## What is this product?

<b>Type</b>	<p>FCP Teil I Gesetz von 2010</p> <p>It is a sub-fund of an umbrella structure consisting of one or more sub-funds. The periodic reports are prepared for the umbrella structure. These documents are available as set out under "Other relevant information". Each sub-fund is regarded as a separate fund in the relationship between the unitholders. The rights and obligations of the unitholders of one subfund are separate from those of the unitholders of the other subfunds. In relation to third parties, the assets of a subfund are only liable for liabilities and payment obligations relating to that subfund. In principle, unitholders have the right to convert the units held into units of another subfund. Supplementary information can be found in the respective valid sales prospectus.</p>
<b>Term</b>	<p>The Fund was established for an indefinite period. However, it may be wound up at any time if it is no longer possible to manage the Fund efficiently or if a change in the economic and/or political environment makes it necessary to wind it up.</p>
<b>Objectives</b>	<p>The objective of the Fund is to generate absolute investment performance consisting of returns and changes in value in both rising and falling equity and bond markets. In order to achieve this objective, the Fund invests in exchange-listed financial futures contracts and their options. These transactions may be based on bond markets (e.g. Euro-BOBL, Euro-Bund), equity indices (e.g. DAX, NASDAQ 100) or currencies (e.g. EUR/USD, USD/JPY). This Fund is a financial product that is used to promote ecological and social characteristics and qualifies in accordance with Article 8 (1) of Regulation (EU) 2019/2088 on sustainability-related disclosure requirements in the financial services sector. Investments may also be made in securities, money market instruments, demand deposits and certificates that reflect the performance of underlying assets that are based upon the performance of an underlying asset on a 1:1 basis and are officially listed or traded on stock exchanges or other regulated markets that are recognized and open to the public and that operate regularly ("Regulated Markets"). Investments in certificates that reflect the performance of commodity indices are expressly excluded. Investments in bonds with a rating worse than B- (S&amp;P) or B3 (Moody's) are not permitted. The Fund may hold up to 20% liquid assets. Up to 10% of the Fund's net assets may be invested in units of investment funds in accordance with Article 4 of the Management Regulations. The Fund is therefore eligible for target funds. The target funds comply with the requirements of BaFin Circular 11/2017 (VA). Profits can be distributed. Investors are entitled to request redemption of shares from the Management Company on each Valuation Day. However, we may suspend redemptions in exceptional circumstances if suspension is deemed necessary in consideration of investor interests. Subscription and redemption fees shall be paid by the Fund. These fees are incurred in addition to the percentages listed under "Charges" and may negatively impact Fund returns. Leverage is created by investing in financial futures contracts. This may impact Fund returns either negatively or positively. This fund is an actively managed fund, which is not benchmarked.</p>
<b>Target retail investor group</b>	<p>The UCITS is intended for private clients, professional clients and eligible counterparties that pursue the objective of asset accumulation/optimisation. This UCITS is a product for investors with general knowledge of and/or experience with financial products. Prospective investors may incur financial losses and do not value capital protection.</p>
<b>Further information</b>	<p>The fund's depositary is Hauck Aufhäuser Lampe Privatbank AG, Niederlassung Luxemburg. The prospectus and the current annual and semi-annual reports, the current unit prices and further information on the fund can be found free of charge in German or English at <a href="http://www.hal-privatbank.com">www.hal-privatbank.com</a>.</p>

## What are the risks and what could I get in return?

### Risk Indicator

We have classified this product in risk class 3 on a scale of 1 to 7, where 3 corresponds to medium-low risk class.

The risk of potential losses from future performance is classified as medium-low. In adverse market conditions, it is unlikely that the ability of the Hauck & Aufhäuser Fund Services S.A. to pay you will be affected.

The product may be exposed to further risks that are not reflected in the global risk indicator. Please refer to the sales prospectus for more information.

This product does not include any protection from future market performance so you could lose some or all of your investment

The global risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to repay you.

### Performance Scenarios

The figures shown include all the costs of the product itself, (where applicable) [but may not include all the costs that you pay to your advisor or distributor, and includes the costs of your advisor or distributor]. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The final amount you receive from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between 3/3/2015 and 3/3/2020.

The moderate scenario occurred for an investment between 1/4/2016 and 1/4/2021.

The favourable scenario occurred for an investment between 3/1/2019 and 3/1/2024.

### What happens if Hauck & Aufhäuser Fund Services S.A. is unable to pay?

It should be noted that the assets of the Fund are held separately from the assets of the Management Company. Consequently, investors in the Fund will not suffer any losses in the event of the failure or insolvency of the Management Company.

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

#### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have made the following assumptions:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed the product performs as shown in the moderate scenario.
- 10,000 EUR is invested.

		If you exit after 1 year	If you exit after 5 year(s)
Total costs		364.49 EUR	1,521.67 EUR
Impact on return (RIY) per year		3.64 %	2.83 %

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.26% before costs and 0.44% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. This person will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge (1% of amount invested /100 EUR). This person will inform you of the actual distribution fee.

**Composition of costs**

		If you exit after 1 year
<b>One-off costs upon entry or exit</b>
