What is this product?

TYPE OF PRODUCT

The Fund is a sub-fund of UBAM, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide on its pure and simple liquidation if its net assets represent less than EUR 10 million (or equivalent value in another currency) or if the economic and/or political environment was to change or for any economic and financial reasons for which the Board of Directors considers that it is in the general best interests of shareholders to liquidate the Fund.

OBJECTIVES

The Fund seeks to grow capital and generate income by investing primarily in Emerging or Frontier countries bonds in hard currencies such as (but not limited to) EUR or USD issued by Public Authorities or quasi sovereign entities. Exposure can be direct or made through derivatives such as CDS (Credit Default Swap).

The Fund is actively managed and invests a minimum of 2/3 of its net assets in products/issuers with a minimum rating of B- (S&P or Fitch), B3 (Moody's) or an equivalent rating by another rating agency and up to 1/3 of its net assets in products/issuers with a lower rating.

The Fund may invest up to 15% of its net assets in non-rated products/issuers.

The Fund aims notably to promote social outcomes such as sovereign's human rights record, labour standards, education system, health care, demographics.

The investment strategy relies on credit and macroeconomic assessment and Environmental, Social and Governance (ESG) analysis.

The sustainable objective of the Fund is to provide a higher ESG Quality score than the JP Morgan - EMBI Global Diversified ("the Benchmark") as measured using the MSCI ESG research.

The investment process includes internal and external ESG analysis and a proprietary ESG sovereign scoring model, which combines historical ESG data and forward-looking sentiment to rank countries in terms of their relative ESG quality.

The investment process includes a first phase of investment universe filtering and a second phase of ESG bottom-up research.

The first phase consists in selecting issuers with sound ESG quality and avoids controversial business activities as well as companies in breach of international norms (norms-based screening).

The second phase integrates ESG considerations into the issuers' qualitative credit assessment conducted by the Investment Manager. This analysis relies on different sources of information and data as well as external ESG data and scoring providers.

The ESG analysis covers at least 90% of the Fund's portfolio.

The Fund uses the Benchmark for performance objective. This Benchmark is representative of the investment universe but not representative of the risk profile of the Fund. The performance of the Fund is likely to be significantly different from that of the Benchmark because the Investment Manager has significant discretion to deviate from its securities and weighting.

The Benchmark is not aligned with the environmental and/or social characteristics promoted by the Fund.

The Fund may invest its net assets up to:

- 100% in High yield. *This exposure can be increased up to 120% through derivatives*
- 100% in Emerging or Frontier countries (including China through Bond Connect up to 20%). *This exposure can be increased up to 120% through derivatives*
- 20% in corporate bonds
- 20% in Contingent Convertible bonds (CoCos)

Overall, up to 20% of the Fund's investments may be carried out in Emerging countries' currencies.

High yield bonds are issued by entities whose activity is more sensitive to the economic cycle and pay higher interest. The return on such securities, in the same way as their level of risk, is therefore higher than traditional bond products.

The Fund's base currency is USD.

The recommended holding period is determined to allow sufficient time for this product to reach its objectives and provide a consistent return less dependent on market fluctuations. Nevertheless, such return is not guaranteed.

The return of the product is determined using the Net Asset Value (NAV) calculated by the Administrative Agent. This return depends mainly on the market value fluctuations of the underlying investments.

The share currency risk in relation to the Fund's base currency is mainly hedged.

Any income received by the Fund is distributed (distribution share class).

INTENDED RETAIL INVESTORS

The Fund is suitable for retail investors with average knowledge of the underlying financial instruments and some financial industry experience. The Fund is also suitable for investors who may bear capital losses, who do not need capital guarantee and who wish to hold their investment over 3 years.

What are the risks and what could I get in return?

Risk indicator

 The risk indicator assumes you keep the product for 3 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:		3 years EUR 10'000		
		If you exit after 1 year	If you exit after 3 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	EUR 3'910	EUR 4'850	
	Average return each year	-60.9%	-21.4%	
Unfavourable scenario	What you might get back after costs	EUR 7'200	EUR 7'580	This type of scenario occurred for an investment in the product between October 2019 and October 2022.
	Average return each year	-28.0%	-8.8%	
Moderate scenario	What you might get back after costs	EUR 9'890	EUR 10'230	This type of scenario occurred for an investment in the proxy then the product between May 2015 and May 2018.
	Average return each year	-1.1%	0.8%	
Favourable scenario	What you might get back after costs	EUR 11'920	EUR 12'000	This type of scenario occurred for an investment in the proxy between August 2013 and August 2016.
	Average return each year	19.2%	6.3%	

The stress scenario shows what you might get back in extreme market circumstances.

What happens if the product is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Fund's assets are held with BNP Paribas S.A., Luxembourg Branch and are segregated from the assets of other sub-funds of the SICAV and from the assets of the Depository. The assets of the Fund cannot be used to pay the debts of other sub-funds.

In the event of insolvency of the Depository, the Fund may suffer a financial loss.

In the event of insolvency of the product manufacturer, the Fund's assets will not be affected.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time (*)

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10'000 is invested.

Investment of EUR 10'000	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 427	EUR 722
Annual cost impact	4.3%	2.3%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.1% before costs and 0.8% after costs.

These figures include the maximum subscription fee that the intermediary(ies) involved in the subscription process may charge (up to 3.00% of your investment). The intermediary will inform you of the actual charge.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year

How long should I hold it and can I take my money out early?

Recommended Holding Period (RHP): 3 years.

The RHP is determined to allow sufficient time for this product to reach its objectives and to provide a consistent return less dependent on market fluctuations. Investors should be prepared to remain invested for at least 3 years but can nevertheless redeem their investment at any time, or hold the latter for a longer period of time.

The Net Asset Value (NAV) is daily except if it is not a full bank business day in Luxembourg or in the United States (each a Business Day). The NAV is calculated the following full bank business day in Luxembourg (Calculation Day). Redemptions are possible on each NAV date. All redemption requests must be received in good order by the Registrar and Transfer Agent prior to 13:00 (Luxembourg time) one (1) full bank business day in Luxembourg prior to the Calculation Day. Redemption proceeds shall be paid within two (2) Business Days following the Calculation Day.

Details of the closing days are available here: <https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa>.

Conversion of shares is allowed within the Fund or to another sub-fund free of charge.

Please refer to the prospectus for further details.
