

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

UBAM - Positive Impact Emerging Equity, a sub-fund of UBAM

Class: AC EUR (Capitalisation) LU2051758659

UBAM is a SICAV managed by UBP Asset Management (Europe) S.A.

Objectives and investment policy

The Fund seeks to grow your capital and generate income primarily by investing primarily in equities issued by companies having their registered office in Emerging Countries, including up to 25% in China A share.

The Fund is actively managed and relatively concentrated (typically containing less than 50 names) with no restriction on the percentage invested in Small and Mid-Capitalization.

The Fund addresses the UN's Sustainable Developments Goals through six themes, three environmental (healthy ecosystems, climate stability, sustainable communities) and three societal (basic needs, health & wellbeing, inclusive & fair economies).

The primary sustainable objective is to invest in companies which have products, services and/or processes which contribute to the solution of environmental and/or social problems as defined by the United Nations Sustainable Development Goals, including, but not limited to climate change mitigation, promotion of circular economy solutions, affordable healthcare and education, and the protection and restoration of biodiversity.

The selection process systematically excludes at least 20% of the investment universe based on a combination of ESG scores and sector/behaviour exclusions.

The construction of the universe is driven by positive inclusion. That is to say, through the 6 thematic lenses, the Investment Manager builds a universe through adherence to the the intensity of impact "IMAP" system and positive ESG credentials.

The Investment Manager performs a negative screening, based on the exclusion list and ESG profile to filter the investment universe. Impact and ESG credentials are fully integrated into decision making regarding the purchase, sale and position-sizing of underlying holdings. The 'IMAP'

score in combination with ESG and financial analysis will determine the size of the positions in the portfolio.

The investment process draws from the collaboration of the investment manager (Union Bancaire Privée, UBP SA) with Cambridge Institute for Sustainability Leadership ("CISL"). CISL is not involved in the stock selection of this Fund.

A performance fee in reference to the MSCI Emerging Markets Index USD (the "Benchmark") is applied to some share classes. The Benchmark is representative of the investment universe and of the risk profile of the Fund. The portfolio's investments may deviate materially from the Benchmark's constituents in respect to countries, sectors, issuers and instruments, in order to align the portfolio with the environmental and/or social characteristics promoted by the Fund and/or in order to take advantage of specific investment opportunities.

The Fund's value is calculated and expressed in US Dollars. The share currency risk in relation to the base currency USD is not hedged.

Investors in the Fund can subscribe and redeem units on any business day in Luxembourg.

Details of the closing days are available here: <https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa>. The recommended holding period is minimum five years.

As an equity fund, its holdings can move in line with or return less than the broad stock market, so investors should be aware that the value of their holdings could fall and that they may not get back their initial investment.

Any income received by the Fund is reinvested (capitalisation share class).

Risk and reward profile

This indicator represents the annual historical volatility of the Fund over a 5-year period.

Risk category 6 reflects a very high potential gain and/or loss in the value of the portfolio.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with the Fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Emerging country risk: The Fund invests in overseas countries which carry a higher risk than investing in larger established countries. Investments in Emerging countries are likely to experience greater rises and falls in value. Emerging countries are also more likely to experience political and/or legal uncertainty and investments held in these countries may not have the same protection as those held in more developed countries. The Fund may invest via the Shanghai Hong Kong Stock Connect (HKSC). It means that the Fund will be subject to rules and

regulations issued/amended by HKSC particularly about quota limitation and trading suspension. When using the HKSC the Fund will be subject to operational risk, clearing settlement and custody risk.

Counterparty risk: As the Fund uses over-the-counter derivatives, there is a risk that the counterparty to the transactions will wholly or partially fail to honour its contractual obligations. This may result in a financial loss to the Fund.

Currency risk: The Fund invests in overseas markets. It can be affected by changes in exchange rates which may cause the value of your investment to decrease or increase.

ESG and Sustainability risk: it may result in a material negative impact on the value of an investment and performance of the Fund. Assessment of sustainability risks is complex and requires subjective judgments, which may be based on data which is difficult to obtain and/or incomplete, estimated, out of date or otherwise materially inaccurate. All or part of said data may come/originate from third parties.

Liquidity risk: Liquidity risk exists when particular investments are difficult to purchase or sell. This can reduce the Fund's returns because the Fund may be unable to transact at advantageous times or prices.

Regulatory risk: The Stock Connect is novel in nature, and is subject to regulations that are not tested so far and there is no certainty as to how they will be applied. Moreover, the current regulations are subject to change.

Full details of risks are disclosed in the chapter "Risk Factors" in the prospectus.

Charges

The charges and commissions are used to cover the Fund's operating costs, including marketing and distribution of shares. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

| | |
|--------------|-------|
| Entry charge | 3.00% |
| Exit charge | None |

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

| | |
|-----------------|-------|
| Ongoing charges | 2.10% |
|-----------------|-------|

Charges taken from the Fund under certain specific conditions

| | |
|-----------------|------|
| Performance fee | None |
|-----------------|------|

The entry and exit charges shown are maximum rates. In certain cases, the charges paid may be lower. Your financial advisor or distributor can inform you of the associated entry and exit charges.

Ongoing charges are based on the charges for the previous year, ending on 31 December 2021. This percentage may vary from year to year. It excludes outperformance charges and intermediation charges, with the exception of entry and exit charges paid by the Fund when it buys or sells shares of another fund.

For more information about Fund charges, please refer to the relevant sections of the prospectus, which is available at www.ubp.com.

Past performance

The performance figures shown in the bar chart are not a reliable indication of future performance.

Annualised performance is calculated after deducting all charges taken from the Fund.

Fund creation date: 07/05/2020

Share class launch date: 12/10/2020

Share class currency: EUR

Practical information
