustainability/>.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30 June 2022 to 30 June 2023.

What were the top investments of this financial product?

Largest bond issuers	Sector	% Assets	Country
SBB	Sweden	4.3%	Financial
Office Properties Income Trust	United States	4.1%	Financial
Howmet Aerospace	United States	3.6%	Industrial
Firstenergy Corp	United States	3.4%	Utilities
Sands China Ltd	United States	3.1%	Consumer
Perigo Finance	United States	3.0%	Consumer
Telecom Italia Capital SA	Italy	2.9%	Communications
Las Vegas Sands Corp.	United States	2.8%	Consumer
Newell Brands Inc	United States	2.7%	Consumer
Seagate Technology	United States	2.5%	Technology
Nordstrom Inc	United States	2.4%	Consumer
Unicredit	Italy	2.3%	Financial
Atos	France	2.2%	Technology
Marks & Spencer Ltd	United Kingdom	2.1%	Consumer
Royal Caribbean Cruises Ltd	United States	2.0%	Consumer

Data: Tabula, assets as of 30 June 2023

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

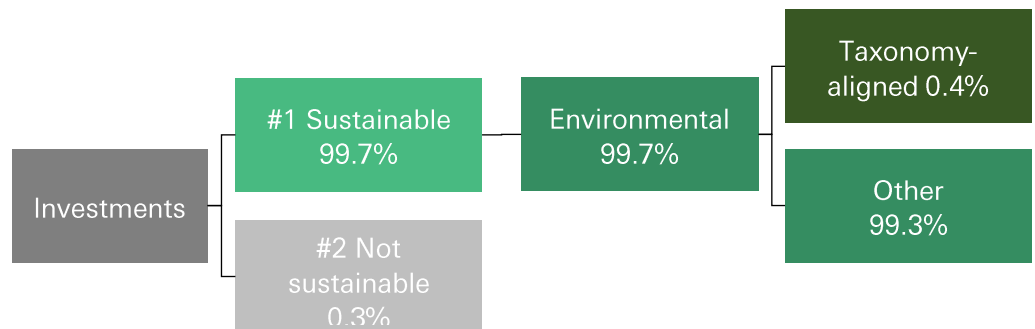

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

What was the proportion of sustainability-related assets?

The diagram shows the asset allocation of the Sub-Fund as of 30 June 2023. The percentage of assets aligned with the EU Taxonomy is based on Turnover. EU Taxonomy alignment data is sourced from MSCI ESG and is based on the most recent issuer data available, as of September 2023.

[Include only relevant boxes, remove irrelevant ones for the financial product]

In which economic sectors were investments made?

Sector	% Assets
Consumer	39.3%
Financials	26.7%
TMT	18.9%
Industrials	15.1%

Data: Tabula, assets as of 30 June 2023

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy? [include the section for financial products referred to in Article 5,

first paragraph, of Regulation (EU) 2020/852 and include information in accordance with Article 62 of this regulation]

The Sub-Fund did not commit to making any sustainable investments with an environmental objective aligned with the EU Taxonomy. This is because alignment with the EU Taxonomy is not currently in the criteria for PABs and is therefore not incorporated in the reference benchmark methodology. However, in replicating the reference benchmark, the Sub-Fund did make a small percentage of investments aligned with the EU Taxonomy. As of 30 June 2023, the percentage alignments were 0.4% (Turnover), 0.5% (CapEx) and 0.4% (OpEx).

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

Yes [specify below, and details in the graphs of the box]

In fossil gas In nuclear energy
 No

The two graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

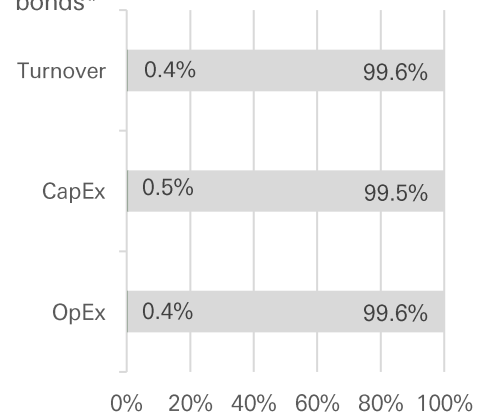

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

■ Taxonomy-aligned (no gas and nuclear)
 ■ Non Taxonomy-aligned

■ Taxonomy-aligned (no gas and nuclear)
 ■ Non Taxonomy-aligned

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments in transitional and enabling activities? [include a breakdown of the proportions of investments during the reference period]

% alignment based on Turnover

Transitional activities	0.0%
Enabling activities	0.1%

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

	End of current reference period (30 June 2023)	End of previous reference period (30 June 2022)

[include note only for financial products referred to in Article 5 of Regulation (EU) 2020/852

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

available and among others have greenhouse gas emission levels corresponding to the best performance.

Turnover	0.4%	n/a
CapEx	0.5%	n/a
Opex	0.4%	n/a

* are environmentally sustainable investments that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy*? *include only for the financial products referred to in Article 5, first paragraph, of Regulation (EU) 2020/852 where the financial product included investments with an environmental objective that invested in economic activities that are not environmentally sustainable economic activities and explain why the financial product invested in economic activities that were not taxonomy-aligned]*

Over 90% of Sub-Fund assets were not aligned with the EU Taxonomy. Alignment with the EU Taxonomy is not currently in the criteria for PABs and is not incorporated in the reference benchmark methodology. As a result, to ensure that the fund closely tracks the reference benchmark, the Investment Manager does not currently commit to a specific minimum percentage alignment with the EU Taxonomy and any alignment is therefore coincidental.

What actions have been taken to attain the sustainable investment objective during the reference period? *[list the actions taken within the period covered by the periodic report to attain the sustainable investment objective of the financial product, including shareholder engagement as referred to in Article 3g of Directive 2007/36/EC and any other engagement relating to the sustainable investment objective]*

The Investment Manager undertook collaborative engagement activities consistent with the objectives of the Sub-Fund and to further the objectives of the Paris Agreement. During the reference period, the Investment Manager was an active member of both Climate Action 100+ and the Institutional Investors Group on Climate Change. Details of the group's progress in reducing the emissions of large corporations can be found at climateaction100.org.
