The Commission de Surveillance du Secteur Financier ("CSSF") is responsible for supervising the Product. BNPP AM France is authorised in France, and regulated by the Autorité des marchés financiers ("AMF").

Date of production of the KID: 01/01/2023

WHAT IS THIS PRODUCT?

Туре

This Product is an undertaking for collective investment in transferable securities (UCITS). It is a sub-fund of THEAM QUANT-, an open-ended investment company (société d'investissement à capital variable "SICAV") governed by the provisions of Part I of the Luxembourg Law of 17 December 2010 (the "2010 Law") relating to undertakings for collective investment as well as by UCITS Directive 2009/65.

Term

This Product has no maturity date.

BNPP AM France is not entitled to terminate the Product unilaterally. The board of directors has the authority to decide on the merger, split, liquidation or the closure of the sub-fund. Furthermore, the SICAV may be wound up by decision of an extraordinary general meeting of shareholders.

Objectives

The objective of the Sub-fund is to provide capital growth (i) by being exposed to a basket of U.S. equities and (ii) by implementing a systematic options strategy which aims at reducing risk by minimizing volatility in the Sub-fund.

In order to achieve its investment objective, the Sub-fund implements a quantitative investment strategy (the Strategy) that combines two performance pillars:

(a) a long exposure to a basket of U.S. equities through the BNP Paribas DEFI Equity US Long Net TR Index (the Strategy Index). The investment universe of the Strategy Index is composed of U.S. markets largest stock market capitalisations offering satisfactory liquidity conditions. The Strategy Index aims at selecting equities following a systematic and quantitative investment process, and

(b) a complementary systematic options strategy on the S&P 500 Index intended to improve the risk/return ratio compared to a direct investment in the Strategy Index by taking long positions on put options on the S&P 500 Index financed to the extent possible by taking short positions on call options on the S&P 500 Index. The put options strategy is particularly appropriate in very bearish markets, enabling the Sub-fund to limit the effects of falling U.S. equity markets and thereby limiting its volatility. The call options strategy is particularly appropriate in stable or fairly directionless markets.

The Strategy Index is based on a systematic investment process developed by BNP Paribas and is rebalanced every month using a specific algorithm that aims (i) to select equities through a combination of four performance factors: value, quality, momentum and low volatility, and (ii) to benefit from such factors diversification of the investment and (iii) to maintain a beta near to 1 and an ex-ante tracking error below 3.5%, i.e. to achieve a performance correlated, with regards to the S&P 500 Total Return Index (Bloomberg code: SPTR Index) performance.

The complete breakdown of the Strategy index is available on the website: https://indx.bnpparibas.com. The index calculation method is available directly at: https://indx.bnpparibas.com/nr/DFUTTR.pdf.

Achieving a performance correlated with regards to the performance of the S&P 500 Total Return Index may require from the Strategy Index to use leverage through an additional long or short exposure to futures. It should be noted that there are costs relating to replication and rebalancing of the Strategy Index that are disclosed in the Strategy Index rulebook.

The Strategy of the Sub-fund is deemed active. The Sub-fund does not have any benchmark for performance comparison purpose.

The Strategy is implemented according to a Synthetic Replication Policy through the conclusion of OTC Derivatives. The Synthetic Replication Policy implies that the Sub-Fund does not actually hold the underlying securities of the Strategy, but instead relies on OTC Derivatives to deliver its performance. The Sub-fund invests at all times at least 51% of its net assets in equities and/or securities treated as equivalent to equities issued by companies of any country.

Investors are able to subscribe or redeem any day on which the New York stock exchange is open during the whole day (excluding Saturdays and Sundays and Luxembourg and French public holidays).

Subscription and redemption requests can be made to the administrative agent before 12.00 pm (CET) at the latest on the relevant valuation day.

Administrative agent: BNP Paribas, Luxembourg Branch, 60 avenue J.F. Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg.

Incomes are systematically reinvested.

Intended retail investors

This Product is designed for retail investors who have neither financial expertise nor any specific knowledge to understand the Product but nevertheless may bear a total capital loss. It is suited for clients who seek growth of capital. Potential investors should have an investment horizon of at least 5 years.

