The Commission de Surveillance du Secteur Financier (CSSF) in Luxembourg is responsible for supervising the product manufacturer and the Fund.

This KID is dated 15/06/2023.

What is this product?

TYPE OF PRODUCT

The Fund is a sub-fund of UBAM, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide on its pure and simple liquidation if its net assets represent less than EUR 10 million (or equivalent value in another currency) or if the economic and/or political environment was to change or for any economic and financial reasons for which the Board of Directors considers that it is in the general best interests of shareholders to liquidate the Fund.

OBJECTIVES

The Fund seeks to grow capital and generate income by investing primarily in fixed or variable rate bonds in local countries currencies issued by Emerging or Frontier countries Sovereign companies or issuers as well as international/supranational agencies or development banks.

The Fund is actively managed and invests in bonds with a minimum rating of B- (S&P or Fitch), B3 (Moody's) or an equivalent rating by another rating agency. As an exception to this rule, the Fund may invest up to 15% of its net assets in products/issuers with a lower rating and up to 15% in non-rated products/issuers.

The investment strategy relies on credit and macroeconomic assessment and Environmental, Social and Governance (ESG) analysis.

The sustainable objective of the Fund is to provide a higher Social score, Governance score and an overall higher ESG Quality score than the JP Morgan ESG GBI-EM Global Diversified Index (the "Index") as measured by MSCI ESG research.

The investment process includes external ESG analysis and a proprietary ESG sovereign scoring model, which combines historical ESG data and forward-looking sentiment to rank countries in terms of their relative ESG quality.

The investment process includes internal and external ESG analysis and a proprietary ESG sovereign scoring model, which combines historical ESG data and forward-looking sentiment to rank countries in terms of their relative ESG quality.

The investment process includes a first phase of investment universe filtering and a second phase of ESG bottom-up research.

The first phase consists in selecting issuers with sound ESG quality and avoids controversial business activities as well as companies in breach of international norms (norms-based screening).

The second phase integrates ESG considerations and Investment Manager's assessment of Emerging country economic and political development and global macroeconomic trends.

The ESG analysis covers at least 90% of the Fund's portfolio.

In order to ensure the promotion of E and S characteristics, the Fund has a minimum 20% allocation to bonds denominated in Emerging or Frontier local currencies which are either sustainability-focused bonds or issued by supranational agencies, international organisations or development banks which help finance sustainable development in Emerging countries.

The Fund is not managed in reference to a benchmark.

The Fund may invest its net assets up to:

- 100% in High yield
- 100% in Emerging or Frontier countries (including China through Bond Connect up to 20%)
- 15% in local currency bond issued by emerging corporate or quasi-sovereign issuers, with a minimum BB MSCI ESG rating
- 15% allocation per Emerging country.

High yield bonds are issued by entities whose activity is more sensitive to the economic cycle and pay higher interest. The return on such securities, in the same way as their level of risk, is therefore higher than traditional bond products.

The Fund's base currency is USD.

The recommended holding period is determined to allow sufficient time for this product to reach its objectives and provide a consistent return less dependent on market fluctuations. Nevertheless, such return is not guaranteed.

The return of the product is determined using the Net Asset Value (NAV) calculated by the Administrative Agent. This return depends mainly on the market value fluctuations of the underlying investments.

The share currency risk in relation to the Fund's base currency is mainly hedged.

Any income received by the Fund is reinvested (capitalisation share).

INTENDED RETAIL INVESTORS

The Fund is suitable for retail investors with average knowledge of the underlying financial instruments and some financial industry experience. The Fund is also suitable for investors who may bear capital losses, who do not need capital guarantee and who wish to hold their investment over 3 years.

OTHER INFORMATION

Depository: BNP Paribas S.A., Luxembourg Branch.

SFDR Classification: Article 8.

Further information about the Fund (including the prospectus, latest annual and semi-annual reports, NAVs) are available free of charge in English on www.ubp.com or by making a written request to the registered office of the product manufacturer.

What are the risks and what could I get in return?

Risk indicator

 The risk indicator assumes you keep the product for 3 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:		3 years EUR 10'000		
		If you exit after 1 year	If you exit after 3 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	EUR 5'040	EUR 5'980	
	Average return each year	-49.6%	-15.8%	
Unfavourable scenario	What you might get back after costs	EUR 7'290	EUR 6'290	This type of scenario occurred for an investment in the proxy between January 2013 and January 2016.
	Average return each year	-27.1%	-14.3%	
Moderate scenario	What you might get back after costs	EUR 9'180	EUR 8'470	This type of scenario occurred for an investment in the proxy between January 2018 and January 2021.
	Average return each year	-8.2%	-5.4%	
Favourable scenario	What you might get back after costs	EUR 10'850	EUR 10'250	This type of scenario occurred for an investment in the proxy between January 2016 and January 2019.
	Average return each year	8.5%	0.8%	

The stress scenario shows what you might get back in extreme market circumstances.

What happens if the product is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Fund's assets are held with BNP Paribas S.A., Luxembourg Branch and are segregated from the assets of other sub-funds of the SICAV and from the assets of the Depository. The assets of the Fund cannot be used to pay the debts of other sub-funds.

In the event of insolvency of the Depository, the Fund may suffer a financial loss.

In the event of insolvency of the product manufacturer, the Fund's assets will not be affected.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time (*)

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10'000 is invested.

Investment of EUR 10'000	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 678	EUR 1'351
Annual cost impact	6.8%	4.8%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -0.6% before costs and -5.4% after costs.

These figures include the maximum subscription fee that the intermediary(ies) involved in the subscription process may charge (up to 3.00% of your investment). The intermediary will inform you of the actual charge.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 3.00% of your investment. (payable to the intermediary(ies) - if applicable)	Up to EUR 300
Exit costs	There is no exit fee for this product.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.92% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 192
Transaction costs	1.86% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 186
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	EUR 0

How long should I hold it and can I take my money out early?

Recommended Holding Period (RHP): 3 years.

The RHP is determined to allow sufficient time for this product to reach its objectives and to provide a consistent return less dependent on market fluctuations. Investors should be prepared to remain invested for at least 3 years but can nevertheless redeem their investment at any time, or hold the latter for a longer period of time.

The Net Asset Value (NAV) is daily except if it is not a full bank business day in Luxembourg or in the United States (each a Business Day). The NAV is calculated the following full bank business day in Luxembourg (Calculation Day). Redemptions are possible on each NAV date. All redemption requests must be received in good order by the Registrar and Transfer Agent prior to 13:00 (Luxembourg time) one (1) full bank business day in Luxembourg prior to the Calculation Day. Redemption proceeds shall be paid within two (2) Business Days following the Calculation Day.

Details of the closing days are available here: <https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa>.

Conversion of shares is allowed within the Fund or to another sub-fund free of charge.

Please refer to the prospectus for further details.

How can I complain?

Complaints can be sent in written form by e-mail (LuxUBPAMcompliance@ubp.com) or to the following address of the product manufacturer at: UBPA Asset Management (Europe) S.A., 287-289, route d'Arlon, L-1150 Luxembourg, Luxembourg.
