Date of production of the KID: 01/03/2024

WHAT IS THIS PRODUCT?

Type

This Product is an undertaking for collective investment in transferable securities (UCITS). It is a sub-fund of THEAM QUANT-, an open-ended investment company (société d'investissement à capital variable "SICAV") governed by the provisions of Part I of the Luxembourg Law of 17 December 2010 (the "2010 Law") relating to undertakings for collective investment as well as by UCITS Directive 2009/65.

Term

This Product has no maturity date.

BNPP AM is not entitled to terminate the Product unilaterally. The board of directors has the authority to decide on the merger, split, liquidation or the closure of the sub-fund. Furthermore, the SICAV may be wound up by decision of an extraordinary general meeting of shareholders.

Objectives

The objective of the Sub-fund is to increase the value of its assets over the medium term, through the use of quantitative investment strategies across different asset classes. The Sub-fund targets an annual volatility between 10% and 15%, the achievement of this target is not guaranteed.

In order to achieve its investment objective, the Sub-fund implements a euro-hedged strategy allocating its assets between different strategies by identifying single sources of return coming from market opportunities or inefficiencies across different asset classes and combining them within a balanced risk-adjusted portfolio. The Sub-fund is in particular exposed to equity, volatility, fixed income interest rates and credit, foreign exchange and commodities market quantitative strategies through, but not limited to, relative value, momentum, long-short, volatility and term structure strategies. The Sub-fund may however not be exposed to all of the aforementioned asset classes/strategies at all times. The allocation between the quantitative strategies is systematic and based upon diversification and downside risk characteristics. Such systematic allocation aims for a portfolio with an annual volatility between 10% and 15% and with a defensive profile over the long term compared to traditional assets with similar volatility (such as broad equity indices). The achievement of this target is not guaranteed. The Strategy of the Sub-fund is deemed active. The Sub-fund does not have any benchmark for performance comparison purpose. The Strategy is implemented according to a Synthetic Replication Policy, through the conclusion of OTC Derivatives. Investors are able to subscribe or redeem any day on which stock exchanges are open for trading during the whole day in Germany (Eurex Exchange, (STOXX contracts)), the United Kingdom (London Stock Exchange), the United States (New York Stock Exchange, New York Mercantile Exchange and Chicago Mercantile Exchange), and on which the US dollar is scheduled to be settled (excluding Saturdays and Sundays and Luxembourg and French public holidays). Subscription and redemption requests can be made to the administrative agent before 4.00 pm CET at the latest on the day before the relevant valuation day. Administrative agent: BNP Paribas, Luxembourg Branch, 60 avenue J.F. Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg.

Incomes are systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

This share class aims at hedging the portfolio return from EUR to CHF.

Intended retail investors

This Product is designed for investors who have some financial expertise and/or average knowledge to understand the Product but nevertheless may bear total capital loss. It is suited for clients who seek growth of capital. Potential investors should have an investment horizon of at least 5 years.

Practical Information

- Depository: BNP PARIBAS, Luxembourg Branch
- This key information document is prepared for the aforementioned share class and describes a sub-fund of THEAM QUANT-. Further information about the Product is contained in the prospectus and periodical reports which are issued at the level of the SICAV. Under the 2010 Law, there is segregated liability between sub-funds, meaning that the assets of the sub-fund will not be available to meet a claim of a creditor or another third-party made against another sub-fund.
- Investors may switch between sub-funds of the SICAV. Please see the prospectus or contact your financial adviser for details.
- Further information about the Product including the latest prospectus, the Articles of Association, key information document, net asset values, latest published prices of share(s), annual report, investment description, may be obtained free of charge from BNP PARIBAS ASSET MANAGEMENT Europe - Service Client - TSA 90007 - 92729 Nanterre cedex, France.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 4 out of 7, which is a medium risk class. The risk category is justified by the active investment in different asset classes while seeking to maintain the risk profile between predefined boundaries.

Be aware of currency risk. If the currency of your account is different from the currency of this Product, the payments you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the Product not included in the summary risk indicator:

- Counterparty Risk: this risk is associated with the ability of a counterparty in an Over The Counter financial transaction to fulfil its commitments like payment, delivery and reimbursement.
- Liquidity risk: this risk arises from the difficulty of selling a security at its fair value and within a reasonable period of time due to a lack of buyers.
- Risk linked to the use of financial derivative instruments: these instruments may involve a range of risks that may affect the net asset value.

For additional details regarding the risks, please refer to the prospectus.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the Product and/or appropriate benchmark over the last 10 years. The markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years		
Example Investment: CHF 10,000	If you exit after 1 year	If you exit after 5 years

Scenarios

Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress	What you might get back after costs	5,221.33 CHF
	Average return each year	-47.79%
Unfavourable	What you might get back after costs	9,642.56 CHF
	Average return each year	-3.57%
Moderate	What you might get back after costs	11,464.93 CHF
	Average return each year	14.65%
Favourable	What you might get back after costs	18,712.27 CHF
	Average return each year	87.12%

The below scenarios occurred for an investment using a suitable proxy.
 The favorable scenario occurred for an investment between 2015 and 2020.
 The moderate scenario occurred for an investment between 2018 and 2023.
 The unfavorable scenario occurred for an investment between 2022 and 2024.

WHAT HAPPENS IF BNPP AM IS UNABLE TO PAY OUT?

The SICAV is incorporated as a separate entity distinct from BNPP AM.
 In the event BNPP AM would default, the assets of the SICAV, held by a depositary, would not be affected by this default.
 In case of the default of the depositary, the risk of financial loss of the SICAV is mitigated by the legal segregation of the assets of the depositary from those of the Product/SICAV.

WHAT ARE THE COSTS?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- CHF 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total Cost	212 CHF	2,761.64 CHF

	If you exit after 1 year	If you exit after 5 years
Annual Cost Impact (*)	2.12%	2.55% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 22.63% before costs and 20.09% after costs.

Composition of costs

One-off entry or exit costs	If you exit after 1 year	
Entry costs	We do not charge an entry cost.	0 CHF
Exit costs	We do not charge an exit cost.	0 CHF
Recurring costs levied annually		
Management costs and other administrative and operating costs	0.54% of the value of your investment per year. The amount is based on past expenses calculated on 31/12/2023.	54 CHF
Transaction costs	1.58% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount will vary depending on how much we buy and sell.	158 CHF
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this Product.	0 CHF

In case of conversion, the investors may be charged a maximum fee of 1.50%.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period ("RHP"): 5 years.

The RHP has been defined and based on the risk and reward profile of the Product.

Investors are able to redeem on a daily basis (on bank business days) and the redemption order will be executed according to the calendar described in the prospectus.

Any redemption occurring before the end of the RHP may adversely impact the performance profile of the Product.

HOW CAN I COMPLAIN?

For any complaints, investors are invited to contact their usual advisor at the establishment that advised them on the Product. They can also contact BNPP AM via its website www.bnpparibas-am.fr (Complaints Management Policy in the footer at the bottom of the page), by sending a registered letter with acknowledgement of receipt to BNP PARIBAS ASSET MANAGEMENT Europe - Client Service - TSA 90007 - 92729 Nanterre CEDEX, France, or by sending an email to amfr.reclamations@bnpparibas.com.