Practical Information

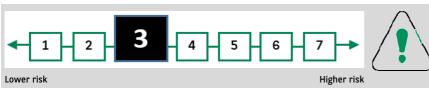

- Depositary: BNP PARIBAS, Luxembourg Branch
- This key information document is prepared for the aforementioned share class and describes a sub-fund of THEAM QUANT-. Further information about the Product is contained in the prospectus and periodical reports which are issued at the level of the SICAV. Under the 2010 Law, there is segregated liability between sub-funds, meaning that the assets of the sub-fund will not be available to meet a claim of a creditor or another third-party made against another sub-fund.
- Investors may switch between sub-funds of the SICAV. Please see the prospectus or contact your financial adviser for details.
- Further information about the Product including the latest prospectus, key information document, net asset values, latest published prices of share(s), annual report, investment description, may be obtained free of charge from BNP PARIBAS ASSET MANAGEMENT France Service Client TSA 90007 92729 Nanterre cedex, France.

KEY INFORMATION DOCUMENT

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

The risk indicator assumes you keep the Product for 5 years.

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 3 out of 7, which is a medium-low risk class. The risk category is justified by the investment in an equity strategy which aims to reduce the risk and the volatility induced by equities.

Be aware of currency risk. If the currency of your account is different from the currency of this Product, the payments you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the Product not included in the summary risk indicator:

- Counterparty risk
- Risk linked to the use of financial derivative instruments
- For additional details regarding the risks, please refer to the prospectus.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable,moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the Product and/or appropriate benchmark over the last 10 years. The markets could develop very differently in the future.

Recommended holding period: 5 years Example Investment: EUR 10,000		lf you exit after 1 year	lf you exit after 5 years		
Scenarios					
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.				
Stress	What you might get back after costs	5,810.95 EUR	2,039.27 EUR		
	Average return each year	-41.89%	-27.24%		
Unfavourable	What you might get back after costs	8,463.63 EUR	6,043.4 EUR		
	Average return each year	-15.36%	-9.58%		
Moderate	What you might get back after costs	10,885.94 EUR	13,863.05 EUR		
	Average return each year	8.86%	6.75%		
Favourable	What you might get back after costs	14,354.27 EUR	17,412.94 EUR		
	Average return each year	43.54%	11.73%		

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances.

This type of scenario occurred for an investment using a benchmark between 2012 and 2022.

WHAT HAPPENS IF BNPP AM FRANCE IS UNABLE TO PAY OUT?

The SICAV is incorporated as a separate entity distinct from BNPP AM France.

In the event BNPP AM France would default, the assets of the SICAV, held by a depositary, would not be affected by this default.

In case of the default of the depositary, the risk of financial loss of the SICAV is mitigated by the legal segregation of the assets of the depositary from those of the Product/SICAV.

WHAT ARE THE COSTS?

The person advising on or selling you this Product may cost you other costs. If so, this person will provide you with information about these costs and how they affect your investment. If this Product is used as an underlying of an insurance policy or a capitalization policy, the costs presented do not include any costs related to such policies.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- in the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	lf you exit after 1 year	lf you exit after 5 years	
Annual Total Cost	80.65 EUR	118.28 EUR	
Annual Cost Impact (*)	0.81%	0.87%	

KEY INFORMATION DOCUMENT

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.48% before costs and 7.61% after costs.

Composition of costs

One-off entry or exit costs	lf you exit after 1 year					
Entry costs	We do not charge an entry cost.	0 EUR				
Exit costs	We do not charge an exit cost.	0 EUR				
Recurring costs levied annually						
Management costs and other administrative and The amount is based on past expenses calculated on 30/06/2022. operating costs						
Transaction costs	This amount represents the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount will vary depending on how much we buy and sell.	0.65 EUR				
Incidental costs taken under specific conditions						
Performance fees	There is no performance fee for this Product.	0 EUR

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period ("RHP"): 5 years.

The RHP has been defined and based on the risk and reward profile of the Product.

Investors are able to redeem on a daily basis (on bank business days) and the redemption order will be executed according to the calendar described in the prospectus.

Any redemption occurring before the end of the RHP may adversely impact the performance profile of the Product.

HOW CAN I COMPLAIN?

For any claim, you are invited to contact your usual commercial advisor that advised you on the Product. You can also contact BNPP AM France, as described on its website https://www.bnpparibas-am.com (Footnote 'Complaints management policy'), by writing to BNPP AM France - Client Service - TSA 90007 - 92729 Nanterre CEDEX.
